Liberals Defined.

J. E. O'Hara gave a singular definition to the "Liberals" in his resolution in the convention, when it was stated that they are "dissatisfied Democrats" who are seeking information as to what course to pursue in the campaign.

It is a pity that these "dissatisfied Democrats" had no leader of their own. nor counsel to ask for advice in the matter, and it was a seeming pity that the licans took advice instead of givng any by having one of their number send the ticket, and three other importnt places on it besides.

desatisfied fellows may ye ove muruly, for it is an old saying that you give an inch to some people they all want an ell, and they may prove fear of not being believed, and in that to be just that people.

The "constantly tired out" feeling so often experienced is the result of impoverished blood, and consequent enfeebled vitality. Ayer's Sarsaparilla feeds and enriches the blood, increases the appetite, and promotes digestion of the food, and the assimilation of its strengthening qualities. The system being thus invigorated, the feeling rapidly changes to a grateful sense of strength and energy.
