VOL. II.

NEW BERNE, N. C. SUNDAY, JUNE 24, 1883.

NO. 74.

## LOCAL NEWS.

**NEW ADVERTISEMENTS.**  
J. A. BRYAN—Stockholders' train.  
L. J. TAYLOR—Ice cream, etc.  
C. E. FOY & Co.—Grocers, etc.

**Journal Miniature Almanac.**  
Sun rises, 4:45 | Length of day,  
Sun sets, 7:19 | 14 hours, 34 minutes.  
Moon rises at 10:07 p. m.

Eight bales of cotton were sold at the Exchange yesterday at 9 1/4.

The schooner *Theresa*, Capt. Fisher, arrived from Sladesville yesterday evening with a mixed cargo.

Mr. O. H. Guion of the firm of Holland & Guion, left Saturday morning for Trenton on professional business.

Three marriage licenses were issued by the Register of Deeds during the past week. One to whites and two to colored couples.

The stockholders of the Farmers and Merchants Steamboat Co. met at Snow Hill last Thursday and named the new steamer *Carolina*. We hope to see the *Carolina* and the stockholders on a visit soon.

Young Stebens, son of P. Stebens on Hancock street, while in a mad fit on yesterday poured kerosene oil over the floor preparatory to firing it, but was detected in time to prevent a fire. The boy is said to be somewhat demented at times.

We call attention to the new "ad" of Mr. Lee J. Taylor. He has moved back to his old stand near the depot and is prepared to feast his customers on ice cream, lemonade, soda water, etc. When you are at the depot and thirsty, give him a call.

The Pamlico *Enterprise* has entered upon its second volume with W. T. Cahoon editor and sole proprietor. It is an excellent paper, both in its make up and editorial matter, and deserves the support of its county people. We wish it a prosperous future.

On account of the unfavorable outlook of the weather there were a great many who failed to go on the excursion on Friday night last, therefore the Silver Cornet Band has determined to have another excursion sometime during the coming week. Notice will be given in due time.

We have been assured by gentlemen of the new rail road syndicate that the section in the articles of agreement which says the principle business place of the company shall be in Goldsboro, was merely inserted for convenience, and that it would be remedied to the entire satisfaction of the people of New Berne.

The trucking season is about over, and the net cash is not hard to count. Cabbage have proven to be the best paying crop this season; peas did not pay much; beans were a failure in price, while Irish potatoes have been poor in quality and quantity and consequently poor in price. Some have lost money, others have made a little, so upon an average it is about even.

The low prices that our farmers received for their truck has caused a gloomy state of affairs in our midst. Had Irish potatoes sold in this market this year for six and eight dollars per barrel as it did last year, instead of one and two, and other truck in proportion, many would have been almost as flush here now as it was last December, but still our farmers are not discouraged, they are preparing their land and planting potatoes for a fall crop. Success to them.

The following pupils of the Primary grades were perfect in attendance and deportment during the past week: Misses Laura Suter, Rosa Dall, Carrie Simmons, Mary Hudson, Nellie Hilton, Jennie Watson, Sadie Vass, Mary Lewis, May Hones, Jennie Burrus, Sadie Whitford, Annie Whitford, Mary McCaskey, Louisa Suter, Melissa May, Lula Rus, Nellie LaRoque, Clara Crabtree, and Masters Ferdinand Ulrich, Arthur Kafar, Hugh Wood, John Richardson, Herbert House.

Prof. Johnson received a telegram yesterday from Columbia, S. C., notifying him that he had been unanimously elected Superintendent of the Graded School of that city. We are not prepared to say yet whether the Professor will accept the situation or not. He is elected without solicitation on his part, though he was requested sometime ago to put in an application for the position. Columbia has the advantage of New Berne in buildings and they are able to pay a better salary. Prof. Johnson has given entire satisfaction as Superintendent of our school and we would regret very much to part with him. If an increase of salary would induce him to remain we have no doubt it could be made up by private contribution, but we are satisfied the Professor is not endeavoring to force any increase of salary, but looking to the future as every young man of energy and capacity should.

**Capitalized.**  
Messrs. E. Hackburn and Nat Tisdale were caught in a squall up Trent river on Friday evening which capsized their boat, spoiled the fun and sent them ashore looking like two drowned rats. Go again.

**New Buildings.**  
Mr. J. A. Simpson has contracted for the putting up of six one-story buildings on the burnt lot of the market dock. They are to be wood frame covered on sides, front and roof with corrugated iron.

**Davidson College.**  
Our townsman, Mr. Geo. Allen, returned from Davidson College commencement on Friday night and speaks in high terms of the future of the College. We notice that he is chairman of the committee on property and improvements, and is one of the trustees of the College.

**Stealing a Vest.**  
A negro man was caught in the act of stealing a vest at Mr. Jos. Schwerin's night, and while some one went for the policeman to take him in charge he broke through the crowd that were guarding him and dashed off up Middle street at lightning speed. He was soon picked up however by the nimble footed William Munjon, colored, and turned over to the policeman.

