Sun sets, 6:50 | 13 hours, 31 minutes.
Moon sets at 1:18 a. m.

Dry and dusty.
Trade is reported dull.
Athenia Lodge No. 8 K. of P. meets to-night.

To-day the colored excursion on the Elm City takes place.

The farmers continue to complain, on account of the dry weather.

Mr. James Redmond has improved his beer wagon with a new coat of paint.

We are informed that the Elm City leaves for Pamlico county to-morrow morning.

The late watermelon still arriveth and the heart of the quinine vender is made glad.

Steamer Florence, arrived yesterday with a heavy freight of lumber and naval stores.

Steamer Cutler arrived with a boiler for Dr. M. H. Carr, shingles and a lot of passengers.

Capt. A. B. Powell's family and Miss Maggie Holland left yesterday morning for the mountains.

The mustache of the Major of the Patience Dragoons is beginning to be seen—with a microscope.

John Mayo was selling, "all correct," a lot of linware, yesterday afternoon at his stand on Middle street.

New Berne is becoming noticeable for the number of its fine turnouts now owned by private individuals.

More drummers in town than we have seen before in a long time. Merchants must think the fall trade will be good.

Our Gen. Robert Ransom was the senior officer at the Warrenton reunion of Confederate soldiers and had command.

Capt. Chas. K. Hancock has been appointed conductor on the Atlantic Railroad. He took charge of the freight train yesterday.

Gov. Jarvis, Auditor Roberts and Solicitor Swift Galloway passed through the city on the western bound train yesterday morning.

Miss Annie Harvey, of Snow Hill, who has been visiting Mrs. Mary Windley for the past few weeks, left for her home yesterday morning.

Mr. Geo. Henderson, the clever and gentlemanly agent of the Southern Express Company in this city, went to High Point yesterday to move his family further up the country.

Our Editor pro tem spent most of his time yesterday evening out riding—of course he had fair company—which will account for the short amount of local that appears in this issue.

There were eight bales of cotton sold yesterday at the Exchange at 9 cents. Six of them were sold by Joel Kinsey and two by S. W. & E. W. Smallwood, G. F. M. Dail being the purchaser.

The stons steps that are now at the office of W. H. Oliver, dealer in guano and hardware, did at one time belong to the Palace of Gov. Tryon that was burned down in this city about 1790.

The "Old Maids" went fishing yesterday morning at Morehead City and pulled in 150 of the finny tribe; so says our young, handsome and blushing townsman, Mr. Jas. C. Roberts, who has been sojourning at their summer resort for a few days.

Our Editor, Mr. H. S. Nann, having been confined at hard work on the JOURNAL, doing most all the editorial and local work for over half a year, is now taking a short rest, visiting the home of his boyhood. He left last Thursday and has promised to return to-day.

We regret to hear that Miss Core has declined the position in the Graded School to which she was elected by the Trustees. This leaves two vacancies in the ladies' department and one in the male department to be filled. We learn the Trustees will hold a meeting on Tuesday, the 14th, for the purpose of filling these vacancies. Applicants should apply in time.

The small boy continues to jump on the trains as they pass through the city, the ordinance prohibiting it to the contrary, notwithstanding. Policemen, break it up. The gentlemen have caused trouble for the passengers the side walk, but continue to do so in the streets, thereby standing in the way of business. It would be well to look after that also.

Schooner Arrivals.

Schooner *Annie Farrow*, Capt. Barney Peele, from Middle Creek with corn consigned to W. P. Burrus & Co.

Schooner *Mary Etta*, Capt. Ivey Peele, with corn and oats for Meadows and Burrus & Co.

Hyde County.

News from the crops in Hyde county are very discouraging. The spring was very wet and the summer has been very dry; in some parts of the county not more than one-fourth of a crop will be made, in other portions not more than a half crop, but we hope they may have good seasons yet, and their crops may come out and exceed their expectation.

Magistrate's Court.

Two cases reported from Esquire Watson's court yesterday. One was State against James Monjohn, embezzlement of money from J. W. Harrell. Found guilty and bound over to Superior Court. The second was State against Lewis Bell and Laura Bell for larceny, stealing watermelons from Isaac Forbes.

After hearing the evidence the Court dismissed the case, F. M. Simmons appearing for defendants.

Sunday Train.

The Sunday train was discontinued on the 12th of this month. This was all right, and we commend the President for so doing. We think that railroad men ought not to be required to work on the Sabbath, any more than a clerk or a book keeper in a grocery store. But we learn that on the very day when the Sunday train was stopped, that an extra train left this place to accommodate some of the officials of the road. If this is true, it is all wrong. Extra trains should not be run on Sunday any more than the regular passenger trains, unless there was a real necessity for it.

Rev. C. A. Jenkins.

