The ball has opened now for announcing candidates for city collector, alder-AL, as a newspaper, has no special in-terest in any particular man for any of these positions further than it will insist on good men, men who will discharge their duties fearlessly and imparially and render a strict account of their stewardship, being put in office. But what we want to say is this; We are willing to give any one who has a friend to urge for office one-quarter column of the Journal in which to puff his friend, and as much over this as they want at ten cents per line, the cash to accompany the copy. Remember now we give fifty lines, six words to the from Baltimore with a full cargo of line, free. This is enough for any one, for the truth can be told in a very few words. All over this must be paid for the week by the Register of Deeds, one at ten cents per line in advance. An to white's and one to colored. editor's stock in trade is the columns of wishes to use them for his own benefit or pleasure ought to be willing to pay for it; yet as many of our patrons will probably like to recommend some one we have concluded to give them a quarter of a column-50 lines, six words to the line. We give this space to be used in recommending candidates, and not

for the purpose of abusing them. We have often called attention to the poor mail facilities between this city and Hyde county, but so far we have accomplished no good. For some time we had hoped that a steamer line would be established with a mail contract that would give us communicaton with that the fish line, the river is so swollen and county at least twice a week. For some the weather has been so cold that for the last week or more shad have been cause or other this plan has failed. The Stonewall Enterprise now proposes a route by way of Goose Creek Irland, so at this season of the year—not much which we think is a good one, only we suggest that it go direct to Swan Quarter from Vandemere instead of by way of Goose Creek Island. Our reason for this is the service would have to be increased from Vandemere to Goose Creek Island or the new route would not expedite the rived on Friday night. She is engaged in teaching in White Oak township, or the new route would not expedite the Jones county.

We have received from Mrs. James

City Collector. EDITOR JOURNAL: - I am informed tha my friend Silas Fulcher is running for the position of City Collector. I do not think a better or more deserving man can be found to fill the place. I have known him from childhood to the present time. Was intimately associated with him in camp for nearly four years, from the twentieth year of his age, when he joined Captain Cole's Company, in 1861, until he was shot down with our colors at Spotsylvania Court House, in 1864, when he lost his leg in the defence of his country. He was a good soldier, sober, honest and faithful in the perhis paper, and any individual who formance of his duties, ever a true man and a true Democrat. Now crippled for life in the service of his country, unfor life in the service of his country, unqualified for the more active pursuits of life, yet fully capable of filling the position he seeks. I carnestly hope he may tion he seeks. I earnestly hope he may obtain it and that all those who respect and honor our noble dead will assist one of their maimed comrades to secure the place he desires. Let us show the respect we have for the dead by our efforts for the wounded who are living.

We see in Thursday's JOURNAL a request that the citizens of Jones county hold a meeting on Monday of court week for the purpose of organizing a county organization committee. I am glad to see this call, hoping that every citizen of the county who can attend will do so, and assist us in perfecting such arrangements as will bring in a fine collection of the county's resources. I hope that our leading tax paying citizens will lay hold of this important subject and help us to carry through and put in good shape such a plan as will fully exhibit our immense resources at the exposition. Would it not be a good plan to appoint a county central com-mittee, who ought to reside at Trenton, to take charge and forward all collec-tions that may be received by them to the State exposition; and also a commit-tee for each school district whose duties should be to collect and carry to Trenshould be to collect and carry to Trendomy the proposed route.

Sixth, That by the present route, letters are frequently from ten to twolve days going from New Berne to Swan Quarter.

Now cannot our citizens of New Berne aid in establishing this route? The influence of Representative Skinner will doubtless be enlisted for the petitioners in Hyde and Pamlico counties, and if we of the 2nd district would petition Congressman. O'Hara he would doubtless give us the benefit of his influence, and with both in favor of it we would stand a good chance to have the route. Our postmaster, Mr. Manix, has promised to do what he can for it in the tway of recommendation, etc.

Hurrah for the Democrats.

An Extraordinary Offer.	

To All Wanting Employment. We want Live, Energetic and Capable Agents in every county in the United States and Canada, to sell a patent article of great merit, ON ITS MERITS. An article having a large sale, paying over 100 per cent. profit, having no competithe guard. Capt. Swan did not see him until his engine (102) was within a few feet of the unfortunate within a few feet of the unfortunate from us. With all these advantages to ticle that can be sold in every household it might not be necessary to make an "EXTRAORDINARY OFFER" to secure good agents at once, but we have concluded to in the merits of our invention, but in its salability by any agent that will handle it with energy. Our agents now at work are making from \$150 to \$600 a month clear, and this fact makes it safe premises, but as no plan had been matured it was deemed best to defer action until their meeting in April—
There is a probability now that Mr. William Harrell, of this place, will get a pension for his services in the Mexican war. He is the out of employment.
