

THE DAILY JOURNAL.

VOL. III.

NEW BERNE, N. C., THURSDAY, APRIL 3, 1884.

NO. 3.

LOCAL NEWS.

NEW ADVERTISEMENTS.
R. B. RANNEY & Co.—Atlantic hotel.
CLEMMENTS & PETER—Dissolution.
WATSON & STREET—Wanted.
ROBERTS & BRO.—Groceries, etc.

Journal Miniature Almanac.
Sun rises, 5:43 | Length of day,
Sun sets, 6:24 | 12 hours, 41 minutes.
Moon sets at 1:10 a. m.

Yesterday was a breezer.
Flashes!!! nothing affirmed or denied.

Shad's ill scarce. Roe 80 cents per pair, bucks 40, wholesale.
Particulars of the Cincinnati riot will be found on our editorial page.

Twenty car loads of steel rails were brought up from Morehead City on yesterday.

The steamer *Defiance* arrived on Tuesday night with a large cargo of general merchandise.

Maj. Dennison went to work after the fire alarm yesterday and had the roof of his gin house cleared off.

A strong westerly wind on yesterday blew the water out and left several boats in the market dock high and dry.

Roberts & Bro. are out in a new "ad." to-day. They are clever gentlemen and have, by square dealing, built up quite a large trade.

Mr. O. Marks has returned from the North and is receiving a large stock of spring goods. He will tell all about them in the JOURNAL in a few days.

Rumor has it that a handsome young gent, of this city, (we did not say doctor) is soon to take unto himself a better half. Where did the bouquet come from?

The roof of Mr. P. M. Draney's warehouse on South Front street took fire from a spark about 3 o'clock yesterday evening, but was discovered in time to prevent a serious conflagration. The alarm was sounded and the fire department responded quickly, but their services were not needed.

One is Gone—Score Two.
This is what the old oom mensurers used to call out, and yesterday the Cotton Exchange took up the refrain. The lone bale was sold and taken off, but two new comers take its place, there is now a "pair."

Train Improvements.
The passenger cars of the Atlantic and North Carolina Railroad are undergoing an overhauling preparatory to the summer rush. They are receiving a new coat of paint, improved lamps, comfortable seats and whatever will contribute to the comfort and convenience of passengers.

The Atlantic Hotel.
We call attention to the advertisement of Mr. R. B. Ranney, the managing partner of the Atlantic Hotel, at Morehead City. The young people of New Berne will be glad to know that Mr. Ranney has engaged Wurm's Atlanta Orchestra for the season at this popular seaside resort.

What Was It?
Yesterday afternoon while the wind was hurrying clouds of dust hither and thither, and traveling on the streets was anything but pleasant, an old colored citizen was seen winding his way towards the foot of Craven street with an army overcoat on, boots outside his pants, a tin pail in one hand and a tin bucket in the other. The martial tread and the military gait indicated a determined purpose to do something.

Whether in search of feathered game or seeking a foeman worthy of his steel, is not known. Some thought that the news of the Cincinnati riot had just reached him and he was off to the wars again. If such was the case, we advise the "Buckeyes" to quiet at once and save their "bacon."

Old Papers.
In perusing old papers on file in the office of the Clerk of the Superior Court of this county it is remarkable to see what efforts were made by people a hundred years ago to direct and control their worldly possessions long after they had passed from the stage of action. The following extract from the will of Daniel Yates probated in 1738 is an illustration:

100 acres of land on John Mahard's Branch I land and bequeath to my son Daniel Yates for life only then lent to the lawful begotten heirs of the body for life only, so to be lent to the lawful begotten living heirs of his children from generation to generation only for life never to be sold, nor conveyed away only lent for natural life from heirs to heirs and to return to the living heirs as long as their water in the compass of the whole world, and there is no heirs from Peter Yates to be lent to David Yates living heirs for life only so when one lot of living heirs is dead the water in the next lot of living heirs to be lent to the living heirs as long as they live and in the same manner.

Memorial Quilt.
The ladies of the M. E. Church are getting up a handsome memorial quilt, which will be presented to the Parsonage at its completion. Each contributor of ten cents will have their name written with indelible ink on a square, and thus be read of and remembered by the occupants of the Parsonage, for many years to come.

Organs—Music House.
We call attention of our readers to an advertisement of the Chicago Cottage Organ Company, in another column, and take pleasure in recommending to the general public, a company whose organs have attained a popular reputation for their superior musical qualities, artistic beauty and general excellence. This company ranks among the largest and best in the United States, having a capacity for manufacturing 800 organs per month, and its organs are shipped into nearly every inhabitable portion of the globe.

