

# NO MORE PEACE 'TILL MILLENNIUM

Bishop John Kilgo Says Hague Conferences Are All In Vain.

## FOREVER WARS AND STRIFE

No True Democracy Will Be Ours—Striving to Obtain.

Baltimore, March 10.—In his sermon on "My Peace I Give Unto You" yesterday morning at Trinity Episcopal Church, Bishop John Charles Kilgo declared that a Il Carnegie's millions could not stop the wars of the earth; that there would be wars, tumult and strife until the end of time and that democracy does not exist on earth.

"Christ is called the Prince of Peace," the Bishop said, "but Christ has been the storm centre of the world since He came on earth. He has caused more wars, more revolutions, more tumult and strife than any other being. And so long as the forces of evil remain, just so long will there be wars. For there will always be true Christians left to carry on the fight."

"I have no patience with these 'pretender' Christians who talk of world peace and arbitration and Hague's and the blessings of smug contentment. Paul wrote of the peace of assured triumph after a hard fight. Mr. Carnegie is after another kind of peace. He may spend all his millions, and he will get no such peace on earth until Christ comes again. And when He comes it will be with a naked sword. For He will come for the final conflict between the forces of evil and the Son of God."

"Let Mr. Carnegie spend his millions as he pleases, so long as he harms neither you nor me. I want none of his peace, or arbitration, or compromise, the handicraft of shrewd diplomats. Let the Hague conferences meet. But the peace of Christ will not proceed from The Hague."

"In this nation we speak of democracy. There is no democracy where every one from the hodcarrier to the millionaire is struggling to rise above the common herd and power. And when they rise a little, they hedge their dignity and rank about and guard it jealously from insult—for they realize the unstableness of it."

"Even President Wilson, with all his rank, and dignity, and worth, could not afford to wash the feet of his Cabinet members. He would besmirch his name, insult the nation and become the laughing stock of the people."

"Yet the Son of God bled himself with a towel and did this menial service. And it is handed down to us as a great example. What wars or contentions or insults or tortures could disturb the peace of this only begotten of God, perfect in righteousness and assured in His final triumph? His face may be twisted with physical suffering. His body may be hung on the cross; He may be imprisoned in death for three days. So many the storms flash the surface of the ocean, but nothing can disturb the serenity of the depths underneath."

## CHIMNEY BURNING—FIRE COMPANIES CALLED OUT.

Shortly after 5 o'clock yesterday afternoon the sexton at the Tabernacle Baptist church on George street placed a lot of paper in the firebox of his heating plant and the blaze caused the soot in the chimney to catch fire and blaze out of the top. Some persons passing by saw the blaze and thinking that it might be serious, turned in the alarm. The fire companies arrived on the scene a few minutes later but their services were not needed.

## WILL DO SOME ROAD WORK WHERE IT IS BADLY NEEDED.

The county convicts were yesterday taken to a point near Saint's Delight, in No. 2 Township, where they will be put to work. During the next few weeks the "force" will devote their efforts to improving the county road between Bridgton and Vanceboro. This struggle has needed attention for some time and the citizens who see it in coming to New Bern will be glad to know that the improvements are being made.

## PROGRAM AT THE ATHENS TODAY.

Vaudeville. Billy & Peggy Malin. Comedians and talking entertainers—introducing violin and cello. This is a splendid musical act. Our audience was well pleased last night.

## "A Farm House Romance"

A romantic comedy, by Pathe, starring Max Linda the famous comedienne. "A Woodland Xmas in California."

## "Poet and Peasant"

This picture by the Vitagraph Company shows the contrast of true love and the meanings of insincerity—thoughts that thrill and vibrate with responsive human interest. Matinee daily at 3:45. 2 shows at night. 1st commences at 8:30 o'clock. 2d follows immediately after first one. Wednesday we will show "The Power of Silence" a two reel feature subject by Lubin, and is an adaptation from the play "Where The Trail Leads." This is a thrilling Western each story.

# "FARMER" FAVORS THE STOCK LAW

CARTERET CITIZEN BELIEVES IT WOULD SOLVE MANY KNOTTY PROBLEMS.

Editor of the Journal: I read with much interest the article in your issue of Sunday, March 10, regarding the proposed stock law.

I think how much more North Carolina would be worth today if there had been a stock law in it thirty years ago, they would come to a conclusion different from that expressed in their communications. A stock law would be the means of stopping so many forest fires that do so much damage to timber and destroy the young trees.