Rev. C. A. Jenkins, as announced, preached in the Baptist Church Sunday morning and evening. His sermon in the morning was based upon the 5th verse of the 19th chapter of Judges: "See wherein his great strength lieth." A large congregation was present and all seemed greatly pleased with the sermon. For a deep, rich voice, over which he has full control, and ease and grace in the pulpit, he has few equals. From all we can learn the members of the Baptist Church are delighted with him, and we doubt not that they will endeavor to secure his services for their pastor.

Prof. Thomas.

Having talked with Prof. Price Thomas we find that he is thoroughly acquainted with all the improved methods of teaching and is well up on the Graded School system. He is a young man, full of vim and energy and seems to have all his powers concentrated upon the subject of education. We are satisfied that he will make a most desirable principal for our school and we think the trustees should congratulate themselves upon having secured the services of so proficient a man. His school will begin in September and we are confident that he will infuse a spirit of life and energy into his pupils.

Hotels.

We have often had the question put to us, Why don't New Berne keep pace with other North Carolina towns and have a first class hotel with all the modern improvements? We have never been able to answer the question, for the reason that New Berne has business men who are fully able to build and equip such a house. We want a large, commodious house, with spacious, airy rooms and with all the modern improvements and appurtenances that are now in use in the first class hotels of this country.

New Berne is beginning to improve; we are making rapid strides in trade, and in commerce. The business interest of the town is being more carefully fostered and built up every day. We have more visitors than formerly, and our country people are making more money and are better able to stop at a good hotel, than they were just after the war, and if some of our enterprising men would take hold here and build a first class house, it would be a paying investment. Goldsboro, with no more wealth than we, has two elegant hotels.

It makes a bad impression upon any stranger to visit a town and find no hotel that is up with the times. We have several hotels here that are kept in as good style as the circumstances will admit; but none of these houses were designed for hotels when they were built and hence they are not well arranged.

Will not some of our business men, who have money, go to work and erect a building that will be a credit to our city? Or are we content to go on and be behind every little one-horse town in the State? We hope ere long to see a building erected here that will fill the bill in every particular.

Cheap Trousers for Dudes.

White trousers are again in style this summer, a fortunate thing for the dudes, as they can buy them cheap at any grocery. Macaroni stems don't cost much.

Trucking.

Sometimes you hit it and sometimes you don't. One trucker in this vicinity is reported to have lost \$7,000 the past season. Potatoes and watermelons the cause; one hundred acres of the latter after reaching northern markets were a drug, commission merchants refusing to receive them, and sold by transportation lines for freight charges and even they failed to realize the amount due them. Make it up next year.

Sunday School.

We are informed that several young men of the Methodist Church will open a Sunday School next Sunday, in the building known as Pollock Street Chapel. A place of this kind is much needed in that portion of the city and we hope the undertaking will be rewarded with a grand success. Our citizens in that locality should give their aid to the enterprise and help build up a good school. There are numbers of children in that vicinity who do not attend any Sabbath School, who, hereafter will have the opportunity without walking half a mile down town to the other schools. Mr. Hardy Lane will be the Superintendent and we predict for the school under his management a brilliant success.

Colored Graded School.

The entertainment given to the citizens of New Berne on the night of the 10th instant, as the result of a session of five weeks in the State Colored Normal School at New Berne, under the management of Miss Somerville and her corps of able assistance from Washington, D. C., was one long to be remembered. These results are extraordinary, and shows what can be accomplished in the way of laying a foundation for a good education under this new system which teaches a child, and learns a teacher how to teach, in one-half of the time consumed by the old method.

This admirable work these accomplished teachers have brought forth from crude material in five weeks, a work from the very foundation, is indeed remarkable, and shows that such teachers, who have few superiors in the line of their profession, can accomplish wonders in the way of imparting a knowledge of books and all that is essential for a child or teacher to understand.

The large number of teachers from this and other counties in this part of the State, who have had the good fortune to attend this session of the State Normal School here have acquired a knowledge and how to impart what they know in the most concise and practicable way. They have learned something new. Could this community be blessed with a school of this character nine months in a year, one for each race, capable of teaching several hundred students each, and each have a corps of teachers of the capacity and tact possessed by these teachers, it would not be many years before New Berne would be known in every section of the country. It is to be hoped that the grand results of this short session will wake up our people and cause them to enter the race of progress with other sections of this State in line; in which race, from this start as we now have, we can take the first prize, and soon hold our own with any other section of the country, judging from the material we have to work with.

The local board of this Normal School here, Rev. L. C. Vass, Geo. Allen and Geo. S. Fisher, are entitled to all praise for securing the services of these teachers, who, we learn, take their departure for Washington, D. C., to-day, after enjoying an entertainment given for their benefit at Gray Lee Beach. The names of these teachers are: Ella W. Somerville, W. E. Nichols, R. E. Coakly and M. P. Shadd.

Contentnea Neck Items.

The corn crop of this section is the best we have had in several years. The present cool spell has stopped cotton from growing.

Mrs. W. F. Rountree, of New Berne, is visiting the family of William H. Rountree, Esq.

