Sun rises, 4:39 | Length of day,
Sun sets, 7:19 | 14 hours, 30 minutes.
Moon rises at 8:58 a. m.

Board of city councilmen meet to-night.

The various fire companies of the city held their meetings last night.

The county commissioners were in session yesterday and adjourned until to-day.

Mr. Joseph Miller, of Bayboro, called in to see us yesterday and says it is awfully dull in Pamlico.

Gov. Jarvis has taken his hat and left Morehead City. He passed up yesterday morning for Raleigh.

Clement Manly, Esq., of the firm of Nixon, Simmons & Manly, is attending Jacksonville Commissioners' court.

The steamer *Shenandoah* will be in this morning and will leave this evening on an excursion for Old Point.

Mr. C. Erdmann received a large lot of tobacco on the steamer *Goldboro* yesterday which will be made into fine cigars.

The steamer *Goldboro* arrived on Saturday night from Baltimore and will sail to-day with a cargo of naval stores, planks, lumber, etc.

Irish potatoes were selling in New York on yesterday at \$1.50 to \$3.25. Our people will not ship many more unless the price gets better.

M. DeW. Stevenson, Esq., and his mother, Mrs. Stevenson, left for Providence, Rhode Island, on yesterday where they will spend a month or two.

No steamer of the Clyde Line will leave Baltimore to-morrow for New Berne on account of the National holiday, the 4th of July, which every patriot should celebrate.

The New Berne Silver Cornet Band are practicing now every night preparing for their excursion on the steamer *Kinston* Wednesday, July 4th, when they will give the party the sweetest music of the season.

Governor Jarvis' proposition to the new syndicate don't take worth a cent. They are inclined to the opinion that the Governor knows more about politics than he does business enterprises, or at least he is more successful in that line.

Mr. Geo. N. Ives, his son John and Mr. F. Ulrich started on a cruise to the ocean, via Hatteras, on the beautiful sloop *Nellie May*, which belongs to Mr. Ives. They will undoubtedly have a pleasant trip unless the weather prevents.

The *Monitor* is the name of a steamer purchased by Mr. Thornton of Thornton & Hollowell's mill, for the purpose of shipping their lumber. She arrived on Sunday and is capable of carrying one hundred thousand feet of lumber on one trip.

Capt. E. R. Page brought down on Sunday night the first Pullman palace car of the season. It came directly through from Atlanta, Ga., and contained twenty-six visitors for Morehead City, among whom was Capt. Jackson, of the Gate City Guards, going down to make arrangements for his company.

What has become of our military company? We have heard nothing of them in some time. Some of the members have their uniforms, a portion if not all the officers were elected, and they now seem to be at a standstill. Could not Capt. Manly call them to attention and set the ball in motion? Would like to see them succeed.

The County Commissioners passed an order on Monday for the purchase of the lot which they had leased conditionally from the Trustees of the New Berne Academy, on which they are erecting a court house. The Trustees intend, we hope, to use the money obtained from this source in erecting a building, as it takes more than the interest realized from it to pay the rent of a building that is not at all suited for teaching in. If the citizens will only add to it about three thousand dollars we can have a building which the people will feel proud of.

The Graded School closed yesterday with examinations in the various grades. Many patrons of the school were present and highly pleased with the progress made by the children. We regret that the exhibition on account of the extreme hot weather and other causes had to be dispensed with, not that there is so much real merit in an exhibition, or showing exercises, but it never fails to make a favorable impression for a school when properly conducted. The next session should open about one month earlier than the last, so that the closing exercises may come off in good time. Prof. Johnson has accepted the Superintendency of the Columbia School, but this will not interfere with the progress of our school. We hope soon to give the annual report of the Superintendent for the past year.

Fourth of July.
The clerks in the stores want to shut up on the fourth. It is a National holiday and should be observed as such.

First Cotton Bloom.
Dr. N. H. Street sends us a cotton bloom from Pollockville, the first opened in that section. It is from the farm of Mrs. Cora Jones on the Ravenwood plantation and opened on the 28th of June.

Died.
At the residence of Mr. Anson G. Wallace, in this city, on the 2d inst., of typhoid malarial, Mr. John B. Grace, of Portsmouth, N. C., aged 23 years. Mr. Grace was one of the main hands employed in the cotton factory in this city, and was sick only eleven days.

U. S. Court Chambers.
The department of Justice at Washington has caused a very sensible thing to be done in the renting and fitting up of the neat office adjoining the Stevenson residence on Craven street as the official headquarters of Hon. Aug. S. Seymour, Judge U. S. District Court, to be used as "chambers."

Markets.
A subscriber writing us from Pelletier's Mill wants to know why we do not give the prices of molasses, sugar, flour, long clears and new city mess pork. We have not given them heretofore because we have confined our market reports to such things as our country readers would likely have for sale. We will endeavor to give the prices hereafter that he calls for.