About fifteen years ago I visited New Hanover county and the people seemed to be badly hurt over the result of having no fences. Two years ago I visited the same place and they seemed to be getting along all right. I spent a week there looking over conditions. Last January the people told me that they would not again have their stock running at large for anything.

I think a State-wide stock law would be a great thing for the farmers and their stock also. I have a few cows and I could get better results from one good cow than I can from all I now own. It costs me more to keep other people's cows out than to keep mine in. Stop the hogs from running at large also and stop more of the diseases and in five years we would not have the law recalled for anything.

A FARMER. Pelletier, N. C. March 10.

# SIX LEAVE HERE, THREE GET THERE

LOCAL MOTORCYCLISTS DROP BY THE WAYSIDE ON COUNTRY TRIP.

Early Sunday morning six young men of this city cranked up their motorcycles and "hit em" up for the open country with Washington, N. C., thirty six miles distant, as their destination. The first few miles of the trip was made without a mishap, then trouble began. First one rider and then another dropped out of the line until only three, David Morris, J. F. Spear and Dr. Ernest Dunn remained in the party and succeeded in reaching the original destination. After spending a short time, securing oil, etc., these young men started on the return trip and succeeded in reaching home without any further mishaps. The trip is a trying one and several of the riders have only recently become owners of their machines and this was their first real trip but they are not discouraged and will again attempt to visit some of the nearby towns at an early date.

## WILL CONVERT CONFECTIONERY STAND INTO MODERN PHARMACY.

Ernest H. Wood and Walter A. Lane yesterday purchased from George B. Waters his confectionery and cold drink store on Middle street and will install a modern drug store in the building.

Mr. Wood and Mr. Lane are both well known and popular in New Bern and are both registered druggists. The former has held a position with the F. S. Duffy Drug Company for about eight years and the latter has been connected with the Bradham Drug Company for the same length of time. New fixtures and a complete stock of drugs have been ordered and will be placed in position as soon as they arrive, which will be about April 1. In the meantime the store will be conducted by Mr. Waters.

It is the intention of the new owners to make the store one of the most attractive and modern in every manner that there is in the city and handle the very best materials that can be obtained.

## DEATH CLAIMS YOUNG GUY ODUM AFTER SHORT ILLNESS.

Guy E. Odum, the eighteen-year-old son of Daniel E. Odum, died at the home of his father, No. 112 South Front street, at 4 o'clock Sunday morning following an attack of pneumonia. The funeral was conducted from All Saints' chapel yesterday afternoon at 3 o'clock and the interment was made in Cedar Grove cemetery.

Young Odum was a very intelligent and energetic young man and was liked by all who knew him. For some time he has held a position as messenger with the Western Union Telegraph Company and his employers have nothing but praise for his work. A few weeks ago he contracted a case of measles and this was followed by pneumonia from the effects of which he died. As a tribute to his memory the little chapel where the last sad rites were held was crowded to its utmost capacity yesterday afternoon and there were a number of beautiful floral offerings.

## PROFIT-SHARING IS REMEDY

Dr. Elliot Sees In This Cure For Much Discontent.

Boston, March 10.—Profit-sharing is the real remedy for the discontent existing among workers today, according to Dr. Charles W. Elliot, president emeritus of Harvard. The basis principle of contentment in labor, says Dr. Elliot, is the expectation of profit beyond the daily wage.

"I have seen a continual increase in wages for the past forty-five years, and in all that time discontent has grown steadily," said Dr. Elliot today. "During that time the length of laboring day has decreased, but this has not tended to bring about happiness and contentment among the laboring classes."

The system of profit-sharing which a company recently adopted seems to supply the needed motive to keep the employee interested in their work, and, consequently, contented.

This factory employs more than 500 hands of all nationalities; few of them are skilled laborers. On January 1 of each year a list is printed of the names of those employees who have been in continuous service for the previous twelve months. The men named are entitled to share in the percentage of the profits of the company, if they are still employed on March 1 following.

One advantage of the system is that it does not require extreme publicity of the affairs of the company. The company protects itself by a rule that it will not pay above 20 per cent of a man's earnings.

# "FANS" DISCUSS THE SITUATION

Baseball "Dope" Being Extensively Handled By New Bern Enthusiasts.

LEAGUE FORMATION PROBABLE

Something Definite Will Be Known After Kinston Holds Next Meeting.