Mr. E. J. Brooks, the brick maker of this section, is making brick of a superior quality, near his residence.

Bell's Ferry is putting on "town airs." They had a trial down there not long since, the first one under the incorporation laws. Mayor Pittman and chief police Brooks gives justice to each and every one.

Malaria positively cured with EMORY'S STANDARD CURB PILLS, a never failing remedy; purely vegetable, contains no quinine, sugar-coated. 25 cents.

Comfort Items.

The weather is changeable and cloudy, with some rain. Crops are refreshed and improving; the cotton crop is reviving from wilt and looking better; it may recover under repeated showers.

One of the finest and most enjoyable picnics it has ever been our privilege to attend, came off at the Alum Spring last Tuesday. Crowd estimated at about one thousand. The good people of Onslow know how to feed a crowd and never fail to do it.

Pharmaceutical Association—Final Proceedings.

The third session was called to order at 8:30 p. m., Thursday night, the President in the chair.

Mr. Gordon presented a report of the Committee on Exhibits.

The President appointed Messrs. Simpson, Zoeller, Meadows, Thorp and Furman as delegates to the American Pharmaceutical Association, which will meet in Washington on the 11th of September.

Mr. Nadal introduced a resolution of thanks to the druggists of Wilmington for the entertainment which they had received.

Mr. Cordon read an interesting paper entitled "Pharmacists of North Carolina should do more manufacturing."

An election of officers was then gone into, with Messrs. Hargrave and Thorp as tellers, with the following result:

President—W. H. Green, of Wilmington.

1st Vice President—J. H. Hill, of Goldsboro.

2nd Vice President—V. O. Thompson, of Winston.

3rd Vice President—T. C. Smith, of Charlotte.

Secretary—James C. Munda, of Wilmington.

Local Secretary—L. R. Wriston, of Charlotte.

Treasurer—A. S. Lee, of Raleigh.

Executive Committee—E. F. Hatch, of Goldsboro, Chairman; and W. M. Hargrave, of Wilson; S. W. R. Martin, of Winston; F. W. Hancock, of New Berne, and John Tull, of Morganton.

The President appointed the following committees:

Business Committee—J. H. Hill, L. R. Wriston, A. P. Thorp.

Papers and Queries—E. V. Zoeller, John Tull, J. G. M. Cordon.

Mr. Simpson introduced a resolution tendering the thanks of the Association to the press of the city for publishing reports of the proceedings, and to the officers and members of Germania Lodge No. 4, K. of P. for the use of their hall.

Adjourned to meet in Charlotte on the second Monday in August, 1884.—*W. L. Star.*

THE LATEST NEWS.

PITTSBURG, August 11.—At six o'clock last evening the threatened strike of the telegraphers employed by the Pittsburg, Cincinnati & St. Louis railway company was inaugurated. The company decided to insist that commercial business should be received and summarily discharged Assistant Superintendent Devera, stationed at Columbus, Ohio, who was known to be in sympathy with the Brotherhood. This determination was communicated to the operators and was immediately followed by the order to strike at 6 o'clock, which was sent out by Master Workman Egan. The order was obeyed by all the operators in this city, including the chief train dispatcher, and seems to have been generally observed along the line. Superintendent Taylor admits this, but says the strike has not extended beyond Dennison, Ohio, and that the principal offices will be supplied to-day. In the meantime trains will run by schedule. It is stated that the operators on the Pittsburg, Fort Wayne and Chicago railroad will be ordered out to-day.

New York, August 11.—At a meeting of the executive committee of the Brotherhood last evening it was stated at 8 o'clock that 150 operators on the Pittsburg, Cincinnati and St. Louis railroad went out on strike, leaving but two men at work. A dispatch from Chicago stated that only nine men out of 500 have gone back to work. Encouraging reports from Boston, Baltimore, Washington and other points were read. It was acknowledged that five men had gone back to work yesterday to the Western Union company in this city.

Superintendent Humstone, of the Western Union Telegraph Company, reported this a. m. fifteen wires out or interrupted on the eighth circuit, principally to Washington and Philadelphia, in the New Jersey meadows, between Jersey City and the car shops. On the Western routes all the American Mutual Union wires are out to the number of 18, and five Hudson river wires are out in this city, just south of Manhattanville, at various points.

The Snow of Mont Blanc.

Is not whiter than teeth that are daily rubbed with SOZODONT, and coral gathered in ocean depths cannot surpass the hue of gums freed from sponginess by the same salutary agent. American ladies visiting foreign lands excite the admiration of beholders and the envy of their transatlantic sisters, with the surprising excellence of their teeth. When asked to what they owe this charm they murmur the talismanic word SOZODONT.

J. C. Hester, Kittrell, N. C., says: "I used Brown's Iron Bitters as a tonic for general ill health and found them good."

COMMERCIAL.

NEW BERNE MARKET.

COTTON—Middling, 9; strict low middling 8 3/4; low middling 8 1/2.
