The Pea Crop South.
Mr. A. S. Cooke, of the firm of A. S.
Cooke & Co., of New York, produce
commission merchants, is in the city,
stopping at the Central hotel. He has
been on a trip down South and reports
the pea crop badly damaged by the cold.
He thinks prices will rule high on ac-
count of the short crop.

The School Building.
The subscriptions to the new school
building in all now amounts to about
\$6500. We feel authorized to say if
\$500 is subscribed to-day that the neces-
sary orders for the immediate erection
of the building will be made by the
Trustees at their meeting this afternoon.
We will publish the list of names of all
to-morrow who have subscribed, and
then cease the old list.

The State Exposition.
The following persons have been ap-
pointed a committee to devise and carry
out a plan for the proper representation
of New Berne and Craven county at the
State Exhibit, to be held in Raleigh,
during the month of October next: W. M.
Manly, C. E. Foy, T. A. Green, W. H.
Olivér, G. F. M. Dail, A. R. Dennison,
L. H. Cutler, S. H. Gray, Gen. R. Ran-
som, Thos. S. Howard, W. H. Wahab,

D. Whitford, Geo. Allen, C. H. Blank,

Withdrawn.
We learn that one of the best Fire
Insurance Companies doing business in
this city has ordered all policies can-
celled where the risk is on merchandise
in frame ranges. The city has made
two or three sickly attempts to establish
a fire district and prohibit the erection
of frame buildings for business within
its limits, but having failed in every in-
stance to carry out the ordinance they
have finally thrown up the sponge and
abolished the whole thing. Well, it is a
free country; if the merchants prefer
doing business in frame buildings, why
it is their privilege to do so, and if the
Insurance Companies don't want to
carry risks on such buildings it is their
privilege to withdraw. Real estate
owners must be convinced that it is to
their interest to erect brick buildings be-
fore an ordinance creating a fire dis-
trict can be made effective.

Steamboat for Hyde.
We see from the proceedings of the
stockholders of the New Berne and
Pamlico Steam Transportation Co.,
which we publish in this issue, that the
question of establishing a line to Hyde
county is again agitated, and the stock-
holders of said company are unanimously
in favor of it. We have so often
urged the necessity of this movement
that we know not what to say in its
favor that has not been already said. It
is one of those questions which an or-
ganization like a Chamber of Commerce
or Board of Trade should consider. Geo-
graphically considered, New Berne is
the commercial mart for Hyde county.
It is here that that rich county can find
an outlet for her corn and other pro-
ducts. We will rejoice to see the time
when a steamboat line is permanently
established, with a mail contract, be-
tween this city and Hyde county.

Personal.
Dr. F. M. Rountree, of Kinston, is in
the city.

Rev. S. H. Isler, of Goldsboro, passed
down to Croatan last night.

Appreciated.
Prof. J. S. Midyette, so long known
in Kinston as principal of Kinston High
School, writes us kind words from
Wheatly, Ark., and, as evidence of his
appreciation of our WEEKLY JOURNAL,
encloses the cash to renew his subscrip-
tion. Of course, we are entitled to the
money sent, as we think we give full
value for it. For the following words
he has our thanks, and we think he
shows good judgment:

"The JOURNAL continues its weekly
visits and furnishes us with many items
of interest. You are sending out a good
paper, and I wish you continued suc-
cess."

Stockholders' Meeting.
The regular annual meeting of the
Stockholders of the New Berne &
Pamlico Steam Transportation Company
was held on Wednesday night at the
rooms of the New Berne Board of Trade.
Jas. A. Bryan was called to the chair
and C. E. Foy requested to act as secre-
tary.

The reports of the various officers of
the said Company were read and ap-
proved, which showed a fair business
was being done by the Company.

The proposition to open an additional
line to Hyde county was unanimously
endorsed by the Stockholders.

An election of officers being held, the
following gentlemen were elected for the
coming year: J. J. Wolfenden,
President; C. H. Fowler, Vice-President;
T. A. Green, Secretary and Treasurer;
S. H. Gray, General Manager.

BOARD OF DIRECTORS.

Public School Question.
EDITOR JOURNAL:—As I have traveled
as a minister and visited several public
schools, will you or some one answer
the following question:

Is it right for the children to be com-
pelled to either take to the school with
them a penny or a stick of wood to fur-
nish their own fire, and when one does
not do this for the teacher to keep them
from the fire cold days? Is this public
school law in behalf of the children
and their parents?

I remain, respectfully,
S. B. HUNTER, James City.

The public school law is intended to
benefit the children, but with our limited
amount of school funds it is expected
that parents, in the country, where wood
can be had cheap, in order to make their
children comfortable and continue the
schools as long as possible, will furnish
fuel free of charge, but where they fail
to do this the committee should see that
the school room is made comfortable.
As to the rights of the teacher to keep
any child from the fire because he has
not brought his penny or stick of wood
we are not prepared to answer, and
therefore, hand the question over to the
County Superintendent.

