Easter Sunday.

A light shower of rain last night com forted the trucker's heart.

Maj. Duncan J. Devane, a prominent lawyer of Wilmington, is dead. No marriage licenses issued in Craven

county since the 29th of March.

The Steamer Defiance arrived from Baltimore yesterday morning with cargo of general merchandise.

We have received the first number of the State Journal. It is neatly printed before 3 p. m. The public are invited and contains a great deal of campaign to attend these services.

Our merchants are receiving their - the wholesale and retail trade.

A boat load of brick for the Episcopa shurch spire arrived at the foot of Craven street yesterday. They were from the brick yard of C. W. Brown & Co., a few miles below the city.

In Live Earnest.

That was an earnest seeker after bliss who came to the JOURNAL office yesterday in search of a license to get married. He thought it was the Register's office, and said he could not get on without them, and on being informed of the error in the place, the Register's office was found closed, and a second visit to the JOURNAL man was made to see if he could'nt help him somehow. The license, however, was obtained, and now for the

Presbyterian Church in Goldsboro,

Rev. L. C. Vass returned yesterday from Goldsboro, where he has been assisting Rev. J. M. Rose, Pastor of the Presbyterian Church, in an interesting and extending work of grace. A number of persons have already professed conversion, and the interest is deepening and the congregations increasing in size. Mr. Vass returned only because his home work recalled him. Mr. Rose is a most efficient and popular pastor in ed the his new field,

Theatre To-Morrow Night.

Dr. Steacy and wife arrived in the city last night, and will begin an engagement of several nights at our theatre to morrow night. Dr. Steacy has received most flattering notices from the press wherever he has been, and we feel sure that the theatre goers of our city will find rare enjoyment in his entertainments. His strong forte is his sleight-o'-hand and mesmerism, in which he is said to excel. General admission, Many of the early peas on the light 50 cts. Gallery, 25 cts. American Newspapers in 1884.

From the edition of Messrs. Geo. P. Rowell & Co.'s American Newspaper Directory, now in press, it appears that the newspapers and periodicals of all kinds at present issued in the United States and Canada reach a grand total of 13,402. This is a net gain of precisely 1,600 during the last twelve months, and exhibits an increase of 5,618 over the total number published just ten years since. The increase in 1874 over past year the dailies have increased lass pay to six feet from 1,188 to 1,254; the weeklies from Elm City will begin her regular trips 1,091 to 1,499. The greatest increase is stance, now shows 1,009 papers in place issues 604 instead of the 528 reported in 1883. Other leading Western States also exhibit a great percentage of innected with the firm of Ralli Bros., and crease. The total number of papers in who has been associated with Capt. New York State is 1,528, against 1,899 Matt. Manly in cotton buying here, left in 1888. Canada has shared in the gen-

Quaker Bridge T. R. Company. EDITOR JOURNAL:-What has become of the Quaker Bridge Tram-road Company? We understand that they made two applications to the Jones county commissioners for the right of way across that county, but owing to the strenuous efforts of some of the leading business men of this city, and also of Trenton, the application was refused. We carneelly advise this company "to pick their flint and try again." If they do not, we assure them, and we happen to know what we assert, that another company will make application, and at an early day.

Willing to "Explain."

NEW BERNE, April 12, 1884. MR. EDITOR:-In to-day's issue of your paper appears a card calling upon the Fire Department Committee to explain their action in regard to shoeing the city horses. As the business of a committee is usually attended to by its chairman, I wish to place the odium attached to this matter where it rightfully belongs-upon my individual shoulders. One of the horses belonging to the New Berne steamer had been very lame for several weeks; competent horsemen stated that it was caused by defective shoeling. The writer has a horse affectshows efficient and popular pastor in ed the same way and from the same cause. Mr. Trehwith has been charging \$5 per pair for showing city horses—the pair complained of cost \$3.50. It is true that Mr. Trehwith has been receiving pay in city vouchers, but I think that that will hardly warrant a bonus of 43

Fish Dealers' Convention.

NEW BEENE, April 11th, 1884. The fish dealers and a number of other citizens met at the Gaston House to-day. The meeting was called to order at 11 o'clock, a. m., by electing Thomas Daniels chairman, and J. J. Royal secretary. The chair called upon Mr. S. G. Worth, fish commissioner, to explain the object of the meeting.

Mr. Worth stated that the object of this meeting was to consider the question of calling a convention of the fish and oystermen of the State to meet in Raleigh during the State Exposition, and expressed his opinion that much good would result from such a meeting. It would assist him in his work and much valuable information would be gained by interchange of ideas, etc.

Capt. S. H. Gray, Capt. Matt Manly, Messrs. T. A. Green, G. N. Ives, C. T. Watson, the Chairman, and Dr. Davidson of Boston.

