

# THE DAILY JOURNAL.

VOL. II.

NEW BERNE, N. C., FRIDAY, JULY 13, 1883.

NO. 89.

## LOCAL NEWS.

**Journal Ministers Almanac.**  
Sun rises, 4:34; Length of day,  
Sun sets, 7:16; 14 hours, 22 minutes.  
Moon sets at 12:32 a. m.

The schooner *J. Little* arrived from Philadelphia yesterday with a cargo of coal for Mr. E. Ellis.

The three masted schooner *Hattie Sheets* arrived from Philadelphia yesterday with a cargo of hay consigned to W. P. Barrus & Co., and R. O. E. Lodge.

The committee appointed by the Board of City Council to examine the Reliance Fire Engine performed that duty on yesterday and pronounced it worthless.

Mr. J. C. Whitty ships a two horse Buckeye cultivator to-day to Mr. Samuel Quinney, of Johnson's Mills, Pitt county. Improved, labor saving implements is the only solution of the labor problem.

**A Curiosity.**  
On the premises of Mr. John Dunn, this city, stands a curled willow tree, and from it, a short distance from the ground, is growing a weeping willow.

**Building on Staten Island.**  
The schooner *Ellis Hill* is loading lumber at the Railroad wharf for Staten Island, N. Y. We learn that this lumber is for A. & M. Hahn & Co. and that they are preparing to build a summer resort on the island.

**Short Issue.**  
By some means or other, theft, miscount or otherwise, our Weekly issue run short this week, and we are compelled to send many of our Weekly subscribers a copy of our Daily in its place. We regret that it so happens, but we did not know of the shortage until the Weekly form had been distributed.

**Officers Installed.**  
At the regular meeting of St. John's Lodge, No. 8, A. F. & A. M., held on Wednesday night, the following officers were installed for the ensuing year, Past Master Thos. Daniels officiating: Alphaus Wood, W. M.; Jos. H. Hackburn, S. W.; E. B. Hackburn, J. W.; Jno. C. Green, S. D.; S. R. Street, Jr., J. D.; W. B. Boyd and L. W. Hancock, Stewards, and M. Case, Tyler.

**How Fast Cotton Grows.**  
Having some curiosity to know the growing capacity of cotton, under a favorable state of cultivation, Mr. W. H. Stone stuck a stick in the ground alongside of a stalk in the field of Mr. Frank Gore, in the Little River, S. C. section, recently, and at the end of the week he measured from the mark he had made on the stick, and found that the stalk had grown exactly eleven inches.—*W. H. Star.*

**Potatoes.**  
Good potatoes were in demand yesterday in New York and were bringing from \$2 to \$2.50 for prime. This is probably about the highest figure they will reach this season as Jersey is beginning to send in and the fall crop will soon be ripe so that they may be sent in any time if the price justifies it. So we think it advisable for our farmers, if they intend to make any more shipments to send them in if they are of good quality.

**Arrested for Theft.**  
Henry Williams, colored, claiming to be from Kinston, was traced to this city yesterday and arrested for entering the house of Lott Murrell, colored, in Jones county and taking therefrom sundry articles among which was a valise. The articles were found in his possession; he was taken before Esq. Brinson and confessed having committed the crime. He was sent to jail and will be taken up to Jones on Saturday for a preliminary hearing.

**Receipts of Southern Freight Bills.**  
One of our merchants gives us the following items of information:  
It costs to bring two bags of seed, weighing 271 lbs., by regular freight from Tennessee to New Bern, \$6.24. Time required, 23 days.  
It costs to carry a cultivator weighing 55 lbs. from New Bern to Rockingham, Richmond county, \$3.45. A number of the implements were wanted, but as it costs about five times as much for freight as it would cost from New York, of course the first order was the last. Common is unobtainable.

**Installation of Officers.**  
At the last regular Convention of Athens Lodge No. 8, K. O. P. the following officers were installed by the District Deputy:  
Past Chancellor—George Ash.  
Chancellor—Commander—Jas. W. Moore.  
Vice Chancellor—C. C. Taylor.  
Warden—E. H. Hillen.  
Master of Ceremonies—E. H. Favis.  
Master of Finance—E. B. Hackburn.  
Keeper of Records and Seal—Jas. Radmond.  
Master of Arms—A. W. Edwards.  
Trustees—George H. Smith.  
Quill Guard—John Foster.

