## FISHERMAN'S LUCK THURSDAY NIGHT

Best Local Talent Will Present  
Play and Large Attendance  
is Hoped For.

**THE PLAY GOOD, CAUSE ALSO**  
Several New Names in the Cast  
But Not New To The Business  
of the Stage.

"The Fisherman's Luck" will be presented by local talent—the best in the city—next Thursday night at the Masonic Theatre.

**CAST.**  
Tom Manly, a poor fisherman, Mr. A. T. Willis.  
William Farren, alias Squire Ham-morad, Mr. Will Baxter.  
David Morris, known as "Uncle Dave", Mr. James Dawson.  
Silas Kidder, (stage struck), Mr. J. Curtis Bagg.  
Rev. George Medhurst, Mr. David Morris.  
Rose Prescott, Hammorad's ward, Mrs. George Stratton.  
Mrs. Manly, Tom's mother, Miss Le-onora Greenabaun.  
Ruth Manly, Tom's sister, Mrs. D. L. Congdon.  
Little Nellie, a waif of the ocean, Miss Isabel Smith.

It is seldom that there are united two such compelling reasons for patronage, from an interested public as there are just here. Some times we are given a poor production for a good cause, and we go to see it, and again there comes to us a good play for no cause at all, and we go just the same. But here, two wonderfully good things are linked together—the cause and the play. The library which is near to your hearts anyway, and the "Fisherman's Luck" which will be still nearer when you shall have seen it rendered.

Consider the cast! Some members of it, you have seen before and you need no information as to their ability. But there are several new names in the list, that is new to a New Bern audience, but the excellent work which they will show you, will prove them not new to the business of a stage.

Each one in the play is a worthy support of the gifted principals—"all stars"—and 'tis not often that an "all star company" can be seen outside of the great metropolis.

See the play, buy two, four, six tickets—make up a little theatre party, lend your influence toward making it a success, and we promise you in return "the time of your life." Tickets on sale at Clark's.

### MISSIONS. (Communicated.)

There is no more important and vital subject than Christian Stewardship. The trouble with many of us in the Christian life is that we act as though we believe that our lives belong to ourselves instead of to Christ. We narrow down Christian stewardship to the matter of money. It is right enough to do that, perhaps; but the principle of Christian stewardship runs deeper. Money is merely a part of our life, Christian stewardship ought to cover our whole life. Christ served by this life, so our lives and all that enters into these lives of ours are agencies, our tools for the accomplishment of God's ends.

### ATHENS TOMORROW.

Monday is "frature picture day", and we have secured "Kings of the Forest" 2 full reels—2000 feet of film. This is a wild animal sensation by Selig, and presents a thrilling story of life in the Traheval Jungles. This is one of the greatest animal pictures ever produced, and there are enough exciting moments, hairbreadth escapes and daring ventures to interest the most blasé. 'Tis a picture that is sure to attract and hold your interest, and remain fresh for a long time in your memory. We have another good film which completes our regular three reel service.

For a vaudeville we have a hummer, "The Manhattan Trio". Kathakeller entertainers—swell harmony singers. We believe you will like Monday's program—Come feast for an hour and a half.

Matinee daily at 3:45. 1st show at night starts at 7:30. 2d at 9 o'clock. Observe the hours and always secure a comfortable seat. Both shows are masterly affairs.

## ARRANGING FOR LAYMEN'S MEET

Extensive Arrangements Are Being  
Made For Great Event  
Here Feb. 6 and 7.

**COMMITTEE TO MEET TUESDAY**  
S. M. Brinson and William Dunn,  
Jr., To Address Union  
Meeting in Kinston.

Extensive preparation are being made for the Convention of the Laymen's Missionary Movement to be held in this city on February 6 and 7. S. M. Brinson, General Chairman of the Convention Committee, has issued a call for a meeting of the committee to be held Tuesday night at 7:30 o'clock in the convention headquarters at A. D. Ward's office in the Elks Temple. Every member has been urged to attend this meeting as matters of much importance are to be discussed. The ministers of the city have been asked to meet Tuesday morning at 10 o'clock in the parlor of Centenary Methodist church.

Executive Secretary L. B. Padgett is now engaged in working up enthusiasm in the approaching convention in the nearby towns. Today S. M. Brinson, General Chairman, and William Dunn, Jr., Chairman of the Deputation Committee, will go to Kinston and tonight at the First Baptist church of that place will address a mass meeting.

During the next two weeks there will be meetings held in every town in the section and also in other parts of the State in an endeavor to work up a great deal of interest in the convention. Mr. Padgett left last night for Goldsboro for this purpose and from there he will go to Greensboro; returning here tomorrow night.

