Dry and hot.
No Mayor's court for several days.
Cotton pickers go out by the wagon load.
The early morning train makes early risers.
As cotton comes in business grows lively.
The watermelon season is a thing of the past.
Mr. S. N. Dewey, we are sorry to learn, was very low last evening.
Mr. R. O. E. Lodge is tearing away a portion of the old Patterson warehouse at Union Point.

"Here's yer nice apples for makin' huckleberry dumplings!" cried a dorky yesterday as he peddled the streets with his basket.

Several consignments of cotton were brought down on the Midland road on Wednesday night and sold at the Exchange yesterday.

Yesterday was the biggest day so far at the cotton Exchange. The bidding was spirited and prices crawled up a little on the best grades.

O'Hara meeting at Pollocksville to-morrow. L. J. Moore Esq., G. W. Stanton of Wilson, J. E. O'Hara and others are billed for speeches.

We noticed at the Midland depot yesterday a hydraulic cotton press shipped by Mr. J. C. Whitty to Mr. Jas. F. Clarke's plantation near Croatan.

In our "cotton statistics" yesterday a careless printer made us say five millions when it should have been six, although the proof was correctly marked.

Collector E. A. White of this revenue district, has received bonds from one hundred and ninety-five distillers and there are applications for between twenty-five and fifty more.

"Pressing brick" is the business friend Wm. Ervin says he is now engaged in. Or in other words he is loafing and the brick pavements get the benefit of what labor he does perform.

Among the shipments on the Cutler to Vanceboro yesterday were an engine for M. E. Bryan & Bro. and a shingle machine for C. T. Cherry, both shipped by J. C. Whitty of this city.

From the elegant crop of hay just gathered in Mr. James A. Bryan's front yard, he evidently has a genius for fancy farming. The grass has been allowed to grow in order to protect some young clover.

"There are in the Penitentiary about 400 convicts, of whom 60 are women," says the *News and Observer*. Don't it seem reasonable that 50 of them could be sent down here as the Legislature directed?

We are glad to note that the Midland road is getting freights from Smithfield, also a good share from Goldsboro. Among the freights from Smithfield was a car load of oak staves for Norfolk. Hurrah for the Midland!

We acknowledge receipt of a package of confectioneries from A. H. Potter & Co. They have recently opened at the next-door east of George Allen & Co., and will begin the manufacture of candy before long. Their stock makes a fine display.

Your Name in Print.
Dr. O. S. Credle, Zach Credle and Peter McWilliams came up as passengers on the *Tiger Lily* from Hyde county yesterday.

Cotton Yesterday.
Eighty-nine bales of cotton sold here yesterday at prices ranging from 11 to 11.67; the bulk of it going at 11 and 11. The Johnson county cotton went at 11. The market closes firm.

Fine Cotton.
The best cotton sold at the Exchange was two bales sent in by Mr. Bat. Weatherbee of this county. It brought 11, an eighth above any other. Mr. Oliver says the secret was in using a Van Winkle gin and cotton cleaner.

Oliver's Hint.
Instead of cotton seed all they are now calling it olive butter—a much nicer name. But we see no reason why it should not take the place of lard. Messrs. Blank and Miller and several other grocers keep it and their customers agree in giving it high praise.

OBITUARY.
Departed this life, September 16th, little Annie, daughter of Benjamin and A. E. Brown, of Jones county, aged 3 months and 11 days. Her life was short and full of suffering.
My loss I know is heaven's gain,
But still 'tis hard to give thee up;
Yet I thought that thou art free from pain.
Will help to sweeten the bitter cup.
A. E. B.

River and Marine.

The steamer *Contentnea* came in last night from Jolly Old Field with 20 bales of cotton.

The steamer *Neuse* arrived last night with a heavy load of cotton from Kinston.

The *Kinston* left Kinston yesterday evening with 135 bales of cotton and is expected this morning.
The *Tiger Lily* came in yesterday from Hyde county with a lot of corn and passengers. She leaves to-day for Bayboro, Stonewall and other points.

The *Thos. J. May* was still aground off Foster's wharf last night.

Kinston Items.

Mrs. James Stewart, mother of W. B. Griffin, died on the 19th inst. at her residence two miles from Dover Station on the A. & N. C. R. R. She was about sixty years old and had only a short illness.

Fred B. Lottin Esq., the very Benjamin of Uncle Richard's noble affections, received the Senatorial nomination from Greene and Lenoir to-day.

"Let others hail the rising sun,
I bow to him whose course is run."
Kilby Jones Esq., of Pink Hill, was the "lion of the hour" in Kinston to-day. He is a political power in Pink Hill and Trent townships, which caused the nominees and politicians to assiduously wait upon him. He is fighting the so-called Republican nominees, at least some of them. Uncle Richard first plied him about three hours and fell back in disorder—a used up man. Kilby tells some hard

things on the sheriff and the nominees for the legislature, which will be heard from the stump during the canvass.

Neither Mad Leach nor Charles Price, the so-called Liberals, appeared here today according to appointment. They will speak here later in the canvass. Hubbs, with a part of his "bread and butter brigade" from Craven, and all of the same brigade from Lenoir, filled the appointment. John Randolph, United States mail agent, made a short speech, but dealt very gently with his ambitious fellow citizen, J. E. O'Hara. It seems, he don't exactly see how the "cat will jump" and he is mortally averse to leaving the "bread and butter brigade," having enjoyed its luxuries about fifteen years. Hubbs made a good talk and left a favorable impression on his followers.

New Hotel at Smithville.

