"LEND A MILLION."
Method of Negotiating Loans in New York's Stock Exchange.
The machinery of lending money on the New York Stock Exchange is very different from the machinery of making individual loans. On the Stock Exchange all loans are handled by brokers, members of the exchange, who represent the banks. These brokers form what is known as the "money crowd," which on a day of 50 per cent money becomes rather animated. Nineteenths of the money loaned on call by banks is loaned by these brokers. When a bank has \$1,000,000 to lend on call the cashier calls up his money broker on the exchange and says curtly to the telephone clerk, "Lend a million." The clerk rushes the order to the broker, who offers the \$1,000,000 to the highest bidder in the "money crowd" in much the same way as a broker on the Chicago board of trade would offer 1,000 bushels of wheat.
In an active money market the \$1,000,000 will be snapped up in a minute. In that case the cashier will be called up on the telephone, to hear the money broker's clerk say hurriedly, "Loaned a million for you to John Smith & Co. at 6 per cent." The giving and filling of such an order take only five minutes. In an 80 per cent money market, when brokers are clamoring for money, it may be done in two minutes.
The broker's connection with the transaction ends when he has notified the bank of the borrower's name and the rate agreed on. The borrower takes his collateral to the bank, where an officer passes upon it after it is properly checked up by the loan clerk, and a cashier's check is then given for the amount of the loan. Whether the borrower pays 2, 6, 20 or 80 per cent for his money depends wholly on the amount there is to lend and the extent of the demand. If \$25,000,000 has been sent to the "money crowd" to put out and speculation is so dull that only \$10,000,000 is required to carry the stocks bought it is safe to say that the borrower will pay only 2 per cent.
During a period of extremely easy money rates thousands of loans are made on call at 1 per cent and sometimes one-half of 1 per cent. If, on the other hand, the Stock Exchange members wish to borrow \$50,000,000 and the banks offer that day only \$10,000,000, as they often did in panic times, the borrower may have to bid as high as 80 per cent for his money. At that rate he would pay \$2,222 a day for the use of the \$1,000,000. — New York Post.

Paint Heart Lost a Royal Lady.
Fifty years or so ago the Grand Duchess Olga, the beautiful favorite daughter of Czar Nicholas I., was on the point of eloping with a handsome young lieutenant, Bariatinski, when at the last moment her swain's heart failed him. Dreading the emperor's anger, he made a clean breast of the whole affair to his majesty, with the result that the impulsive young princess was married posthaste to the distinguished Prince Charles of Wurtemberg, while the "faithless lover" was rewarded by such rapid promotion that he was a field marshal before he reached his fiftieth birthday.

Many Kinds of Days in One.
A mean solar day is the average or mean of all the apparent solar days in a year. Mean solar time is that shown by a well regulated clock or watch, while apparent solar time is that shown by a well constructed sundial. The difference between the two at any time is the equation of time and may amount to sixteen minutes and twenty-one seconds. The astronomical day begins at noon and the civil day at the preceding midnight. The sidereal and mean solar days are both invariable, but one day of the latter is equal to 1 day, 3 minutes and 56.555 seconds of the former.

Buried Upside Down.
On Box Hill, in Surrey, may be seen the tomb of a man who was, by his own special request, buried upside down in a coffin placed in a marble casing. With his head to the earth and his feet to the sky he calmly awaits the judgment day, so the story runs, in the belief that heaven is under the ground and that, believing this, it was his duty to be buried with his head toward it.—London Tit-Bits.

Quick Mustard Plaster.
A trained nurse says that if one forgets the exact proportions for making a mustard plaster one can be quickly made by cutting a thick slice of bread, dipping it for just a second in hot water, then spreading with white of egg and sprinkling thickly with mustard. The egg will prevent blistering.—New York Times.

The Plot.
"What is the plot of this play?" asked the manager.
"It isn't complete," replied the author. "The plot is to get a lot of people to pay \$2 each to see it, and I think we'll do it if you will come in on the conspiracy."—Washington Star.

Her Grief.
He—Why don't you give me a dance before midnight? Young Widow—Well, you see, at 11:30 tonight it will be a year since my husband died. I must honor his memory properly and not dance until after the year is up.—Flagg's Blatter.
Ahead and Behind.
Wife of Dentist Cri Artist—Poor Edgar! He's 100 years ahead of his time. Landlord—I can't help that. He's three months behind in his rent.—Life.
Sin and penalty go through the world with their heads tied together.—Flate.