In every church in the city today leaflets telling of the purpose and scope of the convention will be distributed.

## REPORTS ON NEW PHTHISIS CURE

Consul General at Berlin Investigates  
Claims of Dr.  
Friedmann.

**TOO EARLY FOR FINAL WORD**  
It is Known That Similar Success  
Has Been Attended by  
Other Preparations.

Washington, Jan. 18.—The Secretary of State has sent to the Senate in response to a resolution introduced by Senator Thomas P. Gore, of Oklahoma, a formal report by Consul General A. M. Thackara, at Berlin, on Dr. Friedrich Franz Friedmann's alleged discovery of a cure for tuberculosis.

The alleged cure, which consists of injections into human patients of non-virulent living bacilli from cold-blooded animals, like turtles, according to Dr. Friedmann's assertion before the Berlin Medical Society, has been successful in 1,189 cases, mostly of children.

The medical profession of Germany, according to Mr. Thackara, has received Dr. Friedmann's announcement with some skepticism, as the discoverer has so far failed to make his serum public for experiments by other physicians. Medical experts in Berlin also suggest that the new treatment has not been in use long enough to tell positively whether the non-virulent bacilli on injection into human beings might not develop virulence and infect the patient. Time, alone, they say, will decide that point.

For the information of the Department of State Mr. Thackara secured the formal opinion of an unbiased physician of high repute in Berlin, in which he says, in part:

"Friedmann claimed that he has treated many hundred cases by himself and with the assistance of several Berlin physicians and had great success. The cases which he presented to the Berlin Medical Association showed, indeed, a great improvement, but that the cure is permanent can only be determined in the future. It is certain that similar success has been obtained with other preparations, therefore it is very difficult to give a definite opinion as to the new discovery."

## INAUGURAL BALL HEAVY EXPENSE

Whenever Held It Means Loss Of  
Thousands of Dollars To  
The Government.

**WASHINGTON DISAPPOINTED**  
But There is Little Doubt That  
President-Elect's Wishes  
Will Be Regarded.

Washington, Jan. 18.—With a sigh Washington received the news that President-elect Wilson was opposed to an inaugural ball.

And while there was manifest distress in official and unofficial circles over the fact that this historic function was disapproved by the new Executive the inaugural committee set about readjusting itself to the new condition.

Of course, the people responsible for the success of the next inauguration responded readily to the suggestion from Governor Wilson that the big ball was not justified by the expense it entailed upon the Government. They held one meeting and announced after Chairman Eustis had said that he had not received the letter from Trenton that another meeting would be held on Monday, when the whole situation would be canvassed and an effort made to provide some appropriate substitute for the great parade of beauty and chivalry which in the past closed the official induction of Presidents.

While the unofficial committee was considering the new situation the House committee charged with the details for the official end of the function suspended all its labors until definite word could be received from Governor Wilson.

In his letter Governor Wilson sided with Secretary Fisher, of the Department of the Interior, who has declared publicly that to displace the Pension Office Clerks for two weeks would mean a loss to the Government of many thousands of dollars. The President-elect declared that this loss should not be borne by the Government and that unless some other arrangement could be provided the ball had better be abandoned.

Already Congress had hesitated in authorizing the use of the Pension Building for this purpose. The chances were, however, that the Fisher protest would have been overruled had not Governor Wilson spoken as he has. The inaugural committee was convinced that the usual program would be carried out.

Those hardest hit by the change in the inaugural plans are the Washingtonians who have subscribed to the \$100,000 inaugural fund with the understanding that it will be returned out of the proceeds of the inaugural ball ticket sales.

In the past the revenue from the ball and from the reviewing stands has more than repaid the people who have advanced the money with which to finance the quadrennial ceremony. The abandonment of the ball, therefore, has elicited a groan from more than one-quarter of Washington.

The truth is, however, that the visit to Washington of 500,000 persons during the inaugural week will more than reimburse the Washingtonians who may have subscribed to the fund. This return will come indirectly instead of directly, as on previous occasions.

A movement is now proposed for a great reception to the new President and Mrs. Wilson in lieu of the inaugural ball. It is suggested that this reception might be held in the rotunda of the Capitol, which would cost the Government nothing to provide.

But Congress, it is believed, would never consent to the use of the Capitol as a sort of side show to which American people would be admitted for a fee.

