MR. DAIL WRITES ON W & L MATTER

Thinks Discussion at Board Meeting and Journal Report Both Unfair to Him.

MADE COMPLETE INVENTORY

Did Not Have Access to Books But Proceeded on Information Furnished Him.

Editor Journal:

In your account of the proceedings of the meeting of the Board of Aldermen, in your issue of Nov. 9th, I notice some statements that are misleading to say the least. I don't know whether your reporter misunderstood some things that were said, or not, as I was not present. I refer to that part of the meeting dealing with the water and light inventory taken by me and my report to the Aldermen in regard to it.

Anyone not acquainted with the matter would be apt to conclude from reading your account of the meeting that my work had practically been repudiated or set aside by the special committee, (committee being composed of the members of the Water and Light committee of the Board, with Alderman Baxter and Collector Thomas added, to whom my report was finally referred.

But I have been informed by persons who were present that the chairman of the committee gave me credit for having made a complete inventory. In fact, some of the officials of the Water and Light Department have complimented me upon the thoroughness of the work.

The objection seems to be to the report I made to the Aldermen. For your information I will state that my inventory and my report are two separate documents.

Among other things, my report conveyed to the Board information as to the total number of consumers of electricity and water and the number and kinds of lights, faucets, etc., as shown by the inventory. It also gave the number of excess lights, faucets, etc., in favor of the inventory, as shown by comparing the totals of the inventory with the list furnished me by the Water and Light Department, said list being furnished in obedience to a resolution passed by the Board instructing the collector to furnish me with a complete list.

Now, in making up my report, this "complete list" is what I compared my inventory with, and not the books as I had nothing to do with them; but the list was supposed to be a copy of the books at that time. Yet, according to your account of the meeting it seems that the committee found that my report was incorrect because the difference between my figures and the Departments books, when they com-

pared the two, was not as great as was stated in my report. While as a matter of fact my report does not refer to the books at all, except in stating that I had assisted the bookkeeper in entering the inventory on the books.

As the differences given in my report, in favor of the inventory are based on a comparison of the totals of the inventory with those of the "complete list" furnished me by the Water and Light Department, while the differences found by the committee were based on a comparison of the inventory with the books of the Department, you can readily see that the committee was unfair to me. It is also evident that there is no reason for changing the figures in my report dealing with the differences found by me, unless there is to be another "list" furnished me with which to compare my inventory.

Your account also says that it was stated "that after Mr. Dail had gotten a list of the consumers it was found that he had failed to secure a number of names that were on the books." This sounds like I had gotten up that list myself from the books, while (as stated before) I had nothing to do with it as it was furnished by the Department. So, if there were any names on the books that were not put on the Department's "complete" list, it was no fault of mine and I don't care to accept the responsibility for it.

My report was finished and report dated June 22, 1912.

As the comparisons contained in the report seem to be the chief objection to it, maybe its publication would be permitted if the comparisons were omitted.

Respectfully,
GEO. D. DAIL.

unfermented grape juice, .50. Judge, .50. Mrs. Clyde Eby, canned cherries, .50. crabapple jelly, .50.

Graham T. Richardson, lard, \$1.00. W. D. Alfred, honey in comb, \$1.00.

Mrs. J. A. Stevenson, butter, made on North Carolina farm, \$5.00.

Mrs. A. D. Ward, Dozen yeast rolls \$1.50.

Mrs. O. Marks, Nut cake, (John Suter and Son offers rug for best nut cake by lady), marshmallow cake, \$1.00.

Mrs. Richard Duffy, Tomato catsup .50.

Mrs. J. H. Stevenson, Best fruit cake.

(The remainder of the list will appear in Tuesday morning's issue.)

HE NEVER CAME BACK

Took a Coat Suit Out on Approval and Forgot to Return it.

Mr. J. J. Baxter wants to find the whereabouts of a man who went to his store last Saturday night and carried off a coat suit on approval, forgetting to return it.

The man informed one of the sales-ladies that he wanted to inspect some ladies' coat suits. After looking over several designs he selected two misses' suits, a dark gray and a navy blue whipcord and stated that he would take one of them. He said he was not positive which one his wife would like best and asked to be allowed to take both home on approval. The clerk thought that he was known to the proprietor and allowed him to do this after he had paid for one of the suits. She asked him his name and he replied that it was R. L. Edwards. She charged the suit according to the practice when goods are sent out on approval.

"Mr. Edwards" stated that he would return in half an hour the suit which his wife did not decide to keep but up to the present time neither the man nor the suit has been seen and it is supposed that his wife decided to keep both. The police were informed of the matter and are working on a clue which may result in the arrest of the man on a warrant charging him with obtaining goods under false pretenses.

Mr. Baxter has seen the man on several occasions on the streets here, but did not know him by name. It is thought likely that the name he gave was an assumed one.

MONUMENT FUND GROWS

Contributions yesterday to the DeGraffenried Monument Fund amounted to over fifty dollars—the largest sum secured in any one day since the movement was started. The Chamber of Commerce, the City Beautiful Club and other organizations are co-operating in the work. The fund is now more than five hundred dollars. Those who are raising it say they will not relax their efforts until the necessary amount has been secured.

PLANNING GREAT TEACHERS' MEET

Greensboro Expects From One Thousand to Twelve Hundred To Attend Assembly.

MAKE IT BEST MEETING YET

Men and Women of National Reputation on Program For Addresses and Papers.

Greensboro, Nov. 16.—Greensboro is busy getting ready for the twenty-ninth meeting of the North Carolina Teachers' Assembly which will meet in this city, Wednesday to Saturday, November 27-30, the intention and desire of both the officers of the Association and the local committee having the matter in charge being to make it the biggest and most successful meeting in the entire history of the Assembly.

The program calls for fifty three separate papers and addresses, including many names of national reputation. Among these may be mentioned Hon. E. T. Fairchild, Superintendent of Public Instruction of Kansas and President of the National Educational Association; Doctor D. Strayer, professor of the Teachers' College of Columbia University and author of "Teaching Process"; Miss Annie S. George, President of the Montessori American Committee and the greatest American authority on the Montessori method; Miss Naomi Norsworthy, of the Teachers' College of Columbia University, and a noted authority on primary work.

The matter of board and lodging for the visiting teachers, which has frequently caused trouble, is being handled in a systematic manner. The Greensboro Woman's Club has undertaken the task of securing homes for seven to eight hundred teachers, and as far as possible homes will be assigned in advance of the meeting at the uniform rate of \$1.50 per day. A committee headed by Mrs. C. P. Langley of 830 West Market street has the matter in charge, and those wishing accommodations reserved should communicate with her. This is in addition to the regular hotels which can take about three hundred teachers.

A Bureau of Information and General Headquarters will also be maintained and all teachers have been requested to report there immediately upon their arrival.

City pride as well as interest in education and regard for the hundreds of visiting teachers has caused extra efforts to be made towards the success of the meeting; this being especially true of Greensboro which takes especial pride in the fact that it was the first city in the State to levy a special tax for graded schools and the center of the county which blazed the way in the matter of rural taxation.

It is expected that from one thousand to twelve hundred teachers will be in attendance, and unless all signs fail, the meeting will be a striking success from every standpoint.