Since there seems to be some possibility that the old Eastern Carolina Baseball League may be revived, baseball "dope" is rife in New Bern and crowds of "fans" can be seen discussing the situation in every public place.

Since returning from Kinston where a mass meeting was held last Friday night with a view of getting that place to put a team in the proposed league Clyde Eby, who is secretary of the local Athletic Association which is "boosting" the formation of the league, has written letters to baseball enthusiasts in several near by towns asking them what the prospects were for their towns entering the league. So far he has received no reply but the recipients of the letters have barely had time to take a look around and ascertain if there will be anything doing in this matter.

The Kinston "fans" appointed a committee of ten to solicit subscriptions to be used in the support of a team and this committee is to meet Thursday night and make a report. The Kinston Free Press has the opinion that it will be an easy matter to raise the money and if this is done there will be four towns in the league, namely: New Bern, Kinston, Washington and Goldsboro. Whether Fayetteville can be counted on under the new plan for a central treasury is not definitely known but if one other town comes in, it is more than probable that Fayetteville also will enter and thus form a six-team league.

The meeting to be held Thursday night by the Kinston enthusiasts will decide whether or not there will be a league. If they secure a sufficient sum to enable them to engage the players and put their ball park in condition it is then an almost assured fact that the league will be formed. If they fail in this, there is very little hope remaining that the league will be formed.

# YOUNG DRUGGISTS PURCHASE STORE

WILL CONVERT CONFECTIONERY STAND INTO MODERN PHARMACY.

Ernest H. Wood and Walter A. Lane yesterday purchased from George B. Waters his confectionery and cold drink store on Middle street and will install a modern drug store in the building.

Mr. Wood and Mr. Lane are both well known and popular in New Bern and are both registered druggists. The former has held a position with the F. S. Duffy Drug Company for about eight years and the latter has been connected with the Bradham Drug Company for the same length of time. New fixtures and a complete stock of drugs have been ordered and will be placed in position as soon as they arrive, which will be about April 1. In the meantime the store will be conducted by Mr. Waters.

It is the intention of the new owners to make the store one of the most attractive and modern in every manner that there is in the city and handle the very best materials that can be obtained.

T. A. Green returned last evening from a business trip to Pollockville.

# BAD FALL FROM MOTORCYCLE

Allie Cook Injured In Accident Sunday Morning Near Jack Smith's Creek.

LOST CONTROL OF MACHINE

Hurled Several Feet and Lands on His Head—Rendered Unconscious By Shock.

An accident that came near having a fatal ending occurred shortly after 11 o'clock Sunday morning near Jack Smith's creek when Allie Cook was thrown from a motorcycle which he was riding and badly hurt.

The skidding of a wheel on the machine when the rider attempted to cross the road caused the trouble. Mr. Cook was thrown for several feet and landed on his head, rendering him unconscious. Several persons who saw the accident rushed to his aid and he was brought to the city in L. H. Cutler, Jr.'s, automobile and given medical attention.

Mr. Cook and Mr. and Mrs. George Smith had gone out for a ride and before reaching the bridge over the creek, Mr. Cook alighted from the machine and told Mr. Smith to get ahead as the dust from the machine would not worry him much. Mr. Smith did this and was some distance up the road when Mr. Cook started his machine. At that time he was on the right side of the road and in attempting to cross to the opposite side of the road he lost control of the machine and was thrown to the ground.

The blow rendered him unconscious for some time but an examination proved that his injuries were not serious and that he was suffering more from shock than anything else.

# NEW BERN HAD IMPORTANT PART

FURNISHED LUMBER FOR THE GRAND STANDS OF INAUGURATION DAY.

Local citizens who visited Washington and witnessed the inauguration and those who did not attend the event but who read the newspaper accounts of the affair, marvelled at the enormous proportions and the large number of grandstands which had been erected at various points of vantage along the line of the inaugural parade. It is a fact worthy of mention that every foot of lumber used in the erection of these grandstands was shipped from New Bern and was manufactured at local mills.

Three solid barge loads of timber was used in this work and it left this port about two weeks before the inauguration, arriving in the capital city about four days before the big event when a small army of carpenters at once began the work of erecting the big stands which seated thousands of spectators.

# VIRGINIA PASTOR DEFENDS MANN

LAMENTS THAT SYMPATHY FOR CONDEMNED ALLENS CAN NOT BE HARNESSSED.