**Launching a New Steamer.**  
Without any formal notice being given, a small crowd assembled in Howard's Ship Yard on Thursday morning to witness the launching of the new steamer being built by Mr. James Howard for the Neuse River Navigation Co. At 9:45 she was cut loose and glided smoothly into the water when Capt. Dava Roberts broke a bottle of wine over her bow and announced that the *Blanche* was christened. She draws only 6 inches at low water and is almost out of the water. When all the machinery is in she will draw 12 inches, and with 125 bales of cotton will draw 30 inches. She is intended for the upper Neuse and will be of great benefit to the Co. in the time of low water.

Seven years ago the steamer *Caswell* was the only steamer plying Neuse and Trent rivers and it seldom made a trip up Trent. But with the opening up of these rivers and Contentnea Creek by Gen. Ransom began the building of steamers until the *Blanche* makes the tenth one on the list. The result of this is that the farmers along and adjacent to these streams have been offered quick and cheap transportation, enabling them to increase their productions until the cotton marketed here has increased from ten to twenty-one thousand bales while the shipments have risen from twelve to fifty thousand. There are a few more points that must be tapped by river steamers and New Bern will begin an era of prosperity that will soon put her abreast with her sister towns in every respect.

Gen. Ransom has done a noble work in opening these rivers and creeks, one that will tell long after he has gone to his long home, but his work is not yet done. We must have more money for Trent river; it is capable of navigation several miles above Trenton. So is Contentnea a good stream above Snow Hill, and the Harlowe Creek Canal must be purchased by the General Government and an appropriation made that will enable boats of heavy tonnage to pass through. To get these appropriations we must ask it and we must show the necessity for it, and show the good already accomplished by former appropriations.

**New Bern, Beaufort and Onslow Inland Coasting Company.**  
Arrangements, we are informed, are being made, preliminary to the organization of a Company under the above name, having for its object the navigation and improvement of the lower Neuse, Clubfoot Creek, the New Bern and Beaufort Canal, Harlowe Creek, Newport River, Core and Bogue Sounds, White Oak and New Rivers.  
It is expected that the Canal will be open between Clubfoot and Harlowe Creek so as to afford five feet of water by October or November, and that steamers of the Coasting Company will be running between New Bern and Beaufort, Beaufort and Onslow, and up Core Sound to Hyde county, via Portsmouth, in time for the fall and winter business.

It is apparent that such system of navigation will be in the direct interest of the New Bern and Beaufort Canal, and its friends, promoters and projectors are no doubt the initiators of this scheme, but there is no reason why the business men of New Bern, Harlowe, Beaufort, and of other points, as well as the farmers and others along the proposed line should not interest themselves in the enterprise, and generally share in its stock, if the plan is found to be a feasible one, and the control of the Company is not sought to be exercised too much by the Canal Company.

Such a system of transportation, if fully developed and its objects carried out must result in concentrating the bulk of the products of Carteret, Onslow and Hyde counties in the New Bern market, and while, from the different classes and construction of boats necessary to employ in this navigation Beaufort must become the general depot for gathering the freights from up Bogue and Core Sounds, White Oak and New Rivers, for transshipment to New Bern by the steamers of the main line, we of the latter city have nothing to fear from the incidental advantages and benefits that may result to Beaufort, for after all, New Bern is by reason of her superior and cheap facilities for reaching the Northern markets, the natural market for Beaufort.

