

THE DAILY JOURNAL.

VOL. II.

NEW BERNE, N. C., FRIDAY, MARCH 28, 1884.

NO. 307.

LOCAL NEWS.

Journal's Circulation.
Sun rises, 5:51 | Length of day,
Sun sets, 6:19 | 12 hours, 28 minutes.
Moon sets at 8:08 p. m.

Athletic Club stock is now quoted at 1.15.

One affray case was disposed of by the Mayor yesterday.

Regular meeting of New Berne Lodge No. 443, Knights of Honor, to-night.

Norris Green is now entertaining seventeen guests at his hotel on Craven street.

The Union Meeting of the Baptist Eastern Association convenes at Kinston to-day.

The steamer *Cutter* leaves for Trenton this morning with a full cargo of general merchandise.

The nomination of Councilmen now seems to hinge upon who shall be Mayor and Tax Collector.

A fine beef in market yesterday brought \$75.00. Wouldn't it pay some farmer to buy up the poor cattle and fatten them for market?

Regular meeting of the Board of Trustees of the New Berne Academy will be held this evening at the office of H. R. Bryan, Esq., on South Front street.

Mr. A. Nicol, of the Kinston the Soliciting Freight Agent of the A. & N. C. Railroad, was in to see us yesterday. He reports the freights on the road good and constantly increasing.

The Bell Medal has been awarded to the Sixth grade of the Graded School for the best attendance during the last month. The class voted the honor of wearing it to Miss Mary Suter.

The steamer *Thomas Corral*, Capt. W. H. Cunningham, arrived from Norfolk on Wednesday night with the barge *Frank Arthur* loaded with kaint in tow. She will take a cargo of shingles in return.

Steamer Arrivals.
The *Snow Hill*, from Snow Hill with a cargo of cotton.

The *Cutter*, from Snow Hill with a cargo of cotton.

The *Florence*, from Vanceboro, with a cargo of cotton.

Hold Robbery.
On Thursday night the candy establishment of Major Geo. Credle was broken into and about \$8.00 in money, three watch chains, a lot of candy and postage stamps taken out. A lad has been suspected and the proper papers issued for his arrest.

Personal.
Mr. Sol. Oettinger, of the firm of Oettinger Bros., of Kinston, was in the city yesterday. We regret that we were out when he called.

Henry G. Griffin, Esq., traveling agent for Henry Archbell, of Kinston, called to see us yesterday.

F. D. Koonce, Esq., of Onslow is in the city. He says peanuts will be planted extensively in his county this year, and the producers want a tariff that will incidentally protect them.

Mr. B. F. Stilly has returned from a trip to Alam Springs, Onslow county. He thinks a railroad is all that is necessary to make that a great country.

Public Schools.
Rev. S. B. Hunter, col., writes us again about the right of teachers of public schools to exclude children who attend school from the benefits of the fire if they fail to carry a penny each day to pay for fuel. He says he was prompted to ask the question in the first place because he knew of parents who kept their children from school because they were not able to pay the penny a day. He thinks there is a screw loose, and it should be found. He exonerates our Superintendent Long from any knowledge of this practice, and says he did not intend the inquiry for any particular county. Now we suggest that if he knows of any such practice that he report it to the County Superintendent at once and let the matter be investigated.

Grand Equestrian Parade.
Yesterday afternoon the streets of the city were enlivened with a grand parade of ladies and gentlemen on horseback. The party consisted of six or eight ladies each with an escort who had been taking a ride out on the roads leading to the city and happened to form in solid column on the return, which produced an interesting episode in the afternoon enjoyment. The speculation of various persons as they came down the street was curious and amusing. Some said they thought it was the Wizard Oil Company, others thought it might be a drove of horses and many such remarks, but when the command came close enough to be definitely discerned, everybody said it looked "just like a parade."

The parade among the military circles of the city was a very interesting one.

First Score for the Gymnasium.

The little daughter of Mr. R. P. Williams fell while playing on the lumber belonging to the Athletic Club, lying on East Front street yesterday afternoon and was right badly hurt, but we hope not seriously.

Persons living in the neighborhood say that the exhibitions of athletes and acrobats, are of frequent occurrence here and they fear that some serious accident may yet happen, before the building is completed.

A New Trade.

