

GARDEN SAGE DARKENS GRAY HAIR SO NATURALLY NOBODY CAN TELL.

Restores Its Lustre, Prevents Scalp Itching, Dandruff and Falling Hair.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. While it is a messy, tedious task it will repay those whose hair is turning gray, faded and streaked. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks dry, wispy and scraggly just an application or two of Sage and Sulphur enhances its appearance a hundred fold. Don't bother to prepare the tonic; you can get from any drug store a 50 cent bottle of "Wyeth's Sage and Sulphur

Hair Remedy," ready to use. This can always be depended upon to bring back the natural color and lustre of your hair and is the best thing known to remove dandruff, stop scalp itching and falling hair. Everybody chooses "Wyeth's" Sage and Sulphur because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush and draw this through the hair, taking one small strand at a time which requires but a few moments. Do this at night and by morning the gray hair has disappeared and after another application it becomes beautifully dark and appears glossy, lustrous and abundant. It certainly helps folks look years younger and twice as attractive, says a well-known downtown druggist.

DOCTOR TELLS OF AGONY OF BLIND

LONG ISLAND PHYSICIAN OPERATED UPON, REGAINS HIS SIGHT.

New York, June 3.—The tale of three years of slowly deepening shadow, three weeks of sudden darkness, and then the joy of sudden light gained through a successful operation for double cataract was told to a reporter by Dr. A. P. Van Deine of Sayville L. I., whose happiness at his own recovery was almost unspeakable.

All day long the doctor was searching the faces of friends and patients with eyes peering from behind big double lenses and then, with the simple satisfaction of a child, telling them their names and dilating upon his ability to do that most marvellous of all things—to see!

Dr. Van Deine was operated on at his own home and office on Main street on May 11 last by William O. Moore, emeritus professor of eye diseases in the Post Graduate Medical School and Hospital, who lives in Sayville and has an office in Manhattan.

Three weeks ago, his sight practically gone, he submitted to the operation.

The story from then on is best told in his own words.

"I am the happiest mon on Long Island," he began.

"I have no words to describe those three weeks after they put layer after layer of bandages on my eyes. I'll bandage people more gently after this. Darkness was just a word to me before—but each one of those days as I asked myself, 'will I see or am I blind, forever blind?' The time seemed endless. It makes me think of those lines of Macbeth:

"Is this a dagger which I see before me,

The handle toward my hand? Come, let me clutch thee!

I have thee not and yet I see thee still!

"It was just as though there really were a dagger there at my eyeballs.

"Then they took off the bandages. Still in the dark, I lay there speculating, could I see?

"They didn't dare let me try all at once, and, besides, I had to have powerful glasses.

"Yesterday they gave them to me. That moment when I put them on is indescribable. I saw! I fairly want to shout it. I SAW. First dim, vague objects, then outlines—then I began to learn to see all over again. I was wild with joy."

TO WHOM IT MAY CONCERN:

For the purpose of an audit and verification of the books and accounts of the city of New Bern, N. C., you are respectfully requested to send in to us promptly, in care of the City Clerk, a statement, showing date, item and amount of any account you may have against the city or any of its departments to May 31, 1913, i. e.

If you hold unpaid warrants to cover any such items, show number and amount of each.

birth of a child.

Mrs. Keen is the first teacher to be dismissed on the charge of neglect of duty when this charge has been made against teachers for having children. The case against Mrs. Edgell, who had a boy born last week, will not be decided until she applies for reinstatement.

LABORATORY TO EXPLAIN CRIME

USE BLOOD TESTS IN ANALYZING LINK BETWEEN DISEASE AND CRIME.

Chicago, June 3.—William Duncan M. Nally, chief chemist of the Health Department, has been appointed by Coroner Hoffman to the post of chief chemist of the newly established Coroner's laboratory. The laboratory is expected to prove a great factor in determining the causes of crime. Blood tests will be made of persons convicted in the Morals Court to determine if disease was a contributing cause of their downfall.

Not only will an effort be made to learn with scientific exactness the link between crime and disease, but the blood tests are to pave the way to cures of the diseases which are causing the tendency to crime. Careful comparisons will be made of the results of blood tests of different persons accused of the same type of offense. This will be done with minuteness in cases of persons convicted of crimes where moral degeneracy played a part. In addition, chemical analysis will be used in the ferreting out of crimes of all kinds.

"The establishment of this laboratory long has been needed in this city," said Coroner Hoffman. "It will be invaluable in poison cases and in determining the question of human blood as distinguished from that of animals. Last year I had an number of ptomaine cases in which it was impossible to thoroughly investigate because of the lack of a laboratory.

"I have no doubt that many cases reported to me as ptomaine poisoning might have been caused by other poisons or by disease. That is where the laboratory will prove its worth. It won't be possible to be mistaken about a poison case when the chemist gets through.

"The laboratory also will take up the work of analyzing the soaps, flour and other foodstuffs used in the county in-

situations. The Coroner's office last year spent \$2,500 in chemical examinations of county foodstuffs. This work will now be done better and more cheaply in the Coroner's laboratory. "Why father and big brother go wrong" will be the subject of a new investigation here on Friday when the Illinois Senatorial Vice Commission, which has just completed an exhaustive inquiry into the causes of immorality among working girls, will question 100 male witnesses as to the causes of vice in the workingman classes.

LONG SLEEP OF WALKER ENDED

VICTIM OF AUTO MISHAP REGAINS PARTIAL CONSCIOUSNESS—CONDITION GOOD

Richmond, June 3.—T. J. Walker who was dangerously injured in the automobile accident which caused the death of A. B. Willingham May 13th at the Country Club, has regained consciousness at St. Luke's Hospital and his physicians are very hopeful of his ultimate and complete restoration.

While Mr. Walker's mental state has improved, he cannot yet talk coherently for any length of time. To simple questions he can return intelligible monosyllabic answers.

It was stated at the hospital that his condition is more hopeful now than at any time since the accident. For nearly three weeks Mr. Walker's condition has caused the gravest concern among his friends while he lay unconscious, hovering between life and death at the hospital. Mr. Walker's prolonged unconsciousness was said by the physicians to be due to a blood clot which formed on the brain as a result of the severe blow he received on the head when he was thrown from the automobile.

Following the verdict of Coroner Taylor's jury, which charged that the automobile in which Mr. Willingham was killed, was going at "unlawful and reckless speed," a warrant was issued against Lee Bell, the chauffeur, by Magistrate T. J. Puryear, of Henrico county.

The warrant against Bell has not yet been served, and it was stated by the Henrico authorities that all action in the matter was held up pending the recovery of Mr. Walker. Bell was able to leave the hospital a few days ago.

No warrant has been issued against Walker, although it is said that the matter will be thoroughly investigated and every detail of the accident brought out in court when the case of Bell is heard.

SALLOW COMPLEXION comes from bilious impurities in the blood, and the fault lies with the liver. It is torpid.
SIMMONS RED Z LIVER REGULATOR
(THE POWDER FORM)
Is the greatest of all liver medicines. Its powerful purifying and strengthening influence is at once apparent in an improved appetite, good digestion and a feeling of strength and energy in the body. When the system has been put in order the yellow cast in the skin gradually disappears and the complexion becomes clear and healthy.
SOLD BY DEALERS. PRICE, LARGE PACKAGE, \$1.00.
Ask for the genuine with the Red Z on the label. If you cannot get it, remit to us, we will send it by mail, postpaid. Simmons Liver Regulator is put up also in liquid form for those who prefer it. Price \$1.50 per bottle. Look for the Red Z label.
