LOCAL NEWS.

Easter Sunday.

Some splendid stall-fed Hyde county beef in market yesterday.

Only one marriage license issued by the Register of Deeds during the past week.

Eggs sold from the market stands at twelve cents yesterday. Ten cents offered by the dealers.

Baptism at the foot of Broad street this morning immediately after service at the Baptist church.

Rev. S. H. Isler of Goldsboro passed through the city yesterday en route for Croatan where he is to preach to-day.

Rev. F. W. Eason, pastor of the Baptist church, returned from the Sunday school convention at Raleigh on yesterday morning.

In the mention of the brick yesterday brought from Philadelphia, it was Mr. Isaac Patterson, instead of Moses Patterson, to whom they were consigned.

Capt. John Richardson is a model conductor. He came up yesterday from Morehead with several bunches of flowers which he distributed unto his lady friends.

We are pleased to learn from Rev. N. M. Jurney, who passed through the city yesterday from Toisnot, that Rev. Dr. Closs, who has been quite sick recently, is improving.

The city treasurer, Thos. Daniels, has ordered a safe, in compliance with instructions from the Board of Councilmen for the purpose of keeping the city records in. Its dimensions are, outside sixty-nine inches high, thirty-nine wide and thirty-two deep; on the inside, forty-eight inches high, twenty-six wide and sixteen deep.

We think this a very sensible move on the part of the Board. Lost records is a source from which numerous and costly troubles flow, as is beginning to be the case in Lenoir county.

The Cotton Factory.

A gentleman of large means and experience as a manufacturer of cotton is daily expected, who will take an inventory of the machinery in the cotton factory, the necessary machinery to buy and replace old, etc., with the view of setting it in successful operation by the early fall. —New Berne Commercial.

Consignees at the Midland Depot.

Freights arrived on Saturday morning for the following parties:

E. D. Arthur, G. N. Ives, B. B. Lane, N. Butler, S. H. Gray, Hackburn Bros., C. E. Foy, Order of W. H. Borden, Geo. Allen & Co., Chas. White, John Detrick, John Suter, National Bank, Midland Improvement and Construction Co.

Skilful Physician.

Mr. Lemuel E. Hardy, of Greene county, was in the city on Friday and Saturday, to consult Dr. Charles Duffy. He has been troubled with partial paralysis for about twelve months; and some time ago, by advice of his local physician, Dr. Harvey, he came to New Berne to consult Dr. Duffy. He expressed himself as highly gratified with the Doctor's treatment, and says he has made a new man of him.

Press Association.

We acknowledge receipt of transportation tickets over the Wilmington & Weldon, Seaboard & Roanoke and the Midland railroads, to attend the Press Convention at Elizabeth City on the 26th of this month. Thanks for the courtesy; but a new daily keeps its editor too busy to allow him to find time for much recreation. The North Carolina Press Association has our best wishes for its pleasure and usefulness.

Corn market.

Corn is worth 80 cents in Elizabeth City, says the Economist. In New Berne it is selling for 85 and 86 cents in bulk. The corn trade of New Berne is immense. We had no idea of its magnitude until personal observation, since our coming here, revealed it to us. And so long as the market here keeps up to its present comparative standard, there will be no trouble in drawing this great staple here. Good business men are the life of a community and the corn merchants here are deserving of that title.

New Marine Railway.

Parties representing Northern capital have been looking at and examining into the advantages and facilities of New Berne for the establishment of a ship yard and marine railway on a large scale for the construction of sailing vessels and steamers adapted to our coast, sound and river trade, and for all kinds of marine work and repairing, and if such parties are entirely satisfied

of the completion and full success of the New Berne Canal, they state that the work will be projected on a large and comprehensive scale. —New Berne Commercial.

Presbyterian Church.

Daily services have been maintained in this Church, during the past week, at 9 a.m. and 7 p.m. Rev. B. F. Marable, of Mt. Olive, N. C., has been assisting the pastor, Rev. L. C. Vass. He preaches every night, and presents the claims of the Gospel on men, and the blessings of salvation, with great clearness and impressiveness.

He will preach to-night (Sabbath) on "The Doctrine of Free Grace." The Communion of the Lord's Supper, and the rite of Infant Baptism, will be administered this morning. A cordial invitation is extended to the public to attend all these services, and consider the seats entirely free to all. Preaching at 11 a.m. and 7 p.m., and prayer meeting at 4 p.m.

Mercantile Business of Craven.

