One of our most level headed business men passed along a few days ago and stopped to listen a few minutes at the eloquent strains of the speaker and left minus a hulf dollar. Says he made a good bargain.

Our respected contemporaries, the Economist and Carolinian of Elizabeth City seem to be much concerned about a proposition before the Legislature to change the name of the Elizabeth City and Norfolk R. R. They think it a good advertisement for their town to let the name remain as it is; but perhaps the corporation think it a poor advertisement for the road. If changing the name will bring her on this way, then let her change.

What Will the Taxes Be i tare for the Graded School seems to be one of the absorbing questions in the city of New Berne just now, and as somethink they will be uttawly runned if the tax is levied—not, apparently, un-

derstanding what thirty-three and one third cents on the one hundred dollars means-we will give, for the benefit of all such, the amount of taxes on given amounts of property. The Bill to be presented to the Legislature we under-

dred dollars valuation. A person then

owning one hundred dollars worth of property, real or personal, will pay thirty-three and one third cents; three

hundred dollars worth of property-assessed value-will pay one dollar; one thousand dollars will pay three dollars and thirty-three and one third cents; three thousand dollars will pay ten dollars; five thousand dollars will pay sixteen dollars sixty-six and two third cents; ten thousand dollars will pay

thirty-three dollars thirty-three and one third cents. This tax is to be paid only once a year. Of course the poll tax will be in proportion, that is the Constitu-tional equation will be kept up which in this case would amount to one dollar

We mention this matter because, we times what the Bill proposes,
