Gen. A. J. Dargan, of Wadesboro, died last Friday.

The number enrolled at the Graded School is now 587.

The thermometer registered 88 in the hade yesterday. The steamer Goldsboro sailed for Bal-

timore yesterday evening. The steamer Florence arrived from Vanceboro yetterday with a cargo of

We are gratified to learn that the vestry of Christ church have received a proposition from a benevolent lady to finish the spire of their church. This improvement will add much to the appearance of the building, and restore one of the old landmarks.

The business men of New Berne are lease the A. & N. C. R. R. It would be suicidal policy for them to sit idly by and let some one else gobble it up. The road is a valuable piece of property and can be made to pay handsomely.

Sunday School Picnics. The Episcopal Sunday school will pic nic down the river to-day on the ner Elm City. The Baptist Sunday

school will go to Morehead City on Friday, leaving on a special train about 7 o'clock a. m. Thanks for invitations.

Mr. T. J. Mitchell will call on those who subscribed to the Educational fund and have not paid the same during the the first company of troops from that next few days and hopes to find them put up a building for the next session.

Irish Potatoes. From circulars received from New York we see a continual complaint line of steamer's between this city and about the potatoes not being carefully culled. A barrel of potatoes one third ploy of Messrs. C. E. Foy & Co. and culls will ruin the sale of the primes. It will pay to be more careful in culling.

During the past week several of our New Berne boys have returned from school, among whom we notice Henry Ransom from Oxford, Henry R. Bryan from the Davis High School at La Grange, and James Thomas of Chapel Market The Australia College

The Sea Gull, Capt. R. Pigott, on Mon-day from Jacksonville, with staves, ntine and peanuts consigned to Mr. E. Ellis.

The time for planting peas is at hand, and if any of our farmers are in need of seed, Mr. J. A. Meadows can supply them with almost any kind and any quantity desired. In prowling around his mill on Monday we discovered the speckle, claybank, crowder, whippoor-will, blackeye and in fact almost any variety a farmer in this section could ich to plant. He also has fa large lot of fine timothy hay,

A New Berne Boy at Chapel Hill.

In reading the commencement exercises at Chapel Hill we see the name of James Thomas among those distinguished in Greek. His name also appears on the Honor Grades in Geome try, General History, First Rhetoric and Latin. In General History and First Rhetoric he leads the list. Mr. Thomas was prepared for College by Prof. Neal of our Graded School and had the foundation well laid.

We notice also the name of Miss Fannie Bryan, of New Berne, among the lady attendants of the festivities.

Solicitor John H. Collins.

The New Berne Banner, a paper which has for its motto, "with malice toward none and charify to all," pub-lishes a criticism on Solicitor Collins, which is not charitable, but, we think, rather sprinkled with malice. The article has brought the following notice from the Solicitor which we publish by

HALIFAX, N. C. June 10th, 1883. Mr. E. E. Tucker:—I beg leave most MR. E. E. TUCKER:—I beg leave most respectfully to ask you to send me at Halifax by return mail the name of the anthor of the Slanderous article entitled "Incompetent Solicitor," that appeared in the New Berne Banner of June the 9th, 1983, as I shall hold you personally responsible for the same. I wait an early reply. Respectfully,

JOHN H. COLLINS,

We hardly think the members of the bar will sustain the Banner in its assertion that the solicitor has no manners, and we think they will also vindicate him from the charge or intimation that he is corrupt. We think it the sentiments of the bar in this city that Mr. Collins is uniformly courteous and polite to the other members of the bar, and while he may not be as efficient as some solicitors, he does the best he can and is gradually coming into the scheme to zealous in the discharge of his duty. As to his incompetency the Banner was as well prepared to show that before his nomination and election as it is now.

Death of Capt. Duffy.

Capt. Geo. T. Duffy. whose sudden illness we noticed in Sunday's paper, died on that day at 1 o'clock. Captain Duffy was a native of Onslow county and in the 49th year of his age. He leaves a wife and four children to mourn the loss of a kind and affectionate husband and devoted and indulgent father.

Lawhorn Captured.

We learn from the Petersburg Index-Appeal that Sylvester I awhorn, who was convicted for shooting Herman Bryan, and sentenced to 18 months imprisonment, and having taken appeal to the Supreme Court gave bond in the sum of one thousand dollars for his appearance at the Superior court of Duplin county, where he was convicted, and having jumped his bond, was captured in that city on Saturday last.

Swansboro Items.

No marriages or deaths this week, as heard of. Everything is lively and work is go-

ing on finely. Nothing very strange has taken place

for the last week. Plenty of fish and clams now; come

down and get a bite. Mr. Kilby Willis has moved in his new house; he has only been about two months building it.

Pretty healthy now; no bad cases of sickness. W. H. Hill is some better in his sickness, and Mr. Bowen Glancy has got well of a long spell of severe sick-

The schooner Katie Edward, the late sunken vessel, all repaired and just shoved off the ways all right, and Capt. Bell will load for Wilmington in a day or two. Three vessels in port now and the Ray is daily expected.