Capt. A. W. Styron passed through the city yesterday morning on his return from Morehead City, Swansboro and Jacksonville, whither he had been to tender the new steamer *Margia* to the stockholders of the Inland Coasting Co. He took the boat on a trial trip through Bogue sound, up White Oak river to Barker's bridge and up New river to Jacksonville. He says there is plenty of water to navigate her, and that the line is now an accomplished fact. At Swansboro the citizens turned out and greeted them warmly, and spread a sumptuous dinner. Capt. Styron requests us to return thanks to the citizens for the courteous and highly complimentary manner in which the people of Swansboro and all along the line greeted the *Margia* on her first trip.

The establishment of this line will open up to New Berne a new trade. The turpentine, cotton and peanuts hitherto transported to Wilmington in sail vessels over a long and uncertain route can now be shipped aboard the steamer *Margia* and in a few hours be put aboard the cars at Morehead City. Now it remains for the merchants of New Berne to say whether they will handle that trade here or will let it pass through to Norfolk. By proper exertions we are satisfied they can handle it.

Another meeting of the directors of the company will be held at Jacksonville on Monday, the 14th of April, to further complete the plans and operations of the company.

Frederick Boesser, Jr.

Drowned, near Solomon's Island, in Patuxent river, Md., Frederick Boesser, jr., son of Frederick and Annie M. Boesser, of this city, aged 25 years, 3 months and 9 days.

Fated, alas! to die, to drown,
No parent near to hear his cry,
But he has gained a starry crown,
And found a home, sweet home on high.
A few more days and months, or years,
And we shall surely meet again,
Where free from parting, anguish, tears,
We shall eternal joys obtain. P.

Ward Politics.

Mr. Editor:—After Mr. Miller finds out that in order to avoid a defeat, it would be necessary for him to express himself in favor of T. S. Howard for Mayor, this was no doubt a bitter pill for him to swallow; but how about the City Clerk? Will he vote for a disabled or crippled man with a family, or will he vote for a young, healthy, hearty, robust man with no family.

Currency.

"I cannot see from what has arisen such a statement."

**** "Wasting these surpassing powers To the deaf air, to the blind earth and heaven. That echoes not my thoughts." 3

Pollockville Items.

Corn planting will commence next week in this vicinity.

He went to see her, rain or no rain. He will go next week for her and then Pollockville will have one more Street.

Miss Rida Moore is visiting her brother Mr. David Moore. She is from Swansboro. We wish her a pleasant stay.

A young gentleman from the Whitford plantation went down in Onslow last Sunday to carry a young lady to church, but when he was near her residence there were too many buggies to be seen, so he drove on. We were very sorry for him but could not cry.

Our town election is rapidly approaching; we hope that our people will show such interest as should be taken and that a board of commissioners may be elected which will attend to the needs of the town. Let's be up and doing. Let's have a meeting and put a ticket in the field.

The first Monday in April is the day for our citizens to meet in mass meeting at Trenton to organize the exposition committee. Every body who feels an interest in the welfare of Jones county and of the Old North State will, or ought to be there. The first Monday in April is the day, and don't you forget it.

On the night of the 23d two gentlemen were seen juggling along with a large mob full of confederates. They went to church in Onslow on Sunday, when could be seen a large quantity of candy, canned peaches, etc., that they had taken from the sack for their girls. Hurray for the bear dancers.

Our farmers are using a large amount of kaint this season. While we know nothing of its value, yet it does seem to us that it would be much better for our people not to try to cultivate more land than they can make home fertilizers for. Less improved manure, less mortgages, and less farming on the extensive system and our country will advance with rapid strides to independence.

Kinston Items.

It is said that mice are giving the old maids of Kinston a "peck of trouble." They dream of men and wake only to find a few mice have been their visitors.

An independent Republican has consulted Dr. Haskins and prophesied that the next Republican candidate for sheriff of Lenoir county will come from the town of La Grange.

The Hamlin Wizard Oil Troupe gave, to a crowded house at Loftin's Opera Hall last Tuesday night, one of their pleasing and entertaining concerts for the benefit of the Rockingham county cyclone sufferers. The tricks of Prof. Stanfield were an embarrassing surprise to many of the audience.

The State appears to be overruled with "Gubernatorial timber" just about this time. The papers are advertising it with immense gusto and eclat. It is quite fortunate that none of the recommended great ones "are candidates for the office of governor," or their friends would be compelled to seize them by the coat tails and hold them back.

