thing ever done for that city. The Mr. Joe Banks, of Jones county, was in the city yesterday, and at ease as the beautiful weather for the last week or two has enabled him to get right up

with his work. The schooner Melvin which left here about the 8th of February arrived at St. Kitts on the 9th of March. She had a rough trip but a quick one after getting out at Hatteras.

The Goldsboro Bulletin is a new week ly paper, edited and published by W. G. Hollowell, with N. P. Clingman as local editor. It is a twenty-four column paper and well supplied with editorial matter and local news.

Prof. Johnson showed us on yesterday some specimens of penmanship by pupils of the Graded School between the ages of six and ten years who could not make a letter five months ago. They are sufficient evidence of the good work being done. The trustees were undoubtedly fortunate in securing the services of Prof. Johnson. We learn .hat Dr. Maye tells them that they could not have secured a better Superintendent.

No change will be made in the other officers of the road for the present. There seems to be but little doubt now med at the canning factory that the road will go back into the hands of President Whitford in the course of forty days.

The Canal Again. Our correspondent "W. A. H." plains that our criticism upon the man agement of the Chesapeake and Albemarle Canal is unjust. Our criticism was based upon the charge made by a correspondent of the Norfolk Landmark that the President of the company advertised eight feet of water when vessels drawing only seven feet were allowed to lock and the fact that two of the Clyde steamers, drawing, as we were school is supported in part by taxation. informed, six and a half feet of water, were detained on the canal for hearly a week. Perhaps it is due the managers of the Clyde steemers that we state the fact that we made the criticism of our own motion and not from any suggestion or complaint from them.

Palm Sunday.

The services at Christ Church on Sunday were appropriate to the day, it being the Sunday next before Easter and commonly called Palm Sunday.

The Lessons, Epistles and Gospel ap pointed are with especial reference to the commemoration of the entrance of JESUS into Jerusalem to attend the feast of the passover and to become himself the LAMB for the sacrifice offered for the sins of the world.

The music was peculiarly solemn and impressive. The seventy-third hymn was sung in which is the following beautiful verse: "Ride on! ride on in majesty,

In lowly pomp ride on to die;
Bow thy meek head to mortal pain.
Then take, O God, thy power and reign."

The day takes the name from the events recorded in the Gospel where it is stated that the road leading into Jerusalem was strewed with palms and garments by the excited multitude who cometh in said church. All are cordially invited is one of deep interest, bringing to remembrance the events of the upperroom, Gethsemane, the Judgment Hall, tragic Calvary and the new made Tomb of Joseph of Arimathea.

> The Albemarie and Chesapeake Canal. EDITOR JOURNAL:-In your issue of Sunday you say:

> "A correspondent of the Norfolk Landmark is getting after Marshall Parks about advertising eight feet of water in his canal, while vessels drawing only seven feet are allowed to lock. There must be just grounds of complaint against the president of this company for not long since two of the Clyde boats drawing only 61 feet of water were grounded in the canal and detained over a week, thus annoying the shippers to

Capt. Jones is reported to have said that without a murmur and marrying them the trouble was not with him, or the full up, when they went their way re-

President Parks has always protested minst attempting to send such heavy draft vessels through the canal. He advised against building the Goldsboro as wide and heavy draft as she is. She can't begin to load in the depth of water the canal affords. On the voyage she made out at Hatteras, she took be tween three and four hundred bales of cotton more than she could ever take through the canal. If people will build and send through the canal such ships they may expect them to get stuck, and should not complain of the canal when they do.

The Albemarle and Chesapeake Cana Company is opening and enlarging the old Clubfoot and Harlowe Creek Canal without State or National aid, and by October vessels of as much draft as can navigate Core sound will be able to pass through it from New Berne to Beaufort Harbor, saving about three-quarters of the distance by the present route.

In view of all these facts your criti cisms seem hardly just, or in accord with public policy. W. A. H. New Berne, March 19.

It is funny to hear the hot and cold blowings of the same individual. When the A. & N. C. Railroad was leased to Best, Jarvis, the Democratic party & Company, were a set of spendthrifts, bent on the ruin of the State. Now, Best is a clever fellow, and the same party who would take the road for noncompliance with the lease, are still as mean as the devil. Verily it is easy for some to find whereof to complain.

Friday night the pastor of the M. E. Church in this place received, as he de. served, a heavy "pounding." The circumstances were as follow: About forty of the citizens of the place, without regard to sex, age or otherwise, met at the residence of one of our townspeople. and being armed with such things as the kind people furnished, proceeded to the parsonage, unceremoniously entered and proceeded at once to the work. The parson meekly submitted to the laying on, which is said to have been heavy, and when quiet was restored closed the occasion with praise and prayer. Mr. Carpenter has been here but a short time, but during that time, many have become endeared to him and his good lady for their earnest and zealous efforts in the protracted meeting just closed. Below is Mr. Car. penter's appreciation of the matter:

MR. EDITOR:-Will you please allow me a few lines in your excellent paper, to give an account of the generosity of the citizens of La-Grange. On the evening of the 16th inst., forty persons -ladies, gentlemen and little childrencame to the parsonage of La Grange circuit, M. E. Church, South. Each one brought a token of friendship, a bundle of nice refreshments. Some of them were large packages-all precious and valuable. The "pounding" articles consisted of flour, ham, sausage, cake. canned fruit, sugar, coffee, rice, butter, peanuts, candies, raisins, soap, matches, glass-ware, nails, and many other articles too tedious to mention.

If the people of La Grange constitute a fair sample of Lenoir county, which I do not question, I will venture to say that no county in the State is superior to Lenoir in showing kindness to clergymen. Various christian denominations bore a part in this surprise expedition. The children, my better-half, and myself were overcome with gratitude for the above expression of La Grange

After a few remarks by the writer and singing by the friends, we bowed eches by the pupils, all retired to in prayer to Almighty God. Then some Brock's residence, where they left, some remained longer, and some "stole my partner, shoo li loo" till said they were happy. Surely no town or circuit in the North Carolina Conference surpasses La Grange village and circuit in kindness to the preacher.
