NEW BERNE, N. C., APRIL 1, M

The Golden Sunset.

- BT H. W. LONGFELLOW. The golden sea its mirror spreads Beneath the golden skies, And but a narrow strip between, Of land and shadow lies.

The cloud-like rocks, the rock-like cl Dissolved in glory float, And midway of the radiant flood, Hange sitently the boat.

The sky a sea as well, And which is earth and which is The eye can scarcely tell.

So when for us life's evening he Soft Inding shall descend, May giory, born of earth and I

With allent rapture glow, Till where earth ends and Heaven begins The soul shall scarcely know.

Fashious and Physiology. BY J. MILNER FOTHERGILL, M. D.

ern modiste, just as it inspired her medieval predecessors in the days of the farthingules and stomachers.

History repeats itself; and so does fashion to its ceaseless round of registion common sense rarely gets an opportunity, and then never for an opportunity, and then never for log. Fashion oscillates extremes, and only now and then happens to cross the line of common-sense; from to ing on one side it soon passes to the other. Paris is responsible for fash-

it pusses steadily on till it reaches the opposite extreme. Grinolines came in with the physical used of a great personage; now for some time skirts has been so stait that it is impossible for the wearer to step cut properly, and as to runing—well, the less said spout that the petit; though we are passing through a phase of laws tennis. When some person's hair grew thin she adepted "pads" and fails half is filled built to ke out her scanty locks; and, prestol every woman, whether a hopping. Take the most recent fashion of shoes. The heel of The human begins a said spout of the hair notwithstanding.

Take the most recent fashion of shoes a lady's possible to observe the will have a depted "prestol of the hair notwithstanding." Take the most recent fashion of shoes. The heel of The human begins in size and has decided that the heel of the bott or shoes shall get as near the centre of the instep as possible. Instead of the weight of the bridy resting upon atts. In order to poise the body on these two points, a hend forward is necessitated, which is regarded as the correct stringle of the "form divine" It is should be a head of the prevents laughter in front of a head of the weight of the bridy resting upon atts. In order to poise the body on these two points, a hend forward is necessitated with a broad of the weight of the bridy resting upon atts. In order to poise the body on these two points, a hend forward is necessitated by the high resting upon stitls. In order to poise the body on these two points, a hend forward is necessitated which can stand this strain without yielding and it is quite common to see young ladies valking along with their saluks triating along with their saluks and contained to the rose and the weig without yielding; and it is quite com.

C. E. FOY,

mon to see young ladies walking
along with their ankles twisting all

DIRE ways, or perhaps with the sole of their shoe or boot escaping from under and the lide of the heel in contact with the ground. With such modern improvements on sandals (which allow the feet perfect freedom the lide of the heel in contact with the ground. With such modern improvements on sandals (which allow the feet perfect freedom the lide of the heel in contact with the ground. With such modern improvements on sandals (which allow the feet perfect freedom the lide of the heel in contact with the ground. With the ground the lide of the heel in contact with the ground. With the ground the lide of the heel in contact with the ground. With the ground the lide of the heel in contact with the ground. With the ground the lide of the heel in contact with the ground. With the ground the lide of the heel in contact with the ground. With the ground the lide of the heel in contact with the ground. With the ground the lide of the heel in contact with the ground. With the ground the lide of the heel in contact with the ground. With the ground the lide of the heel in contact with the ground. With the ground the lide of the heel in contact with the ground the lide of the heel in contact with the ground the lide of the heel in contact with the ground the lide of the heel in contact with the ground the lide of the heel in contact with the ground the lide of the heel in contact with the ground the lide of the heel in contact with the ground the lide of the heel in contact with the ground the lide of the heel in contact with the ground the lide of the heel in contact with the ground the lide of the heel in contact with the ground the lide of the heel in contact with the ground the lide of the heel in contact with the ground the lide of the heel in contact with the ground the lide of the heel in contact with the ground the lide of the heel in contact with the ground the lide of the heel in contact with the ground the lide of the heel in contact with the ground the lide of the heel in contact with the ground the lide of the heel in (which allow the feet perfect freedom and play) the present mademoiselle, when she attempts to run, is a spectacle at which the gods—well, not quite that, but at which her mother might

Then, again, what has physiology to say to evening dress? Decency hid her head in shame long ago at low dresses, and has been allent. Physiology says such dresses are s violation of the laws of health. Let it be granted they do not entail much harm in the heated atmosphere of din.ng-room and drawing-room, yet what of the drive back ward and forward, even with the help of number.

What of the drive back ward and forward, even with the help of number.

What rugs and wraps? What remarks Berne Wednaday afternoon. The Contenties will go to Vanceboro every Thursday morning.

A. G. Barrays, Polloksville; J. L. Krysey, Thursday, Polloksville; J. L. Krysey, Thursday, Charter of the contenties of the con and of unprotected lungs injured thereby? It beseems us not to pa-rade the horrors of "a drawing-room" here; but the fact is well enough known, that many a residence along the shorts of the Mediterranean has been the long outcome of such expos

Whether it be that he is a leas methetic creature, or that convenience presses more strongly upon him then preses more strongly upon him then upon the gentler sex, man certainly escapes the grave changes of dress seen in the other sex. He mildly oscillates from the weakness of pegtops or knickerbookers to continuations of him limit character, where the property almost conceal the boot, as is the apparently permanent fashion with our blue-jackets. The lapel of the coat covers the tip of the langer he coat covers the tip of the lung

est where the low dress leaves it exbesed, as if inviting disease to settle there. The shirt-front is exposed in a very liberal manner in main; but a vell-statohed lines shirt front is no had protection against a rude blast, purovided the exposure he not too produnged.

Even when there is no low dress, upper portion of the chest in wocorset there is nothing but brdy over the tender skin. er, my connection with a ir diseases of the chest tells what about female underr perhaps rather the want in private practice, too, oppor-ties are afforded for observation of the scanty and utterly insufficient under-clothing worn by many whose means do not prevent their induleuce in proper raiment. A thin pemise is often all that is worn unir the corset, even in the coldest of weather. It is a perilously pernicious practice. If ladies would only wear omething approaching the merino sets, etc. seen in gentlemen's hosiers' indows, they would not require the Fashions and physiology are not heated rooms at pressent rendered need together from their associations are from the insufficient attire cessary from the insufficient attire win vogue. To be sure, this ad-The spirit of unreason seems to in. It is of heavy over clothing being a jee the inventive genius of the mod. da or heavy over clothing being es, furs, furs trimmed with fur, and all the paraphernalia of costly outer aftire in which the female beart rejoices. But stouter clothing would be far, far better, in every way. It would admit of lighter outer-clothes, and he compatible with a healthy small, even for those who are not un-

familiar with a carriage, -ions. The taste of the French governs the world The French give the world The French, if they have charm to the form."

Whether the amelicity or the mendactive them, In politics they pass from Republicanism to Casarism;

Taris is responsible for fashthe table the greater while their graveful shape the mendactive the amelicity or the mendactive. Republicanism to Casarism;

The taste of the French governs the strench shape may be a matter on which opinions can differ, the magnitude of each befrom Democracy to Imperialism. So, when the pendulum of fashion be gins to swing back from one extreme; it passes steadily on till it reaches the opposite extreme. Crinolines came the opposite extreme the opposite extreme. Crinolines came the opposite extreme the opposite extreme the opposite extreme. Crinolines came the opposite extreme the opposite extreme the opposite extreme the opposite extreme. Crinolines came the opposite extreme the opposite extrem
