

THE DAILY JOURNAL.

VOL. I.

NEW BERNE, N. C., SATURDAY, SEPTEMBER 9, 1882.

NO. 138.

LOCAL NEWS.

Journal Miniature Almanac.
Sun rises, 5:30 | Length of day,
Sun sets, 6:16 | 12 hours, 57 minutes.
Moon rises 3:2 a. m.

The rooms of the Academy are being white-washed.

The schooner *Addie Henry* is on Howard's ship railway for repairs.

Mr. J. L. Rhem has about 25 acres of fall crop Irish potatoes. They are looking well.

One hundred and eighty-five students were enrolled for the Graded School up to yesterday at noon.

We notice on the Old Dominion wharf a Hampson engine for D. H. Abbott of Vandenberg, Pamlico county.

Aunt Nancy, an old colored woman, "cut up" on Broad street yesterday. She had been dealing in "spirits."

Rev. E. M. Forbes of Beaufort will preach in Christ Church Sunday morning and evening, at the usual hours.

Two bales of new cotton were at the railroad wharf yesterday. They were shipped by S. H. Loftin of Kinston.

Messrs. J. W. Moore and F. Ulrich have returned from the North and report a big stock of goods following in the wake.

The showery weather has caused the grass in many fields to grow almost as large as the cotton, and will make it bad to pick.

Through the courtesy of Col. J. W. Andrews, the Claire Scott Company will arrive in New Berne on a special train at 11 a. m. on Wednesday, September 13th.

Mr. W. M. Watson received a severe cut on his left foot on Thursday by stepping on a piece of glass bottle. It cut through his shoe and rendered him unable to get about much.

Maj. Gordon says pork is getting heavier since the JOURNAL interviewed him. He now wants the law in regard to commercial fertilizers changed so as to compel the manufacturers to put in a certain amount of soluble phosphoric acid.

Messrs. Dunbar and Oast of Norfolk, inspectors of boilers and engines, were in the city yesterday for the purpose of completing the inspection of the *Tiger Lily* and *L. H. Cutler* and to inspect the *Bonito*. They performed that duty and pronounced the boats O. K. Messrs. White and Smith were examined for Captain's license. They returned on the *Shenandoah*.

River and Marine.

The steamer *Neuse* cleared yesterday evening for Kinston with a good cargo of freight.

The *Tiger Lily* cleared for Bayboro and Stonewall yesterday evening with a full cargo of general merchandise.

The *Goldsboro* of the Clyde line cleared for Baltimore with lumber from Congdon's mill, yesterday.

The schooner *Ella R. Hill*, Capt. W. H. Hill, arrived from Baltimore on Thursday morning with a cargo of salt.

The New Passenger Building.

The passenger building and ticket office of the Midland Railway is about completed and will probably be opened to-morrow or Monday for the reception of passengers. It has a ladies' room 14 feet by 19, a gentlemen's room 17-10 by 19, a baggage room 13 by 19, a ticket office 8 by 13 with bay window, all elegantly fitted up and reflects credit upon the carpenters and the designer, Col. J. W. Andrews.

Road master Burdick has about completed the new track.

The Cotton Crop.

Our enterprising townsman Mr. Geo. Allen, estimates that the cotton crop in this section will fall considerably below last year. He gives as one reason for this estimate the fact that it is difficult to get a farmer to bring in a stalk of extra good cotton. Heretofore he has had say amount of them brought in, but this year they don't bring them in because they have not got them.

He has other reasons for his estimate and he may not be far from right; but we predict that the crop will be an average one. Cotton will not show so well on a large stalk, and we think this is one reason why the farmers don't bring in their sample stalk. Twenty-five bolls on a stalk 2 feet high makes a good show, while the same number of bolls on a stalk 4 feet high will make a very poor one.

Four Names to Print.

Parson Stephen Turner of Beaufort was in the city yesterday.

