There are many low places in the city that are difficult to drain with acqueducts, so the city authorities have concluded to try artesian wells for this purpose, it being as much impossible to fill one of these as to exhaust it. To the Colored Tax Payer. The Cemetery Committee would say that the Cemeteries are not supported and improved by appropriations from the City Council. They employ a Sexton for each Cornetery, and by resolution provide that the funds received from the sale of burial lots be turned over to the Cemetery Committee who shall keep an secount with each Cemetery and the funds so received be used by them for the improvement of the Cemeteries.

Since 1865 Mr. J. A. Simson, by consent of the City Council, has acted for the city in the sale of lots, he laying off The steamer Neuse, of the Neuse Riv-r Navigation Company's Line has been lecting all monies for both Cemeteries for which he has been allowed a commission of 10 per cent. Hyde county is the richest county in North Carolina. The soil is adapted to corn; it is the queen county of the State on raising corn. The people are generous, kind hearted and accommo-dating. Some of its citizens have left in order to live more stylish, while others have left by happy greeting.
