The Atlantic Company. Withdraws. The following resolution was read and adopted by the Atlantic Steam Fire

Engine Company, No. 1, at their meeting, January 7, 1884: Whereas, The Atlantic Steam Fire Engine Company have been refused the

position of Engineer, and the New Bern Engine Company persist in receiving the position by a coalition with the Mechanics Company, contrary to an agreement to rotate.

Therefore, We, the members of the Atlantic Steam Fire Engine Company,

feeling and believing that we are equals to all and any companies in this depart-ment, withdraw from the department, believing that, at no time can we expect to receive our just dues by vote of the department, we claiming that the Mechanic Company is entitled to the position this term, and they declining, the position is by right ours, which right has been denied us, and knowing that we are deprived of the position on account of personal animosity existing between a member of the New Berne

and our Company.

Rev. William Henry Milburn, D.D. "The Blind Man Eloquent."

Dr. Milburn is known wherever the English language is spoken as the "blind man eloquent." He was born in Philadelphia on the 19th day of September, 1823. In early childhood he lost other partially. He was determined, however, to obtain a thorough education, and fit himself for usefulness in amounting to \$6,876, in the National life; and his career affords a remarkable example of the triumph of a strong will over apparently insuperable obstacles. "Time was," he said in an address delivered in 1856, "when, after a that flashing glance which instantly transfers a word, a line, a sentence, yesterday evening. In 1845, when 22 years of age, Mr. Milburn was chosen Chaplain to the Congress of the United States; and again in 1855, and was thus brought into intimate relations with the most eminent public men of the country. In 1857 he visited Europe and delivered lectures and preached in the principal cities of England to crowded and delighted audiences. Mr. Milburn has also been successful as an author. A volume of his lectures, published in 1857, under the title of the "Rifle, Axe and Saddle-Bags," had a large sale. His "Ten

It is not in our memory when any man has so thor-oughly captivated and impressed the people of this place as he has with his sermons, especially the one on the "Prodigal Son," delivered Sunday night to as large a congregation as ever assembled in the Methodist church. He is one of the most gifted and talented young ministers of the State. There is in him a spirit which is satisfied only when progressing, even in advance of the age, and in the near future his name will sound second to none in the North Carolina Conference. He is ever a welcome visitor here.

As there is an international agreement about the quality of Chinese tea and Brazilian coffee, so it is settled by all nations that the tobacco of the Golden Belt of North Carolina is par excellence the tobacco for the pipe or cigarette.
