NEW BERNE, N. C., SUNDAY, JULY 1, 1883.

NO. 80.

LOCAL NEWS.

NEW ADVERTISEMENTS.

LUTHER SHILDON—Doors, blinds, etc.
B. PEDDLE—Globe hotel.
J. F. CLARK—Brick.

Journal Miniature Almanac.

Sun rises, 4:48; Length of day,
Sun sets, 7:19; 14 hours, 31 minutes.
Moon rises at 2:06 a. m.

Potatoes were firm in New York, yesterday, at \$3.00 to \$3.50 per barrel.

Rev. F. W. Eason arrived home Friday night, and will occupy his pulpit this morning and evening.

The first cotton bloom was handed in on Saturday morning from Mr. John T. Dawson's farm near Maple Cypress.

The Mechanics Hook and Ladder Company, No. 1, will meet Monday, July 2d, at 8 p. m., at the truck house.
J. J. BALLARD, Sec.

We hope that our subscribers on our up town route will be kind enough to hear with us for a few days as a change has been made in the route boys and it will take them a few days to learn the route correctly. If any of our subscribers should fail to get their paper and will come or send to the office we will take pleasure in supplying them.

The Newbern Silver Cornet Band will give an excursion, July 4, on the Str. Kinston, down Neuse river; thence up Neuse above Newbern. The Kinston will be specially fitted up for the occasion with the best accommodations to insure a pleasant trip. The steamer will leave the Old Dominion wharf promptly at 2 o'clock, p. m. Tickets 50 cents; children under twelve years of age, half price. Go and enjoy good music.

Dr. Forbes, of Beaufort has been enlisted as a contributor to the Graded School Museum, and is proving himself a most valuable auxiliary. Prof. Johnson received from the Doctor the other day a box of rare shells and pressed specimens of marine life.

Museum.

Dr. Forbes, of Beaufort has been enlisted as a contributor to the Graded School Museum, and is proving himself a most valuable auxiliary. Prof. Johnson received from the Doctor the other day a box of rare shells and pressed specimens of marine life.

Explanation.

We intended keeping our readers posted on the proceedings at Morehead City while attending the Stockholders meeting but the operator at the Atlantic hotel failed to put through our second message on Friday night, having been closed. We hope our readers delayed it until the office here will understand why we did not have fuller reports on Saturday morning.

Township Assessments.

The tax assessors of No. 8 Craven county have completed their work and report the amount of real taxable property in the city of New Berne to be \$1,035,523. Assessed value last year \$1,008,338, making an increase in this year of \$27,185. Outside of city limits \$147,017; last year \$113,836, increase \$33,181. Total increase in the township \$85,870.

Play and Work.

A man who devotes a good deal of his leisure moments in playing games is not always to be considered the best player, because sometimes the exercises of the game or the theory connected with it bears a great similarity to that used by the horny-handed son of toil in his daily labor. This was demonstrated at Morehead City during the stockholders' meeting when a farmer from Falling Creek, Lenoir county—a member of the Legislature and of the Sporting Club—walked into the ten-pin alley and the first ball he rolled—being in the first game he had ever rolled—he made a ten strike. This was followed up by a "spare," then another strike, when his opponent exclaimed, "You deceived me! You said you had never rolled a ball before!"

"Upon my word," said he, "I never rolled a game in my life. But I tell you, I am used to running straight corn rows, and anybody that can lay off a straight corn row can roll a straight ball, and if you will roll 'em straight you can knock down those pins."

Oral Examination.

The public examination of the Graded School will take place next Monday. Every one interested in the progress of the children is cordially invited to be present. The entertainment that was to have been given Monday night will be merged into the exercises in the various rooms in the course of the examination during the day.

