The amount of taxes levied by our justices and commissioners on last Monday was, for general State and county purposes, 661 cents on the \$100 valuation. 181 cents on the \$100 of real estate in the no-fence district (Falling Greek township excepted) was levied. The poll tax will be same as last year. One visiting our commissioners' meetings will be astonished at the increased number of pauper applications. This is getting to be a great drain on our county finances. The poor and destitute, or those incapable of earning a livelihood, should be cared for, but the cheapest and best way known should be adopted. THE LATEST NEWS.

LOUISVILLE, KY., August 7 .- The returns come in very slowly. Those received indicate a light vote with no decrease in the Democratic compara tive majority so far as heard from. The counties usually electing Democratic Legislators have done so, while the Republicans held their own in the counties generally carried by them. Knott for Governor will have about 45,000 majority, this statement being based on the returns now in and a com parison of the vote of the same counties two years ago. It is impossible to sup-ply detailed returns owing to tele-graphic difficulties. In this city a small vote was polled but Knott's majority will be 4,000 or 5,000; a solid Demo-cratic delegation is elected to the State That a standing committee of three be appointed by the Mayor, said com-mittee to be known as the building com-mittee for the fire district, whose duty it shall be when an application is made to the Board of City Council to erect or mode to the state data and Legislature, and Thompson Demo-crat is re-elected city judge.
