

# THE DAILY JOURNAL.

VOL. II.

NEW BERNE, N. C., WEDNESDAY, AUGUST 22, 1883.

NO. 123.

## LOCAL NEWS.

**NEW ADVERTISEMENTS.**  
LUMBER—DUFFY.  
E. ELLIS—Staves.  
S. A. STEVENS—Furniture.  
S. W. SELDNER—Liquors.

**Journal Miniature Almanac.**  
Sun rises, 5:34; Length of day,  
Sun sets, 6:40; 18 hours, 16 minutes.  
Moon rises at 9:10 p. m.

Six new military companies have recently been organized in North Carolina.

The last crop reports we have from Pamlico is that the crops are good, and rice extra good.

On our editorial page is Dr. Burkhead's first letter since he left for Asheville, which is quite interesting.

The steamer *Shenandoah* left on schedule time yesterday evening with cotton, naval stores and passengers.

The steamer *Experiment*, of the Clyde line, arrived last night from Baltimore with a cargo of general merchandise.

Prof. Price Thomas leaves for Durham to-day where he will spend a week and then a week at Goldsboro and return in time to open the Graded School on the 10th of September.

Mr. Augustus Venters, of Onslow, was at the Cotton Exchange yesterday with eleven bales of cotton. He reports that the crops are severely injured by the drought in his section.

Mr. A. H. Holton received by express from Richmond on Tuesday night a little "purp"—a full blood setter. John Green watched him closely as he went into the office and called out our force to see him.

Mr. C. A. Boardman, Land Commissioner of the Florida Southern Railway, sailed on the steamer *Shenandoah* yesterday on a trip North. He was just from the "land of flowers" and was looking as fresh and rosy as a full ripe orange just plucked from the tree.

Among the many fine "turnouts" in New Berne just now we think that of T. A. Green, Esq., will compare favorably with the best. If we could have a fair ground with a good track our people both in city and country would take more pride in raising and keeping fine stock.

An affecting scene: To see an attorney who is getting ripe in years, and who stands at or near the head of the profession, reading the balloon story of Harker's Island in a Florida paper and dropping an occasional tear. Such a scene might have been seen on South Front street yesterday.

**Excursion.**  
An excursion for next Tuesday on the *Shenandoah* down to the Light House and return is talked of. It would be a delightful trip if the Silver Cornet Band is taken along to make music. If it is decided to make the trip the boat will leave here at 8 o'clock and return at 2.

**Oak Staves.**  
Mr. E. Ellis advertises in this issue for oak hoghead staves. Those who have plenty of oak timber and a short cotton crop can help things up wonderfully by putting in a few weeks on staves. See advertisement for price and quality.

**Diphtheria in Pamlico.**  
Mr. Basil McCotter, of Pamlico, was in to see us on Tuesday and says the diphtheria is raging in the New Ditch section of his county. Messrs. Jacob Rice, Thos. Banks and Mr. Robbins have each lost a child within the last two weeks and there are several others in the vicinity.

**River Steamers.**  
The *Kinston* arrived from White Hall yesterday with 40,000 shingles, 230 barrels of coal, 17 barrels of spirits and 50 sacks of cotton seed.

The *Shenandoah* cleared for Snow Hill yesterday evening with a cargo of general merchandise.

The *Trent* arrived from Trenton with a lot of freight among which was seven bales of cotton.

The *Blanche* returned from her first trip to Trenton yesterday evening.

The *Elm City* brought up a large raft of logs from Adam's creek yesterday.

**Married in Pamlico.**  
This fine looking body of men passed through this city on Monday night last, thirty-two strong, for Morehead City. Being a portion of his command, Gen. R. D. Hancock felt it his duty to call on them at the depot. There Capt. A. J. Ellington introduced the General to the Light Infantry in a beautiful and appropriate speech. Gen. Hancock responded, after which three cheers were given for the General, and the train moved off with a live, sober company of clean soldiers.

Among the Captains, there were Lieutenants John N. Wain, formerly in the Federal army, and R. M. Ellington. They expect to return, soon learn, on Saturday.

**Personal.**  
Dempsey Wood, the clever farmer and Representative from Buckleberry, passed down to Pamlico yesterday on a big hunting expedition. Senator Caho is resting for him, and well he may. Will tell all about it when Dempsey returns.