Messrs. Nelson Whitford and Joseph Hachburt returned from their Northern trip yesterday.

Mr. Turner, agent of the Old Dominion steamship Company at Norfolk, came in on the *Shenandoah* yesterday.

He mentions with pride the fact that during last season's trucking not a single package was detained at Norfolk for want of prompt shipping facilities.

Mr. J. M. Howard returned from the North on the *Shenandoah* yesterday. He, in company with Mr. Daniel S. Jones, is opening a large stock of goods in the store lately occupied by J. F. Ives.

Mrs. T. B. Myers of Washington is visiting Mrs. Henry R. Bryan of this city.

Mr. Wm. Cleve of Vanceboro, H. H. Dowdy of Bayboro and sheriff Hahn took passage on the *Shenandoah* yesterday for New York, Mr. James F. Taylor, the polite clerk of S. H. Scott's establishment, was a passenger for Baltimore.

Cotton Reports.

From letters received by the New Berne Cotton Exchange, from different farmers in the adjoining counties, we collect the following reports:

C. S. Wooten of La Grange reports cotton "three weeks late, with large weed but not fruiting as well as usual."

W. H. West, Kinston: "Too much rain since July; crop ten days late; grassy; badly shedded on light land; pretty fair crop on stiff land."

Isaac Brown, Tuckahoe, Jones county: "The almost incessant rains since middle of July has caused too much weed on strong land and stopped growth on light land, and but few bolls made since Aug. 1st. The outlook is from 20 to 30 per cent less than last year, and picking will not commence before the 15th or 20th. A full average corn crop; too much rain for peas and potatoes."

J. M. F. Rhodes, Comfort, Jones county: "I think the cotton crop is cut off one third. I have 16 acres that will average 5 feet high, and will average 30 bolls to the yard in length. Would have made two bales per acre of a good year."

W. H. Dail of Snow Hill: "Crop about same as last year—too wet now and too dry then. We expect an average crop; but for the fearful rains we would have made much over an average one."

E. B. Hargett & Bro., Silver Dale, Onslow county: "Labor inferior and very scarce. Not more than one-half or two-thirds of an average crop will be made on account of excessive rains."

John Pearce, Pollockville, N. C.: "Rains have increased the stalk and decreased the bolls. The crop stands about \$5 per cent."

D. S. Aman, Palo Alto, N. C.: "Cotton two weeks late; labor ten per cent short, and crop poor."

E. F. Sanderson, Pollockville: "The rains have caused the cotton weed to grow very rapidly but not balled according to growth."

C. H. Fowler, Stonewall: "Crop later by 15 or 20 days; owing to incessant rains since July 4th, has not had its full share of plowing; is in bad condition."

J. W. Sanders, Sanders' Store, Carteret county: "Rust or some disease is causing cotton to shed its leaves and to ripen. Many fields are now opening, and the crop will be out by Oct. 15th."

W. S. Bell Jr., Newport: "Condition of crop tolerably good—better than last year, though injured some by rains in the last thirty days."

Resolutions of Respect.

At a meeting of Neuse Council No. 1, Order of Chosen Friends, held in the city of New Berne on the 6th day of September, 1882, the following preamble and resolution were unanimously adopted:

In the untimely death of our beloved brother, E. H. Windley, Esq., we, the members of Neuse Council of the Order of Chosen Friends, recognizing the exalted virtues of the departed, remembering his devotion to his associates and friends, and his warm appreciation of the confidence and respect cherished for him by every member of this Council, and feeling with sadness and regret that his loss is a public calamity not easily to be repaired, inasmuch as he was estimable in his friendships, reliable and useful in his business relations, and warm-hearted and generous in his charity; Therefore he is resolved,

1st. That we unite our testimony in behalf of the good and noble character of our departed brother, who lived in our hearts and in the earnest esteem of this Council, as one elevated above the littleness of vice, and wedded to the highest principles of virtue; that we will keep green in our memory the example which he set us of devotion to the interests and sufferings of humanity, and that we will reverse his brief but vanished life as a legacy left us to be preserved forever.