(Wilmington Star.)
Dropping in at the Purcell House yesterday we saw the design for a new hotel at Smithville drawn by Mr. J. H. Vaughan, and which is proposed to be constructed for and leased for a number of years by Mr. B. L. Perry. It is to be a three-story building, with a front of 125 feet and two wings running out each 150 feet, and a hall room in the centre 90 by 120 feet. There will be one hundred rooms in the building, affording accommodations for several hundred people. There will be verandas around the building, and also in the hall room, so that spectators can overlook the room and view the dancing without getting in the way of the dancers. The building will be supplied with water and gas, elevators, and, in fact, all of the modern improvements and conveniences.

It is proposed in this connection to organize a joint stock company with a capital of about \$40,000, and, as before stated, Mr. Perry has made arrangements to construct and lease the building, work upon which will commence about the first of November, and it is hoped to complete it and have it open for the reception of visitors on or about the first of May.

Judging from the plan the new hotel will be a very handsome and stylish building, and its erection will show that we are awaking to the importance of Smithville or its vicinity as a first-class watering place or summer resort. Another season and the accommodations will be ample in every respect for all who may visit our seaside resorts.

A Blow with a Brickbat.
A young son of Rev. Dr. Wilson, pastor of the First Presbyterian church, was seriously cut on the face yesterday morning, about half past 10 o'clock, by a sharp piece of brick thrown by a colored boy unknown. It seems that the young man was engaged in throwing water into the flower garden with a hose attached to a water plug, when some of the water splattered upon the colored boy, who became incensed, and, after some words, picked up the brick and hurled it at young Wilson's head. It struck him immediately under the right cheek bone and cut a deep gash about one inch and a quarter long. The colored boy then ran off and made his escape.—*Wm. Star.*

The Telephone Exchange.
The telephone exchange does not seem to be progressive in Charlotte. It was begun two years ago with a subscription list of 45. It has now dwindled down to 3, but these are all probably stayers, as the necessities of their occupations seem to require it. But taking the telephone simply for the fun of talking through it, has played out.—*Charlotte Journal.*

A New Skating Rink.
A new skating rink is soon to be opened in the third floor of the new Johnston Block, by Mr. J. Williams, clerk in the store of Messrs. Boessler & Rintels. The newest and best skates have been provided, and the space for skating is the largest of any rink in the South. A smoking room for gentlemen and resting room for ladies are to be fitted up.—*Charlotte Journal.*

Second Crop Blackberries.
Assurance of a late frost will give us a second crop of blackberries. Astonishing as this statement may seem it can be verified. At Odell & Co.'s, yesterday, we saw a bunch of berries of the second growth almost matured. Some of the berries were quite ripe, while all were in an advanced state of maturity. If frost is delayed two weeks there will be plenty of new blackberries.—*Greensboro Patriot.*

County Convention.

The Convention for the nomination of county officers met last Saturday, and was called to order by Col. R. W. Wharton. G. H. Brown, Jr., was made Chairman and J. N. Bell, Jr., and O. K. Stillely Secretaries. Perfect harmony and good feeling prevailed. W. A. B. Branch was, on first ballot, nominated for the Legislature. The names of W. H. Patrick and Dr. J. T. Latham were also before the Convention. Goethe Wilkins and John R. Ross were placed in nomination for Probate Judge. Mr. Wilkins, having received a majority of the votes, was declared the nominee. Arthur Mayo received the entire vote of the Convention for Registrar of Deeds. R. T. Hodges was declared the nominee for Sheriff on the second ballot, defeating Messrs. Hooker and Chamney. H. F. Price was selected as the candidate for Surveyor. No nomination for Coroner was made.—*North State Press.*

Second Week of the Graded School.

The second week of the graded school opened yesterday with 450 pupils, an advance of 20 from the close of last week, and of 217 since opening. This is out of a total of 1,000 white children in this city between the ages of 6 and 21, the legal limits of attendance in public schools. Carpenters are now at work and ready for occupation, making a total of 13 rooms all of which will be required for the purposes of the school. One additional teacher has already been elected and it is probable that three or four more will be elected. The examination for this purpose will take place next Saturday at the school. This astonishing success of the school is calculated to set back the ideas of those people who thought it was an absurdity to engage solarge a building as the Carolina Institute for the school. As announced Sunday morning, the opening of the colored graded school has been postponed to next Monday.—*Prof. Mitchell* calculates that it will open with 400 pupils and increase to even a larger number than the white school, although there are only 871 colored children in the city, not quite so large a number as the whites.—*Charlotte Journal.*

The Car of Juggernaut.

As the Richmond & Danville train coming South, No. 50, conductor Lee, engineer Alsop, was nearing Burkeville Sunday afternoon about 2 o'clock, a man emerging from a body of woods by the roadside rushed to the track and laid his head upon the rail just ahead of the engine. This suicidal act was done so quickly that engineer Alsop hadn't time to check his engine in the least; indeed the man laid his head upon the rail only a few feet in front of the pilot, and the locomotive struck him at full speed almost immediately. The pilot crushed the skull to atoms. The man's name was Howard Nance. The train was stopped and his remains taken to Burkeville.—*Charlotte Journal.*

Northwestern Corn Crop.

CHICAGO, Sept. 18.—Special dispatches report that the corn crop in every direction has been wonderfully improved by the past two weeks of fine weather. In southern Illinois it is believed the crop will be safe from frost by the close of this week. The crop will be a full three-quarters average. In Iowa it is thought the yield will be the largest and best ever known in the State. The corn has hardened and is fast getting away from danger by frost. The hot weather, which still holds in Nebraska and parts of Kansas, has done no harm, the crop being so forward as not to be affected.

Child Shot.

On the 7th inst., Wm. Redditt, a citizen of Blount's Creek, this county, while in a drunken craze, fired a pistol in a crowd collecting to witness a show, fracturing the skull of a 10 months child in the arms of its mother setting in a covered wagon. Redditt is now in jail at this place. The child is still living.—*North State Press.*
