Sun sets, 5:22 10 hours, 17 minutes.
Moon rises at 6:30 a. m.

Steamer *Goldsboro* arrived from Baltimore yesterday with a cargo of general merchandise.

The schooner *Melvin* sailed yesterday at 1 p. m. for the West Indies with a cargo of shingles.

Four marriage licenses were issued during the last week, two to whites and two to colored couples.

A pair of white shad were on the streets yesterday. The gentleman who carried them was out of pocket \$1.00.

The schooner *Havana*, Capt. Caffee, arrived from Fairfield on yesterday with a cargo of corn consigned to W. P. Burrus & Co.

One of the novelties on our streets now is Capt. Gray's new plate cart. It is made for the purpose of hauling wooden plates from the factory to the steamer wharf.

C. E. Palmer, deputy collector of Internal Revenue of the fourth district, requests us to state that he can only be in his office about two days in the week on account of having to canvass his district.

Rev. J. L. Carroll and wife, of Gordonsville, Va., are in the city. Mrs. Carroll was called here to attend the funeral of her lamented sister, Mrs. J. W. Walker. Rev. Mr. Carroll will occupy the pulpit at the Baptist church to-day.

The annual sermon before the Female Benevolent Society will be preached by Rev. L. C. Vass in the Presbyterian Church at 7:30 o'clock this Sunday evening. Seats free. The public are cordially invited to attend. The annual collection for the Society will be taken up and a liberal contribution is respectfully asked.

Harriet Harvey, col., who lives on the back lot of L. J. Moore's law office while standing near the stove yesterday morning, her dress took fire and she would have been seriously burned but for the timely assistance rendered by Mr. E. Cuthbert who was near by. Mr. Cuthbert's hands were pretty badly burned in smothering the fire, but Harriet was not injured bodily.

Gene to Baltimore.
The clever Teller of the National Bank of New Berne, George H. Roberts, Esq., left yesterday for Baltimore, where he will take the position of teller for a short while. Rumor has it that he goes in search of a bond of the United States.

French Spoliation Claims.
We are glad to see that Gen. Cox has reported favorably upon the petitions of parties interested in the French spoliation claims. This will bring the matter under the most favorable auspices before Congress, and parties interested have every assurance of a favorable bill being passed.

All About Fishing.
Horace Greeley told the country all he knew about farming years ago. Now Bro. Creecy tells us all about fishing, and game fish in the Albemarle sound, beginning with the pin hook and roach and ending with the drum, which he says is at the head of the list. We publish his article entire on our editorial page. It is readable.

Burned with Powder.
A postal card from Seven Springs brings us the following news:
Mr. Lon Rouse and his brother W. W. Rouse from Kinston were badly burned at the residence of the former on the 23d inst. While preparing their guns for a hunt, a 3 1/2 pound sack of powder exploded in the room near them, caused by the explosion of a shell carelessly handled. Dr. Seawell was called to the sufferers and says no permanent injury is likely to result, although their faces and hands are badly burned, and very painful.

Wrong Impression.
In the report yesterday of the election of officers of the Newbern Academy an erroneous impression, doubtless unintentionally, has been made in regard to the election of the President. The former President stated to the Board that he did not desire a re-election, and asked that his name should not be brought forward, for if re-elected, he would not serve. Without this declaration he would doubtless have been re-elected. The only alternative was to elect his successor.

Married.
In this city, on Saturday night, by Rev. Dr. Burkhead, Mr. Anson Willis to Miss Lizzie Strickland.

Card.
F. C. Roberts hereby tenders his grateful thanks to the officers and members of the Atlantic Company, the Newbern Company, Mechanics Hook and Ladder Company and Reliance Company, and to all other citizens for their timely and successful efforts in rescuing his property from fire on the night of the 24th inst.

The Secretary of the Board handed us a list of the officers elected without giving us any of the particulars of the meeting. We had no desire to do any one injustice, nor to make a wrong impression. Had we known the fact that the former President declined a re-election of course we would have stated it.—[The Journal.]

The Public Library.
Prof. Thomas received, yesterday, fifty dollars' worth of new books for the library, which makes in all over five hundred volumes. He seems determined to have a good library in the town of New Berne, and the cause deserves the support and assistance of all our citizens. A good public library is much needed here, and we are glad to see that we are in a fair way to have one.

New Postoffice.
A petition is being circulated for the establishment of a new postoffice between here and Washington, N. C., which, if established, will be a great convenience to the people in that vicinity. While being on the direct line between here and Washington, it will be eight miles from the nearest postoffice and ten miles from New Berne. It was proposed to name the new office after our postmaster, who declined the honor, and when established will be known as "Ernal."

Church Services.
Methodist Church Centenary—Services at 11 a. m. by the Pastor, Rev. Dr. Burkhead. No services at night. Sunday school at 3 p. m.

Pollock Street Chapel—Sunday school at 9 a. m. Prayer meeting at 4 p. m.

