

PUBLISHERS' ANNOUNCEMENT.

THE DAILY JOURNAL, a 4 column paper published daily except on Sunday, at \$2.00 per week, \$12.00 for six months. Delivered to city subscribers at 50 cents per month.

THE NEW BERNE JOURNAL, a 36 column paper, published every Thursday at \$2.00 per annum.

ADVERTISING RATES (DAILY)—One inch of space for one week, \$2.00 one month \$4.00; three months, \$10.00; six months, \$18.00; twelve months, \$30.00.

Advertisements under head of "City Items," 10 cents per line for each insertion.

No advertisements will be inserted without special notice at any price.

Notices of Marriages or Deaths, not to exceed one line will be inserted free. All additional matter will be charged 10 cents per line.

Payments for transient advertisements must be made in advance. Regular advertisements will be collected promptly at the end of each month.

Communications containing news or a discussion of local matters are solicited. No communication must expect to be published that contains objectionable personalities; withhold the name of the author; or that will make more than one column of this paper.

THE JOURNAL.

H. S. NUNN, Editor.

NEW BERNE, N. C., MAY 25, 1884.

Entered at the Post office at New Berne, N. C., as second-class matter.

Ferdinand Ward, of the firm of Grant & Ward, of New York, has been arrested for fraud.

Rumors are thick in the air that the Richmond and Danville Railroad Co., is pushing a certain aspirant for Governor, who is to be made the Senator in place of the greatly loved Zebulon B. Vance. We do not know that the rumor is correct—we trust not—but if it be true and the public believe it, then that candidate will be elected to stay at home by a large majority. The North Carolina Democracy will have no boss rule.

It appears then that putting a railroad into the hands of a private corporation does not necessarily take it out of politics, and if this be true one of the reasons always given for leasing the A. & N. C. Railroad—to get it out of politics—falls to the ground. The way to prevent "boss rule" in North Carolina, by either political party, is for the people to attend the primary meetings and submit to the will of the majority of said meetings.

"FIGHTING WEEDS."

We meet frequently with this heading to paragraphs in exchanges. It conveys a wrong lesson, as commonly used. Simple and quiet examination is better. If weeds are allowed to get a foot in height, a warfare is then begun and carried on to an indefinite length of time, and the weeds often come off victorious. The usual cause of this failure is in attempting to cultivate too much land with a small force. The result is an enormous growth of weeds, a choking and diminution of the crop, and a supply of noxious seeds to fill the soil and last for years. The weeds get entire possession in this way, and the crops have an unequal chance until another ploughing checks them temporarily.

This remedy is a well arranged plan for going over the ground once a week, in all hoed crops, sweeping the surface, killing all weeds before they come up. All this work is more than paid for in the increased growth of the crops by this continued stirring, provided the right tools are employed. Take the corn crop instance. The plough and the harrow will prepare a clean mellow bed of earth before planting. If the field is inverted sod, it may be reduced to a state of fine pulverization with a disc harrow, the finish being given with any smoothing harrow. By planting the seed an inch and a half or two inches deep, in the shallow furrow made by the marker, a fine slant-tooth harrow may be passed over both before and after the plants are up without injury to them. The operation may be continued once a week until the corn is a foot high. Some of the plants may be bent over, but they will be erect again in a day or two. After this, a shallow cultivator may be run between the rows till the corn is as high as the horse's back. This work, properly performed, will leave the field as clean as the floor—the small slant teeth killing the sprouting seed in the row and among the plants as well as over the whole surface; and the subsequent cultivating keeping the space clean between the rows. We have never seen cleaner fields than such as were treated in this way, and the cost of the labor, first and last, was less than the old hand hoeing.

One of our prominent citizens tells us that he was surprised to notice, while passing over the Wilmington & Weldon Railroad, that nearly all the crops of cotton and corn were planted on a flat surface, thereby enabling the harrow and cultivator to be used. During the past ten years the cultivator and harrow have almost displaced the hoe in the cultivation of crops.

THE STATE EXPOSITION—PAMLICO COUNTY WILL BE REPRESENTED.