Mr. Fletcher Whedbee, of Pamlico, returned from a trip to Perquimans yesterday per steamer *Shenandoah*.

Mr. John W. Beeton and wife, after spending a few days in the city and at Morehead City, at which latter place they enjoyed themselves very much, gathering shells and sea oats, left for Kinston yesterday morning where they will spend a few days and then return via Asheville to their home in Arkansas.

**Trustees' Meeting.**  
The Board of Trustees of New Berne Academy met on yesterday afternoon for the purpose of electing teachers.

After some discussion the matter of selection of lady teachers was referred to the Executive Committee and the Principal of the School. The application of Miss Herring, of Mt. Olive, requiring an immediate answer, as she is awaiting the action of the Board, before replying to an offer from the Principal and County Superintendent, for examination, on Thursday, Sept. 6th.

The matter of the new school building was discussed, and the Trustees will take earnest steps in that matter. They are in earnest and feel the necessity for it, and there is no doubt that we will have the building soon.

**Kinston Items.**

A big lot of fine watermelons were brought here by the railroad last Saturday from Bogue sound.

W. H. Taylor, son of Fred G. Taylor of Vance township in this county, died last week at his residence, of typhoid fever. He was in his 28th year.

Lewis Grady has opened a "Big Short" bar-room, at his old stand on Queen street and therefore Elder J. B. Rouse fled the town and has taken up in a saw mill in Craven county.

Dr. H. D. Harper, the practical and skillful dentist, has taken an office in Lottin's opera house building, upstairs, where he is prepared to do all kind of work in the dental line and guarantee satisfaction.

Daniel E. Perry, Esq., has bought the house portion—227 acres—of Levi M. Sutton's plantation about one mile from Kinston for \$5,500, being about twenty-five dollars per acre. This is a part of the Henry F. Bond tract of land, very desirable and increasing in value every day.

For many years hogs have been dying with the disease known as hog cholera. It has been raging extensively for the last two months in Lenoir county, but it is gratifying to know that a sure cure for this disease has been found in Pollock's "No. 7," which has such a great reputation for relief from colic, diarrhea and horse staggers. It now adds hog cholera to the many diseases for which it is a safe, sure and speedy cure, when given in doses of one tablespoon full. Try it.

Last Thursday night Capt. Edwin Taylor, John A. Sutton and Ira Smith, in J. P. Davis' mill pond caught fish, consisting of perch, cats and fresh water mullets. They also encountered and captured an enormous mud-turtle, measuring two feet nine inches from tip of head to tip of tail and thirteen inches in width. It weighed twenty-three pounds—its head being 3½ inches wide in which was found a jewel valued at \$2.00. This turtle, like the colored troops, fought nobly and, at one time during the engagement, our lightwood man, Capt. Edwin Taylor, fearing his nose might get another wound as it did when prospecting for lightwood last winter.

**Stonewall Items.**

Weather hot and seasonable. Crops looking well.

Mr. George Richardson is sick and has been all this week.

Mr. T. C. Hadder's wife and little daughter have been quite sick but are reported to be better this morning.

Mr. Jas. T. Lincoln has returned to his place of business from a short trip through the country to Goldsboro. He reports the crops through Greene and Wayne as superb.

At the residence of Rev. T. D. Broughton and by him Kit Lewis and Miss Mary Tetterton were married on last Wednesday, and on the same day at the residence of Mr. Dennis Rawls, Mr. James Miller and Miss Louise Bader were made one, Pastor Miller, Esq., officiating.

Our merchants are making preparations for their fall trip to lay in their supply of goods. Trade at this time is unusually dull; the business men and their clerks and book keepers can be seen from morn till night, sitting out on their lounging seats waiting for a customer and trying to keep cool.

Mr. I. P. Wallop, Monroe, N. C., says: I have derived great benefit using Brown's Iron Bitters for palpitatio of the heart and dyspepsia.

## La Grange Items.

Noah Rouse expects to commence picking cotton this week.

The rains last week have improved the crops, in appearance.

C. C. Taylor and wife passed here for Seven Springs last Friday.

Fodder pulling is becoming general. The corn crop is said to be good.

Dr. A. C. Davis reports several cases of typhoid fever in the Institute section.

Henry Burke has another very sick child. Its condition is said to be very critical.

The steamer *Kinston* went up to White Hall Saturday night, and took some excursionists up the river Sunday.