Presbyterian Church—Services by the Pastor, Rev. L. C. Vass, at 11 a. m. Also at 7 p. m., the annual sermon before the New Berne Female Benevolent Society. Subject: "Charity in the Early Christian Church." Sabbath school at a quarter before 3 p. m., Wm. Hollister, Superintendent. A cordial invitation to the public to all these services.

Christ's Church—V. W. Shields, Rector. Third Sunday after Epiphany. Services at 11 a. m. and 7 p. m. Sunday school at 3:30 p. m. The public are always invited to attend the services of this Church.

Baptist Church—Services at 11 o'clock a. m., conducted by Rev. J. L. Carroll. Seats free and the public cordially invited to attend. No services in this Church at night. All are invited to attend the annual meeting of the Female Benevolent Society at the Presbyterian Church.

The Atlantic Road Advertised for Sale.
Ed. JOURNAL.—The following notice, which has just been called to our attention, we clip from the Beaufort Telephone of yesterday:

EXECUTION SALE.
NORTH CAROLINA, CARTERET COUNTY, Ellen Mason vs. A. & N. C. R. R. Co. Execution By virtue of executions in my hands in the above entitled actions, I will sell at public auction at the court house door, in Beaufort, N. C., on Monday, February 4th, 1884, at 12 m., the property of the judgment debtors as follows: The franchise and all the corporate real property connected therewith, with all the personal property, rolling stock, &c., as provided for in the Code, laws of N. C. vol. 1, chapter 18, sections 673, 674. Terms of sale cash.
J. F. JONES, Sheriff.
Beaufort, N. C., Jan. 4, 1884.

This is a matter for the earnest and immediate consideration of all the stockholders and we hope the State can devise some means by which the judgment can be satisfied without the sale of the road. A title thus acquired would be good, and we trust that the county authorities will at once look into the matter, so that the stock for which we have so long been paying taxes may not become more worthless than it is at present. We had an idea that the road was making enough to pay the interest on its debt with a balance left over sufficient to meet incidental expenses.

Married.
In this city, on Saturday night, by Rev. Dr. Burkhead, Mr. Anson Willis to Miss Lizzie Strickland.

Card.
F. C. Roberts hereby tenders his grateful thanks to the officers and members of the Atlantic Company, the Newbern Company, Mechanics Hook and Ladder Company and Reliance Company, and to all other citizens for their timely and successful efforts in rescuing his property from fire on the night of the 24th inst.

Fresh supply of Misses' Meat at C. E. SLOVER'S.

EDITOR JOURNAL.—Your report of the case of Moses Taylor, a colored youth, who was arrested and confessed the crime of stealing a set of harness from a colored Methodist minister, suggests the propriety of a more rigid observance of law in our midst touching the sale of articles in the hands of suspicious persons, or persons not legitimately engaged in trade.

There is a large number of colored boys to be seen daily parading the streets with sacks on their backs, into which all movable articles that may come within their reach, are placed. Coal being often a leading article in this line, and these captured articles are disposed of to vendors and consumers with all the forms of propriety attending a regular dealer, while it must be apparent to the purchaser, that the articles are stolen or at least not obtained by proper means.

Quite a quantity of cotton has been stolen by piece meal from the cotton yard, amounting in one instance to a whole bale; now we think it behooves all law-abiding citizens to use every effort to prevent this petty stealing, and no one more especially than our colored people, for it was a colored man's harness that was stolen and the bale of cotton mentioned above was the property of a colored farmer. If all persons will refuse to purchase articles in the possession of doubtful persons, a long stride in the direction of reform will be made.

As to the coal trade, it is well known there are no mines in this neighborhood and no scattered coal about here sufficient to amount to anything, and hence it is nearly certain that those engaged in the sale, as described above, have filched it from some one, and those who buy it can hardly be considered as doing it in ignorance of the wrong they are encouraging and, to say the least of it, subject themselves to the charge of wilfully winking at crime for their own advantage.

Of this brigade of scavengers on our streets, and the remedy for the same, I may have something to say hereafter, but at present would urge that all dealers and consumers adopt the policy of declining to purchase any commodity from them, that can be reasonably supposed to have been obtained by any crooked means.

Yours, G.

The cotton cometh not.
Neuse is on another swell.

The weather is very unfavorable for farming.
Eggs sell at 10 cents per dozen, and the hens refuse to lay.
Benj. Britt failed to shut the molasses cock, and lost several gallons of molasses.

Shooting ducks is fine sport, but when you have to duff off and swim the creek, a good deal of the fun or sport is lost.

The business in this postoffice has increased considerably since the opening of the route from here to Seven Springs.

John Woodard, for a long time Section Master on the A. & N. C. Railroad from here to Goldsboro, is very sick with pneumonia.

"Be careful never to tell tales of yourself to your disadvantage. People may be amused and laugh at the time, but they will be remembered and brought up against you upon some subsequent occasion."