Major Barrett's State ticket, which appeared in a recent issue of the JOURNAL, is a very nice arrangement; but it is very ungrateful and discouraging to see Billy Woodpile thus entirely ignore the brilliant services of our present splendid governor. He might have been recommended for some position of honor and profit by his old friend. It is now quite evident the Governor and Billy have not yet exchanged photographs as we suggested they should some time ago.

Green Haynes, one of the most successful farmers in Woodington township—a regular Simon pure Georgia farmer—was in town last Wednesday, in the full enjoyment of high life. He was walking down Queen street, approaching the dry goods store of R. Edwards, when the Dutchman, who was frightened at the coming of a lone customer these dull times, sighted a popgun at him, causing the soldier who never dodged Yankee bullets incontinently to take to a tree, declaring at the same time, however, it was not the gun he was afraid of, but he could not stand the beauty of his assailant.

A special, dated Raleigh, March 23d, to the New York Herald, says that Gov. Jarvis has been requested to send troops to Asheville, by Solicitor Ferguson, to guard the prisoners, Ray and Anderson, against a rescue. They murdered three men in February and the jail was insecure. Friends of the murderers were arriving and the murderers themselves were armed. The Solicitor asked that they be removed to Hendersonville. The Governor ordered Capt. Weaver, of the Asheville Light Infantry, to aid the sheriffs of Buncombe and Henderson.

The Mississippi Flood.

NEW ORLEANS, March 25.—A dispatch to the *Picayune* from Baton Rouge says: At Mulatto Point the crevasse is widening steadily. A tremendous volume of water is now passing through it. It is believed that no sugar will be made in west Baton Rouge the coming season. A crevasse has occurred at Waterloo, six miles below Bayou Sara, on the west side, adding its volume to the overflow from Morganton above and Mulatto Point below. Many threatened places along the lines are now being strengthened, and small breaks are closed. The water is reported as passing over many of the levees and as driven over others by the wind of Sunday morning. This morning the river reached the highest water mark of 1874, but has fallen 2 1/2 inches, which was doubtless caused by the crevasse at Waterloo. A small crevasse is reported at Batchelor & Stewart's lake side plantation, a mile above Racourci.

VICKSBURG, Miss., March 25.—The Kemp levee, below here, broke Sunday. The levee in front of Delta court house broke Sunday night and the water in the streets is from four to five feet deep.

WASHINGTON, March 26.—In the Democratic caucus last night the Morrison tariff bill was endorsed by a vote of 114 to 57.

The Mullein Plant.

Dr. Quillan, a celebrated physician of Dublin, has just written in an English medical journal of his wonderful experimental results with the common mullein plant upon lung and bronchial affections, citing cases where he had given it to consumptives with the most astonishing result, and recommends its use by the profession. Referring to the above, we would state that TAYLOR'S CHEROKEE REMEDY OF SWEET GUM AND MULLEIN, made from the formula of the medicine men of the Cherokee Nation, is composed not only of the mullein plant, but has incorporated with it the sweet gum, the finest stimulating expectorant known, presenting an agreeable taste and a certain panacea for Coughs, Whooping Cough, Colds and all Bronchial Affections. For sale by all leading druggists at 25c. and \$1.00 per bottle.

Manufactured by WALTER A. TAYLOR, Atlanta, Ga., Proprietor Taylor's Premium Cologne. d&wapr14m

BARBAR A. JOHNSON.

STATE NEWS.

Gleaned from our Exchanges.

Wilmington Star: Mr. H. Schultz, of Strausund, mate of the German barque *Edward Pens*, sailing from the same port, was accidentally drowned on Saturday night last. It seems that he was standing in the stern of one of the small boats, when it struck rather heavily against the side of the vessel, by which he was precipitated into the river. The accident happened about midnight.

Wilmington Review: Passengers who arrived this morning on the Carolina Central train report that the farmers in that section are busy planting their crops, although work has been considerably retarded by the long continued wet weather. They report that Sunday last was one of the rainiest days they have experienced this season, but fortunately, the rain was not accompanied with much wind.

Elizabeth City Economist: We are pleased to hear our farmers who are experimenting in tobacco, speak well of the young plants. We understand that farmers in the vicinity of Edenton are planting largely the peanut crop, induced by the success of Mr. Darden at Albania, last year.—The feast last week in Wood's building, to raise funds to purchase a new church organ for the Baptist church, we are pleased to learn, was a success.—There were five convictions for larceny and sentenced to the penitentiary at our court last week. This is a bad showing for good order and good morals in our county.

