

THE LATEST NEWS.

FROM ALL PARTS OF THE WORLD

FORTY-SEVENTH CONGRESS.

FIRST SESSION.

Reported Exclusively for New Berne Journal.

SENATE.

WASHINGTON, April 11.—Mr. Grover, from the Military Committee, reported an original bill (as substitute for pending measure) authorizing the Secretary of the Treasury to examine and report to Congress the amount of all the claims of Texas, and Oregon, Nevada, Washington and Idaho Territories, for moneys expended, and the indebtedness assumed by said State and Territories because of Indian hostilities. Placed on calendar.

The Senate then took up the calendar, and passed a number of private bills.

The Indian Territory Railroad bill, granting right of way to the St. Louis & San Francisco Railroad, coming up as unfinished business, Mr. Hawley denounced it in the amended form in which it came from the Railroad Committee, as an attempt to violate the treaty rights of Indians upon pretext of ratifying an act of the Choctaw Council. He said the bill proposed to seize their lands without providing any system for adjusting the rate of compensation therefor. He could conceive of emergencies in which the United States would have the right, in proper legal sense of that term, to pass legislation in contravention of the treaty, but that duty required it to exhaust all other remedies before going to that extremity. He denied that remedies had been exhausted in this instance, and asserted that in setting apart a strip of Indian country for railroad purposes, Government was overriding its uniform practice heretofore. "My chief concern," he added, "is not because I see Indians wronged, but that my Government, under treaty with twenty or thirty thousand Indians, will do that which it would not dare to do under treaty with Great Britain. I want Uncle Sam to be a gentleman, and that is all."

Discussion then turned upon the pending amendment of Mr. Ingalls, requiring the consent of the Choctaws and Chickasaws to the tract to be obtained before the act shall take effect.

Mr. Jonas, of Louisiana, opposed the amendment as a virtual defeat of the bill, as the Chickasaws had announced they would never grant right of way, being opposed to the road. He maintained the validity of the assent alleged to have been already given by the Choctaws, and that that tribe had favored the proposed road by electing public officers friendly to the grant. The rights of the Chickasaws were not effected, as the road would not reach their lands.

The bill finally went over without action.

A bill was introduced by Mr. Vest, of Missouri, to authorize the construction of bridges across the Missouri river between its mouth and the mouth of Dakota river; across the Mississippi river between St. Paul, Minn., and Natchez, Miss., and across the Illinois river between its mouth and Peoria, Ills. The bill was drafted last month by the St. Louis Merchants' Exchange as a general bridge law, and is intended to secure reasonable protection to navigation, and to authorize bridge companies to construct bridges of varying dimensions at suitable points on the Mississippi, Missouri and Illinois rivers without further legislation. The conditions are elaborately specified in the bill, which further provides that all designs and plans for contemplated structures shall be submitted to and approved by the Secretary of War prior to the beginning of the work of construction.

The Senate then adjourned.

HOUSE OF REPRESENTATIVES.

WASHINGTON, April 11.—Mr. Ryan, of Kansas, from the Committee on Appropriations, reported back the Senate bill appropriating \$50,000 to provide for the deficiency in the appropriation for the subsistence and care of Indians in charge of the Cheyenne and Arapahoe agencies in the Indian Territory.

Mr. Randall, of Pennsylvania, held that this was a bill in lieu of the general appropriation for the support of the Government, and as such could not be originated by the Senate.

The Senate bill was accordingly withdrawn and an original bill to the same effect introduced in the House and passed.

The House went into Committee of the Whole on the postoffice appropriation bill with the Senate amendments.

The following Senate amendments were concurred in: Appropriating \$35,000 for furnishing fourth class postmasters with necessary implements for cancelling stamps, etc.; increasing appropriation for compensation to clerks in postoffices by \$150,000; increasing by \$500,000 appropriation for mail transportation by railroads, providing that if any person shall hereafter perform any service for any mail contractor in carrying mail he shall have a lien on money due by the Postoffice Department to contractor. Amendment restoring franking privilege was then reached. A number of members opposed this amendment; among them were: Cameron, of Illinois; Hill and Robeson of New Jersey; Townsend and Updegraff of Ohio; Cobb of Indiana.

