The S. A. Railroad.
We understand that a railroad with the above mysterious name will be in operation next season across the banks at Morehead City from the sound to the sea. Several of our prominent citizens are interested in the enterprise, and expect to realize a handsome profit from their investment. The motive power will not be steam. It will no doubt be a great help to the guests of the Atlantic hotel who heretofore have been obliged to warily plod to the surf through the deep sand.

The Graded School.
We have received from Prof. Thomas the following notice of the opening of the school:

The school will open on next Monday. It is very much hoped that all who possibly can will be there on the first day. There is nothing like a good beginning, and a full attendance at first is very necessary to the proper organization and classification of the whole school.

The applicants for the vacant positions in the corps of teachers and all the teachers elect, both those recently elected and those who taught last year will be examined by the Principal on Thursday, September 6th.

All new pupils will meet the Principal at his office on next Friday for examination; and it will be well for all parties wishing to consult him with reference to pupils to meet him at the same time.

On the morning of the opening of school, all pupils will proceed in the same manner, at the same time, and at the same signals, to the same room and seat, as last year.

The Board have been particularly fortunate in securing the services of Prof. E. E. O'Neal, of Nashville, who comes to us very highly recommended not only by the Principal of our school and other prominent schools in the State, and by the faculty of the University of Tennessee, and others, but especially by his record at college and since.

No less have we to congratulate the Trustees on the election of Miss Ida Christmas, who is one of the former teachers in the Durham Graded School, and was re-elected there but preferred to come to New Berne. She comes recommended from Durham as one of the very best young lady teachers in the State. So far the corps of teachers is excellent. We only hope the remaining vacancies may be as successfully filled.

The pupils will bring the same books to school on Monday which they used last year, and will all be careful to bring their last year's Reports.

The glory of a man is his strength. If you are weakened down through excessive study, or by early indiscretions, Allen's Brain Food will permanently restore all lost vigor, and strengthen all the sinews of Brain and Body. \$1.25 for \$2.—At drug stores, or by mail from J. H. Allen, 315 First Ave. New York City.

Statement of Receipts and Disbursements of the New Berne Academy for the Year Ending August 31st, 1883.

RECEIPTS.	
From all sources	\$7184.03
DISBURSEMENTS.	
Paid teachers	\$4940.00
Janitor	135.00
Desks	775.00
Advertising	57.50
Clocks	37.50
Stoves	75.00
Coal	108.25
Comp.	108.50
Insurance	80.00
Commission to Treasurer	126.64
Repairs building on Pollock St.	50.00
Repairs, whitewashing and painting Academy building	
Out houses, fences, etc.	396.00
Chairs, tables, old debts, maps, charts, books, etc.	271.64
	\$7184.03

In the disbursements given above it will be observed that the cost of desks, clocks, stoves and repairs, which amounts to \$1545.14, is a permanent investment and is not a part of the current expenses. Taking this amount from the total expenditures we have the actual cost of running for ten months, which is \$5638.89, being but a fraction over ten dollars per capita for the number of children enrolled.

Prof. Price Thomas.
Prof. Price Thomas last week was elected Superintendent of the New Berne Graded School. It was with mingled feelings of pleasure and regret that Durham hears the news. For as his friend we hate to lose him and as his friend we wish him success.

Our Board, our people, and especially his many pupils will feel no ordinary regret in losing Prof. Thomas. He has been eminently successful here and is deservedly popular both as teacher and citizen of our town.

We congratulate New Berne on her selection, and assure her that she has acted wisely and will not regret her action.—*Durham Recorder*.

Kinston Items.
Kinston College, Dr. R. H. Lewis President, opened last Monday with 76 students.

Kinston Graded School, Prof. Claxton Principal, began its fall session with 314 pupils.

There are two things about which the world will not dispute with you. One is putting your age up high and the other is setting your capacity down low.

It is with pain and sorrow we hear of the death of Bertha Dunn, daughter of Henry Dunn, druggist at this place. She died of typhoid fever at High Point last Sunday evening.

J. H. Suggs, of Greene county, has purchased of Levi M. Sutton 235 acres of his land near Kinston at \$25 per acre. There are no improvements on this land, and only about one-half of it is cleared.

The county commissioners met in regular monthly meeting last Monday, all the commissioners being present. The usual poor orders were issued. There were a few orders made reducing the valuation of some of the lands in the county.

Burt, the auctioneer, man, left last Saturday morning for New York. His Kinston and New Berne stores are to be filled with bargains in a few days, while "Snow and Dennis" will once again amuse the wayfarer and bring the "what what" from the eager listeners.

Lenoir county returns for taxation this year 1,314 white polls and 903 black polls. The valuation of real estate in the county is \$1,551,908, while the personal and real property together foot up \$2,384,104, being an increase of \$390,895 since the previous assessment. Kinston township gains \$157,323 on last year's valuation. This increase comes from "slabtown," whose property has advanced 100 per cent since the location of a beautiful young lady in that quarter.

Washington and Elsewhere.
Cotton opening. Nights cool. We will attend to "Justice" next week.

Cherry's Run bridge is rebuilt; quite a good job.

We meant no reflection on Mr. Harding's (the county superintendent's) character.

The Long Ace widower and Pantego widow "enjoyed" (not "engaged") themselves.

Six persons added to the church at Tranters creek; Mr. A. Latham conducting the meeting.

Rev. Mr. Redding Moore, of the M. E. Church, immersed nine persons at Gainer's bridge on Tuesday last; seventeen were added to the church at Mt. Zion on that day; very large crowd out on the occasion.

