3 p. m. 86°
9 p. m. 80°

Journal Miniature Almanac.

Sun rises, 4:59 Length of day,
Sun sets, 7:13 14 hours and 13 min.
Moon sets 9:32 p. m.

Mr. John Detrick has a tame owl named Guiteau. A cranky name.

Mrs. Lincoln, wife of President Lincoln, died at Springfield, Ill. on the 19th.

The *Stout* brought in yesterday four Eclipse engines for J. W. Grainger of Kinston.

Capt. J. M. White went up to Goldsboro yesterday to look after the machinery for his new boat.

Our machine shops, Maxwell & Crabtree and the Cuthberts, are running on full time with plenty of work ahead.

We regret to hear that our townsman, Mr. A. G. Hubbard has been quite sick for a few days. He was improving last night.

The steamer *Stout* of the Clyde line arrived from Baltimore yesterday morning with a good cargo of general merchandise.

The machinery of the dredge boat *Cyclops*, of Harlowe Creek canal, is being overhauled at the New Berne machine works.

No Mayor's Court yesterday. Even George Washington and Richard Tucker no longer disturb the peace by road talking or fast driving.

The engine of the down train last night jumped the track at the switch near the depot. The train was delayed for awhile. No damage done.

The Greenback party of Craven county meet in Convention at the Court House this morning at 11 o'clock a. m. A full ticket will be nominated.

Mr. R. J. Brock kindly remembered us with a basket of fine peaches on Wednesday. He has sold from one little tree this season \$4.00 worth of fruit.

Messrs. W. R. Guion and A. W. Wood have purchased a double horse truck and will put it on the "line" in a few days. The very thing for moving furniture.

The reunion of the 67th Regiment, Col. Jno. N. Whitford, takes place to-day at Beaufort. Col. Whitford has secured special rates for the old members who will pass over the Midland railway.

The cotton Exchange waked up yesterday and received samples from two bales of cotton. It was consigned to Mr. C. E. Foy and sold for 11½c. Classified middling. Mr. G. M. F. Dail was the purchaser.

Mr. Cicero Green was at the "corner" yesterday. The "jewels" were out in small force, but greenbackism, national politics, Arthur's programme were discussed in a lively manner. Mr. Green says the rice crop is looking well in his section—too wet rather for cotton.

Peaches.

This delicious fruit is very scarce in the New Berne market, though we learn there is a large crop this season. Some very fine ones were offered on the streets yesterday morning at twenty five cents per dozen or one dollar and ten cents per peck. We don't think the owner made any sales at these figures.

An Old Battle Flag.

Col. John N. Whitford found in the city yesterday the old flag of the 67th regiment. It had been securely kept these many years by Mr. H. C. Whitehurst of this city, who carried it during the war as color bearer of the regiment. The Colonel carried it down to the reunion to-day.

Rice Crops.

Our traveling agent, Mr. C. C. Taylor, reports the rice crops seen on his Hyde county trip were exceedingly fine. Mr. J. F. Bell near Juniper Bay has eight acres which he expects to yield six hundred bushels. This is a crop that might be increased in this portion of the State. The rice mill of Mr. Elijah Ellis will make New Berne a good market for it.

Glads to See Him.

Mr. Alex. Miller, in making the canvass for the Graded School, called on a lady who works daily for her living, and as soon as he explained his business she remarked that she was glad he had come, that she had read about the school in the *Journal* and was glad to see steps taken towards establishing one. Mr. Miller began to explain what great good the school would do for New Berne, when the good lady stopped him and informed him that she came from a country where Graded Schools were in operation and she knew all about the good that it would accomplish. With

this she directed him to put down \$25 for her and if it was necessary she would pay more if she could. We have yet to hear of any one at all acquainted with the Graded School system condemn it.

Congressional Convention.

A large delegation from Carteret headed by Sheriff Jones and Dr. F. M. Arendall passed up yesterday morning for Warsaw where the convention of the 3rd Congressional district assemblies to-day. The delegation is divided between Waddell and Shackelford, and the Waddells appeared to be in the ascendancy.

A Grand Corn Hilling.

A friend at Loco, Onslow county, sends us an account of a big corn hilling at Mr. A. B. Carroll's on the 18th. Mr. G. W. Smith was the champion corn hiller of the crowd in the forenoon, James Riggs and Robt. B. Parsons were the leaders in the afternoon. Thus it is; some men will work hard before a good dinner, while others had rather have the dinner first. Our correspondent says that Mr. Carroll's corn is very fine and that the day's work will add to it ten barrels. Mutton, ham, chicken, vegetables, and in fact every good thing, were handed around in abundance. Mr. Carroll has recently put up a steam grist mill, the first in the neighborhood, and our correspondent wants Senator Ransom to get an appropriation for White Oak river. He may rest assured that Ransom can get it if any living man can. He says the prospects for farming grow brighter every year; more land is put in cultivation and it is generally better cultivated than formerly.