J. Y. Joyner, Esq., returned from Florida Thursday, bringing with him some of Florida's finest fruits—oranges, lemons, grapes, etc. Mr. Joyner is not very favorably impressed with the "land of flowers," and prefers the Old North State. Your itemizer returns thanks for a fine treat of fine oranges.

The spring term of the present session of our excellent schools opened this week, the Institute on Monday and Capt. Davis on Thursday. A few of the students of both schools have come home, but enough new ones have come in to supply the deficiency. The schools are liberally patronized, doing good work and giving satisfaction.

Small Hams at C. E. SLOVER'S.

Petroleum V. Nasby.
D. E. Locke, Petroleum V. Nasby, editor Toledo Blade, writes: "I had on a forefinger of my right hand one of those pleasant pets, a 'run-round.' The finger became inflamed to a degree unbearable and swollen to nearly twice its natural size. A friend gave me Henry's Carbolic Salve, and in twenty minutes the pain had so much subsided as to give me a fair night's rest, which I had not had before for a week. The inflammation left the finger in a day. I consider it a most valuable article."

Mr. J. D. Suttanfield, Reidsville, N. C., says: "My wife has never felt her neuralgia since she used Brown's Iron Bitters. It improved her health greatly."

Why suffer with MALARIA? EMORY'S STANDARD CURE PILLS are infallible, never fail to cure the most obstinate cases, purely vegetable, —25 cents. dwt

Kinston Items.

Last Tuesday, with us, was as rainy as the days that preceded the deluge.

The colored band of this place paraded our streets last Friday with their new uniforms. They make good music.

Capt. W. J. Rasberry, who resided here several years ago and practiced law here, has returned and resumed the practice of his profession again.

Prof. Mehegan, at the Opera House, last Friday night conducted a "phantom hop," but the phantoms got somewhat sprinkled before they began to hop. Oh! these girls, they will be called by some sweet, angelic name!

The long-legged Squire of the Neck township has got a full supply of justice's blanks. Law breakers may now listen out for the racket, while we shall expect legal decisions which the "Supreme Court" of that township will be bound to respect.

The Kinston correspondent of the *Goldsboro Messenger* complains of the high price of eggs at Kinston, and attributes it to the "lazy hens of Lenoir." That does the hens injustice. There are so many men here who live on nothing but "eggs and oysters," including "egg-hip," that the hens could not supply the demand if they laid a dozen eggs each a day.

A limb of the law, on a recent trip foreclosing mortgages, passed through the lower portions of Lenoir county, parts of Jones, and the Cobton and Core Creek section of Craven county. He is enraptured with the prospect—every prospect pleases—says there is no such farming country on the face of the earth and that the tillers of the soil are moving right along in their farming operations for the present year. He was especially delighted with the "farm and fixtures" at Joel Kinsey's, where he saw the best conducted farm, the finest stock of mules, horses, and a young colt, the equal of which cannot be found in the State. It is expected he will be sent to the next Fair at Raleigh, to "try conclusions" with anything of his kind that dares to meet him there.

A reader of our items, writing to us from below, calls our attention to an item of ours which appeared in the JOURNAL several months ago, wherein it was stated, on information, "The President of the A. & N. C. Railroad had ordered 20,000 steel rails and a large lot of cross-ties for the road," and wishes us to inform the public what has become of these promised steel rails and cross-ties. These promises, it appears, are like unto seed that "has fallen by the way side," and "though lost to sight are still in memory dear." However, so far as we know or can ascertain, these steel rails and cross-ties have all "gone to the Yankees," and it is not probable we shall see them in a thousand years unless the Eastern Syndicate get the road. "The \$38,000 which the President got from Best," if he really succeeded in accomplishing such an impossibility, have doubtless been "placed where they will do the most good."

Wild Shooting.

Mr. Walker Taylor, of this city, met with an accident of quite a dangerous character on Wednesday afternoon. He was out hunting some miles from Wilmington, when stray shot from the gun of another hunter in his immediate vicinity struck him in the face and peppered his hands. Two of the small shot penetrated his upper lip and one his lower lip, and one went entirely through the lid of the right eye and grazed the ball. At last accounts the eye was quite painful, but it was hoped that inflammation might be prevented, which was the only thing feared as likely to produce an unpleasant result. No other damage of consequence was experienced.—*Wm. Star.*

Mr. A. A. Miller, Armfield P. O., N. C., says: "My wife has proven your medicine to be good for nervousness and general debility."

The purest fragrant natural tobacco for the pipe or cigarette is Blackwell's Durham Long Cut. With no colloidine in it, and only traces of the nitrate and nicotine, it is chemically the purest tobacco in the world, to say nothing of its delicious flavor and fragrance.

Rosy Mouths

furnished with teeth rendered pearly and glistening by fragrant Sodontol, usually regarded as an indispensable adjunct of the toilet, are perfectly bewitching.
