The steamer Goldsbore arrived yesterlay with a cargo of merchandise Among her freight was the frame work of the steeple and the spire for Christ church, also a large lot of empty cans and boxes for the canning factory.

The Messenger now comes to us an eight page paper, with nearly double reading matter it formerly contained. The first issue from its new press contains a brief history of the paper which shows that Bro. Bonitz deserves all the success which has attended his efforts in journalistic life. Goldsboro owes much of its present growth and prosperity to the influence and work of the Messenger.

The Century, for April, contains a condensed sketch of the life and career of Sidney Lanier, by W. H. Ward. Mr. Lanier was a Southern gentleman, born day and left on the Shenandoah. and reared at Macon, Ga., and, from his fine character and lofty literary attainments, sufficient cause is derived to class his name among the first of American poets. In this issue are also given two handsome portraits of this distinguished gentleman, the first representing him when he was only fifteen years of age, and the second a short while before his death, which occurred in 1881.

The report that the tools of Mr. Carroll, the contractor for building the church spire, were burned in the fire on Sunday morning, we are glad to learn, was not true. The tools were taken to the church and not to the machine s, as it was stated, and there is no rance to the progress of the work from the loss of them.

All the cotton on the yard was cleared again yesterday except the same bale that was there last week. The Eastern N. C. Insane Asylum.

We have received a copy of the repor of the Superintendent, Dr. J. D. Roberts, of the Eastern N. C. Insane Asylum for the year 1883. It shows a althy management of the financial affairs of that institution by the Superintendent and Board of Directors. During the year the new wing has been completed to the building and they are now prepared to accommodate 160 patients. The number on hand at last report was 86; number received during the year 63, making the total number treated 149. Of the number treated 39 were discharged, 14 of whom were cured, two improved, one unimproved, one removed, one eloped and twenty died, leaving 110 under treatment.

Speaking of the class of patients retendent says:

"The class of patients received through the year have been very unsatisfactory for making a favorable showing in my annual report. Most of them were of a The Exposition News.

annual report. Most of them were of a week and emaciated, iller with above name to be published treated in jails and poor houses, poorly fed and clothed—it could hardly be ex-pected to make a favorable showing as to their treatment. As this Institution was built for these unfortunates, I consider it my duty to receive them, even though their physical condition is bad."

### Announcements.

DEAR JOURNAL:-I leave this morning for Nashville, Tenn., to attend the annual meeting of the "Board of Missions." I shall return, D. V., in time to occupy my pulpit on Sabbath, April 18th, and I propose to protract the services from day to day, from that time, with the view of building up the cause of Christ and winning souls from sin and death. Dear brethren, I ask you all to join me in earnest prayer to Almighty God for a great blessing on the Church and community. God works by means; and if we all humble ourselves before Him, and pray and work, as He directs, the Church will be revived and sinners converted. Let us all "shun every appearance of evil" and cry earnestly to God—day and night— "O Lord, revice Thy work"! Rev. Chas. W. Byrd, stationed

preacher at Morehead City, will fill my pulpit April 6th, morning and night. If any announcement can be made for next Schbath, timely notice will be given.

Bill won't die though—no such luck. The Mayor has not investigated the matter yet to find out the particulars.

Jones County Items.

I have been informed by our County Superintendent of Public Schools that there is standing in Mr. Edgar Rouse's yard, in Tuckahoe township, an oak tree that measures 23 feet and 3 inches in circumference, also an elm in Mr. I. Brown's yard, same township, that measures 15 feet in circumference.

Mr. Rand has contracted with the county authorities to build a bridge across Muscle Shell creek on the Core creek and Trenton road. The bridge is to be fifty feet long, twenty feet wide, with three spans; to be put up right away, all to be finished in a substantial, workmanlike manner for one hundred and fifteen dollars.

Trenton has succeeded in getting a police officer. Mr. Benj. Ervin has been elected to the position. I met him the other day and saw him with the badge on, "Trenton Police," and he had on his shoulder a pole about twen-ty feet long with a hook and a pike in one end of it. I enquired of Benjamin if that was the kind of weapon that the town had given him; I told him it was a very formidable one. He said he was going to pull some logs with it out of Trent river.

With your permission I will say a few vords to your correspondent in reply to his remarks concerning the freight charges of the N. & T. Company between Trenton and Kinston: He says that while the citizens of Trenton pay \$1.50 freight for kainit, they only have to pay 50 cts. per bale for cotton, and the citizens of Kinston have to pay \$1.00 per bale, and that the Kinston charges of the company are much effected by the the company are much effected by the railroad, a competing line, and very often they are compelled to charge less than paying rates for freight. Our farmers say that they do not understand the gentleman, for if the railroad forces the company to carry kainit for \$1.00, why don't they force them to carry cotter for less the \$2.00. ton for less than \$1.00? All our farmers ask of any company is equal and just freights, and it is not their wishes for any company to charge them less than they can afford to work for, but they want the company to come down to business principles and charge all alike and have no discriminations whatever. Would any one of common sense patronize any one of our merchants if he sold Mr. A. sugar at 8 cts. and coffee at 25 cts. and then turn around to Mr. B. and sell the same sugar at 12 cts. and the same coffee that he sold to A. for 25 cts. let B. have it for 15 cts.? Does such trading as the above seem fair and right? The above reminds me of an incident that took place in New Berne some years ago between one of our Trenton merchants and one of the New Berne wholesale merchants. The Trenton merchant had been trading largely with the New Berne merchant for over two years and had been paying him the cash for everything he purchased, but the merchant at New Berne began to suppose that he had our Trenton merchant safe and began to raise his prices. Our Trenton man was sharp and sent him a new customer; the New Berne man sold to this new customer cheaper than to the old one, not knowing that the new one was buying for the old one. This convinced our Trenton man that he was not serving right and he called in to his store on his first trip to New Berne and told the New Berne man what he had been doing, the merchant by way of an appology, remarked: "I did sell him calico and domestics cheaper than I did you, but Mr. A. don't think anything of that, the way I stuck him on shoes would make you laugh.

The Mullein Plant.

Dr. Quillan, a celebrated physician of Dublin, has just written in an English medical journal of his wonderful ex-perimental results with the common mullein plant upon lung and bronchial affections, citing cases where he had given it to consumptives with the most astonishing result, and recommends its use by the profession. Referring to the above, we would state that TAYLOR'S CHEROKEE REMEDY OF SWEET GUM AND MULLEIN, made from the formula of the medicine men of the Cherokee Nation is composed not only of the mullein plant, but has incorporated with it the sweet gum, the finest stimulating expectorant known, presenting an agreeable taste and a certain panacea for Coughs, Whooping Cough, Colds and all Bronchial Affections.