Richmond, Va., March 10.—Misdirected sympathy, violent criticism of Governor Mann for his refusal to commute the sentences of the Allens, ignorance in certain isolated mountain sections, "districts" of shame and the existence of saloons—these were targets for censure of the Rev. Dr. J. W. Young at Centenary Methodist church tonight, in a sermon on "Justice" in which he declared that as painful as it would be, he would have done as Governor Mann did.

Dr. Young lamented that the sympathy on behalf of the two condemned Allens could not be harnessed and turned into other channels. If directed at the city slums, saloons and the restricted districts, he believed the results would be far more effective and beneficial to mankind at large.

Dr. Young did not hesitate to say that there had been too much criticism of the courts in the Allen case. The court and the church are the safeguards of society, he declared, and should be upheld.

## "CLASSY" ACT AT THE ATHENS THEATRE.

In the act of Billy and Peggy Malin which Managers Lovick and Taylor have secured for the Athens theatre for the first three nights of this week, the patrons of the theatre have a rare treat. These two performers are far above the ordinary and their work is of the variety that pleases an audience. Last night they made their first appearance and everyone who attended the performance was well pleased.

## NEW ADVERTISEMENTS

New Bern Banking and Trust Co.—Confidence Illustrated.

National Bank of New Bern—safe deposit boxes for rent.

J. M. Mitchell & Co.—The home of the Morphino hat.

H. C. Armstrong—Granulated sugar five cents per pound.

# TWO STREET CARS BUMP EACH OTHER

Number Two Runs Into Open Switch Corner Metcalf and Pollock Streets.

Car number two of the New Bern Street Railway Company was slightly damaged when it ran into an open switch at the corner of Metcalf and Pollock streets Sunday afternoon and crashed into car number six which was waiting at that point for a clear track so it could continue to the Union passenger station after making a trip to Riverside.

Car number six had arrived at the switch a few minutes prior to the accident and was standing only a few feet from the opening. Car number two was coming up Pollock street from the passenger station at a moderate rate of speed and the motorman failed to see that the switch was turned in the wrong direction and was on the wrong track before he realized the error. His car struck the other car with considerable force but fortunately none of the passengers on either were hurt and the damage consisted mainly of broken windows and a few scratches on the front of car number two.

Both cars were crowded with passengers and for a moment there was considerable excitement.

# ACCUSED ONES GIVEN FREEDOM

PROSECUTING WITNESS UNABLE TO IDENTIFY THOSE WHO SOLD WHISKEY.

Willis Morton of Onslow county, came to the city Sunday morning to visit relatives and shortly after his arrival started out in search of something to quench a thirst which he had been nursing for several days. He succeeded in locating a perambulating "tiger" and there was an exchange of whiskey for money. Later, Morton fell in to the clutches of an officer and volunteered to tell where he got his whiskey. Upon his information Henry Bell and Archie Wallace, colored, were placed under arrest and were yesterday afternoon taken before Mayor McCarthy for identification and a hearing. Morton's memory was rather hazy yesterday afternoon and he could not tell which negro had sold him the whiskey and they were released from custody.

## NATIONAL CHILD LABOR MEETING

TWO HUNDRED DELEGATES ARE EXPECTED TO BE IN ATTENDANCE.

Jacksonville, Fla., March 10.—More than two hundred delegates, representing every State in the Union, are expected to arrive in Jacksonville during the next three days to attend the annual conference of the National Child Labor committee, which opens Thursday for a five days' session. Speakers of national reputation in labor and philanthropic circles are scheduled to address the conference, and to assist in inaugurating a nation wide campaign of education along the line of child labor reform.

Owen R. Lovejoy, secretary of the committee, who has been in Jacksonville for several days arranging details for the conference, has announced that the list of speakers will include Dr. Felix Adler, president of the National Child Labor committee; Jerome Jones, editor of the Journal of Labor; Mrs. Florence E. Kelly, secretary of the National Consumers' League; Frank Tucker, president of the National Conference of Charities and Correction; and Miss Lillian D. Wald of the New York Nurse Settlement.

Child labor legislation, child labor and charitable relief, and child labor in relation to public health and wage scales are among the topics to be discussed. Conditions under which children are employed in various parts of the country will be portrayed by means of a collection of charts and statistical tables.

A feature of the conference will be a series of meetings to be held at a score of homes in the residential district of the city, where specific features of the child labor question will be discussed by conference leaders.