The members composing the firm of the Chicago Cottage Organ Company are men of experience, integrity, skilled in their line, conduct their business on an economical, safe and equitable basis, and we predict for the "Chicago Cottage Organ" a brilliant future.

In this connection we would like to ask why it is there is not a music house in the city of New Berne? There is a limit to the demand for dry goods, groceries and hardware. To extend the trade of New Berne, we must carry every line of business. Why should one of New Berne's regular customers have to go to Goldsboro or Kinston to purchase an instrument? We believe this a fine opening for some man of pluck and energy who knows how to conduct a business of this sort.

Important Case.
On Tuesday last a case of some importance was heard before Justice F. W. Hancock. It was the case of H. Cohen vs. The Neuse and Trent River Steamboat Co., being an action to recover for the loss of certain goods that were shipped by plaintiff over the defendant corporation's line to Bell's Ferry. The case was argued by Clement Manly, Esq., for the corporation and by Hon. C. C. Clark for the plaintiff. Judgment for the plaintiff, defendants appealed to the Superior Court. The defendant claimed that the goods were delivered to the plaintiff's agent who went along on the same boat, was present when the goods were discharged and received them. The goods were stolen. The defendant denies that her agent received them. While the point in the case may simply be a question of fact as to whether the goods had been properly delivered or not, still the trial and discussion may bring out and define the responsibility of corporations in carrying goods. If they are forced to maintain warehouses and agents at every point they deliver goods along the Neuse and Trent river, then many farmers will be deprived of the convenience of landings unless they can always be on hand when the boat arrives, because but few landings furnish business enough to justify building a warehouse or employing an agent.

Notice to Mariners.
Notice is hereby given that, on or about May 10, 1884, light-ship No. 44, moored on Five-Fathom Bank, (north-east end) New Jersey, will be removed for repairs, and relief light-ship No. 34 will be placed on this station.
Light-ship No. 34 is schooner-rigged, painted red, with the word "Relief" in large white letters on each side, and "No. 24" on the stern, and has a hoop-iron cage day mark at each mast-head. The fog signal, while No. 34 is on this station, will be a bell and horn instead of a steam whistle.
Light-ship No. 44 will be replaced as soon as the repairs are completed.
By order of the Light-House Board:
STEPHEN C. ROWAN,
Vice-Admiral U. S. Navy, Com'n.

Thanks.
I hereby return thanks to the citizens of this city for the timely aid rendered in arresting the fire on my warehouse on yesterday.
P. M. DRANEY.

For Rent.
Rooms at the Brinson House, by
SARAH A. JOHNSON.

The Mullien Plant.
Dr. Quillan, a celebrated physician of Dublin, has just written in an English medical journal of his wonderful experimental results with the common mullien plant upon lung and bronchial affections, citing cases where he had given it to consumptives with the most astonishing result, and recommends its use by the profession. Referring to the above, we would state that TAYLOR'S CHEROKEE REMEDY OF SWEET GUM AND MULLIEN, made from the formula of the medicine men of the Cherokee Nation, is composed not only of the mullien plant, but has incorporated with it the sweet gum, the finest stimulating expectorant known, presenting an agreeable taste and a certain panacea for Coughs, Whooping Cough, Colds and all Bronchial Affections. For sale by all leading druggists at 25c. and \$1.00 per bottle.
Manufactured by WALTER A. TAYLOR, Atlanta, Ga., Proprietor Taylor's Premium Cologne. d&wpr14m

The pipe or cigarette smoker who uses Blackwell's Durham Long Cut can dispense much prejudice against smoking, and rest easy in the consciousness that he is introducing nothing deleterious into his system.

STATE NEWS.

Gleaned from our Exchanges.

Statesville Landmark. The farmers can scarcely remember the season when they were so far behind with their work as this season. They have done almost nothing, thus far, by way of preparation for a crop and most of them are fretting a good deal under their enforced idleness.—Clem Weaver, a colored woman, caught on the farm of Dr. R. T. Campbell, of Sharpesburg township, one day last week, a wild turkey gobbler which has for a long time been defying the best skill and marksmanship of the best hutsmen in the neighborhood. It had become entangled in the brush and fell an easy prey. Its beard measured 15 inches. Mr. Jo. Armfield killed a fine wild turkey gobbler Wednesday on the Nisbel place, about three miles north of town.

