WITHOUT AN ANSWER.

An Old Proposition. "To settle an argument kindly answer the following question: If an irresistible force were to come in contact with an immovable body, what would be the result?" The answer cannot be thought in the present limitation of the human mind. We cannot even commence to think of any infinity whatever. An irresistible force is an infinite force and cannot be thought of in any property it may have by any phase of mind functioning in any brain. An immovable body is infinitely still or its rest is absolute, and mind in brain cannot think of the absolute. For a body to be at absolute rest it must be the only one in existence, for if there are two in space attractions will cause both to move. But if one body only existed then finite mind cannot know whether it is immovable, because we cannot know whether force is outside. Only creative mind can know this. With only one body in infinite space, then finite mind could not discover whether it is at rest or in motion, having no other object with which to compare it. The two words rest and motion would become meaningless. And humans cannot at present think of infinite space nor two points in space. Impossible unless matter occupies these two points. Then the word space could not apply to these points since they are occupied.—New York American.

TAKE PLENTY OF TIME TO EAT. There is a saying that "rapid eating is slow suicide." If you have formed the habit of eating too rapidly you are most likely suffering from indigestion, or constipation, which will result eventually in serious illness unless corrected. Digestion begins in the mouth. Food should be thoroughly masticated and insalivated. Then when you have a fullness of the stomach or feel dull and stupid after eating, take one of Chamberlain's Tablets. Many severe cases of stomach trouble and constipation have been cured by the use of these tablets. They are easy to take and most agreeable in effect. Sold by all dealers. (Adv.)
