We think the matter worth the consideration of those who have charge of it. It is not wise to wait for a serious accident before providing against it. A panic-stricken audience would make such a rush for the door that it would be impossible to open it unless the shutters opened outwardly.

At the performance Tuesday night there seemed to be a feeling of uneasiness among the audience in regard to tire; a number of persons spoke of it, and remarked that if a fire should break out what a fearful sacrifice of life would take place.

Although it has stood for more than half a century their time to setting out shrubs, ever-without any accident, yet who knows greens, ornamental and shade trees. In how soon one may happen? See how near it came last night? Third grade school boys know that fifty per cent discount from twelve dollars leaves six dollars, and that one hundred per cent discount from twelve dollars what Paddy shot at - nothing.
