A STRUGGLE WITH A SHIRT. Three hundred and sixty-five times each year every mother's son of us has a struggle getting into his shirt.

If a shirt is worth getting into, if it is strong and well made, sure not to rip or tear, perfect fitting, then there is some compensation for spending so much of our existence in such a struggle.

You may wrestle with the DIAMOND, but with its everlasting stay-attachment and reinforced bosom, you will come out head first every time, covered with glory and with the best shirt in the land.

WAMSUTTA MANUFACTURING CO. DANIEL MILLER & CO. THE DIAMOND SHIRT. 210 LINCOLN. 100 W. BALTIMORE ST. BALTIMORE, MD.

PILES SUFFERERS. TORPID BOWELS, DISORDERED LIVER, and MALARIA.

From their sources arise three-fourths of the diseases of the human race. These symptoms indicate their existence: Loss of Appetite, Headache, Sick Headache, Constipation, Irritability of Temper, Low spirits, a feeling of having neglected some duty, Dizziness, Fluctuating at the Heart, Dropsy, Edema, highly colored urine, CONSTIPATION, and demand the use of a remedy that acts directly on the bowels.

TUTT'S PILLS have no equal. They relieve the bowels and skin, and prompt, removing all impurities through these two "scavengers of the system." They promote appetite, cause no nausea or griping nor interfere with daily work and are a perfect ANTIDOTE TO MALARIA.

TUTT'S PILLS. TORPID BOWELS, DISORDERED LIVER, and MALARIA.

I know a boy who was preparing to enter the Junior Class of the New York University. He was studying trigonometry, and I gave him three examples for the next lesson.

The following day, he came into my room to demonstrate his problems. Two of them he understood, but a third—a very difficult one—he had not performed. I said to him, "Shall I help you?"

"No, sir. I can and will do it, if you give me time."

"I said, 'I will give you all the time you wish.'"

The next day, he came into my room to recite a lesson in the same study.

"Well, Simon, have you worked that example?"

"No, sir," he answered; "but I can and will do it, if you give me a little more time."

"Certainly, you shall have all the time you desire."

I always like these boys who are determined to do their own work, for they make our best scholars, and men too. The third morning you should have seen Simon enter my room. I knew he had it, for his whole face told the story of his success.

Yes, he had it, notwithstanding it had cost him many hours of the severest mental labor.

Not only had he solved the problem, but what was of infinitely greater importance to him, he had begun to develop mathematical powers, which under the inspiration of "I can and will," he has continued to cultivate, until to-day he is professor of mathematics in one of our largest colleges, and one of the ablest mathematicians of his years in our country.