Waynesville News: The Division of the Sons of Temperance at this place is in a very flourishing condition. About 100 names are now enrolled on the list of members.—Work on the two trestles at Howell's mill goes on, while the track is now laid up to the lower trestle. If nothing prevents the iron will be laid to the depot one day next week.—The mica fever remains prevalent in the mining section of Jackson county. We learn that John Price, of John's Creek, has opened an extra fine mine. Another one has been opened by Nichols & Co. near the same place.—A Quallatown correspondent to the *News* says the body of a 10 year old Indian girl named Louise Hornbuckle, was found in Soco Creek on the 8th inst. A jury of inquest decided that death was an incident of drowning, while, it is thought, she had attempted to cross a foot-log, on her way to school.

Asheville Advance: Reuben and Hardy Sparks, arrested recently as accomplices in the Flat Rock Mica Mine murder, effected their escape from the jail at Bakersville, Sunday night, by cutting through the floor. The prisoners were evidently assisted by outside parties, since they had in their possession a carpenter's bit and chisel, which had been used to advantage in making an opening in the floor of the prison. Officers are out in search of the men, but at last reports nothing had been heard regarding their whereabouts nor the direction they took after escaping from jail.—There is another very large slide on the Western North Carolina road, this time at Leonard's Out, about ten miles this side of Morganton. The slide is over one hundred feet in length, and the railroad is covered with rock and dirt to the depth of from three to ten feet, and it is said that it will take at least two days to remove the obstruction so trains can pass through to this point. We suppose the mails and express will be transferred to-day. These slides must be very troublesome and annoying to the railroad authorities as well as to the traveling public.

Goldsboro Messenger: The new Methodist Church, which has been in course of construction in this city for some months is known as St. Paul's. A beautiful white marble slab bearing the name has been placed in the front wall of the handsome edifice.—A large crowd of darkeys were at the Raleigh train on Friday last to bid good-bye to the ten convicts of their race that went up to the "pen" from this county for stealing. And yet, when our next court sits it will have plenty of larceny cases to dispose of. Capt. M. Jordan, of the R. & D. passenger train, just before leaving time last Friday morning, had two railroad danger signal torpedoes placed on the track, which, the moment the first wheel of the engine passed over, exploded with the report of a large gun. This system of danger signaling has not been long in vogue and it is said to be the safest and surest alarm yet invented. The torpedo is attached to the top of the rail by slide clamps, is not affected by wet weather, and is always sure to fire.

Raleigh News and Observer: The revival at the Second Baptist church nightly increases in interest.—Next Sunday there will be what is known as a "big baptizing" at Taylor's pond.—One of the largest and most singularly shaped trees in Raleigh is an oak which stands between the sidewalk and the middle of the street on West Edenton street.—Work on the Edenton Methodist church began yesterday. It is thought that it will cost \$7,000 to put up the walls and put on the roof. This work will all be done this year. The total cost of the church will approximate \$22,000. The ladies have raised for the building fund of the church \$2,100. They are justly proud of their excellent work.—Mr. Stephen G. Worth, fish commissioner, Mr. Edward Robinson, Mr. Williams, Mr. Brimley and Mr. Thompson have all gone to Avoca to begin operations at the fish hatchery. The plans of the work this season have been already sketched. Mr. Worth expects great results, with his new appliances and the great conveniences at hand.—Miss Alice Wainwright, of Cary, who has been visiting the family of Mr. D. C. Murray for some days, yesterday made preparations to go to visit the family of Mr. Hugh Hayes, at the Cooke farm. She got into a spring wagon in front of Mr. Murray's, on West Hargett street. The wagon was drawn by a mule, whose bridle was held by Mr. John Bell, a young man from the Cooke farm. The moment Miss Wainwright stepped into the wagon, the mule dashed off, down West Hargett street. The young man pluckily held on to the bridle, but was dragged along until at the corner of Harrington street he was thrown to the ground and the wheels passed over him, causing bad wounds on the forehead. His injuries are not thought to be serious. The mule fled until on West street it ran into the planing mills of Briggs & Sons. The young lady was thrown out and struck a pile of lumber with great violence. She was taken into the house of Mr. Pell, and received medical attention. She was for a long time unconscious. Afterwards she complained of intense pain in the chest and side, and perhaps may have suffered internal injuries. Miss Wainwright has many friends here. She is a sister of Mr. George Wainwright, so long a resident of Raleigh, now in business at Wilson. Last evening she was suffering from nausea. Mr. Bell was taken to his home at the Cooke farm.

