NEW ADVERTISEMENTS.
HANCOCK BROS.—Seed potatoes.
W. SULTAN—Goods at cost.
JAMES S. LANE—Stock for sale.
W. S. DENNY—Stockholders meeting.

Joshua L. Tucker, Esq., of Pitt, is in the city with a big lot of cotton.

Regular meeting of St. John's Lodge No. 8, A. F. and A. M., to-night.

Eggs want to 33 cents per dozen again yesterday, but declined to 28 before night.

Mr. Geo. N. Ives received a fine lot of white perch yesterday from his fisheries down the Neuse.

Messrs. J. E. Spier and Spencer Brooks, of Pitt, were passengers on the *Kinston* yesterday evening.

The schooner *Mary S.*, Capt. Berry, arrived from Juniper Bay yesterday with a cargo of corn, chickens etc.

Mr. J. K. Willis had a force moving the base of a handsome monument to Cedar Grove Cemetery yesterday. It weighed over 5,000 pounds, and was carried up on skids.

The large auction sale of the assignee stock of Wm. Sultan & Co. has closed, and H. Cohen having purchased the most of the stock will continue business at the same stand. "See" ad.

The funeral services, yesterday, over the remains of the late Rev. Emerson Andrews were conducted by Rev. Dr. L. S. Burkhead, pastor of the M. E. Church. Among the Clergymen present were Revs. L. C. Vass, Edward Bull and G. W. Neal.

The steamers *Trent* and *Kinston* will leave this morning for Kinston and other points on the Neuse, with heavy cargoes of general merchandise and fertilizers. This trip, however, will not interfere with the regular schedule of the *Trent* on Trent river.

Capt. James S. Lane, of Stonewall, called to see us Tuesday. He advertises horses and mules for sale in this issue, and, unlike most of those who sell this kind of property, they are of his own raising. There is about as much economy in buying Cincinnati mules as Western pork and bacon. Both should be raised on the farm.

The first instalment of the 200,000 tons of steel rails said to have been purchased by Col. Whitford for the A. & N. C. R. R. have been brought up and distributed along the road and are being put down. One hundred tons have been brought up, which will lay some over a mile, and the best of the old rails taken up will be used in repairing where it is needed most. This is right; put the road in good condition whether it is leased or not.

From Raleigh.
Some of our New Berne boys must be in Raleigh. Yesterday evening we received the telegrams given below. Will some one tell us what they mean?

RALEIGH, N. C., Feb. 12, 1884.
Wonders will never cease. E. M. P. took WATER at dinner. J. D. J.

RALEIGH, N. C., Feb. 12, 1884.
Rations short at Yarboro. E. B. H. eat breakfast there. J. D. J.

Steamer Arrivals.
The *Shenandoah*, from Elizabeth City, with a large cargo of general merchandise.

The *Kinston*, from Kinston, with 150 bales of cotton and other freights.

The *Goldboro*, from Baltimore, with a cargo of general merchandise.

The *Trent*, from Trenton, with a good cargo of cotton, chickens etc.

Job Work.
The JOURNAL office is prepared to print Bill Heads, Letter Heads, Envelopes, Cards, Tags, etc., in neat and handsome style, and also at prices to suit the times. Give us a trial.

Chatfield Mortgages, Real Estate Mortgages, Deeds, Lien Bonds, always on hand.

Blanks for the appointment of Overseers, and for making Overseer's report, on hand.

Not the Same.
Our correspondent "X," who recently wrote from Trenton upon the railroad lease, feels aggrieved that we admitted the little squib in reference to Capt. Page over the signature of "X" in last Friday's issue. He thinks the writer intended by impudently signing "X" of Trenton in order to provoke a personal difficulty between himself and Capt. Page. We assure "X" of Trenton that "X" of New Berne had no such intention, and we think Capt. Page a man of too much good sense to become offended at the squib which was merely published as a matter of pleasantry without any intention to give offense.

"X" seems to be a favorite name of choice for those who want to write about the railroad. It may be because it, being a cross, comes nearer representing their feelings in the matter than any other sign.

Greene Inferior Court.

We learn that a telegram was received here yesterday stating that our townsmen, L. J. Moore, Esq., was recognized as the Solicitor of the Inferior Court of Greene. If this be true, the Republican court must be holding the reins. While we regret that the Democrats have been caught napping and allowed the court to slip into Republican fingers, yet we think we can congratulate them upon having a good prosecuting officer.

