Advertisements under head of "City Items" 10 cents per line for each insertion.

No advertisements will be inserted between local items at any price.

Notices of marriages of brides, not to exceed one line will be inserted free.

Payments for transient advertisements must be made in advance.

Communications containing news or a discussion of local matters are solicited.

THE JOURNAL

H. S. HUNE, Editor. NEW BERNE, N. C., JUNE 28, 1888.

Entered at the Post office at New Berne, N. C. as second-class matter.

INTERNAL REVENUE DISTRICTS.

The President has issued an order of the changes made in the Internal Revenue collection districts...

The counties of Carteret, Craven, Duplin, Edgecombe, Greene, Jones, Lenoir, Onslow, Pitt, Wayne, Wilson, Bertie, Beaufort, Camden, Chowan, Currituck, Dare, Gates, Halifax, Hyde, Hertford, Martin, Northampton, Pamlico, Pasquotank, Perquimans, Tyrrell, Washington, Franklin, Johnson, Nash, Wake, Warren, Bladen, Brunswick, Columbus, Cumberland, Harnett, New Hanover, Robeson, and Sampson...

PAUPERS.

Great Britain has adopted a plan of getting rid of her paupers which seems to have been nipped in the bud at the outset.

As an importation of paupers might be considered articles of luxury we think it necessary to impose a high protective tariff.

Why Sheep are Profitable.

Sheep are profitable for several reasons, among them being the small expense of maintaining a flock.

lege of feeding on the short herbage that grows in the fence corners, in the abandoned meadows, and among the wheat stubble.

They are also great renovators of the soil, scattering manure evenly and pressing it in, thus improving the ground on which they feed.

Giving Young Colts a Start.

Crossing to secure size has done much towards creating certain kinds of horse stock that are greatly larger than the stock from which they originated.

It is a common saying, that a starveling colt, so called, grows one end one year, and the other end the next year.

Feeding by Live Weight.

"I gave twenty pounds of hay per 1,000 pounds live weight," is the expression of a recent experimenter in cattle breeding.

Her Daughter's Husband.

A traveler saw a woman take a man by the collar, yank him up the steps into a railroad car, jam him down into a hot seat near the stove, pile up a valise and two big brown baskets with loose covers and long handles at his feet, shove a lady into his lap, and say:

HE WAS IN THE ARMY.

The Eloquence Which Won a Soldier's Suit.

A distinguished company of lawyers sat in the Supreme court-room recently, talking over old times.

Death to Whitewash.

Maxwell's PREPARED GYPSUM.

weight might be a gradual method of starvation. The internal organs of the cow, and not the size, must be the scale of measurement.

This fallacy of endeavoring to establish a graduating scale of feeding according to size might as well be exploded at once.
