Charlotte Observer: An officer arrived in the city Sunday afternoon with a negro named Ed. Williams, who was

captured in McLendon's store at Mat-

was safely committed to jail in this city.

The circumstances of his arrest are about as follows: Saturday afternoon

four suspicious negroes were noticed loafing about the place, and the town constable selected a party of citizens to

belp him keep watch over the town. During the night they saw a light in McLendon's store, and going up they saw the negro helping himself inside. They walked in on the rash burglar and

We know he will give, through the Palladium, all the advantages and disadvantages we corn, hay, seed and feed oats, horse feed, possess as an agricultural and manufac-

turing community, when he has seen enough of it to form some idea of its capabilities. His attention was called to the immense beds of shell rock along the banks of the river, and the question immediately arose, "Why don't some one engage in making lime?" It is well known that this rock makes as good lime as any that can be found in the country. Then, why bring lime from Maine when there are thousands upon thousands of barrels at our doors on a good navigable stream, only wait ing for some one with capital to manu-

facture it. Col. Pardee and Senator Poole will leave to-day for Onslow county. ## THINK OF IT NOW

Although much is said about the impor-tance of a blood-purifying medicine, it may be possible that the subject has never seriously claimed your attention. Think of it now? Almost every person has some form of serof-ulous poison latent in his veries. When this develops in Scrofulous Sores, Ulcers, or Eruptions, or in the form of Rheumatism, or Orsanic Discasa, the suffering that ou or Organic Diseases, the suffering that ea-sues is terrible. Cutting Down Wages.

The Massachus milli are cutting down the wages of their employees ten percent on account of the extreme dullness of the market. The Assabet woolen mills which employ about 1,000 hands have made this reduction. Unless there is a change in the condition of things shortly holders of cotton need not expect an advance in price.

### A Surprise at the Parsonage.

As the old year was nodding away his fleeting hours and the pastor of the Baptist Church and wife, themselves, beginning to partake of his drowsy quietness, lulled by the pattering rain, there was a quick, sharp knock followed by a barrel of flour, some fifty friends and quite as many bundles. After one hour of pleasant, merry chat, the company disbanded. How pleasant a way to end the year. May all our remaining years be ended as delightfully !