Furniture Factory.

No town in North Carolina is more advantageously situated for manufacturing furniture than New Berne. It is within reach of the fine timbers along the Neuse, Trent, Contentnea, Swift creek and all the creeks and rivers below here where poplar, ash, hickory, oak, pine, maple, in fact every timber needed in the business save walnut, abound. Millions of this lumber is shipped North every year, made into furniture, brought back and sold to our people. If there is a profit in making it into furniture, why can't it be done here? Mr. S. B. Waters has handed us the letter which we publish below, and if any of our citizens can offer any inducements to the writer to come and start an enterprise of this sort he will do a good work for the community and may be a profitable one for himself:

WESTMINSTER, CARROLL CO., Md., February 2nd, 1884.

GENTLEMEN:—I wish to find buildings to start a furniture factory in your city. If you will be kind enough to give this to some one interested in real estate, I will feel much obliged. Building, the larger the better. Also wood-land needed for lumber. Please send me copy of your paper, and oblige.

Respectfully,
G. B. HAWES.

Died.
In this city, at 5 o'clock a. m. February 13th, 1884, Rev. Emerson Andrews, aged 77 years 2 months and 18 days.

Rev. Emerson Andrews was born in Mansfield, Bristol county, Massachusetts, November 24th, 1806. He entered Union College at Schenectady, New York, September, 1831, and graduated with honors in July 1834. He was familiar with and spoke six languages besides having an extensive acquaintance with three others. Mr. Andrews had travelled extensively, not only in his own land but in Bible lands. He was an Evangelist and believed, that from his ordination, he was specially called to that work. He had been a settled pastor but resigned his different charges to devote himself to his life work. For forty years he has labored throughout the South among the colored people, at his own expense. He has given away, to sailors especially, books to the value of twenty thousand dollars. He was confined but a few days to bed before his death, although he had been suffering for several weeks. He made all arrangements necessary for the disposition of his body which, according to directions, will be forwarded by Express to Saratoga, N. Y., where it will be interred in Green Ridge Cemetery, he having, some years ago, caused his own monument to be erected, leaving nothing further in that respect to be done, but the date of death.

During the Union services, under the auspices of the Evangelical Alliance, in the early part of January, Rev. Mr. Andrews attended every meeting, and was greatly interested in the work. The principle works of his life are: "Pearls of Worlds;" "Revival Sermons;" "Revival Songs;" "Youths' Picture Sermons;" "Travels in Bible Lands etc. etc."

The Theatre.
Saint John's Lodge, of F. & A. Masons, meet on Wednesday night. The question of making the theatre safe from fire will doubtless be discussed. We seriously trust they will pass such orders as will provide means of egress for the people in case of a fire, and thereby relieve the anxiety of many of their FRIENDS.

The Laundry.
EDITOR JOURNAL:—There is no greater moth in a family than is the washing as it is now done in New Berne.

There are not less than 50 or 60, perhaps 100 washerwomen who make a business of it. Nearly one-half of a day is lost by these women each week in collecting the clothes, and another half day in distributing them. All of which would be obviated, as a horse and wagon would in a half day's time collect up and in the same time distribute the clothes. The saving in soap and starch would be great, doubtless one-third of that now used would be ample in a laundry to do the same work. It will be a blessing to all to see a good laundry established.

OLD HOUSEKEEPER.

The most delicate persons enjoy taking EMORY'S LITTLE CATHARTIC PILLS, give a wholesome appetite, put new life in a broken-down body. 15 cents 50

Jones County Items.

Our farmers have had one week of nice weather and they are making good use of it.

The JOURNAL is the first paper read at our place. Every one goes to the JOURNAL to get the news.

I have been informed that the convicts have nearly reached the main road leading from New Berne to Kinston. They will reach Trenton in a few weeks more.

Some of our fishermen have succeeded in capturing a few shad in Trent river. Mr. Joseph Simmons sold a few pair of them in Trenton on Saturday last at 75 cents per pair.

In my description of the work of the convicts on the Trent and Core Creek road last week I said that they had cut two large ditches on each side of the road. I ought to have said one large ditch on each side.

The improvements of the Trent have been the means of bringing many acres of the river lands in cultivation by causing the water to run off in a short time and it will be a great help towards driving away sickness.

The last year's crop has certainly convinced some of our farmers that it takes something else to make a good crop besides a mule, an axe and a bag of guano. Experience is said to be a dear school, but some people won't learn, even when they have passed through it.