Stonewall Items.
We had considerable frost Monday morning; so far as I have seen, no visible damage was done.
My fig bushes are almost entirely killed. I had a fine chance. I suppose my neighbors shared the same fate.
We have had one week's good weather and many has been the grains of corn planted and furrows ploughed for other purposes.
Our commissioners, except one, are opposed to any appropriation for the State exhibit. So there will be nothing for us to show except what private individuals show.
S. B. Lane, Esq., is the happiest man in Pamlico—another boy. He, S. B. L., says the report of his seeing the spirit of Ben. Gilliam is simply one of Ed. Wise's l—s to use plain language.
The mail contractor on our route has taken the authority to change the route. The contract is from New Berne via Grantsboro, Stonewall, Bayboro, etc. He takes it upon himself to go to Bayboro first and then here. Don't he lay himself and bondsmen liable? I suppose he will find out.
On Monday last, while burning off some trash in the field, Mr. C. C. Whorton's oldest daughter was helping him and her clothes caught on fire, being some distance from the house, no water could be obtained and her father, in rendering what assistance he could, his hands were badly burned. The daughter's clothes were nearly all burned off of her and she is hardly expected to recover.
Mr. E. Tutthill, of Stanton, was with us Sunday night, accompanied by Mr. P. G. Taylor, produce salesman with S. D. Martin & Co., of New York. If he succeeds as well in selling produce as he does acting gentleman, I would surely recommend all truckers to ship to his house. Mr. Tutthill says the cyclone was pretty rough, uprooting trees, leveling fences and the hail stones smashing window lights. He says the great hindrance to northern immigrants to our section is our system of fencing. The idea of so much expense for the privilege of letting razor-back hogs and pint cows go at large is more than they can stand. Mr. T.'s son Luke has gone to Idaho to see how he likes that section. Mr. T. reports garden peas as not over one-third to one-half crop.

The Cincinnati Riot.
CINCINNATI, April 1.—A large number of arrests of suspicious persons have been made. The feeling among the people is bitter, and several days must elapse before all danger of a renewal of the trouble has passed.
In Richmond, Va., the riot caused great excitement. Many telegrams were sent away, among them the following important one, to Senator Sherman:
RICHMOND, VA., March 31.
To Senator John Sherman, Washington, D. C.:
It is suggested here that the Richmond Blues and a detachment of Howitzers, who quelled the Danville riot, aid in suppressing the riot in your State. Upon proper application Governor Cameron might order them out.
For Rent.
The large and commodious dwelling now occupied by J. A. Whitey on Guley street, containing seven rooms, is for rent. Apply to J. A. Whitey, Guley street.

An Extraordinary Offer.
To All Wanting Employment.
We want Live, Energetic and Capable Agents in every county in the United States and Canada, to sell a patent article of great merit, ON ITS MERITS. An article having a large sale, paying over 100 per cent. profit, having no competition, and on which the agent is protected in the exclusive sale by a deed given for each and every county he may secure from us. With all these advantages to our agents, and the fact that it is an article that can be sold in every household, it might not be necessary to make an "EXTRAORDINARY OFFER" to secure good agents at once, but we have concluded to make it to show, not only our confidence in the merits of our invention, but in its salability by any agent that will handle it with energy. Our agents now at work are making from \$150 to \$600 a month clear, and this fact makes it safe for us to make our offer to all who are out of employment. Any agent that will give our business a thirty days' trial and fail to clear at least \$100 in this time, ABOVE ALL EXPENSES, can return all goods unsold to us and we will refund the money paid for them. Any agent or general agent who would like to work in more counties and work them through sub-agents for ninety days, and fail to clear at least \$750 ABOVE ALL EXPENSES, can return all unsold and get their money back. No other employer of agents ever dared to make such offers, nor would we if we did not know that we have agents now making more than double the amount we guaranteed, and but two sales a day would give a profit of over \$125 a month, and that one of our agents took eighteen orders in one day. Our large descriptive circulars explain our offer fully, and these we wish to send to every one out of employment who will send us three one-cent stamps for postage. Send at once and secure the agency in time for the boom, and go to work on the terms named in our extraordinary offer. We would like to have the address of all the agents, sewing machine solicitors and carpenters in the country, and ask any readers of this paper who reads this offer, to send at once the name and address of all such they know. Address at once, or you will lose the best chance ever offered to those out of employment to make money.

WATSON & STREET,
Stock Brokers
AND
REAL ESTATE AGENTS.
Shares of Bank, Railroad, and Steamboat Stocks a Specialty.
Yielding to the popular demand for an Agency for the purchase and sale of Local Stocks and Real Estate, we have concluded to add this new feature to our business of GENERAL LIFE AND FIRE INSURANCE, and would respectfully tender our services to the public in that capacity.
The increasing demand for our farming and timber lands among capitalists abroad who are being attracted hither by the splendid investments offered, creates, we think, a necessity for an Agency of this kind, which has not been felt heretofore.
The great success which has attended our efforts of our Steamboat Company, our enterprising corporations, and the demand for these made them an article of commerce and sale.
We respectfully refer to the agents of New Berne, and to the agents of the other cities of the State.
