We learn that extensive preparations are being made in Washington for the New Berne Fire Company and the accompanying excursionists who go over there on next Monday. It promises to be a very pleasant trip, and a large Personal. crowd will probably attend.

Irish Potatoes,

There is no end to nice Irish potatoes now in the market. Mr. Frank Hancock brought in yesterday a bunch of seven growing in one hill raised by Mr. J. L. Fowler which weighed 21 pounds. And we are glad to note that good prices are being had for them, from \$3 to \$3.50 thought that the price will continue good for the next two weeks, for the Norfolk truckers will not be able to reach the market much before that time.

New Boat. The Neuse River Transportation Company are having a new boat built to run between New Berne and Kinston, to be ready about the 15th of August. It will be built in New Berne at Howard's Ship Yard, and the machinery for it furnished by W. F. Kornegay & Co., of Goldsboro. It will be 100 feet long, 20 feet beam, a stern wheeler, carry two engines 12x36 with 65 horse power. It is expected to draw 16 inches light, and will carry about 300 bales of cotton.

Worthy Music.

It is astonishing to note how much music a master genius can get out of an instrument. In the exercises at the Catholic Church on Sunday, the music rendered by Prof. De La Croix was as worthy of notice in its sphere as the imposing exercises and address of the consigned to J. A. Meadows. Bishop. A master hand was upon the keys and the organ seemed gifted with human feeling as it wailed forth in sorhumanity; or as it changed into victoriof the risen Lord.

ONSLOW COUNTY, May 17, 1882. Messes. And they will continue to do so unless some stupendous change takes place on the part of the irrepressible "Warwick Jr." and which recent developments would seem to indicate is still in the far distant fu-

ture, if ever. We have a very expensive county GIBSON-HURST.-At the residence at the county seat. It is a very important bridge to our citizens, you might say almost indispensable. The bridge required overhauling and repairing, and in 1879 the Commissioners levied a special tax of six cents on every hundred dollars worth of taxable property and eighteen cents on the poll to repair it. They said from what it was going to cost that it would be out of the question to meet "current expenses" with-out said tax. The people came up with-out grumbling and cheerfully paid the tax. But how was it with "Warwick Jr."? He sues out an injunction, re-lieves himself, and causes the county to

pay two or three times the amount of his tax for costs. Now he rides over it, walks over it, and would be the first man in our county to find fault with and sue the county in case of an acci-dent. This is one of the evidences of

his public spirit, his county pride. But enough. If all that could be said. and said truthfully, was in print about somebody it would make a good sized book, and with some as readable as Scott's "Heart of Midlothian," Dickens' "Pickwick Papers," and George Eliot's "Daniel Deronda." New RIVER,