The navigation of Core and Bogue Sounds, White Oak and New Rivers can easily be improved so as to admit of the use of steamers and vessels of good size and capacity, and by clearing out New River, steamboats can ascend to a point, we are told, within a few miles of Richlands, thus affording the people of Onslow a magnificent means of transportation, as the river runs nearly through the centre of the county.  
The concentrated efforts of an orga-

nized company, aided by the skill and experience of such men as Marshall Parks and others of the canal company, could more readily obtain from Congress the necessary appropriations for affecting the needed improvements in this navigation, and it will behoove our people of Craven, Carteret and Onslow to unite their energies and efforts in such a cause. Nor should those of Hyde remain disinterested spectators, if it is proposed to extend the benefits of this organized system to them, for if we are correctly informed they stand sadly in need of government aid to improve their facilities, supply their coast and harbors with lights, beacons and buoys. It does seem a little out of the way to propose to come from Hyde by way of Beaufort, but we suppose the canal company will endeavor to direct all the traffic it can through it, both ways, and if a boat is running on Core Sound to Portsmouth Island, it goes within twenty miles of the Hyde county shore, and with little more expense could cross over, and perhaps make it pay better than by stopping at Portsmouth. Several attempts have been made to give Hyde county steamboat communication, and failed. Perhaps this organized effort may succeed.

New Bern is certainly interested. If, as contended, this system of transportation will give her the products of Carteret, Onslow, and portions of Duplin and Pender counties, she should give it liberal aid and support.

**The Colored Normal School.**  
The very handsome building recently erected on West street, just above Queen, for colored school purposes is now being used as a "Normal Institute" and from a personal visit we are of the opinion that to whomsoever the credit be due, the selection of the principal and her assistants should be commended.

Aside from the fact that the Normal School is of itself an excellent thing because of the facilities it affords those who now, or expect to teach, it is to New Bern as a community a matter of interest, because it is "one of the seats of learning" established by law, after much competition with sister towns and merits, and should receive the encouragement of all classes of our citizens.

As a proof of the earnestness and desire to have capable teachers, instructors have been obtained from Washington, D. C., and while of the gentler sex, their temporary predecessors, each of them graduates of Lincoln University and Ministers of the Presbyterian Church, are evidently instructed by the teachings they received.

This School is intended "to teach teachers how to teach" and the persons in charge evidently know their business. This institute should receive every encouragement from our people and a visit from 9 to 12 a. m. would not only be a source of interest to the attendant but gratifying to those engaged in the work.  
A VISITOR.

**Public Road Needed.**

ONSLow CO., N. C., July 9th, '83.  
EDITOR JOURNAL.—An act of the General Assembly of North Carolina at the session of 1881 allows the Commissioners as named in the act to lay off and contract "a public road from or near B. C. Smith's to run through pocoin lands to the main road near A. J. Merrill's," in Onslow county.  
This act allows twenty able bodied convicts when the State Board of the Penitentiary can furnish them, without interfering with any improvements to that convicts were pledged by the State prior to the ratification of said act.

The merits of this road to a great extent are unknown, and for that reason not considered abroad. It will shorten the distance from Jacksonville, the county seat of Onslow county, to New Bern eleven miles or more, and lessen the distance the citizens of upper White Oak have to travel, one-half, from and to the county seat. It will also give twenty-five families at least on the New River side of the pocoin a road where now they have none worthy of the name.

It would really be a general benefit to the citizens of Onslow, Jones and Craven counties, and the interest of the State would be promoted, as it would be the means of opening up some of the best timbered and perhaps the most fertile of the State's lands, known as the White Oak pocoin, and those which are the most easily drained.

Some part of this road from both ends has been cut by private enterprise but not ditched, and numbers of our citizens feel a very great interest in it. I do not propose to discuss the merits and usefulness of this road from every point now in view, but I will venture to add that if it is ever completed, and to some extent remarkable, and it is deserving of consideration as the hands of the State authorities and the business men and citizens generally benefited thereby.  
ONSLow.

**Independent Railroad.**  
EDITOR JOURNAL.—The juvenated management of the A. & N. C. Railroad starts out well to make itself felt. On Wednesday night the schedule of the East-bound train was moved up twenty minutes and no notice, whatever, of the change had been given to the travelling public. But for accidentally hearing of the contemplated change through an outsider, the mail and express matter would have been lost. One of the hotel omnibusses missed meeting the train, and passengers were left.

Has any railroad the right to change its schedule without duly publishing the notice of such intended change? Are the appointees and their appointers on a political railroad the masters or servants of the people? State service used to demand a due regard for the public welfare; the public convenience and accommodation.