2d. That while mourning for our beloved brother, as one cut down too soon in his bright career of prosperity and usefulness, we are glad to express the conviction that we mourn not as those without hope, but that he who was so quick to relieve the sufferings of others, to pity the sorrows of the poor, and to minister to the weary and broken hearted, has himself found a shelter from the storms of this world and is forever at rest.

3d. That we express as a Council our earnest sympathy with the family of the deceased in their affliction; that a

copy of these resolutions be furnished to them by the secretary; and that the proceedings of this memorial occasion be published in the JOURNAL of this city.

An extract.
W. B. Boyd, Sec'y.

Politics in Onslow.

Politics and politicians are the topics of conversation in Onslow at present, and the Democracy is gaining strength every day. There is no man who has done, or is now trying to do, more to bring harmony in the Democratic ranks than Hon. J. W. Shackelford. His speeches which he has been making in behalf of Col. Greene has put the good men of the county to thinking, and consequently the people will soon begin to organize.

I hear that Mr. Shackelford is going to canvass a portion of the 3d district. If he does, there is a rich treat in store for all who will go out to hear him. His speeches are eloquent and effective.

The candidates for the different offices in the gift of the people of the county are numerous; and still they come. Oh, blessed is he that wanteth not an office! For surely he shall miss many an anxiety.

None of the county candidates have commenced canvassing yet, except those running for the Legislature; and they have been having a hot time of it. Dr. Cyrus Thompson, the Democratic nominee, is gaining strength every time he speaks; and it is predicted that J. H. Foy will soon quit the field and leave the contest between Dr. Thompson and Mr. Gilman, the Republican candidate.

There is a great deal of water on the ground at present. Cotton has been injured, and fodder that was pulled last week is ruined.

Beaufort Items.

Miss Matilda Arendell died in the city on Tuesday, aged 59 years.

Mr. W. F. Korngay of Goldsboro, Mr. N. M. Lawrence of Tarboro, and Rev. N. M. Jurney, are now fishing by the day. Mr. Korngay hooked a mackerel which he said pulled like a mule.

Julius F. Jones was on Thursday nominated by acclamation for sheriff. Rev. L. H. Harding on the fourth ballot was nominated for the House; Dr. R. E. Walker for clerk of Superior Court, and Rev. John Ramley for register of deeds. There was no discord in the convention. Col. W. J. Green and Gov. Jarvis spoke in front of the Ocean View hotel.

STATE NEWS.

Gleaned from our Exchanges.

Charlotte Daily Journal: Mr. Walter Brem who returned from Morganton yesterday, brought 15 ounces of gold dust from Capt. J. C. Mills' Brindletown mine in Burke county. Mr. Brem says that 584 pennyweights of gold are produced at this mine daily, by six hands.

Goldsboro Messenger: Hon. J. W. Shackelford will address the citizens of Jones at Trenton, September 16th, the day of the county convention.—Mr. Jas. H. Robinson has accepted a position in the office of the Midland Railway at New Berne. Mr. Robinson is an excellent business man.

Wilmington Daily Review: A large quantity of peaches are being shipped daily through this city from Portsmouth to Savannah and Jacksonville, Florida, which is a reversal of the usual order of things.—Messrs. H. Brunhild & Bro., of this city, have shown their enterprise by the importation of a large lot of fine wines, which came direct from Germany, where they were purchased by Mr. Leopold Brunhild on his recent visit to Europe.

Greensboro Patriot: The dried fruit trade is still booming; Odell & Co. bought 12,000 pounds yesterday.—This is from Rock Creek: A farmer, one evening not long since, turned his mules loose in the lot. A thunder storm came up, and one of the mules was running around kicking up his heels when a thunder bolt descended and knocked both shoes off the mules hind feet. It is unnecessary to say the mule was unhurt. The shoes had but recently been put on.

