The dove of peace is roosting high in Europe.

The automobile contributes its daily quota to the death lists.

WHAT WOULD YOU DO?
In case of a burn or scald what would you do to relieve the pain? Such injuries are liable to occur in any family and everyone should be prepared for them. Chamberlain's Salve applied on a soft cloth will relieve the pain almost instantly, and unless the injury is a very severe one, will cause the parts to heal leaving a scar. For sale by all dealers. Children Cry FOR FLETCHER'S CASTORIA

If you want a man to deliver the goods employ one who doesn't talk.

HELPS A JUDGE IN A BAD FIX.
Justice Eli Cherry, of Gillis Mills, Tenn., was plainly worried. A bad sore on his leg had baffled several doctors and long resisted all remedies. "I thought it was a cancer," he wrote. "At last I used Bucklen's Arnica Salve, and was completely cured." Cures burns, boils, ulcers, cuts, bruises and piles. 25c. at all druggists. (Adv.)

Fully two-thirds of what the average man says is of no consequence.

WHAT TEXANS ADMIRE
is hearty, vigorous life, according to Hugh Tallman, of San Antonio. "We find," he writes, "that Dr. King's New Life Pills surely put new life and energy into a person. Wife and I believe they are the best made." Excellent for stomach liver or kidney troubles. 25c. at all dealers. (Adv.)

The way for a man to prove his sanity to a girl is for him to be crazy over her.

CASTORIA
For Infants and Children.
The Kind You Have Always Bought
Bears the Signature of *Wm. D. Hooper*

A deaf mute in Ohio recently gave a minister a \$250 marriage fee. A wife ought to be worth that to a deaf man.

A man sometimes sees things from a different point of view after his wife makes up her mind.

The first thing the average hired girl does is look in the closet and size up the family skeleton.

The first time a young man is in love he honestly believes he means what he says.

THE DEMONS OF THE SWAMP.
are mosquitos. As they sting they put deadly malaria germs in the blood. Then follow the icy chills and the fires of fever. The appetite flies and the strength fails; also malaria often paves the way for deadly typhoid. But Electric Bitters kill and cast out the malaria germs from the blood; give you a fine appetite and renew your strength. "After long suffering," wrote Wm. Fretwell, of Lucama, N.C., "three bottles drove all the malaria from my system, and I've had good health ever since." Best for all stomach, liver and kidney ills. 50c. at all druggists. (Adv.)

Distance sometimes lends enchantment to a man's view of his mother-in-law.

What a woman can't understand is why men don't have political house-cleaning in the spring, the right season for 'em.

"There could be no better medicine than Chamberlain's Cough Remedy. My Children were all sick with whooping cough. One of them was in bed, had a high fever and was coughing up blood. Our doctor gave them Chamberlain's Cough Remedy and the first dose cured them, and three bottles cured them, says Mrs. R. A. Davidson, of Lexington, Miss. For sale by all dealers. (Adv.)

SEAMAN'S LIFE A HARD ONE
Excessive Toil in Unsanitary Quarters Responsible for Diseases That Shortens Their Days.

Ill-health, we are told, is the cause of one-fourth of the destitution in large cities. "The ratio is probably much higher among the toilers of the sea," said George McPherson Hunter of the American Seamen's Friend society in The Survey. "Below deck in the recesses of the ship, twenty feet beneath the sunlight, stokers stand on iron plates in front of open furnaces, bend their backs to fill the coal shovel, and then swing the coal into the hot furnace mouth. The roll of the ship and the swing of the body, throw an uneven strain on the lower part of the torso which causes hernia. "Novellists tell with great gusto of the sailors killed by pirates and buccaniers, and sometimes by the 'bucko mate.' All these amiable gentlemen of fortune never killed or maimed as many men as the forecastles of the ships that sail the seas. The medical officer of the port of London submits a table showing the minimum air space allowed for cattle in cowsheds, and for individuals in military barracks, workrooms, lodging houses and seamen's quarters. Setting these side by side, it is shown that cattle are best off in this respect and seamen worst. The reports of the surgeon general of the United States Marine hospital service show continuously that seamen suffer in a startling manner from diseases, most of them springing from the inadequacy of pure air and healthful places in which to eat and sleep."

ASKED TO SHOW GRATITUDE
Time for Son-in-Law to Prove Himself Worthy of Favors He Had Been Receiving.

"Son-in-law," he said, as he called him into the library and locked the door, "you have lived with me now for over two years."

"Y-yes, sir."

"In all that time I haven't asked you a cent for board."

"N-no, sir."

"In all your little quarrels with my daughter I have always taken your part and decided in your favor."

"A-always, sir."

"I have even paid some of your bills."

"Y-you have, sir."

"And in every way helped you to get along."

"Y-you have been very kind, sir."

"I have tried to be, my boy, and I think you appreciate it."

"I do, sir."

"Thanks. Kindly tell your mother-in-law that the poker chips which she picked up in my room this morning were dropped out of your pocket, and we'll call it square!"

Postal Shower.
The postal shower is likely to become an institution. It is designed for the benefit of a friend who has gone to live in a strange place. The shower was originated by a woman living in St. Louis to encourage her son, a young lawyer, who had established an office in San Antonio, Tex. Knowing he was bashful the mother wrote to all her friends, asking that each one send a post card to him, with some cheering message. In many cases a friend would encourage her own friends to write also, and thus the list grew. The young man got so much mail matter that San Antonio people got to think he was a person of some consequence, and they took to him in great style. The "shower" worked so well in this instance that the story spread. Now the idea is gaining popularity by leaps and bounds and bids fair to spread while the supply of lonesome friends holds out.

Teaches Bird Life in School.
Georgia is putting on her statute books a law that a bird day shall be observed in the public schools, the Memphis Commercial Appeal remarks.

This is not to be a holiday, but a day set apart for instruction in bird life and uses, so that children may be educated along these lines to such an extent that the birds of the state may receive the protection they should have. Not only will children be instructed as to bird manners and habits, but they will be particularly impressed as to the usefulness of the little creatures in keeping down insect life and thus protecting trees, fruits and growing crops. Few children think of birds as serving a useful end. They regard them as things of beauty merely or else as legitimate prey for slingshot and gun.

Solar Eclipse Affects Wireless.
During the recent solar eclipse an interesting test was undertaken between the radio station of the Royal dock yard in Copenhagen and the Blavandshuk station on the coast of Jutland, so as to ascertain the effect of the eclipse upon wireless transmission. It transpired that the telegraphing became more distinct and reliable as the eclipse progressed, and that it was most distinct shortly after the culmination of the eclipse. The view that it is the effect of the solar light upon the atmosphere which is the cause of radio telegraphy being much better at night than during the day seems thus to be confirmed.