Should there be an inaugural ball, despite President-elect Wilson's wish to the contrary, there may be no "turkey trotting," "bunny bugging" nor "grizzly bearing," if it is held in the Pension Building. Representative Roddenberry offered an amendment to the resolution authorizing the use of the Pension Office, which is worded as follows:

"That the grant for the use of the Pension Building for the inaugural ball is expressly upon the condition and with the limitation that for the prevention of acts of public indecency the following so-called dances are absolutely barred and prohibited: "Gleefully bear gyrations, the turkey trot contortions and all like vulgarities of the monkey dance and all similar forms of gymnastic convulsive movements suggestive of the degenerate residents of the segregated districts."

## NOTICE RECEIVED EXTENDING SCOPE

Postoffice Notified of Admission  
of Printed Matter to Par-  
cel Post Privileges.

**OTHER INFORMATION GIVEN**  
Directions For Taking Medicine  
May Be Written on Label  
Attached to Bottle.

The new parcel post law has found much favor in this city and surrounding section and every new order sent out by the Postoffice Department touching on this law is of interest to everyone. Orders have just been issued extending the scope of the system. The following order has been received at the local postoffice:

"Printed matter relating to an article of merchandise which it accompanies is regarded as descriptive of the article within the meaning of Section 483, Postal Laws and Regulations, and therefore is a permissible enclosure with such article when mailed as fourth class matter."

"Printing on an article of merchandise or on its wrapper, or on a label pasted to it in such manner as to form an integral part of it, does not affect the classification of the fourth class."

"Order forms, address tags, report forms, letter and bill heads, insurance and legal forms, cards and other similar supplies, regardless of the amount of printing on them, bank check books, receipt books and other books of forms, partially in print, may be mailed as fourth class matter."

"Directions for taking medicine written on a label attached to the bottle or package containing the medicine or enclosed with it are permissible and do not affect the classification of the parcel."

## BRIDGE CLUB IS ENTERTAINED

Mrs. E. K. Bishop Hostess to The  
Fortnightly at Her Hand-  
some Home.

Mrs. Edward Bishop was hostess to the Fortnightly Bridge Club Friday afternoon at her handsome home on East Front street. Palms, ferns and cut flowers adorned the rooms. After a spirited game of auction bridge, a tempting salad course was served.

Those present were Mrs. Cecil Gabbett, Mrs. Charles Pettit, Mrs. Charles Enmert, Mrs. William Hand, Mrs. Edward Clark, Mrs. Raymond Pollock, Mrs. Robert Nixon, Mrs. Mark de Wolf Stevenson, Mrs. Thomas Warren, Mrs. Henry R. Bryan, Jr., Mrs. David Congdon, Mrs. Guion Dunn, Misses Nellie Duns of Philadelphia, Harriet Marks and Sara Congdon.

### PEPSI-COLA CHANGES.

E. H. Gaines, sales manager of the Pepsi-Cola Company, has resigned but will continue with the company, doing work in the vicinity of his home, Spartanburg, S. C. Fred H. Shipp, who has been credit man, has been advanced to the position of sales manager. Succeeding Mr. Shipp as credit man is H. J. Carpenter, formerly book-keeper, while C. D. Kitter takes Mr. Carpenter's place as book-keeper.

### THE ENDEAVOR CRUISING IN EASTERN CAROLINA WATERS.

The Endeavor, a ship which was built at Norfolk and used as a man-of-war during the war between the States has come into the waters of Eastern North Carolina and will be used in surveying work. She is in command of Captain J. B. Boutelle. Her last trip to this section was made thirty-six years ago and since that time she has been in almost constant service in one capacity or another. She will remain in this section for several months.

Having been defeated for Senator from Maine, Obadiah Gardner is now ready for the cabinet.

But tenderloin movements, the turkey trot contortions and all like vulgarities of the monkey dance and all similar forms of gymnastic convulsive movements suggestive of the degenerate residents of the segregated districts."

## GREAT LOT SALE TO TAKE PLACE

Seventy-Five, Located on Riverside  
Extension, To Be Auctioned  
Off Wednesday.

**BEING WIDELY ADVERTISED**  
Auctioneering To Be Done by Penny  
Brothers, Who Sell "A  
Lot a Minute".

Next Wednesday at 10:30 o'clock one of the greatest sales of residence lots ever witnessed in this section will take place on National Avenue when the plot of land owned by Hackburn and Willett and known as Riverside Extension will be sold at auction in building lots.

E. R. Blanton, representing the Raleigh Real Estate & Trust Company who will have charge of this sale, arrived in the city several days ago and began his advertising campaign. In addition to extensive newspaper advertising a large banner announcing the sale has been placed at the intersection of Middle and Pollock streets while every road leading into the city has been placarded with announcements of this big event.