Wilmington Star: Dr. E. W. Ward, of Onslow, was in the city yesterday. He gives encouraging accounts of Col. Green's prospects, and thinks he will poll the full Democratic strength in Onslow.—It is firmly believed at Alexandria that there is a wide-spread conspiracy to massacre all Europeans. The Bedouins are said to be surrounding the British camp.—A farmer from the Wolfpit section of Onslow county was in the city yesterday and gives a cheering account of the condition of the crops. He says they will make enough corn down there to last for

two years, and they have some of last year's crop on hand yet. The cotton has been slightly injured, but the planters will make fully an average crop.

Lamberton Robesonian: It now seems as if the Congressional race in this district will be between Dr. Norment, Republican, and Maj. Dowd, the nominee of the Democratic party. Well Dr. Norment has had several bootless races and is used to it.—Rev. W. T. Jordan, of Lamberton, Coles, Steel, Leak, and Wall, of Rockingham and perhaps Shoe Heel's mighty hunter, are to start this week for the mountains beyond Hendersonville. Orders for deer, pheasants, bear, etc., will be received at this office up to 10 o'clock to-morrow night.

The Graded School.

On Monday the white Graded School opened with 480 pupils. On Tuesday 503 were present, and yesterday 513. The work of grading the pupils has been completed. In the highest grade there is room for about twenty-five more pupils. To the studies prescribed for this grade book keeping and commercial arithmetic have been added, Crittenden's Commercial Arithmetic and Groesbeck's Book Keeping, school edition, being the books used. The great success of the school this term gives much pleasure to the public. In order to meet the demand for space a new room has been opened, and the school furniture is now being placed therein. It will be ready for use Monday morning.—*News and Observer*.

All Over the South.

Georgia has 2,517 drinking saloons.

Pensacola claims a population of 11,000.

Prolific Georgia has produced an eighty-four pound watermelon.

Knoxville, Tenn., has raised \$250,000 toward building a cotton factory.

A cotton-leaf measuring fifteen inches across is a Warrenton, Ga., product.

Louisiana proposes to enter extensively in the raising and manufacture of jute.

At Henrys, N. C., a vein of meerschaum of extremely fine quality has been discovered.

A woman seventy-six years of age, who lives at Oglethorpe, Ga., is cutting her third set of teeth.

The people of Tensas parish, La., have voluntarily contributed \$25,000 to the fund for levee repairs.

Father Ryan, the poet laureate of the South, will deliver several lectures in Southern States this fall.

A Virginia physician says he has never known a habitual consumer of tobacco to have the typhoid fever.

George Huston, who killed his father at Huntsville, Ala., has been sentenced to fifty years in the penitentiary.

A colored woman living near Oglethorpe, Ga., is but forty years old, but the mother of twenty-four children.

The North Carolina State Fair will hold its annual meeting in October (6th to 14th inclusive) at the city of Raleigh.

At the sale of public lands at Austin, Tex., 60,000 acres were sold at fifty cents, a man named Forsyth taking it all.

The State Land Office at Tallahassee has now eight clerks employed. Three did the work before the boom reached the State.

Reports from the Louisiana cotton crop are generally favorable, the warm days and cool nights proving very beneficial.

At Ashville, N. C., an odd wedding is soon to occur. The prospective groom is but sixteen years of age and the bride-to-be but ten.

Now the watermelon has fulfilled its destiny. A Shelby, N. C., man is making a splendid quality of brandy from the luscious fruit.

The fall meeting of the Washington county (Miss.) A. and F. G. Association commence at Greenville, Nov. 2, and continues three days.

A man in Triggs county, Georgia, has married four women inside of the past fourteen months. Wives number one, two and three are dead.

It is estimated that in less than ten years the woolen interest of Texas will be greater and more profitable than that of the United States combined.