Coming to it Gradually.
A good old farmer in Bucklesberry, Lenoir county, who was always bitterly opposed to the stock law, it being an innovation on an old, time honored custom that he never expected to see, refused to tear down his fences but is gradually taking them down one or two rails at a time until he has nearly found the bottom rail and by the time he finds it will be in for the stock law.

Postal Orders.
The new law in relation to P. O. money orders went into effect yesterday. The changes are not very material, the principal ones being that an order not exceeding ten dollars shall pay a fee of eight cents, and that an order can be obtained for one hundred dollars, the maximum heretofore having been fifty dollars.

The office here has not yet received the "Postal note."

The Crop Outlook.
The following replies have been received at the Cotton Exchange in reply to inquiries sent out by the Secretary, giving the condition of the crop up to the 1st of July:

E. F. Sanders, Pollockville, Jones county: Crop clean and growing, stand not so good as at first, about as far advanced as last year; weather good and dry, rain needed.

W. H. Dail, of Snow Hill: Condition first-class; stand almost perfect; weather more favorable; had fine rains which fell in the night time, and the crops ten days earlier than last year.

A. R. Holton, Ridge Springs: Condition ordinary; weather more favorable; stand good and ten days earlier.

Isaac Brown, Tuckahoe, Jones county: Condition, grassy; the grass got the advantage in the coming up, and the frequent showers makes it difficult to manage; weather less favorable; stands not as good as last month and ten to fifteen days later than last year. Stand of corn poor and oats poor.

C. S. Wooten, La Grange: Condition grassy; too wet in June; (stayed at stockholders' meeting too long.—Ed.) weather less favorable—too wet; stand good and two weeks later.

A. C. Huggins, Jacksonville: Condition generally fair but plant small; weather too wet; stand fair and ten days later than last year.

W. L. Kennedy, Falling Creek: Condition very grassy; weather less favorable, cold and wet until June; stand fair and one week later.

J. W. Saunders, Saunders Store: Condition good—125; weather more favorable than last year; stand 125 and about as early as last year.

Cyrus Foscus, Fowle, Jones county: Condition very small and prospects poor; weather unusually bad, stand poor indeed, three weeks later. Cold nights in June has retarded the growth of the plant, and the inefficiency of labor has prevented proper tillage. Almost impossible to hope for an average crop.

Dr. Geo. N. Ennett, Cedar Point: Condition average, fair; weather unfavorable, too cold and too much rain; stand not good, ten days later.

E. B. Hargett, Silver Dale: Condition good but very small; less favorable up in the last week, which has been good and the plant has grown rapidly; stand good and later by two or three weeks.

90; weather favorable; stand medium, and about as early as last year. Labor short-handed.

D. S. Aman, Palo Alto: Condition good; weather good; stand generally good; seven or eight days later than last year.

Dempsey Wood, Falling Creek: Condition very good; weather rather too wet; stand very good, and about eight days later.

G. W. Ward, Swansboro: Condition fair; very favorable for the present but very unfavorable before; stands only ordinary; two weeks later than last year and labor very scarce.

J. M. F. Rhodes, Comfort: Condition, suffering on account of grass; weather less favorable, too rainy; stand very good; two weeks later; labor scarce; growth of plant retarded on account of grass.

E. F. Carraway, Merrimon: Condition generally bad owing to heavy rains; weather less favorable; stand very poor; some ten days earlier.

W. H. West, Kinston: Condition bad, plenty of grass; weather less favorable; stand very good, one week later. Wet weather and the grass have almost destroyed many crops.

W. S. Bell, Newport: Condition small and grassy; weather less favorable—too wet; stand poor and ten days later.

Monthly Statement.

Swansboro Items.
Times are not very lively, but give us a steamboat and a good hotel here and we would show you how to knock Morehead and Beaufort in the shade so far, you would hardly be able to find them in a whole week.

The loafers spoken of some time ago have all gone to work; even the President has gone to plowing, and the Secretary is pulling the hoe, so we have a working crowd now, all trying to get done work first. R. H. Jones beats; he is done his corn and has a fine crop. The rest of the farmers around here are somewhat behind, but are all moving ahead finely.

We have some amusements in town some times, such as seven up and pitch, but a few days ago our seven up teacher got mad and because some of his scholars beat him, tore all the books to pieces and we will have to petition for a new teacher and a new set of books before we can go to school again. Some school teachers will get mad when their scholars get ahead of 'em, but I don't think they ought to.

Mr. Russell has about finished digging his Irish potatoes and has put sweet potatoes in the place of them all except about half an acre, which he will plant in Irish potatoes for a late crop. He has a piece of corn one-half of which is not matured, the other half he put a small spotted fish in each hill, and the difference is surprising. The fish rows are 22 inches taller than the other and looks 50 per cent. better. He says he will know how to do next time.