The following citizens will act with the Board of Trustees as a Committee on Examination and are requested to be at the school house at 8 o'clock, viz: Rev. Dr. Burkhead, Rev. L. C. Vann, Rev. V. W. Shields, Rev. F. W. Eason, Superintendent John S. Lang, Mayor Howard, H. S. Nunn, Gen. E. Pittman, Judge Seymour, Capt. B. H. Gray, Judge Green, Gen. R. Bauman, Judge E. W. Carpenter, Col. Whitford, B. E. Roberts

Maj. Dennison, Daniel Stimson, Thos. Daniels, J. J. Wolfenden, J. L. Pbam, D. N. Kilburn, C. H. Blank, R. O. E. Lodge, Jos. Schwerin, K. R. Jones, W. F. Rountree, E. K. Bryan, C. E. Foy, H. Sperling, James A. Bryan, O. Marks, J. W. Walker, W. P. Burrus, E. M. Pavie, F. M. Simmons, M. DeW. Stevenson, B. A. Bell, James W. Moore, Dr. Chas. Duffy, Geo. Henderson, J. A. Simpson, Geo. B. Guion, Maj. John Hughes, R. C. Kehoe, Geo. N. Ives, Jas. F. Clark, Isaac Patterson, W. B. Boyd, B. M. Gates.

A Plain Statement.

The buildings at the Orphan Asylum are now finished. The porticos and eating lodges, mentioned in my last report, are done and paid for. I was hoping, that as provisions are now plentiful in the State, the demands on the Orphan Asylum would diminish. But it seems that fruitful years are sickly years, and that when men gather abundantly, death does the same. We are not able to admit all the orphans who apply for admission. Besides, I have lately learned that a little over twelve hundred dollars (which I confidently expected), will not be received during the present year. It is therefore plain that unless the lodges, the churches and liberal individuals shall very materially assist us, it will be necessary to limit admissions to cases of extreme distress, and to reduce the present hundred and fifty to one hundred. I greatly prefer to make the Orphan Asylum do all the work of which it is capable, especially as we are now doing building, and I can give all my time to the children. But I leave the question in the hands of the people. I shall try to use wisely and economically the means put in my hands and to limit our operations accordingly.
J. H. MILLS.

We call the attention of our generous hearted citizens to the above article which we clip from the *Orphan's Friend* and suggest that some steps be taken to help the orphans. If some of the ladies of our city were to make a start we have no doubt but that a good contribution of money, food, clothing and such necessary articles as are needed by the orphans could be raised and forwarded to them immediately. New Berne should not be behind in the discharge of such duties.

Meeting of the Stockholders of the A. & N. C. R. R.

Morehead City, June 29—5 P. M.
The "watered stock" gas was about exhausted in the morning meeting. Upon reassembling the committee on proxies submitted two reports, one signed by F. C. Roberts and Geo. Dees, which recommended that the stock known as the Midland shares, represented by J. C. Wooten as proxy, should not be allowed any vote; the other, signed by L. J. Moore, per Clement Manly, and J. C. Kennedy, recommended that J. C. Wooten be allowed to cast 335 votes for said stock. After several ballots, motions, and points of order, the latter report was adopted, Messrs. J. L. Morehead and J. B. Bachelor protesting.

Reports of officers of the company were read and received. The same directors re-elected on the part of private stockholders. Finance Committee: Clement Manly, J. J. Wolfenden and S. W. Latham. Proxy Committee: J. C. Kennedy, L. J. Moore, E. H. Meadows.

During the discussion on the report of the proxy committee, F. M. Simmons defined the position of the State as being opposed to allowing the Midland stock any vote at all.
Adjourned until 9 o'clock.
June 29th, 9 p. m.

Meeting reassembled pursuant to adjournment when three propositions were submitted, one for the lease of the road, one for the lease with a view of extending the road, the other for the reorganization of the A. & N. C. Railroad Company.

The first was presented by Judge Faircloth for the Eastern N. C. Railroad Company, the second by Julius A. Gray for the Cape Fear and Yadkin Valley Railroad Company, and the third by Appleton Oaksmith on the part of a company of Northern gentlemen.