Mr. Brown, of Indiana, was glad to see the paroxysmal fever which had come over the House. It was not often that a tidal wave of that kind came along, but when it did he wanted to get on top of the wave and float with the balance. The franking privilege as it now existed covered everything that members of Congress could ask. Car loads of stuff were sent every day, and Congress was running a huge printing office. An allowance of \$125 to each member for stationary was sufficient to pay every penny of his postage and perhaps give him an opera glass or two. If the House wanted to put money into the Treasury it should abolish the printing of 95 per cent. of the matter which was now printed. There were innumerable bills which died in committee which had to be printed; memorials were printed; speeches were printed. If a man who invested in the Congressional Record still lived he ought to be arraigned before a military tribunal, condemned and shot. It had killed more members

of Congress than Kiddwells Bottoms (the Potomac Raft.)

After much discussion almost entirely in disapproval of it, the Senate amendment was non-concurred in, as were also a large number of less important amendments, and the Committee having risen, the House ratified its action, the bill now goes to the Conference Committee.

The House went into Committee of the Whole on the Tariff Commission bill, and Mr. Cox of North Carolina, opposed the measure as one which would only delay the revision of the tariff and prevent the removal of the incongruities which existed in it. He contended that the House, through its Committee on Ways and Means, should immediately proceed to legislate intelligently on the subject.

Mr. Henderson of Illinois, from the Committee on Railways and Canals reported a bill for the construction of the Illinois and Mississippi canal. Referred to Committee of the Whole. Adjourned.

WASHINGTON.

WASHINGTON, April 11.—The Senate to-day confirmed the nomination S. P. Rounds, of Illinois Public Printer, and a large number of minor postmaster and army promotions.

The cold snap extended all over the North yesterday from Delaware to Iowa and Michigan. Snow fell in Michigan, and ice three-quarters of an inch thick formed at the same places. In Delaware considerable anxiety is felt for the fruit crop.

NEW YORK.

NEW YORK, April 10.—A Times special from Richmond says: A joint resolution passed by the Virginia House of Delegates authorizing the Superintendent of the State prison to furnish convicts to keep in order the graves of thousands of the Confederate dead of the army of Northern Virginia, who are buried in Hollywood Cemetery near this city, has caused much criticism here. The duty of keeping these graves green is considered sacred and holy by the people of Virginia. The lives of thousands of men who fell while following Lee and Jackson are buried in Hollywood Cemetery, and for the past fifteen years they have been cared for by the people of Richmond and vicinity.

A New Orleans special to the paper says: To-day was buried from the Hotel Dieu in this city Capt. James A. Sylvester in his 70th year. He was interred by the Odd Fellows in their "Rest" on "Metane Ridge." Deceased was a printer. He had interesting history as having been a soldier of the Mexican war, and in several Indian campaigns, and is mentioned as one of the four soldiers of Col. Burleson's regiment who captured Santa Anna the day after the battle of San Jacinto in April 1836.

TROY, April 11.—Four hundred operatives at Harmony Mills, Cohoes, have given notice that they would leave because of the reduction of wages. Since the notice was given a number have reconsidered, and it is said that others will follow their example and accept the reduction, with the understanding that their wages are to be raised when the market value of goods warrants it. Some deny that any concession will be made.

PENNSYLVANIA.

WASHINGTON, April 11.—A Savings Bank Cashier's account falls short \$30,000 to \$60,000. Grain speculation is given as the cause.

PHILADELPHIA, April 11.—The Philadelphia and Southern Mail Steamship Company was organized in 1866, with a capital of \$700,000. The company owned eight steamers of from 800 to 1,600 tons burden, each built for freight and passenger traffic between Philadelphia, Savannah, Wilmington, New Orleans and Havana. The enterprise, however, was a failure from the start. The company has been gradually disposing of their steamships at private and public sale, the last vessel having been sold previous to last Christmas. To-day the stockholders met and voted to wind up affairs and dissolve the corporation.

POTTSVILLE, April 11.—Malignant form of scarlet fever has broken out at Cresona. Within a few days one family lost all of its children consisting of four boys; and two of another family who were in good health yesterday, died this morning. The citizens called a meeting; and to-day schools were closed. The liberal use of disinfectants has been ordered, and great uneasiness is felt. Physicians seem unable to cope with the disease since it terminates fatally within twenty-four hours after the appearance of the first symptoms.

ILLINOIS.