Wants to Visit Us.
From the following letter it seems our
boys must either "back square down or
organize and go to work:

NEW ORLEANS, March 7th, 1884.
DEAR SIR:—Yours of 27th to hand and
contents noted. I am sorry to hear
that you have no organized club. We
would very much like to visit the City
of Elms, and I hope you will succeed in
organizing and practice, so you will be
able to play us about the time we will
be on our trip—June. A club from this
part of the South is new to your people.
We played in Georgia and Florida last
summer, reaching as far as Jacksonville,
and expect to play again this sum-
mer, so that would bring us
pretty near your city, or
if we play in Charleston, S. C.,
that will bring us still nearer to your
city and probably Wilmington. We
are making arrangements to visit all the
largest cities in Virginia. We have
won the championship of Alabama,
Mississippi, Louisiana, Georgia, Florida,
and would like to try our strength in
North Carolina, South Carolina and
Virginia. Now I hope you will do your
best to have us visit your little city. If
you consent to give us a game don't for-
get to let me know, and oblige.

Yours truly,
THOS. BREMAN,
Manager Bremen B. B. C.

Kinston Items.

Rain, like war, is "inevitable" and in
the language of Patrick Henry, "Let it
come, I repeat it, sir, let it come."

The town election is drawing near
and our streets are getting a good work-
ing. We had better have an election
after every rain.

If it required nine lawyers to make a
man, as is the rule with tailors, Kinston
would now have the right number since
the departure of our Senator to Golds-
boro.

Shad continue very scarce and high
here; roe shad command \$1.50 a pair
and bucks \$1.25. We confine ourselves
to herring and gizzard shad, even if they
are troublesome to swallow.

Nero Mitchell, the colored constable
of Falling Creek, with a sable assistant
duly "armed and equipped," landed
George Foy, colored, in Kinston jail last
Tuesday. The prisoner is charged with
rape on Carrie Mewborn, colored, in
Falling Creek township on the 10th inst.
This is the case in which a woman was
severely beaten and otherwise maltreat-
ed, as reported in the JOURNAL last Tues-
day. The Justice who sent the prisoner
down, seems to have regarded it only
as a case of "an African in a wood pile"
since he offered to bond him in \$200 for
appearance at our next Superior Court.

Asa Waller, of Woodington township,
charged with illicit distilling in viola-
tion of the Revenue laws of the United
States, was hauled up before Commis-
sioner Perry last Tuesday. The evidence
not supporting the charge, he was re-
leased and the prosecution dismissed.
U. S. District Attorney, W. S. O. B. Rob-
inson, represented the government; the
accused had no counsel. Mr. Waller
says he is an old sinner and that the
government has been trying to catch
him a long time, but the old fox is too
cunning, they have not even got a tail
hold on him yet. With the moonshiners
in that section, as with the crooked
whiskey men in St. Louis some years
ago, "everything is altitudinism and the
goose hangs high."

The St. Louis Times is responsible for
the following Lenten effusion:
If any coarse, unfeeling feller
Asks for the loan of your umbrella
Tell him it's Lent.
If any tramp presumes to feller
And begs the loan of half a dollar,
Tell him it's Lent.

And so tell all who come to borrow
Some treasured article to-morrow,
Tell 'em it's Lent.

Destructive Avalanche.

DENVER, COL., March 12.—Monday
night a snow slide descended to the lit-
tle snow-bound station of Woodstock,
on a branch of the South Park railroad,
seventy-five miles southwest of Lead-
ville, carrying away every building in
the town, including the railway station.
The news was brought to Pitkin, nine
miles distant, by a station hand on snow
shoes, arriving yesterday afternoon.

Seventeen persons are known to have
been caught in the avalanche, including
Mrs. Doyle, a widow, who kept the
station, and her six children and an-
other woman, name unknown, and
ten section men. Two women were
rescued alive, but seriously injured.
The body of one section hand was re-
covered, but none of the others can
escape alive.

The snowfall in the mountain districts
of Colorado the present winter is with-
out a parallel in the history of the State.
Many mining camps in the west and
south have been snow-bound since No-
vember. The Sanguan country is the
greatest sufferer. Durango, Silverton
and Rico, containing from 1,000 to 5,000
inhabitants each, are still blockad-
ed, no train having reached
either town in several weeks.

Breckenridge, fifty miles north of Lead-
ville, is nearly destitute. Montezuma,
ten miles distant, is in a pitiable condi-
tion. Gunnison, situated a few miles
from the largest coal mines in the State,
is suffering from coal famine. The
snow is eight feet on a level over the
whole country and in ravines and gulches
fifty to one hundred feet. When the
spring thaws move these mountains of
snow fearful results must follow.

Ray and Anderson Surrender.
Governor Jarvis yesterday afternoon
received official information of the sur-
render of Edward Ray and Waightstill
Anderson, the two revenue officers who
on the 15th of February last murdered
three men in a mica mine, in Mitchell
county. The crime aroused terrible
indignation, and heavy rewards were
offered, amounting to \$800 on the part
of the State and some \$3,500 by the
county and friends of the slain men.
The pursuit of the murderers has been,
it is said, almost continuous, night and
day, from eighty to three hundred men
being engaged in the search. The in-
formation received by the Governor is
that Anderson and Ray have surrendered
themselves and are now in jail at Ashe-
ville, well guarded. Several times dur-
ing the long pursuit the pursuers near-
ly came up with them, once so nearly
as to capture, at their camp fire, their
overcoats, blankets, meat and whisky.
No event which has occurred in Western
North Carolina in years past has caused
such a sensation as this crime and the
pursuit of the criminals.—News and
Observer.