By reference to the purchase return book of Craven county, we find the total amount of purchases returned, for the six months ending December 31, 1881, to be \$554,246. Counting the Spring purchases to be about the same, which they undoubtedly are, as some merchants make heavier purchases in the Spring than in the Fall, we will have in round numbers \$1,000,000 invested in the trade in Craven county during the year 1881. About 20,000 bales of cotton were sold here during the past season, which, at \$45 per bale, brought about \$900,000. This leaves, in order to pay the merchants' purchases, \$100,000, to be paid by the corn, truck, rice and naval stores, etc., etc., which we think will exceed that amount. With this view of the matter we can safely say that the mercantile business of Craven is in a healthy condition.

Among the largest purchasers, ranging from \$10,000 and upwards, we note the following:

T. A. Green, \$50,749; G. M. F. Dail, \$27,069; Chas. H. Blank, \$25,011; C. E. Foy, \$23,000; Geo. B. Guion, \$20,847; F. Ulrich, \$20,668; Hackburn Bros., \$18,700; Alex. Miller, \$10,000; Asa Jones, \$16,000; A. M. Baker, \$11,000; Thos. Gates, \$11,800; L. H. Cutler, \$12,246; Humphrey & Howard, \$11,978; K. R. Jones, \$11,500; Jas. Redmond, \$14,225; Reel & Bros., \$12,500; Geo. Allen, \$11,750; Roberts & Bros., \$17,000.

Kinston Items.

The Kinston Free Press has made its appearance. It promises to be a sprightly, new paper.

The "Bagby will case" was tried at Greene Superior Court this week and resulted in verdict "to establish the will."

The case of Kennedy vs. Williams from Lenoir came up before Judge Gilmer at Greene Court on Thursday and affidavits filed. Decision will be rendered at Lenoir Court.

Mr. Haskell who formerly resided with Mr. Webb in Kinston, but who for the past fourteen months has been on a visit to his son at Little Rock, Ark., has returned to Kinston again. On his return he passed through a portion of the inundated district, and saw something of the devastation made by the mighty flood.

"There was a man in our town" who recently stopped at a bar to lubricate the inner man leaving his horse and buggy standing, without the hitching post being fastened to the horse; the buggy ran away with the horse, in a short distance the horse became disgusted with the affair and went on by himself, while the buggy proceeded to turn "summer saults" in the street.

La Grange Items.

The merchants are complaining of hard times.

M. H. Wooten has a field of wheat containing several acres that he says will average knee high. Can this be beaten in the township or county?

Guy W. Pope is agenting in the interest of the St. John Sewing Machine Company. The manufacturers claim that this machine is superior to all others.

I have heard that the time price for corn at this place is \$1.15 per bushel. The farmer who fails to raise his supplies, or makes an effort to do so, may expect to pay "big prices" for corn, etc.

Mrs. Lou Lassiter commenced planting cotton on Tuesday or Wednesday of this week. Mrs. Lassiter has been the first, or about the first, to exhibit a cotton bloom in this township for the last year or two. If early planting is any sign she will be among the first again.

Mrs. Dr. M. Smith lectured, or read, to the people of this place, on Wednesday night, about the bad treatment of

the Indians. The lecture was not very highly spoken of. Dr. Smith was to lecture last night on Utah and Mormonism, but left unceremoniously yesterday morning.

[Correspondence of News and Observer Railroad Meeting in Greene County.]

SNOW HILL, April 5, 1882.

To-day is the third day of Greene Superior Court, Judge Gilmer presiding. Mr. Jonathan Havens, of New Berne, in behalf of Mr. W. J. Best, presented a proposition to the good people of Greene for the building of a railroad from Kinston to Snow Hill via Hookerton, thence a branch to Greenville, and another to Wilson. Mr. Havens presented Mr. Best's proposition in a pointed and business talk of thirty minutes, after which he read a proposition to the people of Pitt county, which was in substance that Pitt county should confer with the county of Lenoir on the 14th on the subject, and subscribe \$50,000 to the road, payable in county bonds, running twenty years, and that Greene county pay in the same proportion, which would be about \$50,000. That would be seven and a half cents on each poll per annum. This money is not to be paid until the work is finished.

After Mr. Havens had spoken, Messrs. L. J. Moore and J. F. Wooten made a few telling remarks showing how easily the road could be built, and the benefits that the people would derive from it.