Mr. F., the very efficient school teacher at Dr. Ennett's, takes the rag off the bush in hunting; he went hunting regular for three weeks and killed two rabbits and a turkey buzzard only, but says he can do better next time and is going to show the people that he can. Willie Mattocks has been wearing the cap as boss hunter, but says he gives it up to C. B. now, and shall not attempt to wear it again.

The farmers around are in good spirits, though some have bad crops owing to bad weather. Burrus Smith says his crop is net good; Ned Jones and Capt. Laughlin have good crops so far; Jones says he has as good as he wants, the best on Green's creek; cotton and corn all clean. He is hard down on the party that sent a petition to the Legislature asking for large mesh nets, Before the late war he was engaged says they have got no sense and he intends to fish with small mesh nets just and at the opening of hostilities raised the same. Pittman has a fair crop Mattocks, Dave Ward and Russell county and was commissioned captain about common, the latter seem to be ready to "fork over." Pay up and lets and assigned to the 24th regiment of N. somewhat down hearted by the low next time, try 'em again.

Rev. Mr. Smith preached a good sermon for us on his last round. Text: Romans v, 11th, in which the word atonement is mentioned-it being the only time said word is mentioned in the New Testament, also in Joel iii, 3d, you will find the word girl, which is First Class Family Groceries the only time that word is spoken in the Bible. I think the above is correct and I only mentioned this to show my brother from up the country that I have

Flour, Sugar, Coffee, Molasses, Syrups, Meats, Canned Goods, Crackers, Soda and Sugar, faithful agent, and a true and upright brother from up the country that I have made no mistake this time, and don't The funeral took place from his late think I made it before, as it might have been in the type setter, though I don't clear myself of errors like my brothers; Neal and the remains followed to the he wants to know my author of snakes Cemetery by a large number of relatives at the Lake; his name is Floyd; I recon a reliable man; I don't say there is a firm in business at the Lake called Jones & Co., but I say there is a man named Jones, (I think James Jones,) he, with others, perhaps one or more, killed 18 snakes, mostly with pistols, all, or near- at FOUR o'clock, p. m. ly so, moccasins, too, and I don't see why my friend wants to deny having snakes up that way. Yes, that may be classed with all my snake stories, every word true.

I have only one snake story this week, and I don't vouch for the truth of it; more than I believe what the gentleman says about it himself. Mr. O. Holland. travelling along the road about dark with his mule, saw something on the side of the road, examined, and found by look and noise, to be a large rattle snake, he commenced to kill the monster, gathered knots, polls, etc., and, like Cad Koonce, pelted him for a time, but his snakeship did not seem to die. H., having a large roundshave staff with him, wore that to a frazzle also, but that did not stop the snake from singing; it being too dark to venture nearer he called for help and a light from a house near by. The friend brought a torch light to H. when, looking among the large pile of knots and broken polls and stones he saw what? a poor little horned owl that Caeser Grant, a colored man, had shot and crippled the night before at his chicken coop; but H. says "I tell you boys, I'am not mistaken, there was a snake there, for I heard him, and he was as big as my body and he had that ere owl trying to swallow him when I come up, and I smelt him, and you can't fool me for I know enakes rom owls," but George Smith and

time any one says snake to him. I don't think friend Cad K. counted those rattles right on his snake, though I have NORMAL SCHOOL. heard of 70 rattles being cut from one snake, the snake being 81 feet long and was found fastened to the throat of a negro woman in the woods. If any one wants to know who my informer was I will tell him cherfully, but the engineer man can have the pie, though it looks like he might tell a snake from a man by the length, and the moss collar snake is no doubt true; neither Mr. Stilley or Mr. Whitaker need not go the trouble to prove it. No one doubts it. We are not like the most of those people who measure other people's corn by their half bushel. We tell things as they are, and hope friend D. S. A. won't stretch himself more than he can help when he has something good to tell for himself.

Migger than Rhode Island.

The largest ranch in Texas is that of Charles Goodnight, located at the head of the Red River. He began buying land four years ago, securing 270,000 acres at thirty-five cents an acre. In the meantime the price has advanced from \$1 to \$2 per acre, but he is still buying and now controls 700,000 acres' To inclose his landed possessions 250 miles of fence is required. Mr. Goodnight has a herd of 40,000 cattle. When it is considered that the whole State of Rhode Island contains only 674,944 acres, it will be seen what an immense amount of land this man's possessions

Extract from a correspondent in Goldsboro giving the test made on the Batchelor Creek Lime sold by Simmons

A Havens:
"Your lime proves perfect, giving surprising results, making a splendid finishing lime, working far more beautifully than the best lime here; solid and beautifully smooth, drying out white and clear, making a fine finishing putty, both the mortar and plastering perfectly satisfactory, and the yield nearly 20 per cent. over any other lime in our market. The test for mortar and plaster made by the leading expert, Mr. Barrett, the inside finishing by the leading expert, Mr. Baloute.