In the *Journal* of the 9th August last I stated that "one Mr. E. S. Marsh of Hailin took on board the steamer *Beaufort* some crates of beer and began to sell, etc." I am informed by certificates from several persons of that vicinity that the beer did not belong to him at all; that it was put on board by the parties who gave the certificates and was not sold by Marsh; and one of them put some in the ice chest "and the Captain did not say anything about it." The Captain gives a certificate that he "did not seize any beer." I have to say that I was misinformed, and take this opportunity of putting the matter in its true light, and ask pardon of E. S. Marsh for unintentionally misrepresenting the matter. I have also the names and a copy of the certificates of those who gave the certificates, and who put the beer on the steamer.

La Grange Items.

Trade revived a little on Saturday.

Rev. J. D. Carpenter is conducting an interesting protracted meeting at Sharon, in this county.

Miss Lou Daniels, teacher of music at the La Grange Collegiate Institute arrived Saturday and is ready for the music class.

Henry Sutton has bought machinery and will put up a gin at Jenny Lind in a few days. He proposes to gin for the twentieth, the usual price.

Thos. Rouse, son of Noah Rouse, left here Saturday for Chapel Hill, and Alpheus, Fields, son of John Fields, left for the same place on Monday.

Joyner & Murphy's school opened Monday morning with more flattering prospects than any previous session. The number in attendance was very good for the first day.

Cotton picking has commenced, and from present prospects, will soon become general. It is now believed generally around here that not more than two-thirds of a crop will be made.

Rev. Mr. Isler, Presbyterian, preached at the Methodist church last Sunday morning at night. Text in forenoon, John 10th chap., 35th verse. Evening, 1st Epistle of John 3d chap., 23d verse.

There was a scent of new bridge in the air Monday morning. Two of the building committee from the country were here in consultation with another committee man. Surely this is some sign of activity.

For several nights last week, our town was infested with female forms (they can't be called women) walking the streets at an unseasonable hour. The policeman should give all such a lodging place for the night and the Mayor deal with them as public nuisances.

McDonald Taylor, Railroad Agent, etc., at this place, received two assistants last Wednesday. One of them was taken to that bourne from whence no traveller returns, on Thursday. "Mc" is a clever and obliging official, and a good citizen and has the best wishes of the community.

A tramp was found in Walnut Creek Church, in Wayne county, on last Sunday morning, in a very pitiable condition. Col. J. W. Isler, Dr. Hadley and some others visited the sick man and administered to his relief. He had been in the church for several days without food or other nourishment. He represented that his name was Robert Manro and was from Memphis, Tenn., aged 56 years, that he had one child, a daughter, in Ohio, and that he was without family, his wife having died some time ago. This (Monday) morning I learn that he is not expected to live till 12 o'clock.

Tuscarora Items.
Cotton picking begun.

The first of this month being our postmaster's birthday, he went out hunting, and returned with a leg of venison, but his brother did the shooting.

Extensive preparations are being made here for building. Mechanics will have plenty to do. Edward Debruhl has commenced building his dwelling; Mr. J. G. Smith is the carpenter. Messrs. J. H. Wetherington and Edward Wetherington will commence in a few days on their new buildings.

Duck Creek Items.
We have a good school here now taught by Mr. G. W. Ward, which will continue all the year, we reckon.

By the way, the Swansboro man tells some tough stories about snakes, but we have some heavy snake killers around here.

Mrs. Mag Lewis, wife of Wm. Lewis, of Cedar Keys, Fla., with her children, are out on a visit to her father, Mr. Abner Kellam, of this place.

The schooner *Minnie Ward*, Capt. Joe Moore, just arrived at Marine's Landing loaded with goods for Marine, Smith, Arthur, Gillett Canaday and others.

The farmers have good crops considering the dry weather lately, but now that the rains have commenced, the late crops of corn, cotton and potatoes will come out a great deal.

Heard a good sermon last Sunday by Rev. John L. Smith at Wardsville Church. Expect to hear another one next Sunday by Rev. R. McDonald at Cowhead, or Enon, as it is called. The former a Hard Shell Baptist, the latter Presbyterian.

The schooner *Myers*, Capt. Ralph Pigott, cleared here to-day loaded with spirits turpentine and resin for Wilmington—300 barrels. The schooner *Stone*, Capt. Moore, also cleared yesterday with crude turpentine for the same place. Both of these vessels belong to W. N. Marino.

Maj. L. O. Fonville made some of the largest onions from seed I ever saw. They beat those of the Carter's gens; a good many weighed a pound and a half each, but one weighed 20 ounces; he made about 10 bushels from one ounce of seed. He also had some very fine Cuban Queen watermelons and sweet potatoes.

W. I. Gillett and Edward Smith have some very good corn. The former has a field of corn planted in June that is the tallest I ever saw. I measured a half dozen stalks from all over it, and the tallest measured 14 feet 8 inches, the shortest 13 feet 6 inches. It will average 13 feet 6 inches. It was planted on new land and no manure, and had sills the 10th of July. Mr. Smith has some taller than Gillett. Some measured 15 feet 5 inches.

Mr. Benj. G. Willis, Jr., of Tenn., engaged in the mercantile business in New York City, was out on a visit to his brother, A. L. Willis, and sister-in-law, Mrs. Nancy Willis, last week. Ben is looking well. He was born and raised in Onslow county. I recollect well a remark Ben made a long time ago.

He said it was a very poor family that could not afford one gentleman in it, and he (Ben) might as well be the gentleman in his family as any of the rest. The Willis family were all workers, but Ben beat them with his brain work. He owns property in Cleveland, Tenn.