## GOVERNMENT BOATS HERE.

The government survey boats, the Hydrographer under the command of Captain Frank Whitney and the Endeavor under the command of Captain G. B. Boughtell, arrived in port Sunday morning from Beaufort for the purpose of taking on a supply of coal. For the past few months these two vessels have been engaged in surveying Cape Lookout and at present this work is about half completed. They will leave today returning to resume their work. A crew of twenty-five men are on each boat and since the arrival of the vessels in port the crews have spent much of their time sight-seeing.

## GUARD AGAINST FIRE.

The Virginia-Carolina Chemical Company is erecting a large steel water tank at its plant in Jami's City which will furnish water in case of fire. The tank is to be seventy feet above the ground and pipes from it will lead to different points all over the grounds and buildings. The building formerly located on the site now occupied by the new structure was destroyed by fire and the owners are doing everything possible to prevent this occurring again.

# WILL ELIMINATE WHITE SLAVERY

Five Governors Pledge Themselves To Take Matter Up With Law Makers.

ROCKEFELLER VERY ACTIVE

Invites Illinois Commission to Hold Conference With Him In New York.

Chicago, March 10.—Five States contiguous to Illinois will join in a great sweeping movement for the elimination of white slavery and for the ending or mending of such contributory causes as may be found in low wages for women. They are Iowa, Michigan, Wisconsin, Indiana and Ohio.

Lieutenant-Governor O'Hara, chairman of the Illinois Senate Commission on White Slavery, has received communications from the Governors of the States named declaring that in their Legislature they will recommend the appointment of a commission endowed with the same plenary powers as the Senatorial Commission of this State.

"Each commission," said Lieutenant-Governor O'Hara to-night, "will investigate the conditions in its own State, but there will be joint sessions and conferences, and the records of each body will be available to all the others."

Another development of to-day was the acceptance by the Illinois commission of an invitation from John D. Rockefeller, Jr., to visit him in New York for consultation and for the consideration of plans and expedients adopted by Mr. Rockefeller in his single-handed fight against white slavery in New York.

Mr. Rockefeller has offered to defray the expenses of the journal of the commission to New York and back, and the trip will be begun on Tuesday afternoon, so that the conferences in New York may be held on Saturday of this week.

Senator Beall, author of the resolution that created the white slave commission in this State, said to-night: "Business interests and business men will not scoff at this movement with Mr. Rockefeller behind it. They may grind their millions out of the poor working man and women who has to work for their living, while they carry on their smug philanthropies for advertising purposes, but they will hesitate about trying to ride over the movement when it is backed by the money power."

"It is only the beginning, I look for a country wide movement along the same lines. It means the emancipation of hundreds of thousands of white slaves, and the dawning of a brighter day for the women of the world. It is more important than suffrage, for it will have its effect upon the whole race."

This afternoon Senator Beall investigated a number of the wine rooms of the city, in company with a detective. He entered saloon after saloon and back room after back room in the lower district and on the South Side of the city and found thousands of women with men companions.

"I found that there are a number of so-called hotels that are being used by girls for this traffic," said Senator Beall, "and this matter will be laid before the commission."

# CITIZENS WANT SPEEDING ENDED

PETITION AUTHORITIES TO ENFORCE ORDINANCES WITH GREATER STRICTNESS.

Some of the riders of motorcycles and drivers of automobiles have recently grown reckless as to the speed they make in the city limits and a number of citizens have petitioned the authorities to be more rigid in enforcing the ordinance regulating the rate of speed a vehicle may travel within the city limits. Accordingly the officers have been instructed to keep a strict watch and to arrest every person whom they see exceeding the speed limit. Reckless driving has recently caused several accidents and the authorities hope to be able to prevent a repetition of these.

## "FRECKLES" SEEN LAST NIGHT

Piece Clean and Wholesome—Fair-Sized Audience.

"Freckles" was presented before a fair-sized audience at the Masonic theatre last night. The piece is clean and wholesome, and deals with the inevitable moral. The humor, too, is quaint, the philosophy true and the touches of out-door life are delightful. There is also a vein of pathos and of course a pretty love story is woven to a happy conclusion. So many have read the novel that mention of the motive of the piece is unnecessary.

## GUARD AGAINST FIRE.

The Virginia-Carolina Chemical Company is erecting a large steel water tank at its plant in Jami's City which will furnish water in case of fire. The tank is to be seventy feet above the ground and pipes from it will lead to different points all over the grounds and buildings. The building formerly located on the site now occupied by the new structure was destroyed by fire and the owners are doing everything possible to prevent this occurring again.