Statesville Landmark: The Irish potato trade this season is immense. One house sold 69 barrels Tuesday. It has sold already this season 350 barrels and has an order out for another 100 barrels. By the way, why do the people of this section have to buy northern potatoes for seeding and eating?—At Troutman's, day before yesterday, a dog fell down in the house of Mr. A. D. Troutman, foamed at the mouth and exhibited other symptoms of hydrophobia. The family and visitors fled. The dog was attacked with clubs and firearms, was wounded but escaped, coming in the direction of Statesville.—The oldest inhabitants are slow to commit themselves concerning this weather, but one of them says this is the wettest season we have had since the winter and spring of 1851 or '52. By Mr. J. A. D. Stephenson's rain gauge a fraction over 13 inches of rain fell during February and March up to the evening of the 19th. More rain has fallen during March already than fell during all of February.

The Man Who Arrested Gov. Vance.

Capt. E. M. Hayes, of the United States army, who was put in charge of the recruiting station which was opened at Charlotte some months ago, was in Statesville some days since, and calling upon his friends, Messrs. Key & Co., at their place of business on Broad street, remarked that the surroundings seemed familiar to him. He asked if Gov. Vance's family did not live in a house in that immediate locality in 1865, and was pointed to the house of Mrs. Ellen Kerr as the place. He recognized it and observed that he was in command of the detachment of cavalry which arrested Gov. Vance there a few days after the close of the war and carried him to the Old Capitol prison at Washington. Capt. Hayes pointed to the residence of Col. J. S. Miller, across the street, as the place where he had made his headquarters while here. Hon. L. O. Haynes, of Tennessee, lived there at that time. Capt. Hayes told several incidents of his unpleasant mission. He gave Gov. Vance three days, he said, to prepare for his journey and for the care of his family while he was away, and when the squad started for Salisbury, then the nearest point of railroad communication, with its distinguished prisoner, Mr. Samuel Wittkowsky, now of Charlotte, but who then lived here, drove the Governor in a buggy to that point.

For seven years Allen's Brain Food has stood the strongest tests as to its merits in curing Nervousness, Nervous Debility, and restoring lost powers to the weakened Generative System, and in no instance has it ever failed, test it, \$1; 4 for \$5. At druggists, or by mail from J. H. Allen, 315 First Ave., New York City.

If you are suffering from a sense of extreme weakness, try one bottle of Allen's Brain Food. It will cost you but one dollar, and will do away with that tired feeling, and give you new life and energy.

The Doctor's Endorsement.

Dr. W. D. Wright, Cincinnati, O., sends the subjoined professional endorsement: "I have prescribed Dr. Wm. Hall's Balsam for the Lungs in a great number of cases, and always with success. One case in particular was given up by several physicians who had been called in for consultation with himself. The patient had all the symptoms of cold, med consumption—cold night sweats, hectic fever, harassing coughs, etc. He commenced immediately to get better, and was soon restored to his usual health. I also found Dr. Wm. Hall's Balsam for the Lungs the most valuable expectorant for breaking up distressing coughs and colds."

A Fair Offer.

The VOLTAIC BELT Co., of Marshall, Mich., offer to send Dr. Dye's Celebrated Voltaic Belt and Electric Appliances on trial, for thirty days, to men, old and young, afflicted with nervous debility, lost vitality, and many other diseases. See advertisement in this paper. d&w1w

Office Secretary & Treasurer

Board Trustees New Berne Academy.

March 27, 1884.

The Regular Monthly Meeting of the Board Trustees will be held at the office of H. R. Bryan, Esq., THIS (FRIDAY) AFTERNOON, at FOUR o'clock.

By order of the President,
W. M. WATSON, Sec. & Treas.

WATSON & STREET,

Stock Brokers

REAL ESTATE AGENTS.

Shares of Bank, Railroad, and Steamboat Stocks a Specialty.

Yielding to the popular demand for an Agency for the purchase and sale of Local Stocks and Real Estate, we have concluded to add this new feature to our business of GENERAL LIFE AND FIRE INSURANCE, and would respectfully tender our services to the public in that capacity.

The increasing demand for our farming and timber lands among capitalists abroad who are being attracted hither by the splendid investments offered, creates, we think, a necessity for an Agency of this kind which has not been felt heretofore.

The great success which has attended the efforts of our Steamboat Companies and other enterprising corporations in our midst, has caused a demand for these Stocks which has made them an article of every-day purchase and sale.

We respectfully refer to the National Bank of New Berne, and to business men of New Berne generally.