Meeting of the Educational Association.

An adjourned meeting of the Educational Association was held at the Hall of the Board of Trade last night. The temporary officers of the Association were made permanent. Geo. Allen, President; K. R. Jones, Vice President; Clement Manly, Secretary; T. A. Green, Treasurer.

The committee appointed to solicit donations for a Graded School reported 131 subscribers and \$3,825 subscribed. The committee was continued.

The committee on plan of organization was continued.

A number of gentlemen—10—were recommended to the Trustees of the Newbern Academy out of which to select five to fill the vacancies on the Board of Trustees.

Various matters were discussed, the speeches all showing an earnestness in the matter of a Graded School, that is bound to terminate in success.

Meeting adjourned to meet next Tuesday night at the Court House.

STATE NEWS.

Cleaned from our Exchanges.

Raleigh Evening Visitor: Seven prisoners were sent to the work house to-day.—The re-union of the Confederate soldiers at Smithfield on Friday next promises to be a grand affair. Col. L. L. Polk, the originator of these re-unions in North Carolina, we believe has been invited to deliver an address. We can safely predict that our friends in Smithfield have a rich treat in store, from the fact that Col. Polk is second to none in point of eloquence and general information. We understand that he will also deliver an address of a similar character at Wadesboro on Saturday next.

Durham Tobacco Plant: Messrs. R. C. Strudwick and A. H. Stokes, who have just returned from Flat River, inform us that the crops in that section are splendid.—Judge J. J. Ferrel tells of a terrapin that had attained a ripe old age when last seen. In 1829 the Judge and his brother, J. M. Ferrel, were squirrel hunting in the section of the country now known as Oak Grove township, where they found a terrapin. J. M. Ferrel cut his name on the terrapin's back; also the date. Thirty-seven years from this time Judge Ferrel found the same terrapin not one hundred yards from the spot where he and his brother found him in 1829. He had grown very little, if any, the only perceptible change being he was beginning to look a little ancient. The Judge proposes to take another look for him at some time in the near future.

Wilmington Star: Walker, who killed Titus Davis, has not yet given the \$1,000 bale required of him, and he is still in jail.—No tidings have yet been received of the missing bodies of the two boys who were drowned on the 12th inst. off Oak Island beach.—The Clerk of the Market informs us that there were two hundred and four country carts, with vegetables, fish, crabs, shrimps, etc., in market on Satur-

day.—A meeting of the subscribers of the Clinton and Point Caswell Railroad will meet in the Mayor's office, in the City Hall, to-day, at 12 o'clock, for the purpose of organizing the company.—We saw, yesterday, at the shop of J. W. Taylor, on Second street, an egg with three distinct and perfect yolks. We have frequently seen and heard of eggs with two yolks, but three is a "huckleberry above our persimmon."

Greensboro Daily Eagle: The machine shops of Pomeroy & Looka-bill have just completed a huge mill and carriage for a party in Pennsylvania county, Va., which would be a credit to any shop. The mill and carriage are both patented by these gentlemen, and very superior. The carriage is made in two sections, and can be utilized either on logs sixty feet in length, or cut two logs at the same time of almost any reasonable length, and saw the plank on either log of different thicknesses if desired. This would be equal to two mills running with only one saw—the same power, and only requiring a small additional force—not half that would be required to run two. This makes an item in itself.

We have seen a good many mills and believe this one is superior to any we have ever seen.—Mr. S. C. Dodson informs us that Mr. M. R. Tylor, of Lexington, has just thrashed the wheat from three-fourths of an acre of land, on which he sowed 1½ bushels of wheat cross drilled in with 200 pounds of Allison & Adison's fertilizer, and got of good clean wheat 40½ bushels, weighing 63½ pounds the bushel—three and a half pounds more than the standard weight per bushel. This shows what can be done in North Carolina, with the proper attention.

Raleigh News and Observer: Taken all in all, the people of the State are rarely equalled, never surpassed in those qualities that make good citizens, fine men and lovable women. Our schools are prospering as never before. Teaching has come to be a profession with thousands, and our normal schools and teachers' institutes are evidences of great progress. The subdivision of farms is an element of thrift, and our advance in that direction arrests attention. We have 34,000 farms running between twenty and fifty acres; 34,000 containing between fifty and one hundred acres, and 61,000 containing between 100 and 500 acres. In 1870 the entire number of farms was only 93,565; in 1880 it was 157,609. We use 215,000 horses and mules and 50,000 oxen; we have 232,000 milk cows, and 375,000 other cattle. Four hundred and sixty-one thousand sheep produce near a million pounds of wool, and we raise 1,450,000 hogs.—Col. L. L. Polk is to speak at the Confederate soldiers' reunion at Smithfield, Johnston county, on Friday.—The kitchen of Miss Bettie E. Henry, in Bertie county, was burned Friday. Her house was on fire, but was, with much effort, saved.