When a portion of Craven county was seceded to Pamlico, it was on the condition that Pamlico should assume a proportional part of the debt Craven owed the A. & N. C. Railroad. The amount was forty-odd thousand dollars, fractional portions of which have to be paid annually. Several thousand dollars still remain unpaid, and the county treasury is to-day minus the full amount due on the present annual installment. It, therefore, is not in a condition to appropriate for an exhibit or for any other purpose. And this state of its finances is the reason why Pamlico will not be represented at the State Exposition.

This may be considered a good reason why the county will not make an appropriation, we think it is, but it does not necessarily follow that the county will not be represented. New Berne has proposed to the counties of Jones, Onslow, Carteret, Craven and Pamlico to make a joint exhibit and we are determined that it shall be done. Now is there a farmer in either one of these counties who, if he has an extraordinary fine stalk of corn, cotton, rice, wheat, jute, or a hill of sweet potatoes, specimens of marl, phosphate rock, and various other things that we cannot call to mind just now, will not bring it to New Berne, the central point, and let a committee here take charge of it and store it for the exposition? And will not the saw mill men of each one of these counties bring us specimens of lumber? Most assuredly they will. Now we hope the Enterprise will urge upon the farmers and lumber men of Pamlico the importance of this matter.

What would be thought of an individual who owed a large debt if he sits down, folds his arms and says, "I can do nothing because I am in debt." Why the inevitable conclusion would be that he had no desire to pay the debt and consequently would make no effort in that direction. Now the fact that Craven and Pamlico are in debt is a good reason why they should want to advertise to the world the advantages and capabilities they possess in order to attract the attention of immigrants and those who are seeking investments for their capital. Pamlico county will be represented at the Exposition.

The Outlook for Business.

The flurry in Wall street, which at one time threatened the business interests of the entire country, has apparently proved to be only a stock panic, confined almost wholly to those who have been betting on prices. With this danger averted, we are better able to gain some idea as to the present prospects for future business; though, of course, something may arise to cause an unexpected change. For several years business has been settling down to what seems to be a sound basis. Over-production in manufactures has almost, if not entirely, ceased, and the stocks of manufactured goods from pig iron to calico are not so large but that an increased demand would soon show that stocks are not excessive, and an advance in prices would almost surely follow. Consumers of dry goods, as well as of pig iron and all other articles, have purchased only to meet their immediate requirements, and in many cases wear and tear has been going on,—in railroad rolling stock, for instance,—without being counterbalanced by new purchasers. The consumptive wants of the country are, therefore, large, and under favorable conditions these wants will be supplied.

With business of all kinds good, we would soon see our factories crowded with work to meet the demands upon them. The conditions are therefore favorable for an improvement in trade, provided the agricultural interests, upon which so much depends, are prosperous. Looking to the South we find that the people of that section are turning their attention more and more to the production of foodstuffs. The acreage in wheat in the Southern States this year is 750,000 acres more than last year, and the indications point to a most excellent crop soon to be harvested. We think it probable that the Southern States will produce more wheat this year than ever before. The oat crop promises a fair yield, while truits will be abundant; early vegetables will add many hundreds of thousands of dollars this year to the wealth of the South. The area in corn will, we think, be larger than last year, and in cotton there will hardly be any decrease in acreage. In other sections the crop outlook is equally promising, and, with favorable weather from now till harvest time, we will probably gather the largest wheat crop ever produced in this country. Should these indications be fulfilled, the

1884 would almost surely witness a marked improvement all along the line.—Baltimore Record.

GENERAL NEWS.

WASHINGTON, May 21.—The House Committee on Pensions today agreed to favorably report a bill providing for the payment of a pension of \$50 a month to Mrs. De Long, the widow of Capt. De Long.

PARIS, May 21.—The Le Paris says that French artists will revenge the refusal of the United States Congress to reduce the duty on works of art. They will, the paper says, demand that the French Salon exclude the work of American artists.

PARIS, May 21.—The Bonapartist papers attach considerable importance to Prince Victor's decision to leave the house of his father, Prince Jerome (Pon-Plon), and reside in his own private apartments. This action is believed to be a definite rupture between Prince Jerome and Prince Victor.

GLENDIVE, Mont., May 21.—Five men were found by Sheriff Taylor to-day who resisted him with rifles when he attempted to arrest them for the attack on Paymaster Whipple and for the murder of Sergeant Conrad. Maj. Bell with troops and cavalry has gone in pursuit of them. Alexander McCannon, a horse dealer, has been arrested as an accomplice.

