The Kind You Have Always Bought Bears the Signature of *Dr. J. C. Hathorn* In Use For Over Thirty Years

CASTORIA

Exact Copy of Wrapper.

There is a certain type of child which is remarkable for its docility, the delicate complexion of its appearance and its almost human conduct. Brought from branch to branch or from tree to tree, it has every appearance of a bird. When starting from a tree along its back like a black doll, its dark, soft eyes are very large, its coat is like black velvet trimmed with satin and dotted with gray beads.

"I have seen him weep," said Humboldt, "and I know that the animal is like a child in every feature. He has the same innocent expression, the same bright, intelligent smile, the same child-like way of passing swiftly from joy to sorrow."—Harper's.

First Use of the Dollar Mark.

The earliest known occurrence of the \$ in print is in an American arithmetic, Chauncey Lee's "American Accountant," published in 1797 at Lancaster. This fact was pointed out in 1899. A recent writer again calls attention to this arithmetic and then, with sweet simplicity of mind, conveys the idea that this publication constitutes the true origin of the dollar mark. By this liberal short cut he saved himself the intricacy of a research which, in our case, has extended over several years. After 1899, the symbol began to be used freely, both in print and in writing. On Sept. 20, 1802, William A. Washington wrote a letter on the disposal of part of the bottom land above the Potomac, belonging to the estate of George Washington. In this letter there is mention of "\$20," "\$30" and "\$40" per acre. In this article it has been established that the \$ in the lineal descendant of the Spanish abbreviation ps for "peso," that the change from the forensic ps to \$ was made about 1775 by English-Americans who came in business relations with Spanish-Americans and that the earliest printed \$ dates back to the year 1707.—Professor Florian Cajori in Popular Science Monthly.

DOWNWARD COURSE

Fast Being Realized by New Bern People.

A little backache at first. Daily increasing till the back is lame and weak. Urinary disorders may quickly follow. Dropsy and often Bright's disease. This frequently is the downward course of kidney ills.

Don't take this course. New Bern residents should profit by the following experience.

Mrs. R. C. Jackson, 506 E. Lenoir St., Kinston, N. C., says: "I am pleased to say that Doan's Kidney Pills have been of great benefit to me. I was greatly annoyed by dull pains across the small of my back and I could not rest well. In the morning when I got up, I had but little strength or energy and I was often bothered by headaches and attacks of dizziness. Soon after I began taking Doan's Kidney Pills, I was entirely relieved and my health improved."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

BOYD TALKS FACTS.

Mr. Cortland Adams of West Troy, N. Y. pays the UNION CENTRAL LIFE INSURANCE CO. \$27.25 annually. He received last month a dividend of \$31.51, being \$4.26 more than he paid the Company. In fact, since 1904 Mr. Adams has received more in dividends than his insurance cost.

A New Bern policy holder has just received a dividend exceeding 50 per cent. of the premium. The UNION CENTRAL LIFE pays largest dividends and sells good, "old line" life insurance the lowest of any other company in the wide, wide world. Are you "unionized"? If not, see Boyd and get in the Union Central quick.