Adjourned until ten o'clock Saturday morning.
Saturday, June 30th, 10 a. m.
Met pursuant to adjournment. Judge Faircloth moved to take the sense of the meeting upon the proposition made by the Eastern N. C. Railroad Company. A discussion arose from this motion which brought Gov. Jarvis forward with a two hours speech. He discussed the proposition offered by the Eastern N. C. Railroad Company and desired to make a proposition to them. Said he:

My proposition is this: If the E. N. C. R. R. Co. will amend their proposition in this particular, that they will pay \$30,000 a year rental for the A. & N. C. R. R. (for it takes about that sum to pay the interest, keep up the organization of the present company, and to pay taxes), and after paying all expenses of operating the road, then pay themselves 4 per cent interest on the money they put into it, and the balance of the surplus they will distribute among the private stockholders of the A. & N. C. R. R. Co. I will take my hat and go

home. They are the men who built the road and put the money into it.

The Governor further said that he would put the State's proxy and Directors in the adjourned meeting without instructions; to act upon their best judgment. On motion a committee of five stockholders was appointed to consider the propositions to lease, and the meeting adjourned to meet at Morehead City on the last Thursday in July.

No change was made in the appointment of the State's proxy and Directors.

Watered Stock.

A stockholders meeting is a good place to go to if one wants to hear speeches. At the meeting just held the speaking for two days was principally on "watered stock." Most of the speakers thought the stock had been badly watered and many of the stockholders thought the speakers were watered to some extent. Anybody who has a share of stock or a proxy, from the Governor of the State down to a township constable without bond, can speak at a stockholders' meeting. There were some good speeches made at this last meeting. Maj. John Gatlin opened the ball with the first speech. He is a capital speaker; makes a plain argumentative matter-of-fact speech, hewing to the line and carrying conviction to his audience. Gov. Jarvis is not so good in a deliberative body as before a popular assembly. While his speeches have a tendency to animation, Gatlin's will put people to thinking. Jos. B. Bachelor is a fluent, eloquent speaker, but when will he get to the point? Col. L. W. Humphrey makes a good, sensible railroad speech, has a good share of repartee at his command, which he can readily apply, especially when Mr. Bachelor says "talk louder." F. H. Busbee has a beautiful flow of language, is quick to seize the weak points of his opponent, and in all makes a happy speech. In contrast with him, Judge Faircloth, while he makes a sound, sensible talk, without any waste words, seems to be endeavoring to overcome some tremendous task.
Col. J. L. Morehead is a man of few words but he talks sense. As for our home gentlemen, Messrs. M. DeW. Stevenson, Clement Manly and Washington Bryan did the most of the speechifying and they combined the elements of good judgment, sound sense, eloquence and "grip."

We were anxious to hear the Hon. C. C. Clark on the subject of leasing the road. He has always opposed a lease and no doubt can give as strong reasons for his course as any stockholder of the company. We wished to hear the question discussed upon its merits, and we know of no one better prepared to discuss the negative side of the question than he. At the next meeting we hope the question of watered stock will have been settled and some more definite and conclusive action be had as to a final disposition of the road.

Kinston Items.

We carry all our neighbors' crimes in sight and throw all our own over our shoulders.

They who marry for traits of mind and heart will seldom fail of perennial springs of domestic enjoyment.

One peculiarity of the wild goose is, that if its mate dies it never takes another. This accounts why "goose" is used as a synonym for foolishness.

It is said the celebrated Seven Springs will soon be honored with the presence of B. N. Fields, James Brown and N. R. Wood, distinguished visitors from this place, in search of health and "77 drinks before breakfast."

"Old Bart" has just returned from a four week's trip to Jones county whether he has been in the character of knight of the golden tooth. Not finding much pay in the dental line, he turned into Jeff Perry's wheat and oat field and helped him to harvest a good crop of wheat and about two thousand bushels of oats. He then got sick and fell in with ex-Sheriff Jos. Smith, who could not afford to pay his ferrriage over the Styx, but hurried him off to the next best place, "old chow chow" at Kinston.

