Business is Brightening up AT New Bern's Store for Women 85 Middle Street

Here is a letter that speaks for itself. My New York resident buyer, among other things writes as follows:

I have just closed out a job lot of 45 coats which, of all the bargains I sent you this season, is the greatest.

The manufacturers of these coats cater to the very best trade in the city. They are recognized leaders of fashion in CLOAKS AND SUITS. I came across this lot quite accidentally. You ought to see the garments to be able to appreciate them. The excellent quality of the fabrics, the sound and sensible construction of the coats, the elegance of their style, the beauty of their workmanship are things to marvel and admire.

I am sure these coats will create a sensation in New Bern and what is more, you will be able to offer them at a price that notwithstanding the lateness of the season, you will dispose of them "in no time, and ask for more." etc.

I expect these coats Saturday, January 18th in the morning.

ALLEGE CARELESSNESS

A Tender on Beaufort Bridge Said To Be Derelict.

Boatmen coming to this port report that the man now tending the Morehead City Beaufort bridge is causing them much trouble and annoyance. It seems that the tender on the Morehead City side of the bridge pays but little attention to boats coming through the channel at night and that several times lately these vessels have been compelled to go out of their way and go through the Beaufort side of the bridge. The lights on the bridge are also said to be so small that they make navigation through the draw dangerous.

POWER OF THOUGHT

With this Subject "The Rosary" To Be Seen Here Soon, Deals.

"I have always believed that a play dealing with the tremendous power of human thoughts was really needed upon the stage. Men and women rise in the morning and go about their work heedless of the fact that is their own attitude of mind that brings them success or failure."

That is what is shown in the "Rosary" a beautiful new play from the pen of Edward E. Rose and produced by Rowland and Clifford which will play at the Masonic Theatre next Saturday. You see the effect of thought on the different individuals. One character is that of a business man happily married to a wife who loves him. But his thought is wrong, he harbors fear, doubts and unbelief in the good that lies around him. He loses all fortune, home, wife, even his own self respect. How does it end? Go and see "The Rosary."

GREAT IS PARCEL POST

But Some of the Local P. O. Clerks Have Their Doubts.

Some of the clerks in the New Bern postoffice are not a bit enthusiastic over the parcel post—not after what the said post did for them last night when it brought to the postoffice to be kept for the night a nice, large and oh so odoriferous package of skunk skins.

A Journal man hearing of the new proof of the elasticity of the regulations governing the sort of matter that may be sent by parcel post called up the postoffice to get it verified. George Wood answered. He was asked by the thoughtless reporter if he had seen the package and if it was surely skunk skins. "Man", he shouted back over the telephone, "you don't have to SEE skunk skins to know that they are around."

Seeing that Mr. Wood wasn't in a very good humor over the latest wrinkle by parcel post, the reporter changed the conversation to a more pleasant and less smelly subject. But to make the skunk story complete he will add that the skunk skins were shipped by some wicked person on the Coast Line and were enroute to some point in Philadelphia—the post-office clerks wouldn't get close enough to the package to get entirely accurate details.

ANOTHER MILL GOING TO MOVE

Charlotte, Jan. 20.—The letter of inquiry received several days ago by Mr. David Clark, editor of The Southern Textile Bulletin, from the well-known knitting concern of G. H. Tilton & Co. of Tilton, Mass., asking about the possibility of securing a location in Charlotte for a branch knitting mill, calls attention to one phase of textile development in which Charlotte is said to be sadly lacking. The letter was turned over to Secretary Leake Carraway of the Greater Charlotte Club for attention and the matter is now pending of bringing a branch of this knitting concern to Charlotte. G. H. Tilton & Co. operate several large plants in the North and one in Savannah, Ga. It is one of the substantial New England knitting houses.