KEY WEST, May 21.—Advices from Nassau say that what is supposed to be a Fenian plot has been discovered there. Documents have been discovered on the body of a person found drowned disclosing a plot to destroy the Government palace, and an infernal machine, probably intended for the work of destruction, has also been discovered.

BALTIMORE, May 21.—In the General Conference of the Protestant Church this morning the Committee on Revision made a partial report, which was acted upon. The Conference refused to strike from the discipline the clause permitting the choice by the candidate of the mode of baptism. It also refused to make any change in the prescribed marriage ceremony. A proposition to expunge from the Discipline all that relating to infant baptism which makes its observance obligatory was voted down.

An Extraordinary Offer.

To All Wanting Employment.

We want Live, Energetic and Capable Agents in every county in the United States and Canada, to sell a patent article of great merit, on its merits. An article having a large sale, paying over 100 per cent. profit, having no competition, and on which the agent is protected in the exclusive sale by a deed given for each and every county he may secure from us. With all these advantages to our agents, and the fact that it is an article that can be sold in every household, it might not be necessary to make an "EXTRAORDINARY OFFER" to secure good agents at once, but we have concluded to make it to show, not only our confidence in the merits of our invention, but in its salability by any agent that will handle it with energy. Our agents now at work are making from \$150 to \$600 a month clear, and this fact makes it safe for us to make our offer to all who are out of employment. Any agent that will give our business a thirty days' trial and fail to clear at least \$100 in this time, ABOVE ALL EXPENSES, can return all goods unsold to us and we will refund the money paid for them. Any agent or general agent who would like ten or more counties and work them through sub-agents for ninety days, and fail to clear at least \$750 ABOVE ALL EXPENSES, can return all unsold and get their money back. No other employer of agents ever dared to make such offers, nor would we if we did not know that we have agents now making more than double the amount we guaranteed, and but two sales a day would give a profit of over \$125 a month, and that one of our agents took eighteen orders in one day. Our large descriptive circulars explain our offer fully, and these we wish to send to every one out of employment who will send us three cent stamps for postage. Send at once and secure the agency in time for the boom, and go to work on the terms named in our extraordinary offer. We would like to have the address of all the agents, sewing machine solicitors and carpenters in the country, and ask any readers of this paper who reads this offer, to send at once the name and address of all such they know. Address at once, or you will lose the best chance ever offered to those out of employment to make money.

RENNER MANUFACTURING Co., 101 Smithfield St., Pittsburgh, Pa.

How to Secure Health.

It is strange any one will suffer from derangement brought on by impure blood, when Scovill's Sarsaparilla and Stillingia, or Blood and Liver Syrup, will restore health to the physical organization. It is a strengthening syrup, pleasant to take, and the best blood purifier ever discovered, curing Scrophulous, Syphilitic disorders; Weakness of the Kidneys, Erysipelas, Malaria, Nervous Disorders, Debility, Bilious Complaints and diseases of the blood, liver, kidneys, stomach, skin, etc.

MEN'S MENTHONIZED BEEF TONIC the only preparation of beef containing its entire nutritious properties. It contains blood-making, force generating and life-sustaining properties; invaluable for INDIGESTION, DYSPEPSIA, nervous prostration, and all forms of general debility; also, in all embolized conditions, whether the result of exhaustion, nervous prostration, or overwork; acute disease, particularly if resulting from pulmonary hemorrhage.

ROYAL BAKING POWDER
Absolutely Pure.
This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. Sold only in cans. ROYAL BAKING POWDER CO., 100 Wall-st., N. Y.

ICE! ICE! ICE! ICE!
The undersigned having completed arrangements for an ICE HOUSE at Union Point, wishes to inform the public that he has now on the way a large cargo of ICE, which will be sold in large or small quantities. Arrangements have been made for retailing in a convenient part of the town. Special attention is called to the Delivery System, which he proposes to re-establish. With the facilities for handling ice at Union Point with but little expense, he is confident in soliciting the public to hold their orders for him, that they will obtain the lowest possible prices. Out of town orders solicited, and promptly filled!
