## LOST LOVE

Who wins his love shall lose her; Who loses her shall gain; For still his fancy woos her A soul without a stain And memory still pursues her With longings not in vain.

He loses her who gains her Who watches day by day The dust of time that stains her The griefs that leave her gray The flesh that yet enchains her Whose soul has passed away.

Ah happier he who gains not The love some seem to gain! The joy that customs stains not Shall still with him remain. The loveliness that wanes not The love that cannot wane.

In dreams she grows not older The land of dreams among Though all the world wax colder And all the songs be sung. In dreams doth he behold her Still kind and fair and young. —Andrew Lang.

## FALL OF THE INCAS.

Fate of the Great Race That Has Left Only Traces Behind.

What became of the people who built the Cuzco ruins? Were they the ancestors of those stolid and down-trodden Indians whom we see today peddling their rude wares in the market place of Cuzco? Mr. Bryce discusses the question in his "South America." He says: "The sudden fall of a whole race is an event so rare in history that one seeks for explanations. It may be that not only the royal Inca family, but nearly the whole ruling class, was destroyed in war, leaving only the peasants, who had already been serfs under their native overlords. But one is disposed to believe that the tremendous catastrophe which befell them in the destruction at once of their dynasty, their empire and their religion by fierce conquerors. Incomparably superior in energy and knowledge, completely broke not only the spirit of the nation, but the self-respect of the individuals who composed it.

"They were already a docile and submissive people, and now under a new tyranny, far harsher than that of rulers of their own blood, they sank into hopeless apathy and ceased to remember what their forefathers had been. The intensity of their devotion to their sovereign and their duty made them helpless when both were overthrown, leaving them nothing to turn to, nothing to strive for.

"The conquistadores were wise in their hateful way when they put forth the resources of cruelty to outrage the feelings of the people and stamp terror in their hearts."

The Education of a Gentleman. Friday afternoon was "debate day" in a school. On that afternoon classes after 2 o'clock were let go, and the assembling school listened to stily spoken pieces of poetry and addresses to gladiators. Then came the climax, the debate when world issues were settled for once and all. The speeches were after the pattern of this one, which one teacher recalls:

"Mr. Chairman, ladies and gentlemen, I rise to defend the affirmative of the question whether it is better to have wealth or education. Mr. Chairman, if you was to get a kiss letter from a lady and couldn't read it, wouldn't you just feel like going away and dying? I close now to give place to an abler speaker."—New York Post.

## A Proverb Scrutinized.

"A prophet is not without honor save in his own country," said the man who complains. "Well," replied Farmer Corntassel, "that's one way o' sayin' it. You might also mention that it's easier for a man to sell a gold brick in a town where they don't know him."—Washington Star.

## A FEW POINTS IN FAVOR OF THE PITTSBURG VISIBLE TYPEWRITER.

There is not the least doubt but that THE PITTSBURG VISIBLE TYPEWRITER is the best low priced machine on the market today. It is durable, attractive and light. Its simplicity is marvelous. There are no complicated parts to get out of order. It is like an open book. If something clogs, you have only to make a few turns with a screw driver, remove the part causing the trouble, clean it off, replace and go ahead. It is the only machine in the world on which the set of type and type bars can be taken apart from the machine in less than ten seconds. This feature alone is worth many dollars as a time saver. It is the only machine now on the market with which twenty legible typewritten copies can be made at one writing. The ribbon control is automatic, the color change is simple and convenient, the back spacer and tabulating key are within an inch of the operator's hands when using the machine. The type are lined in a symmetrical row in front of the operator and are easily cleaned. Strong piano steel wires control the type bars and it is impossible for these to break. The machine is so constructed that the lightest touch or the vigorous pound used in heavy manifolding have the same effect on the mechanism. Call at the office of the E. J. Land Printing Company and take a look at this wonderful machine. Price \$65.00 on the easy payment plan.

# GETTING UP STEAM

Do you know what we need in booming this town?

## WE NEED STEAM.

We should organize all the men into a GREAT ENGINE OF PROGRESS and then get enough steam in our boilers to make the thing go.

The locomotive has transformed the world, has peopled the wilderness, built great cities, carried civilization to the ends of the earth, made trade boom all around the planet.

It has done these things because it has POWER, because it MOVES. It is an iron and steel harness placed on the force of steam. It is organized to go in definite directions and perform definite tasks.

We need to HARNESS HUMAN STEAM, to give it the same definite directions and tasks to perform.

To build a human engine that will pull this town up the road of progress we must all work together. We must organize so that each man will have his allotted part of the load; then we must get up the steam of energy, pull open the throttle and move things.

## Toot-toot! All aboard the boosting train!

Now, all together! Pull for new people, new business!
