eral Northern gentlemen of large means, have been visiting this sec-tion lately, with a view of investing carbonates accumulated by the use of umns it will be seen that Mr. Baker has fallen in line with his banner flying and is on the march to a successful spring trade. He keeps an attractive stock and strives to please, and his ar-rangement of stock for display strikes our fancy and is worth seeing. The Marshals have sent us a complisurplus capital. We are glad to heating food in winter. This condition noon, Rev. Dr. J. C. Huske officiating, assisted by the Rev. Dr. Marshall of Raleigh.

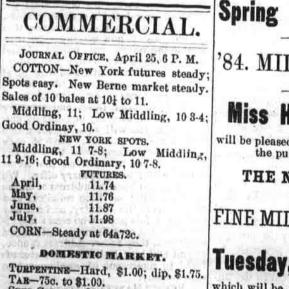

Wilmington Review: Bishop Watson left last night for New York, for attendance on a council of the House of Bishops of the Episcopal Church. He was summoned yesterday by telegraph.-Some of the phosphate rock re-cently discovered in Duplin and Sampson counties has been pronounced very rich in those properties which make it valuable as a fertilizing agent. There is a good deal of interest manifested in those counties on the subject and explo-rations are still in progress. In consequence of the discovery lands have materially advanced in many localities and those who offered to sell last year at certain figures would hardly entertain any proposition to buy, even at an advance three times as the former asking price.

Elizabeth City Economist The population of Elizabeth City, according to the voting population, is now 4,000. In 1872, when Cobb and Grandy ran for Mayor and when the *Economist* first came into this breathing, bustling world, there were 420 voters, which is 2100 population. The great increase has been since the Bailroad was completed in 1881- If the Bailroad had been in hearty accord with our people the increa would have been greater, (greater. Old