CHICAGO, April 11.—Mrs. Frank M. Scoville yesterday prepared a bill, which she filed to-day through her attorney, W. S. Johnson, praying the County Court that she be appointed conservator of the estate and person of her brother, Charles J. Guiteau.

MASSACHUSETTS.

LAWRENCE, April 11.—Thirty-seven additional weavers were hired at the Pacific Mills this morning. The total number of weavers now employed is 185; less than thirty frames are in operation in the spinning department.

PROBABILITIES.

WASHINGTON, April 11.—For Middle and Atlantic States, fair weather, northeasterly winds, falling followed by falling barometer, falling followed by rising temperature. For the South Atlantic States, fair weather, easterly winds, stationary or higher barometer, stationary temperature. For the Gulf States, fair weather, variable winds, stationary or higher barometer, stationary temperature. For the West Gulf States, partly cloudy weather, occasional light rain, winds from east to south, stationary or higher barometer and stationary temperature. Tennessee and Ohio Valley, partly cloudy weather in the western portion, possibly light rain, northeast to southeast winds, stationary or higher temperature, stationary or lower barometer.

FOREIGN MARKETS.

LIVERPOOL, April 11.—Noon.—Cotton in moderate inquiry and freely supplied; uplands 8 1/4; Orleans 6 1/2-10d; sales 10,000 bales; speculation and export 2,000; receipts 21,500; American 14,000.

COLORADO.

DENVER, April 11.—George M. Chittenden of Pueblo, was to-day appointed United States Senator to succeed Mr. Teller.

Reported Exclusively for New Berne Journal.

DOMESTIC MARKETS.

OREGON AND WASHINGTON.

Every one of our readers should become informed about the wonderful resources of Oregon and Washington, where the wheat production is larger and the death rate lower than in any other section of United States; where good Government land can be had for the taking, and railroad lands be bought in ten years time. Industrious men become independently wealthy there in a very few years. Full information in the West Shore, a handsomely illustrated journal published at Portland, the metropolis of the Pacific Northwest, at \$2 00 year or the publishers will send two specimen copies, of different dates, for 25 cents. Address WEST SHORE, Portland, Oregon.

Marshall's Notice.

Admiralty Seizure. THE BARQUE "GULDBRINGA." UNITED STATES OF AMERICA, Eastern District of North Carolina.

Whereas a Libel hath been filed in the District Court of the United States of America, for the Eastern District of North Carolina at New Berne on the 5th day of April 1882 by Clark & Clark Proctors in behalf of J. A. Schroeder and J. T. Jacobs and Ellis & Thom and John Hughes Esq. Proctors in behalf of the Baker Salvage Company, in a cause of salvage civil and maritime, and praying the usual process and mention of the court, that all persons interested with said vessel, her tackle, apparel, furniture cargo, lading and unladen, and freight money, may be cited to answer the premises, and all due proceedings being had that the same may be decreed to be sold, and the proceeds thereof distributed, according to law. Therefore in pursuance of the said motion under the seal of said Court to me directed, I do hereby give notice generally unto all persons having or pretending to have any right, title or interest therein to appear before the aforesaid Court at New Berne on the 26th day of April, 1882, if it be a Court day, or else on the next Court day thereafter at 12 o'clock, noon, then and there to answer the said Libel and to make their allegations in that behalf.

Dated at New Berne the 7th day of April, 1882. J. B. HILL, U. S. Marshal, by David S. Ward, Deputy, Clark & Clark, Ellis & Thom, John Hughes, Proctors.

HARNESS & SADDLERY. First class hand-made Harness—Repairing done on short notice. Charges reasonable. Feb 23

When Planters can buy a true Ammoniated Super Phosphate made chiefly from Slaughter House Meat and Bone for \$25 per ton at the factory, cash, it is folly to pay out money for the high cost Fertilizers. Baugh's \$25 Phosphate is of guaranteed standard. Analysis on every bag same as on circular.

The past season in the south has clearly shown Planters that the low cost Ammoniated Fertilizers paid best on Cotton, there has never been, in the four years of its use, an unfavorable report of its action. Every pound of Ammonia and Phosphoric Acid in Baugh's \$25 Phosphate is promptly available as plant food. Planters can make their own figures as to the saving they can make by using this article and at the same time be reasonably sure of a good crop.

Send for circular giving full guaranteed Analysis.
