THE distinguished savans are discussing the question, "Are dudes human?" It is held that, even if the Darwinian theory be true, it does not work both ways. Men may have sprung from monkies, but monkies never sprung from men.

The Peoria (Illinois) Transcript is the true poet. Hear him:

"Little drops of printer's ink, A little type 'displayed,' Make our merchant bosses And all their big parade. Little bits of stinginess Discarding printer's ink, Busts the man of business And sees his credit sink."

IT was considered wonderful in ancient times when it was found that seven devils possessed one woman and a later wonder when quadruplex telegraphy enabled an operator to send four simultaneous messages over one wire. But the port of every citizen in Eastern new synchronous multiplex telegraph system enables seventy-two messages to be sent over one wire at the same apparent time, on the principle that an instant may be divided into seventy-two electrical parts. Perhaps this later discovery explains the phenomenon of multiple demoniac possession.

THE WAY TO SUCCEED.

is the way you sound and hearty increasing and by extending its mortals do. You can't do without line they will make money, the it. The world is so made, society thing that all enterprising men is so constructed, that it is the law wish to do. of necessity that you must pushthat is, if you would be thought something and somebody. Push along, strongly and perpetually. All see the power in it. See how it gains, accumulates, both of wisdom and wealth. There never was real, live, determined men.

THE LEASE.

The stockholders of the A. & N. C. Railroad Company voted with great unanimity at their meeting in Goldsboro to lease the road to the Eastern Syndicate for a term of thirty years. Before this lease becomes effectual it must be endorsed by the Directors, or in other words, GENTS' CLOTHING! it must meet the Governor's approval.

The Governor has often declared his willingness to let the private stockholders dispose of this property as they saw fit, having due regard for the State's interest. As he appoints a majority of the Directors, we take it there will be no difficulty about the confirmation of the finest in the city. Special inducements offered to the trade.

the action of the stockholders. The proposition is a good one, and if the proper guarantees are made should be accepted at once. It is, in substance, as tollows: The corporation is to grant the use of their road, rolling stock, machine shops, etc., for thirty years. The Eastern North Carolina Railroad Co. is to pay for the first ten years an annual rental of \$36,000, lay three miles of steel rails and put in 30,000 cross ties annually, and, within four years, extend the road to Fayetteville. For the second Save Money by Buying of Us. ten years they are to pay an annual rental of \$54,000, for the third ten years an annual rental of \$72,000. They put up as a forfeiture for failing to build the road to Fayetteville Building.

Kinston Bouse in charge of A. S. PADERCE and X. M. BROCK, Opera House Building.

25,000, and \$50,000 to secure the Company's property.

Let us see now what is in this scheme for the private stockholders. There is a floating debt against the Company of about \$240,000, bearing eight per cent interest. be paid the interest on this debt, which will be about \$19,000 the first year; the taxes and expense of keeping up the corporation which will be about \$6,000, leaving a balance of \$11,000 the first year to go to the discharge of the principal. With the annual rental steadily and faithfully applied in this manner, the debt will be paid off in less than fifteen years and

the Company will have an annual income of \$54,000 less the expenses of the corporation which ought not to exceed \$6,000. If then the State's stock should be reduced, as it justly ought to be, the Company will be able to declare a dividend of at least four per cent and at the beginning of the third ten years they could declare a dividend of six per cent. If then this lease should be accepted and the annual rental faithfully applied, the county of Craven will in fifteen years be receiving about \$5,000 income from her railroad property. and in twenty years near \$8,000; and Lenoir and Pamlico will also have handsome incomes from it. Besides, all this, at the end of

the thirty years the road will have been extended through a country that will give it something to do which is an important consideration. It is to be hoped, therefore, that the Directors will confirm this LARGEST Ever Shown in New Berne proposition; it is the best ever offered, and that the lessees be permitted, not only to run their road undisturbed, if they comply with the terms of the lease, but will re. ceive the encouragement and sup-Carolina. While we consider the bargain a good one for the counties and private stockholders, we at the sametime have good reasons to of fitting the eyes correctly. believe it to be a good one for the Syndicate. Good for the private stockholders because it is under permanent management and can be used more advantageously for developing the country; good for lars for any article ever sold by me for the lessees because the country is Push along, push earnestly. Many wonder why the brute creation excel mankind as a rule when it comes to a question of health. Investigation quickly ascertains the cause. It is be-cause the brute naturally obeys every law of health, while mankind is constantly degenerating owing to excesses of our ancestors and our own individual imprudence. Sudden exposure to extreme climatic influences; gluttony, ima good pusher who finally did not proper food, alcoholic stimulants, over become rich, respectable, wise and exertion of mind and body, worriment, anxiety, care, etc., all have a marked useful.