Miss Carrie Carpenter, daughter of Rev. J. D. Carpenter of our place, will leave for Greensboro Female College on the 21st.

"Doc" Taylor has rented Mrs. Josephine Hardee's residence and will move to town shortly. I learn that Mrs. Hardee will go to New Berne.

Col. J. W. Isler, of Wayne county, shipped to New York and Philadelphia last week, nearly 1,000 pounds of grapes. S. D. Pope shipped several cases also.

Rev. Mr. Mann held quarterly conference at Pine Grove Saturday and Sunday, and preached in the Methodist church here Sunday night. Text: 1st Cor. 15th chapter and 20th verse.

A revival of considerable interest is progressing at Pine Grove, under the charge of Rev. Mr. Carpenter, P. C. I hear that several have been converted and that the interest is increasing.

Sid Moses and Sam Sutton, negroes in New Hope township, Wayne county, had a fight last week. Sam received a heavy blow on the head with a stick, and Sid got a bad cut on the head with an ax.

Not many weeks will pass before the cotton season will be here. The attention of the railroad authorities is directed to the platform at this place which is too small, and which needs arranging so that carts and wagons can be unloaded with more ease. Buyers and sellers know that unloading is very difficult as it now stands.

## Seven Springs Items.

Capt. A. J. Brown has been very sick in bed for several days.

Mr. C. C. Taylor, of the *JOURNAL*, and lady, are stopping at the Seawall House for the benefit of the mineral waters.

The steamer *Kinston* cleared for New Berne with passengers, produce and one bundle rough leather for Baltimore, Md., &c.

Mr. Frank Ivey killed a fine deer a few days ago. Two quarters of the venison was retained in the village and turned out to be goat meat.

Our Dandy Jim, he has a gown That reaches nearly to the ground, A split three feet right up behind, O, Dandy Jim! you're bound to shine.

Mrs. Louis Whitfield, of the Seven Springs hotel, who has been very ill for several weeks with typhoid fever, we are now glad to be able to state is improving.

Rev. C. H. Cashwell has been conducting a protracted meeting at the Union Baptist Church for the last week. Much interest was evinced and several persons were baptized.

Mr. D. J. Aaron, that very polite and clever dry goods agent, commonly known as "drummer," was in town on Monday in the interest of the firm which he so well represents.

Mrs. F. C. Davis, has an excellent school at Moss Hill Academy, in Lenoir, of over 50 pupils. Mrs. Davis was at the normal schools at Chapel Hill and is fully up to all the new theories in teaching.

The steamer *Kinston*, Capt. Dixon, arrived from New Berne on the 18th with groceries for W. H. Andrews, dry goods and crockery ware for W. E. Simmons, 200 watermelons consigned to V. N. Seawell.

Capt. Dixon with his proverbial cleverness, took a party of excursionists up the river on Sunday evening. The boat went as high up as the Broadhurst Bridge in order to give the party a chance to view the Saponia Hills.

A thief stole two bottles of cologne from Joe Allen. Joe says a thief belongs to the beggarly elements of creation and if this one ever steals from him again he will surely have him distributed to the penitentiary at Raleigh and forthwith discomfited.

The public appreciation of the excellent work on the bridge at this place, was shown a few days since by the contractor, Mr. J. J. Ivey, being called to take a like contract on the Kinston bridge. The bridge at Broadhurst's Landing we understand is very near completion.

Mr. Moody has moved his steam saw mill to Greene county, where he will engage in the lumber business. We now have a fine opening for any one in the mill business, as the demand for lumber here has never been supplied. The Neuse river also offers fine facilities for transportation of lumber.

Our friend E. M. Spence, was married on the 10th ult. to Miss Temple Gardner, the beautiful daughter of Mrs. M. E. Gardner, near Goldsboro. We wish you a long life, Zeke; we trust that the thorns of adversity may never blight your way, but that the roses of prosperity and happiness may be strewn by gentle hands, all along the pathway of life.

The picnic at the springs on the 17th from Smith's township, in Duplin county, was well attended by the beauty and intelligence of the country, with a smaller number of cranks than generally attend such places. The beaux and belles were out in force and many a gentle whisper uttered then and there will doubtless be remembered for years.

## as being the "open sesame" to the gates of matrimony.

Sidney Blunt and Sam Sutton, two gentlemen of color, had quite a fracas near Dr. Parke's on the 15th. The belligerents were allowed to fight it out their own way, as it seems that no one witnessed the transaction. Axes and sticks were freely used and "raw head and bloody bones" was the result. Justice J. F. Davis bound the parties over to court.