The best grit for the manufacture of mill stones, to be found in the world, is quarried in Moore county, N. C. It is a natural composition of flint rock and cement which sharpens rather than dulls by use. Four thousand bushels of grain can be ground with this stone without redressing, and it is said to make the largest quantity of the choicest meal to the bushel of any stone known. The quarries are situated about sixteen miles from the Raleigh & Augusta A. L. Railroad, and is being rapidly developed, quite a little village having sprung up in the vicinity of the quarries, peopled by the workers therein. This information we obtain from the *Scientific American*.—Raleigh Visitor.

Judge MacRae finished his first court last Saturday. The admirable selection made in his nomination and subsequent appointment was rendered apparent by his demeanor upon the bench, his courtesy to all, his familiarity with the law, his quickness of decision and dispatch of business. He made a very favorable impression on our bar—a bar notably critical, if not hard to please. And this it must be remembered was his maiden court, his first effort in the role of judge, to which he had been called unexpectedly and under circumstances likely to make a much less modest gentleman diffident of his powers. We congratulate the Judge on having won such encomiums as have been pronounced on his first appearance as a dispenser of justice, and congratulate the

people that he will serve them in that capacity for half a dozen years to come. A just judge is ever to be commended, for he has to pass on the lives, property and reputation of his fellow-citizens. Such great power can safely be entrusted to one so worthy as James MacRae.—News and Observer.

Very Hopeful Readjusters.

RICHMOND, July 15.—The Readjusters of Virginia, under Mahone's leadership, are in high spirits in view of the coming election. They say that a recent survey of the field has convinced them that the election will be a walk over. Not less than eight of the ten Congressmen are claimed by these hopeful fellows, with a majority for Wise, as Congressman-at-large, ranging from 20,000 to 30,000. Mahone's leadership, if his supporters are to be fully believed, is one of the wonders of our politics at the present day. Either that or something else has preserved a degree of harmony almost complete where nothing of the kind was to be expected. A blooded Confederate Virginian commanding the following of the great body of the negroes of the State, and at the same time of the true blue sons of the Mother of Presidents, is something noticeable, to say the least. To people outside of Virginia Mahone's popularity is hardly understood. It must be assumed either that Mahone is much above the common run of political adventurers or that his incongruous following are the most easily led of any in the country. The Readjusters say that henceforward till the fall election there will be hot times in old Virginia.

It is to be said that no man ever received more earnest backing than that which Mahone receives from Arthur.—N. Y. Sun.

COMMERCIAL.

NEW BERNE MARKET.

COTTON—None in market. No change. CORN—\$1.02 in bulk, \$1.04 in sacks. TURPENTINE—Dull, dip \$2.50. But little coming in. TAR—\$1.35 and \$1.50. BEESWAX, 20c. HONEY, 60c. per gallon. PATENTS.

obtained for new inventions, or for improvements in old ones. Caveats, Infringements, Trade-Marks and all patent business promptly attended to. INVENTIONS THAT HAVE BEEN REJECTED may still, in most cases, be patented by us. Being opposite the U. S. Patent Office, and engaged in PATENT BUSINESS EXCLUSIVELY, we can secure patents in less time than those who are remote from Washington. When Inventors send model or sketch, we make search in the Patent Office, and advise as to its patentability free of charge. Correspondence confidential; fees reasonable; and, no CHARGE UNLESS PATENT IS OBTAINED. We offer by permission to the City Postmaster, and to the Superintendent of the Post Office Money Order Division in Washington. For special references, circular, advice, terms, &c., address—C. A. SNOW & Co., OPPOSITE PATENT OFFICE, Washington, D.

HORNER SCHOOL,

OXFORD N. C.

The Fall Session of 1882 Begins the 4th Monday in July.

INSTRUCTORS:

J. H. HORNER, J. C. HORNER, J. M. HORNER,

With such assistant instructors as the exigencies of the School may require.

The chief work of the School is done by the Senior Principal and his two sons. The less important work is given to assistant instructors, who are selected with special reference to their peculiar fitness for the duties assigned them; and the number of students will not be increased beyond the capacity of the Principals to take personal charge of all the classes in the leading branches taught, and to supervise all the work of the School.

The School has been under its present management for more than thirty years, and in this sense, it is, we believe, the oldest school in the South. As several of the Cadets will leave for College, there will be room next Session for about twenty new students. For Catalogue apply to the Principals, J. H. & J. C. HORNER.

Reunion of the 67th Regiment.

The following rates have been obtained over the Midland Railroad to all wishing to attend the annual reunion of the 67th N. C. regiment, to be held at Beaufort on the 20th of July, to be good from the 19th to the 24th:
From Goldsboro and return, - \$3.50
" La Grange " " - 2.00
" Kinston, " " - 1.50
" New Berne " " - 1.00