**Kinston Items.**  
There is a nice young man in the place who will not turn out his mustache, fearing it will not come back again.  
There have been at the present term of our Inferior Court two hung juries. They took sleeping quarters in the Court House, resting comfortably on the soft saw dust.

It is well enough to say with the poet that truth, wherever found, will draw forth homage from the pure heart; but just go and tell a woman once that her little boy is one of the dirtiest imps in town, and see how much homage you will draw from her heart, no matter how pure it may be.

The hall of our court room might be considerably improved by the immediate removal of the "dog latin," which stands in conspicuous ugliness, over the judge's seat. It may, however, serve a good purpose there, as it illustrates the foolishness of teaching Latin in the English schools of the present day and generation.

Thos. J. Presson has a good milch cow, fully educated up to the ways of the world. She lives in a "no fence district" and is consequently usually restrained of her personal liberty; but when she feels like going out to graze, she "lows" Tom up and holds out her right leg to be roped and tied out to enjoy the green grass.

It is said Saint Patrick, of Ireland, acquired a Sainthood for the slaying of a snake. It is not safe to assume that Mayor Uzzell will ever become a saint of Kinston for a similar feat. Fishing a few days since in Judge Fields' barn among the shucks for corn to feed his fine claybank mare, he gathered up a live snake and judging from his hurried movements, it was believed he was about to abdicate the throne of Kinston.

The Inferior Court was engaged Monday evening in hearing the case of the State against Hannah Williams, charged with larceny. The jury took the case Monday night and after sleeping on it, fails to agree, when the Solicitor consented to a judgment of not guilty. The case against George and Martha Wingate, his wife, for beating and robbing J. B. Noble, over a year ago, occupied all day Tuesday. The chief witness was Francis Wingate, the daughter of the accused, who swore, on a former occasion, that she was not present when this assault and robbery was committed and did not know who did it, while on trial now, swears she was present and that George Wingate and his wife did it. The jury has slept on the case one night and fails to agree. State against Dick Butler for disturbing a church—not guilty. State against Amos Rhem—concealed weapons—the jury and the lawyers got so tangled up that the defendant was acquitted. The scuffle fish muddled the waters and escaped its enemy and the lawyers took counsel of the fish.

What will Brown's Iron Bitters cure? It will cure Heart Disease, Paralysis, Dropsy, Kidney Disease, Consumption, Dyspepsia, Rheumatism and all similar diseases. Its wonderful curative power is simply because it purifies and enriches the blood, thus beginning at the foundation and by building up the system, drives out all diseases. For the peculiar troubles to which ladies are subject it is invaluable. It is the only preparation of iron that does not color the teeth or cause headache. wdw

Mr. Walter S. Nelson, Monroe, N. C., says: "I have used Brown's Iron Bitters for indigestion and sick stomach. It entirely relieved me." wdw

**Auction Sale.**  
The Assignee of S. A. MUNTER will sell at AUCTION the stock of Goods assigned to him, on  
Monday and Tuesday next,  
the 16th and 17th of July,  
at 10 o'clock, A. M.  
SOLOMON NATHAN,  
July 13-83 Assignee.

## COMMERCIAL.

**NEW BERNE MARKET.**  
COTTON—Middling, 9-3-3; strict low middling 9-1-4; low middling 9.  
CORN—In sacks, 68c.; in bulk 64c.  
TURPENTINE—Dip, \$2.25; hard \$1.25.  
TAR—\$1.00 to \$1.25.  
LARD—Firm at \$1.50 and \$1.75.  
BEEHIVE—25c. per lb.  
HONEY—60c. per gallon.  
BEEF—On foot, 5c. to 6c.  
MUTTON—\$1.00a2 per head.

FLOUR—\$4.00a7.50 per barrel.