A party of Kinstonians—Senator Loftin, ex-Mayor Canady, Dr. F. M. Rountree, Jas. H. Kinsey, A. J. Grady, E. P. Loftin and Master Roscoe Miller while out sailing at Morehead City last Thursday during the stockholders meeting, suggested their boat and started immediately for "Davy Jones' locker."

It is said the Senator made for heaven by way of the mast pole, the ex-Mayor called fervently on the good Lord for immediate help, promising not to trouble him again if present aid was given; the Doctor offered all his possessions for one foot of land; the father of the Senator mistook a ballast and bag for a life preserver and went among the sharks with it; tears came in the eyes of Jas. H. because he had neglected to insure his life, while A. J. and Roscoe put their trust in good looks and swimming powers.

La Grange Items.

Miss Sac Hodges is visiting the family of H. M. McDonald in this place.

The first ripe field pea of this year's growth, was shown by Henry Fields, one day last week.

Sam Smith has a pullet, hatched the 18th day of last March, that has laid four eggs. The eggs are small, but in other respects they are in appearance perfect.

Our new band, with their new instruments, blow often, long and loud. The visitors at Suggs' store the fourth of July will hear some good music. The Citizens band of La Grange are the boys to make it.

The tax listing, now about completed, in this Township, shows that Noah Rouse had \$17875 taxable real and personal property, Simeon Wooten has \$13,385, H. E. Dillon \$13009, S. I. Wooten over \$10000 and so on. The tax list shows further that the financial condition of the people is good.

Sorry that the Free Press Boss thinks that I am troubled about the many "commencements" of the Kinstonians in and around this place. Shouldn't wonder if the commencements themselves had more "trouble" over the things they "believe in" than the "La Grange correspondent of the JOURNAL." How about this Mr. Daniels?

Several of our young folks returned from Morehead Friday. This season of the year, (the excursion season) is very favorable for love-making, courting and other amusements and enjoyments. Many hearts will be made glad, and as many, probably, made sad. For: "The gods are deaf to hot and peevish vows; They are polluted offerings, more abhorred Than spotted livers in the sacrifice."

The crops on the A. & N. C. R. R., between this place and Morehead City, are not promising and in bad condition. With a very few exceptions there cannot be more than half a crop made. The cultivation shows a want of labor, either in quantity or quality, and the sooner farmers learn to give personal attention to the cultivation of their lands the better for all concerned. The system of farming now going on in this country known as "cropping," (with few exceptions) don't pay the man who does the work, is killing to team, injurious to the land, unremunerative to the landowner, and destructive to the very business interest. No business can stand that wont sustain itself, and the past few years has shown that where cropping has been adopted, there has been no improvement.

MR. EDITOR:—We noticed while on a recent visit to Morehead, quite a number of new sail boats, and among them some new sharpies. This strange craft is the outcome of a revolution of ideas as regards the requisites of speed in a sailing model. Heretofore, deep, sharp bottoms, heavy displacement, with the center of gravity low down in the water so as to enable the craft to carry a heavy press of canvas, with easy lines or clearance in the after part or stern, and medium sharp bows or entrances were deemed the requisites of speed. The sharpie model is the reverse, very light displacement, shallow bottoms, great length and very flat on the bottom or floor, which enables them to carry a very large area of canvas; they cannot be said to go through the water, but to go over it. Their speed is astonishing, and in a sea way they seem endowed with life. We went over the bar in Capt. Piver's new sharpie with a very pleasant party of ladies and gentlemen, several of them from La Grange; the wind was at South West; we spread her wings and fairly flew over the water, and in a very short time we were dancing upon the tops of the rollers. We were much pleased with the sea-going qualities of the boat, and have changed our opinion as regards their safety in heavy stormy weather. We think under proper management, that they are the safest boat ever built; and the only improvement that can be made in them is to fix in them air tight tanks, so that in the event of a capsize or being swamped with a breaker, the danger of drowning would be lessened. Capt. Piver is a very pleasant and gentlemanly commander and thoroughly understands handling a boat, and we heartily commend him to all who visit the sea coast.
