BATON ROUGE, La., March 19.—
The Governor to-day received a despatch from Bayon Sara to the effect that all hope of saving any part of the Morganza levee has been abandoned, and that the crevasse will soon be a mile wide and probably an average depth of ten feet. A despatch to the Governor from Thibodeaux says the Jamison crevasse, three miles above that town on the left bank of Bayon La Fourche, is still running at a terrible rate, and doing immense damage to the planters.

Lonnon, March 19.—A despatch from Cairo says that telegraphic communication beyond Berber is still cut off. The Bedouins are massing at points on the Nile. They have already occupied the region about the Sabocka cutaract, and blocked the river at that place. The Batakheer tribe is preparing to attack Shendy.

REPUBLICAN PICNIC.

The question of percentages was referred to Arbitrator Bogue, all the companies agreeing to abide by his decision. In the meantime the present rates are to be maintained,