Robert Ward, colored, sold one of our Trenton merchants a pork barrel of pretty lard on Saturday last. He also brought over some nice smoked bacon, which he sold for 125 cents per pound, hog round. Old man Ward is one of our well-to-do farmers who lives near the pocomin and cultivates swamp lands. He said he believed he would not sell any more bacon yet awhile, but would wait a while for a better price.

Mr. Thomas Harrison, who resides near the Trenton and Core creek road, in fact the road will pass through a portion of his farm, informs me that he cleared forty years ago a piece of his swamp land and he has been cultivating it ever since every year and that the corn on it last year was as good as it was the year he first cultivated it. There are thousands of acres of just such swamp land in this pocomin which, with a little capital, might be drained and cleared and would make from six to ten barrels of corn per acre. Mr. Harrison says that no one can expect all of these pocomin lands to produce to that extent, but all heads of branches leading from the pocomin and all where the gum trees grow will make good corn. Strangers may ask why don't your people clear up and cultivate these rich and durable swamp lands and we can answer with truth that the owners of such lands are generally poor and have no means to bring them into cultivation.

Polokoville Items.
Sheriff Koonce was in town Monday collecting schedule B.

Mr. Quitman Hay opened a store of general merchandise here on last Saturday.

Miss V. J. Kornegay expects to return to her home soon and give up teaching. Some say that Nat is the cause; at any rate we are sorry that she will leave us.

Dr. — seems to have an idea of painting. Most of the time he has a pencil and paper in hand and is trying to draw a sketch of a house.

We had a nice ball at the residence of Mr. D. S. Barrus on last Friday night, where Jim Sanderson and Blount Barry furnished music—just as they are—for us to glide smoothly over the floor and swing corners all. All enjoyed themselves, and the only regret was that 11 o'clock came so soon.

We can but join in the suggestion of the Jones county correspondent to hold a mass meeting to organize ourselves in a body with the end in view—to make a display at the State Exposition. We want the people of the county to think of their great national advantages—their many kinds of wood, minerals, fruit and vegetables, and say if they allow such an opportunity as this to pass unheeded by and keep concealed the great wealth of one of the wealthiest and most fertile counties in Eastern North Carolina. Let our commissioners recommend an appropriation and the magistrates levy the tax to pay the amount, and our people will never regret the money that may be expended in this way. Let the good work go on and God grant it success, is the wish of old Jones county.

Swansboro Items.
We have no school here yet, but guess we will in a few years.

Well, I see Commodore Geo. Credle is all right; but how is Maj. Hearne?

Dr. Blount and Claude Frazelle are almost perishing for a mess of fresh fish and good oysters.

Nash Dennis and Ned Farnell have gone about crazy over money. The one wants all and the other don't want him to have it.

John Pittman just sticks his hands in his pockets and says, "If I can't get fish, I can smoke." And he smokes. So does Dave Ward and Ned Matlocks.

We are in want of, at this time, some good fresh fish. Capt. Heady says he can't catch them, because they are not here. Good reason: You can catch some flounders; please do so.

Tell George Credle to give an account of that alligator's tooth I gave him in the slipper and gown, on piazza chair or sitting-room lounge, with a pipe filled with Blackwell's Durham Long Cut in his mouth. In appreciation of this Oriental pipe and *dolce far niente* air, his tobacco is served in an artistic package of embossed and pictured foil, at once a delight to the eye and a study for the mind.

J. C. Hester, Kittrell, N. C., says: "I used Brown's Iron Bitters as a tonic for general ill-health and found them good."

Duck Creek Items.

Col. E. W. Fonville and wife have gone on a visit to Duplin county. The Colonel keeps in bad health yet.

The farmers are busy plowing, some are nearly ready to plant corn. Had a little good weather since February came in.

Another "shin-dig" at McSimpson's last Monday night, and a pretty little party at Buck Provow on Friday night. Messrs. E. B. Farnell, E. I. Provow and E. M. Watson made music for the dancers.

Six marriage licenses were granted last Monday, at Jacksonville, and I have not heard of but one using them as yet. John Hurst and Miss Sadie Read made use of theirs last Tuesday, the 5th inst.

A big time at Jacksonville, as usual, the first Monday. Plenty of rum and one or two fistuffs, but no bones broken quite. Kit K. got funny and bought a horse for \$8.00 and when he got straight, settled like a man, but didn't know about the horse.