On motion of Mr. Geo. N. Ives a committee of three was appointed to draft resolutions expressing the object of the

The chair appointed Messrs. Geo. N Ives, C. T. Watson and J. J. Royal. On motion of Capt. Gray, Mr. S. G. Worth and the Chairman were added to the committee, which submitted the

following report: Whereas, The fishing and oyster in-terests of our State is of vast and grow-ing importance, and is yet but partially developed; and Whereas, There has hitherto been no

united or concerted action among the fishermen and dealers for the best protection of the fishes, and of the interest

of the business; and Whereas, The contemplated State Ex-position to be held in the city of Raleigh, ooking toward the advancement and development of our State in all its material interests, would be an opportune offer was made for the lucky scrip but time for a meeting of those interested in this branch of industry; it is therefore Resolved, That the fishermen, oyster-the second capital prize, \$25,000, and men and dealers of the State be request-ed to meet in convention at Raleigh, at

10 a m. on Wednesday, the 15th day of October, 1884, in the rooms State Board of Agriculture.
Resolved, That the New Berne Jour-NAL, Wilmington Star, Beaufort Telephone, Raleigh News and Observer, Elizabeth City Economist, Albemarle Enquirer and Washington Gazette be re-

It is a little singular, if not strange that every man you meet "solitary and alone" on the street in South Kinston after 9 o'clock at night, will voluntarily inform you, "he is just returning from

It is said that the refusal of our county commissioners to invest in the expo-sition was a blow at the organization of the county exposition. The necessary spondulix will come yet, when Gov. Jarvis calls for it. "We shall see."

John R. Phillips, candidate for sheriff, is exhibiting in his candidate for sheriff, the push and vigor of his early days. He was seen last Friday, early as the lark, making his way into Wayne county with a large sized keg, with which he intends to unhorse the dark horse of La Grange.

Lint cotton is said to be a sure test for liquors. If a small lock be placed on adulterated liquors, the cotton will float as if it were on water; if the liquors are pure, it will sink like a rock. This is what the old jug campaigner, Lewis Grady, calls his thermometer, by which he tries the liquors of other town deal-ers and judges them.

It is reported that Judge Shepherd, at the recent term of the Superior Court at Trenton, jailed a colored preacher, who being introduced as a witness, refused to swear or affirm. If the Bible be au-thority, it looks like the preacher had the advantage of the Judge in that con-troversy; but, as of old, "the blood of the martyr is the seed of the church."

the martyr is the seed of the church."

The Sunday school scholars of Core creek, in Craven county, under the superintendency of Elder J. B. Rouse, have adopted a primitive way of filling the contribution hat. Instead of nickels and pennies, they fill it with eggs, counting one egg as a penny. It is a part of the religion of the superintendent to provide for the animal as well as the spiritual welfare of his scholars.

Measles in town. Cool, dry and windy. The special opening of Mrs. Carpenter's spring stock of milinery goods came off this week.

The waters in the Republican political pool have been disturbed. Who will be the first to step in and be healed?

The condition of Mr. W. H. Whitfield is said to be better. Also that of his two daughters who have been quite sick. It is now believed that the dark horse

that always wins for sheriff from our place has been discovered. I withhold the name until after the township meeting, which assembles here to-morrow. The young folk of our place paid Mrs. J. D. Carpenter a visit last night, and pounded her right handsomely. visit was the more appreciated because it came mainly from those converted The meeting was also addressed by during the recent revival, in which Mrs. Carpenter was deeply interested.

Walter H. Page, of the State Chron-fcle, has been invited, and will deliver the address at the La Grange Collegiate Institute at the annual commencement in May. Mr. Page is a man of ability and one of the best editors in the State. A rich treat is in store for our people.

The action of our county commissioners in revoking the order for a public road to the new bridge on the south side of Neuse, is being severely condemned, by some of the citizens in that section. The case as presented to the commission. ers I know nothing about, but the pro-ceedings, to say the least, is a curious one. A river bridge without an outlet is a novelty. Is not the trouble among the citizens or parties interested? If so, they should remember the case of the Kilkenny cats."

"Whitaker dreamed a lie" is not true at all. A few nights ago a regular pat-ron of the L. S. L. dreamed that ticket - would draw the capital prize. The numbers on his ticket did not fit the lucky figures, and he at once sought another who held a ticket in the same drawing, and found that it contained the identical numbers dreamed of. An that he was entitled to one-fifth that amount, he holding one-fifth ticket. The news was spread, and many were the congratulations given.

A social picnic, not one of the sentimental kind, but a regular eating one was given at Sutton's fishery last Wed nesday. The fish didn't run much that day but enough was caught to make the "pan smell," and enough other eatables vere on hand to supply all demands of hunger. The crowd did the work of eating to perfection, a number of first-class workmen of that kind being present, vicing with each other, seemingly, as to who should excell. No vote was taken as to who was the master workwould have been a close one between - and ---, the one eating fast

The measles have been taking possession of the children in our town lately, and numerous cases are reported daily In most instances the disease is light, and parents are relieved when the last child has conquered the attendant fever.

We learn that a new Methodist Episcopal church is soon to be built at Smyrna, the lumber having been ordered for the same. The location will be near the new bridge now being built by the county, which is central and con-venient. Work will begin in about a

Wm. F. Howland, Esq., E. C. Dun-can and Thomas Duncan made a visit to Jacksonville this week and seem much pleased with the country border-ing on New river. They pronounce it a "splendid farming country," and think it capable of being developed into the garden spot of Eastern Carolina. We nope soon to see it made commercially tributary to Beaufort, as it should be, and think our business men should strive together to bring about this result.

Miners on a Strike.

Yielding to the popular demand for an Agency for the purchase and sale of Local Stocks and Real Estate, we have concluded to add this new feature to our business of GENERAL LIFE AND FIRE INSURANCE

and would respectfully tender our services to the public in that capacity.

The increasing demand for our farming and timber lands among capitalists abroad who are being attracted hither by the splendid investments offered, creates, we think, a necessity for an Agency of this kind which has not been felt heretofore.

The great success which has attended the efforts of our Steamboat Companies and other enterprising corporations in our midst, has caused a demand for these Stocks which has made them an article of every-day purchase