**Head Over.**  
The case of Thos. Francks, the George Washington juror who was arraigned for perjury, came up before Esq. James Campbell on yesterday.

Judge W. J. Clarke appeared for the defendant and F. M. Simmons of the firm of Nixon, Simmons & Manly for the State. The defendant was required to give bond in the sum of one hundred dollars, justified, for his appearance at the next term of the Superior court.

**A Pleasant Sailing Party.**  
On Friday night Miss Leah Jones and a party of friends and associates of the Graded School, took a moonlight sail on one of the yachts belonging to the Ferry line, and an evening of rare enjoyment was had. Mr. K. R. Jones, Professor Wardlaw, and Misses Core and Brookfield represented the senior element, while Messrs. Allen, Rhem, and Messrs. Hollister, Burkhead, Howard and Harper formed the junior class. The "freshmen" furnished music and added much to the delights of the occasion.

**House and Child Burned.**  
We learn that a house was burned on Mr. Wm. Foy's plantation in this county on Friday evening about dark, and with it the child of a colored woman who was living in the house at the time. The woman had placed her child on the bed and gone about two hundred yards to a spring for water, leaving fire on the hearth where she had been cooking. When about to return from the spring she heard the alarm of fire given by some of her neighbors, and before she could reach it, it was in a blaze all over to such an extent she could not enter to recover the child.

**Beaufort Items.**  
Telephone.

The berry crop of this season seems to be short in this vicinity, as very few have been brought into market.

We have official information to the effect that Mrs. Hettie E. Willis, of this place, has been allowed a pension of \$8 per month since July 13, 1865, and the same will continue for life.

We learn that the melon crop prospect, notwithstanding the heavy rains, is exceptionally good this season, and that the yield will be at least one-third greater than it was last year.

The schooner *Shekinah*, Smith Shaw, master, arrived at this port from New York on Friday last laden with stone for the Government, discharged cargo and sailed for New Berne on Sunday.

The steam grist mill of R. B. Cox, the lumber yard of Julius F. Jones, and the long wharf recently constructed at the foot of Moore street seem to indicate a western tendency of the business enterprise of the town.

There is no better time than the month of June to visit Beaufort. As a rule persons intending to come generally put off their advent until July and August. If they wish to see and enjoy a climate surpassing that of Italy, let them come now.

Beaufort Male and Female Academy brought its session of 1882-'3 to a close on Friday, the 15th inst. A greater degree of success attended the term than has just passed than that which characterized any previous session of its history. The average attendance of pupils was very large and the advancement made in all the grades of the school has been generally satisfactory to its friends and patrons.

## Kinston Items.

A smart thing—a mustard plaster. The difference between a dull razor and a bad boy is none—they both need strapping.

A young man of this place calls his sweetheart a "rare opportunity," because she is worthy of being embraced. Miss Aud Dunn, daughter of W. W. Dunn, Clerk of our Superior court, died last Friday of typhoid fever. The girl was young.

John S. Bryan, Esq., the talented and efficient Mayor of Goldsboro, was in town last Friday, visiting among family connections.

Miss Henrietta L. Evans, a teacher in the Graded School at Washington, D. C., is spending the summer with her sister, Mrs. Rosa S. Foy.

The Trustees of the Kinston Colored School have elected Mrs. Rosa S. Foy, a graduate of Oberlin college, Ohio, Principal of the school.

Oscar Williams, Esq., of Burt's gang, sends his compliments to Boss Traynor and kindly enquires for a fine hat which mysteriously disappeared at the time of the Boss' departure. As the Boss belongs to the Cantellalle club, it is hoped the hat will soon return or be recovered.

When several rows of the "Caswell Literary Club" sailed up and down Neuse river on the steamer *Kinston* last Wednesday night, discussing Plato or Cicero, Herbert Shaw, Jr., and studying nature, or moonlight, or eating ice cream and listening to music. An outsider, who was along, says it surpassed all the festivals, all the balls, all the picnics, of the season, for fun, pleasure and enjoyment, and cost him nothing.

Mr. W. M. Parker comes in ahead of Sheriff Davis this year with the first cotton blossom of the season. On the morning of the 23d inst. he pulled one from his farm, situated on the land of J. F. Parrott, south of Neuse river. A young attorney, of Kinston, in his ignorance of nature, pronounces it a wild flower bloom, but his judgment only demonstrates the necessity for Fab. H. busbee's plan for a closer study of nature in our schools and colleges.

## DAVIDSON COMMENCEMENT.

**A Gala Day at the Venerated Institution.**

Charlotte Journal-Observer.  
Another year of college work and college joys has come and gone. Yesterday the 46th commencement of Davidson College was ushered in under auspices most gratifying to the friends of this grand old institution. The unusual number of old students and the numerous friends of "our boys" contributed to swell the attendance on this opening day to a considerable crowd. At an early hour the campus was dotted with gathering groups of curious pilgrims gathered in the inevitable linen duster and bag breeches. The students issued from the college and returned like bees about the hive. All seemed busy and duly impressed with the fact that they had parts to perform in the commencement drama. The Salem Cornet Band were on the ground and by their handsome uniform and excellent music called forth the admiration of all. Col. Bennett H. Young, of Louisville, Ky., arrived yesterday in his palace car. His family and a few special friends accompany him. Amongst the number whom Colonel Young now entertains in his magnificent palace car, is W. B. Haldeman, proprietor of the *Courier Journal*. The entire party express themselves as well pleased with Davidson.