Friend Willie Hargett, who, it will be remembered, left this county last winter for Florida, has returned to his home at Silver Dale, looking only tolerable with his trip South. He has taken Dan Farnell's advice and come to the Old North State to stay, I reckon. Guess Dan had better come himself.

A. Farnell, jr., just finished killing his hogs this week. That man intends to live this year without buying everything he has to eat. I don't know but a few people in our community now that make plenty of corn and pork since they have been so extensively engaged in the cotton business.

Oysters are very good and plentiful, but fish are very scarce in the river. Capt. Ed. Hill and Dan Piner with two sharpies carried out about 800 trout out of the river this week. The down-eaters and Carteret people get all our New river trout now, in fact, they get all our fish nearly all the time, and I don't believe it is right.

The measles, oh! the measles; if you never had the measles, come down this way; all well except the measles; old and young, black and white, ugly and pretty, have got the measles, and we expect the measles will break up several weddings next week. One young gent, Doc, went to see his daisy and had to leave without seeing him. Cause, measles.

Hookerton Items.
Mrs. Dr. F. M. Rountree was here last week.

The farmers are preparing to plant the golden grain.

The country about here is in a very healthy condition.

School opened a few weeks ago under favorable auspices.

Capt. Elhart was in town last week, and the ladies ordering their goods.

A tug boat with the steamer Snow Hill passed here this week, carrying it to Snow Hill.

The first white shad of the season was brought in town last night, weighing five pounds.

Having made several attempts, the Carolina was at last raised, and we heard its whistle once more.

Our little town is getting to be quite a business place. There are several stores being erected, two millinery and one dry goods store.

Mrs. Bettle Patrick and family were summoned last week to Goldsboro to witness the death of her daughter, Mrs. G. W. Murphy.

The recent rains have so filled our river that the boats are making regular trips, bringing loads of kaint for the farmers of this section.

THE LATEST NEWS.
CINCINNATI, O., Feb. 11.—9 A. M.—The river is sixty six feet deep and is rising an inch an hour. It is drizzling rain.

WHEELING, W. VA., Feb. 11.—A heavy and steady rain set in at 10 o'clock last night. About \$10,000 has been raised here, but all of it has been spent, much of it in relief of other suffering towns. The *Daily Intelligencer* has not missed an issue, although the building for three days has been under seven feet of water. The water is still over the boiler furnaces.

LONDON, Feb. 11.—Mount Etna is in a state of eruption. Strong earthquake shocks were felt before this began.

WASHINGTON, Feb. 11.—The House committee on appropriations to-day agreed to report a bill for the immediate appropriation of three hundred thousand dollars for the sufferers by the floods along the Ohio river and its tributaries. The bill will be reported to the House to-day.

If a well be poisoned, woe to those who drink thereat. It is worse to poison the fountain of life for one's self, and for posterity. Often by carelessness, or misfortune, or inheritance, this has been done. Ayer's Sarsaparilla frees the blood, the vital stream, and restores appetite, strength and health.

No other medicine is so reliable as Ayer's Cherry Pectoral for colds, coughs and all derangements of the respiratory organs tending towards consumption. In all ordinary cases it is a certain cure, and it affords sure relief for the asthmatic and consumptive, even in advanced stages of disease.

One can't disassociate the highest taste and comfort from a gentleman in slippers and gown, on piazza chair or sitting-room lounge, with a pipe filled with Blackwell's Durham Long Cut in his mouth. In appreciation of this Oriental pipe and *dolce far niente* air, his tobacco is served in an artistic package of embossed and pictured foil, at once a delight to the eye and a study for the mind.

NOTICE.

Sale of Valuable Steam Mill Property.

Pursuant to the powers conferred on us by a mortgage executed by Joshua Dean, dated the 7th day of November, 1882, we will sell at Public Auction, at the Court House door in Bayboro, Pamlico county, N. C., on MONDAY, the TENTH DAY of MARCH, 1884, at 12 o'clock, midday, all that tract of land whereon is situated the large Steam Saw Mill, formerly known as "The Dean Lumber Company's Mill," together with all the valuable improvements and machinery on said premises.

The boiler in said mill is 100-horse power and the engine is 63-horse power. This property is situated on Lower Broad Creek in said Pamlico county, about two miles from where said Creek empties into Neuse River, with deep water up to the mill wharf.

A fine opportunity for parties wishing to engage in the lumber business. Terms cash. Feb. 6th, 1884.
