of the trouble:

"As mall worm enters the boll, mak-Shortly after the rupture is noticed, ed in the same way, and quickly drops. These bolls and blossoms fairly carpet the earth on my farm, and several other large fields which I have examined in Pamlico and Carteret counties look just as bad as mine."

all the counties of this coastal plain. today says that he dissected hundreds inside. Only one of the worms was found, and he seemed to be a youngster, little larger than a horsehair. There Whether Miss Castet is something new."

"The results of the depredations of LOOKS LIKE CITY this insect can hardly be described," continued this well known farmer and ousiness man. "The first I saw of it chair in front of the Gaston Hotel.

NEW SCHEME FILLS

by The Journal in regard to the cold storage facilities furnished by the New Bern Ice Company, and told of in the Journal several days ago. This cold arotage room was installed in the nature of an experiment by the manager of the ice company, but the business in that line will undoubtedly grow, as soon as the people of this section begin to realize the great benefits to be derived from cold storage, and the manufacturers of ice will be compelled to great-ly increase their facilities. This storage heme seems to be filling that prover- of Charleston, S. C. dal "long felt want."

today through a man who is often the oil king's opponent an the links. Mr. Rockefeller does not, as popularly supposed, side the machine between drives in order to conserve his strength. He has discovered that by cycling he bings into play more muscles than by walting. And, what is vastly more important, he has the bicyle rigged so that very time a pedal goes down it measures a certain distance. Hence, riding from the beginning to the end of each trive, he knows exactly how long each sate is. Hereafter stories emanating from Forrest Hill regarding long drive will have to be accepted as mathematically correct and not mere guess work.