The final celebrations of the Eumenean and Philanthropic Societies took place Tuesday night in their respective halls. To these exercises none are admitted except the regular and honorary members of each society, thereby debarring many of the friends of the college from all participation in the exercises which to our mind are the most enjoyable feature of the commencement. We think the old paths should be departed from in this particular.

The board of trustees were in session till a late hour Tuesday night, and still have much business of importance to dispose of. Amongst other important matters coming before the board at this meeting was the election of three new professors to fill the chairs of Greek, Latin and Mathematics made vacant by the resignation of Profs. Latimer, Sampson and Carson. Dr. Latimer has accepted a call to the Second Presbyterian church at Memphis, Tenn. Prof. J. R. Sampson goes to take charge of the Pantops Academy, a flourishing school near Charlottesville, Va. Prof. W. W. Carson leaves to look after his business interests in Memphis, his former home. By the resignation of these learned and experienced teachers the college has lost men, whose places, it was feared, could never be filled. Davidson has

always been very fortunate in securing the services of scholars of marked ability, and in this instance if we mistake not she has been as fortunate as ever before. To the chair of Greek the trustees have elected Prof. George F. Nicolassen, A.M. Ph. D. of the Southern Presbyterian University at Clarksville, Tennessee. Mr. Nicolassen is a young man of extraordinary merit. He graduated at the University of Virginia with the degree of Master of Arts in 1880, leaving that University, he went to the Johns Hopkins University, where he obtained a fellowship, and was honored with the degree of Ph. D. His stay at Clarksville has lasted only a year. Prof. Nicolassen has already distinguished himself as a scholar and educator, and Davidson will do well to keep him.

The chair of Latin has been filled by the election of Wm. J. Bingham, of Mebaneville, N. C. Mr. Bingham came of Latin stock, being a nephew of Maj. Robert Bingham, and son of the late William Bingham, author of a series of Latin text books. He was formerly a student of Davidson, and was the recipient of the Latin prize. Upon entering the University of Virginia five years ago he distinguished himself by carrying off a scholarship which had never been won before. He was employed for two years as Latin instructor in that University, from which this year he carries off her highest honor, the Master's degree.

The chair of Mathematics will be filled by Prof. Vincent, of Austin College, Texas. He graduated at South Carolina College.

The college is to be congratulated on her success in filling the places made vacant. The professors elect are men who will carry out the noble work begun by their predecessors, who have helped to raise the standard of the institution to such a degree that it now stands, in the opinion of the distinguished educator, "second to none South of the Potomac."

## STATE NEWS.

Gleaned from our Exchanges.

**Winston Sentinel.** A Davie county farmer realized \$215 from one acre of tobacco. He sold it in Winston, of course—Randolph and Guilford counties yield one of the largest wheat crops this year known in their history. More Mowers, Reapers and improved farm machinery of every kind has been sold in Winston and Salem this season than in three years previous.

**Chatham Record:** The harvest is now in full blast, and the reapers are busy with their cradles in the ripened grain. Some complaint is made of rust being in the wheat, but on the whole the crop is an average one, and no person in Chatham is likely to want for bread during the next year. A white man named Thomas Moore, of Cape Fear township, was brought here a few days ago and confined in jail, where he will remain for five months, unless some person will stand his security. He was arrested upon the charge of ill-treating his wife, and after an examination by a magistrate, was required to give bond to keep the peace for five months, and upon failure to give the bond he was sent to jail.

## COMMERCIAL.

### NEW BERNE MARKET.

COTTON—Middling, 9 1/2; strict low middling 9 3/4; low middling 9 1/4. CORN—in sacks, 68c.; in bulk 64c. TURPENTINE—Dip, \$2.25; hard \$1.25. TAR—\$1.00 to \$1.25. LARD—Country, 13c. to 14c. ## Ice Cream! Ice Cream!

### L. J. TAYLOR

Having moved back to his Old Stand, near Depot, has opened TWO ICE CREAM PARLORS, one for white and one for colored people, where they may enjoy a plate of very fine Ice Cream. He also furnishes Ice Cream by the pint, quart or gallon at very reasonable rates. Soda Water, Bottled Ginger Ale, which is always kept ICE COLD. Lemonades made at reduced rates. Special attention is called to his Lorillard Snuff; he only keeps one kind, and that is genuine Lorillard, High Toast Scotch Snuff. He has bladders from 3 oz. up. He has very fine Cigars, Tobacco, Candy, etc.

Call and see him at once and you will "Come Again."

L. J. TAYLOR,  
June 24th | Near Depot, New Berne, N. C.