The tract of land which is very desirably located, has been cut up into seventy five lots. The lots are accessible to the sewerage, electric lights and city water and are more desirable for residential lots than any right in the heart of the city. None of the lots will be sold to colored persons and the purchasers may be assured of an exclusive neighborhood. The famous Penny Brothers, who claim to be able to sell a lot a minute, will have charge of the sale. Several valuable prizes will be given away. The lots will be sold on easy terms, allowing the purchaser four years' time in which to pay for them.

## BEGINNERS NOT TO BE ADMITTED

On Account of Crowded Condition  
Of School They Must Wait  
Till October.

The Board of Trustees of the New Bern Graded Schools has decided that no beginners can be admitted at the beginning of the spring term, Feb. 17, 1913. The Board regretted to take this action but found it necessary on account of the crowded condition of the school. Between now and next October it is expected that such extensions will have been made to the building plant that all who apply for admission and are qualified for same may be admitted.

## HONOR LEE AND JACKSON TODAY

Memorial Exercises This Afternoon  
at 4 O'clock at First  
Baptist Church.

EULOGY BY REV. MR. HUSKE

Music By Special Choir and The  
Children of the Confed-  
eracy.

Today is the anniversary of the birth of General Robert E. Lee, the great leader of the Confederacy and the chieftain whose memory the South delights to honor. Equally idolized in the South is Stonewall Jackson and while his natal day falls on a different date from that of Lee, for purposes of convenience his memory is honored in New Bern on the anniversary of Lee's birthday.

Accordingly this afternoon at 4 o'clock at the First Baptist church there will be memorial exercises in honor of the two great soldiers and the public are cordially invited to attend and thus show their affection for the matchless leaders in whose honor the exercises are to be held.

The program will include singing by the Children of the Confederacy, prayers by Dr. Summers and Carter, eulogy by Rev. B. F. Huske, several selections by a special choir and the benediction by Rev. J. B. Hurley.

## EACH OF FOUR HAS TWO HEARTS

Easton, Pa., Boasts Family Whose  
Members are Puzzle To  
Medical World.

**ALL OF THEM ARE HEALTHY**  
All Normal With Exception That  
Chest of One Is Some-  
what Enlarged.

Easton, Pa., Jan. 18.—Dr. James Morgenstern of No. 137 South Third street, Easton, has discovered a family in which the mother and three children are each provided with two hearts. Investigation has established the fact beyond a doubt. The woman is Mrs. Bertog Perkins, and the children are Anna, Allen and Doris Perkins, aged eleven and four respectively.

Dr. Morgenstern was called to the home of Bertog Perkins to attend a child suffering from chicken-pox. While inspecting the chest of the child he felt a heart beating on the right side. He hastily shifted his hand over to the left part of the chest and felt another heart beating there, apparently as any well-behaved heart should do.

Dr. Morgenstern then determined to see if the phenomenon was repeated in the other children. He called in two and again two hearts were beating, one in each side of the chest. He then summoned the mother and she, like her three children, was possessed of two vital organs, each pumping blood through the body.

On the following day, Dr. Morgenstern gathered together several prominent physicians of Easton and together they carried on a minute examination of all the children. None of the doctors is able to account for the unnatural number of hearts.

One theory is that at birth there was a non-union of the different component parts of the organ, there is the right ventricle and right auricle grew on the right side, and the left ventricle and the left auricle on the left side. If such is the case, a condition exists in the bodies of these people which is seemingly contrary to the laws of nature. The septum cord, instead of forming the dividing partition between the two sides of the heart now forms one outside boundary of each part. Therefore in these people the arterial blood must be driven through the body from the left compartment of the chest while the venous blood must return to the heart in the right compartment. This would mean an entirely unnatural formation of the arteries and veins within all of the upper part of the body. One thing that supports this belief is the fact that the apex beats of each heart was not wholly as it should be. While other cases of compound heart have been known in the medical world, never before in the history of the profession have four of them existed in one family.

At least one of the children will be brought before the Northampton County Medical Society as soon as possible. At present all are confined to their home in quarantine occasioned by the epidemic of chicken pox. It is the purpose of the doctors of Easton to call the attention of some of the most noted specialists in the country to this phenomenon.

A peculiar phase of the case is that to outward appearances the other organs of all three are arranged in normal position. Only one of them is in the least deformed, one side of her chest being slightly larger than the other. They have always been healthy and able to play about just as ordinary boys and girls.

### NEW ADVERTISEMENTS

Sam K. Eaton—No wonder.  
A Castet—High quality and low price.  
Tolson Lumber and Mfg. Co.—This way please.  
Mrs. B. Allen—Business brightening at New Bern's Store for women.