We have recently had a conflict of authority between the judicial and school authorities in this county. Two bold thirty colored school archns engaged in pulling wool and pounding each other's pates with no great amount of damage, but before the vigilant school teacher could bring the little fellows to justice the ever watchful justice of the peace(?) had them in limbo and in the clutches of the law. We never knew before that the jurisdiction of a magistrate extended to the school room, but it is said that a couple of dollars cost will stretch a j. p.'s jurisdiction very greatly.

## For the Boston Exposition.

Mr. Walter Watson's tool factory will make an exhibit at the Boston Exposition which will do honor to Fayetteville and reflect credit upon the energy and enterprise of its proprietor. There will be all kinds of turpentine tools of Mr. Watson's own manufacture, old implements used in naval store operations before improved methods were adopted, together with all the appliances for showing the different processes for getting turpentine, making spirits and rosin, etc. In all the fine display that North Carolina will undoubtedly make at Boston, we think there will be nothing more interesting than that contributed by Mr. Watson.—*Fayetteville Observer.*

## Fine Cotton Stalks Wanted.

Gov. Jarvis, desiring to procure six of the finest cotton stalks obtainable, yesterday applied to Williamson & Upchurch to secure them. The stalks are to be sent to the Boston exposition as a part of this State's exhibit there. As the best means of securing fine stalks of cotton Williamson & Upchurch offer a prize of \$5 to the farmer anywhere in this section who will bring to their store next Saturday at noon the largest six stalks of cotton, the same to be sent to Boston. Now here is a chance to make \$5, and we hope to see a lively competition from Wake and other counties in this section. No doubt some fine stalks will be shown at Williamson & Upchurch's store, 216 Fayetteville street, next Saturday.—*News and Observer.*

## THE LATEST NEWS.

WASHINGTON, D. C., August 20.—The acting Secretary of the Navy to-day received the following telegram from Lieutenant Welch, commanding at Pensacola navy-yard, dated yesterday: The total number of cases at the navy yard up to date is six, including Ovens, a child, and one death on the 17th. There are no new cases to-day. One case was reported in Woolsey. Will send marines into camp to-morrow upon the recommendation of the surgeon.

GALVESTON, August 20.—A *News* special from Austin says that acting upon dispatches from Galveston, stating that there were reports of yellow fever at Ocean Springs, Key West and New Orleans, Governor Ireland, in order to be on the safe side, has issued instructions to the Galveston health officer to prevent the entrance of vessels from suspected points. The Governor stated that commerce could stand twenty-four hours' cessation in which time he could get reliable information. The order may be rescinded to-morrow morning.

## Death of Jere Black.

Judge Black was born in Somerset county, Pa., on the 10th of January, 1810. He was in the 73rd year of his age at the time of his death. He was admitted to the bar in 1830, and while following his profession took an active part in the stormy politics of those days, when the name of Jackson was the rallying cry of Democratic politicians, and Judge Black was a Democrat throughout the whole of his life of the sturdiest Jefferson and Jacksonian type. In 1849 he was appointed presiding judge of the court of the district in which he resided, and in 1852 was elected judge of the Supreme Court of his State and chosen Chief Justice, being re-elected to the same high position in 1854. On March 5, 1857, the day after Mr. Buchanan took his seat as President, he appointed Judge Black Attorney-General of the United States, and three years later, during the stormy period that preceded the outbreak of the civil war, he held the portfolio of Secretary of State, continuing in that position until President Buchanan's term of office expired, on the 4th of March, 1861.

He died at his residence near York, Pa., on Sunday morning. The illness which culminated in his death began about a week ago. Operations for stricture of the urinary organs were performed on Monday, Tuesday and Wednesday for the purpose of affording temporary relief, and the final operation on Thursday morning. Notwithstanding the favorable bulletins in regard to his condition, it was the opinion of those best qualified to know that he could not survive. The direct cause of his death was toxæmia, a poisonous condition of the blood.

Dr. E. H. Babbitt, Hickory, N. C., says: "Brown's Iron Bitters give great satisfaction."

## COMMERCIAL.

### NEW BERNE MARKET.

Cotton—Middling, 9; strict low middling 8 3/4; low middling 8 1/2.