Our crops here are all moderately good, but I learn are much better in Carteret county from Broad Creek to Cedar Point, as to corn and potatoes, and melons much better. Dr. J. W. Sanders has one of the finest patches in the county, so said. I have not seen it but am going over in that section next week and visit the farms all around. Jesse Watson says he has Irish potatoes weighing 24 ounces. That beats any we have in Swansboro. We have plenty of fish, and the men are getting ready for the fall. Capt. Heady has just finished a new seine and wishes it understood that he will be on hand at all times with plenty of fish. So does George Littleton, who also has just finished a new seine. Jonathan Watson, on Bogue Sound, is a good fisherman; he has somewhat of a novel way of fishing too, he uses his ox and cart in place of a boat, puts his net on his cart and drives ox and cart around the fish, that is he runs his net off of his cart, then hauling them ashore throws his net on the cart, drives out on shore and spreads his net as he goes. He sells his fish.

Phill Chavers, a colored man living with Capt. James Loughlin, has a some-

what remarkable history, that is his ancestors. Phill is one of 41 children by father side; his father, Harry Chavers, is now living in Granville county, is 108 years old, not a gray hair on his head, not a decayed tooth in his mouth, and eyes as good as when young, (don't use specks) has been married three times, his first wife was a genuine Indian Squaw, and was the mother of 21 children at eleven births, the first eight births were twins, boy and girl, boy black and girl yellow; the last were twins, boy and girl like the first; the boy was the said Phill, now living with Loughlin, and is 63 years old, and he has for a wife a very bright mulatto woman, and Phill is so black that sut would make a white mark on him. Harry's second wife gave him 13 children, his third wife gave him 7 and the youngest is only 18 months old now. Phill's father is half Indian and half African, his grand-father full blood African negro. The most remarkable thing is that all the boys were black, while the girls were yellow, of the first marriage, and all twins but one, Phill being the youngest of the twins.

Catharine Lake Items.
W. H. Cox has an elegant crop of peas.

Alfred Jarman lost his horse with grubs.

The oat crop is more than usually good.

Miss Palmetto Duffy has been very very sick for a few days.

E. M. Jarman's steam-mill is making permanent improvement about Pleasant Hill.

Common bridges are found on almost every road. Let the authorities take warning and keep out of trouble.

Rev. Dr. Mayo draws the colors very strong on illiteracy in the South in an article published in a Cincinnati paper.

The August picnic at Alum Spring will be well attended by Jones county ladies; of course the gentlemen will come.

Hog cholera is still doing damage in Jones. Some are experimenting on corn and green feed. The evidence is against corn.

Many complain of the gardens dying. Several have suggested that the use of kainit is the cause, though there is some complaint where no kainit was used.

Richlands is favored with several gentlemen who meet daily to discuss the topics of the day. They can give you an opinion on almost any subject.

Little Julia Stephens, daughter of Mr. Kit. Stephens, hived a swarm of bees without any assistance, a few days ago, and didn't get a sting. She is only eight years old.

Several farmers report favorably on geese as hoe-hands in cotton. Billy Nunn says let them stay late enough to eat the seed, and next year you will have but little use for geese or choppers.

Misses Mollie and Sallie Jarman, near Pleasant Hill, Jones county, have a lemon bush in their pit which is remarkable. Early in the spring it had five or six lemons almost grown. They gathered a part of them; and on opening the pit to the warm spring air the others turned green again and began to grow. Lately they gathered one which weighed a pound.

COMMERCIAL.

NEW BERNE MARKET.
COTTON—Middling, 9 1-2; strict low middling 9 3-8; low middling 9 1-4.
CORN—in sacks, 68c.; in bulk 64c.

Ice Cream! Ice Cream!

L. J. TAYLOR

Having moved back to his Old Stand, near Depot, has opened TWO ICE CREAM PARLORS, one for white and one for colored people, where they may enjoy a plate of very fine Ice Cream. He also furnishes Ice Cream by the pint, quart or gallon at very reasonable rates. Soda Water, Bottled Ginger Ale, which is always kept ICE COLD. Lemonades made at reduced rates, special attention is called to his Lorrillard Snuff; he only keeps one kind, and that is genuine Lorrillard, High Toast Scotch Snuff. He has bladders from 3 oz. up. He has very fine Cigars, Tobacco, Candy, etc.
Call and see him at once and you will "Come Again."
L. J. TAYLOR,

EVERYBODY'S DOCTOR.

BY ROBERT A. GUNN, M.D.

EVERYBODY'S DOCTOR contains 64 octavo pages, and is printed on fine paper and handsomely bound. It is sold at the low price of three (3.00) dollars a copy, so as to bring it within the reach of all.

The work differs from all other books on Domestic Medicine in having the diseases systematically arranged, according to their classification. Every thing is described in the plainest possible language, and the prescriptions are written out in plain English, so that they can be employed by any intelligent reader.

Druggists will find this book of great advantage in adding them to give advice when asked to do so.

Parents will find much information in it that will prove valuable to themselves and their patients.

Teachers will be better prepared for the performance of their duties in the school room by studying it.

Parents will find it a reliable adviser in everything relating to the rearing of their children.

Every family can save fifty times the price of the book every year by consulting it.

It is complete in all its parts, and is the most recent book of the kind published. The book will be sent free by mail or express on receipt of three dollars.