On motion, Dr. W. J. Jones was called to the chair, J. D. Grimsley was appointed secretary, and the house resolved itself into a railroad meeting. Dr. Jones made a few eloquent remarks showing the prosperity of the county. The product in cotton alone is 15,000 bales, 6,000 of which were handled in Snow Hill, and that the saving in difference of transportation and delays in getting to market in one year would more than pay the entire interest on the bonds.

On motion of Capt. Darden, there were appointed to meet Mr. W. J. Best and the Greenville and Lenoir delegation in Kinston, on the 14th of April, to confer and make preliminaries, two from each township, three from Snow Hill and two from Hookerton.

Mr. Havens has proved an excellent agent in starting the ball in favor of this new enterprise; and the enthusiasm displayed in connection with it is largely owing to his admirable presentation of the subject. The road, if built, will pass through a fine section, now greatly needing these additional facilities.

D. R. WALKER.

A Case of Varioloid.

A case of the above disease occurred on board of the brig *Cora Green*, which arrived here from New York on Monday last, and as soon as the fact was discovered the vessel was ordered to quarantine and the patient placed in the hospital at Mt. Tirzah, some four or five miles below the city, where he is now receiving proper attention, and is expected to be well in a short time, the crisis having passed. The captain and crew of the brig were vaccinated as a precautionary measure. The vessel and crew will be kept at quarantine until all danger from the disease is over, having been sent down the river Wednesday night. This is the first and only case, and the promptness with which it was taken in hand relieves the community of all apprehension in regard to it. —W. L. Star.

Why Not Tell the Truth.

Craven county was largely represented at the Goldsboro Convention on the 29th. They all had a railroad return ticket for \$1. round trip. I made the arrangement for them. Some of them returned home from the Convention and reported throughout this city that the Convention was a bust and a failure.

Now, I appeal to you, brethren, professing to be Christians and members of the Church of the true and living God to go out before the people and tell them that you have reported an untruth. Then, go down upon your knees, and ask your Maker to forgive you. If not, the devil will surely get you when you die. I. B. ABBOTT.

—New Berne Lodge.

A Great Work.

Through our old friend J. J. Roberson, of New Berne, who has been in the city for a day or two past, we learn that there has been a most extraordinary revival of religion in that place, which has extended to several of the churches, and is still in progress. It commenced in the Baptist Church, where its effects were most marked and encouraging, but bids fair now to be equally productive of good results in the Nouse street Methodist Church, under Rev. Dr. Burkhead. A large number of the most prominent citizens, including several of the oldest of the ante bellum residents, are among those who have made a profession of religion. —W. L. Star.

STATE NEWS.

Gleaned from our Exchanges.

—Durham is agitating the Graded School.

—There were thirty arrests made in Wilmington by the police during March.

—W. L. Review: Steamboatmen report the river as falling rapidly, and getting disagreeably low on the shoals.

—At 12 o'clock to-day the thermometer in this office stood at 68 degrees, which is two degrees above Summer heat. —The electric fire alarm which is to be attached to the fire alarm bell on Fourth, between Market and Dock Streets, is expected to arrive some time next week.

—Chatham Record: Mr. S. P. Teague, of Matthews township, has sent to the Record's museum some peach blossoms that are as white as cherry blossoms. They are the first white peach blossoms that we have ever seen. —Mr. B. E. Webster, of Hickory Mountain township, informed us last week that some stalks of his wheat and oats were heading. Who ever before heard of wheat or oats in this county heading in the month of March?

—Tobacco Plant: Mr. J. S. Carr and Sheriff Blackwell have fitted up a pond one and a half miles above Durham and will stock it with the choicest fish.

—Col. W. T. Blackwell is erecting ten handsome residences on Railroad street, west of the factory. Mr. Wilson, of Wilson's Mills, is the contractor. The frames are going up. —Judge Graves opened Orange court Tuesday. He was one day behind and there was much complaint on account thereof. The grand jury was drawn, charged, the docket called over and court adjourned till Wednesday morning.

—Newbernian: The steam dredge has been employed during the week cleaning out and deepening the channel of Meadows' grist mill wharf. —The machinery of the Revenue Cutter Stevens is undergoing slight repairs. —After much talk and no action the matter of a bridge across Neuse river has been indefinitely postponed; the people do not as yet seem to realize the great importance of this subject. —During the past week men have been employed in working on the wreck of the steamboat Deer, at Ellis' wharf, securing what machinery was left. This vessel was burned February 26th, 1879.