**STATE OF NORTH CAROLINA,**  
COUNTY OF CRAVEN.  
IN THE SUPERIOR COURT.  
To A. E. Woodruff, Executor, and Harriet J. Stanly, Executrix of E. R. Stanly, deceased, and A. E. Woodruff, Trustee:  
You will take notice that an action has been instituted in the court above entitled, whereof the City of New Bern is plaintiff and you are defendants. In which action the plaintiff asks for an account of the trust fund in the hands of the late E. R. Stanly under the will of Mrs. Elizabeth Gooding, deceased, which was duly probated and recorded in the Probate Court of Craven county, and for an account of said trust in the hands of the defendant, A. E. Woodruff, and for such other relief concerning said trust fund as the court may deem proper to grant to the plaintiff.  
You are hereby commanded to appear at the Fall Term, 1883, of Craven Superior Court, to be held in the City of New Bern on the 12th Monday after the 1st Monday in September, 1883, and answer or demur to the complaint of plaintiff as you may be advised.  
Given under the hand of the Clerk of the Superior Court of Craven county at office, this 10th day of July, 1883.  
E. W. CARPENTER,  
Clerk of the Superior Court of Craven county.  
NIXON, SIMMONS & MANLY,  
July 11th '83 Attorneys for the Plaintiff.

**NOTICE.**  
NORTH CAROLINA,  
CRAVEN COUNTY.  
SUPERIOR COURT.  
J. M. Robinson, Plaintiff,  
Against  
Garrett Vyne and  
C. W. McLean, Defendants.  
To C. W. McLean, one of the above defendants:  
TAKE NOTICE:  
1. That an action entitled as above has been brought to the Superior Court of Craven County.  
2. That the purpose of said action is to obtain a judgment decreeing a conveyance to the plaintiff from the defendant Vyne of certain lands or of certain interest in land situated at or near Haylock Station in Craven County, North Carolina, which are alleged in complaint to have been contracted to be conveyed to plaintiff by defendant McLean, and to enforce the rights and equities of plaintiff growing out of the dealings of parties, as alleged in complaint, in reference to said lands.  
3. That unless you appear and answer or demur, at the term of said Craven Superior Court, to be held on the 12th Monday after the 1st Monday in September, A. D. 1883, to the complaint filed in this action, the plaintiff will apply to the court for the relief demanded in the complaint.  
This the 10th day of July, A. D. 1883.  
E. W. CARPENTER,  
Clerk of the Superior Court of Craven County.  
NIXON, SIMMONS & MANLY,  
July 11th '83 Attys for Plaintiff.

**ST. MARY'S SCHOOL,**  
RALEIGH, N. C.  
THE ADVENT TERM of the 85th Semi-Annual Session of this School begins THURSDAY SEPT. 27th, 1883.  
For Catalogue address the Rector,  
REV. BENNET SMEDES, A. M.  
July 10th '83

**For Sale.**  
Will sell cheap, for CASH, TWO OLD LOCOMOTIVE ENGINES and ONE OLD LOCOMOTIVE BOILER.  
For further information apply to  
BASIL MANLY, M. M.,  
A. & N. C. R. R.  
July 10-83

**MINERAL WATERS.**  
A. H. POTTER  
Receives direct from the Springs.  
**Saratoga Vichy and Deep Rock Mineral Waters.**  
Received in block-tin lined barrels. Cures dyspepsia and diseases of the kidneys and bladder.  
Read the following analysis by Silas H. Douglas, Professor of Chemistry, University of Michigan:  
DEEP ROCK MINERAL SPRING WATER  
ONE GALLON:  
Chloride of Sodium..... 295.188 Grs.  
Chloride of Potassium..... 149.092  
Chloride of Magnesium..... 10.244  
Carbonate of Lime..... 15.191  
Silica..... 71.868  
Sulphuric Acid..... Trace  
Protoxide of Iron..... Trace  
Free-Carbonic Acid, Not determined  
Loss..... 1.730  
Total Solids in the Gallon..... 550.180  
Temperature, 50°.  
As an antidote to thirst for alcoholic liquors June 29-83  
It has no equal.

**C. E. FOY & CO.,**  
Wholesale Grocers  
And Dealers in  
Guano and Genuine German Kainit,  
Brick Block, Middle street,  
Newbern, N. C.

## CITY ITEMS.

This column, next to local news, is to be used for local advertising. Rates, 10 cents a line for first insertion, and 5 cents a line for each subsequent insertion.

**A First Class Sewing Machine—**brand new—can be bought cheap at the JOURNAL office.

**The Cheapest Oranges**  
And Lemons in the city can be found at  
K. R. JONES'.
