A New Order of Things.

It is many years since beneficiary societies were instituted, with the object-in view of the brevity and uncertainty of life-of securing to their numbers the benefits of a lengthened life, which should inure to the support and comfort of their families, and those who were naturally dependent on them.

The progress which has marked the advance of the years, in almost every department of enterprise and investiga-tion, has been noticeably apparent in we Eastern North Carolinians know lit-tle about, we draw near to a celebrated benevolent "societies," as they have been successively established. Only the experience which comes from the actual and practical working of them could so greatly enlivened by meeting some old adapt them to the means and circumstances of the membership, as to com-mend them to the favorable notice and pointed out many memorable sites, and acceptance of persons desiring assurgave the ancient record. This is pre-eminently a Health insurance. The principal object of the Order is to provide for the expenses incident to disability by disease or accident—it pays no death benefit, not even funeral expenses. Notice this explanation which to make the more direct and pointed I will put in the second person.

If you desire to join this Order, you can do so, if "sound and acceptable"—which is to be determined by medical examination and the vote of the Branch—and not less than eighteen nor more

-and not less than eighteen nor more than sixty-five. Upon initiation a certificate will be issued to you for such a sum between two hundred and one thousand dollars as you may select. This certificate will mature in seven years, when the money will be put right into your hand if you are living. The cost is to be paid by assessments, graded not according to age but according to the amount of the certificate held, being fifty cents on a two hundred dollar certificate and two dollars and a half on one of a thousand dollars. Twelve as-sessments have been paid since the or-ganization of the Order.

In case of disability, by disease or accident, you will receive a weekly benefit, graded like the assessment, according to the certificate, being five dollars a week for the smaller and twenty-five for the larger.

In case of death, if no benefits have been received, the whole amount of assessments paid by you will be refunded to your legal heirs, and if you have paid more in assessments than you have received in benefits, the balance will be returned. I did not intend to say anything in to add this much, that eighty per cent. of the assessments goes to the Relief Fund for payment of benefits, and twenty per cent to the Revenue Fund to be held by the Local Branches and loaned for six and a half years (six months at a time) then it is called in in 'part payment as maturing certificate, the balance being raised by account. ance being raised by assessments.

ance being raised by assessments.

Contrary to the ordinary usage of beneficiary Societies, the liabilities are not incurred by death but are continually diminished by death suspensions, sick benefits and accumulations of the Reserve Fund.
