

THE DAILY JOURNAL.

VOL. III.

NEW BERNE, N. C. SATURDAY, JUNE 21, 1884.

NO. 71.

LOCAL NEWS.

Journal Signature Almanac.
Sun rises, 4:44 | Length of day,
Sun sets, 7:18 | 14 hours, 34 minutes.
Moon rises at 3:19 a. m.

The street sprinkler is a necessity.
Rev. Thad. L. Troy will preach in the Presbyterian church at 11 a. m. and 5 p. m. to-morrow.

One of the fair ladies of our city asks us to say to the Wilmington Cornet Concert Club "come again."
Mr. R. B. Williams, of Sampson, called to see us yesterday. He says the huckleberry crop in Sampson and Duplin is very fine. The two counties shipped from one depot seventy-five bushels in one day. One man has sold \$1,500 worth.

The Charlotte Observer says of the address of John S. Long, Esq., at the commencement exercises at King's Mountain, "that it was delivered in the presence of two thousand people, and was pronounced on all sides to be a magnificent effort."

We have received the first number of *The Daily News* published at Waynesville. From it we learn that the "Chautauqua" is a grand success. From 235 to 250 were present the first day; fifty-three counties and seven States were represented.

The members of the New Berne Steam Fire Engine Company showed good pluck in entering the contest on Wednesday, knowing that their engine was inferior to the others. But notwithstanding the New Berne was the oldest engine in the contest, she threw as good a stream, if not better, than either of the others.

Paymaster-General Rochester, of the United States army, accompanied by his clerk, Mr. Harrison, arrived yesterday morning on the *Shenandoah*, and was engaged during the morning at the postoffice in paying additional bounties to heirs of deceased Union soldiers, disbursing about \$1,800. They returned on the *Shenandoah* in the evening.

We were pleased to meet in the city yesterday Capt. Adam C. Davis, principal of the Davis High School at La Grange. He was on his way North per steamer *Shenandoah*, and was induced to try this line by notices he had seen in the *JOURNAL*. He will be bound to report a pleasant trip, with a clever set of officers, across the Pamlico and Albemarle sounds.

Personal.
Mr. R. B. Williams and sister, Miss Stella, and Miss Kate Patterson, of Clinton, are in the city on a visit to Capt. K. R. Jones.

Marching on Merchand.
The Eastern bound train begins to bring down the summer visitors and by the time the stockholders meeting is held we may expect to see the Atlantic Hotel and New Berne House crowded with boarders.

What Next?
Postmaster Manix received yesterday the following telegram dated at New York, June 20th:

"Please tell our shippers ship no more beans.
S. H. & E. H. Frost."
"Our shippers" will take notice thereof and govern themselves accordingly. Sometime since friend Manix received a letter instructing him to look up the absconded wife of a citizen in one of the lower counties and ship her to her liege lord. Now he is requested to tell our shippers not to ship, etc. One thing we can say: he is an obliging postmaster, but really it would seem to be putting too much on him, and imposing on good nature, but as it may not strike others that way, we say "what next?"

How They Were Received.
Chief Engineer Moore received a telegram from Mr. Martin Newman, of the Wilmington Steam Fire Engine Company, yesterday morning to this effect: "Were entertained by 'Eclipse,' and received by Wilmington Department, honorary members, and torchlight procession five blocks long. Big reception! Hurrah for New Berne!"

The interchange of friendly competitions and visits between the fire companies of the different cities has a beneficial effect in many ways; it begets a general interest in each other, and an interest in the Departments among citizens who would probably never think of them except in case of an alarm.

Our community has been completely enthused by the visit of the Goldsboro and Wilmington companies, and appreciate our own gallant boys more than ever.

This is no doubt the case with the citizens of Goldsboro and Wilmington also, and if it is not, we can say to them that they have each a fine department to be proud of and our citizens all say

STATE NEWS.

The New York State Convention.
There will be some disappointment in the fact that this Convention has appointed delegates to the National Convention and adjourned without expressing any preference for either Cleveland or Flibber. The contest seemed to be hot and earnest between the friends of these gentlemen in the selection of delegates to the State Convention and the counties were reported as for one or the other and we had begun to think that the chief business done would be to give form and force to the sentiment of the State thus ascertained, to the Chicago convention by either a strong recommendation or instructions to delegates.

We think the course adopted a wise one and promising to Democratic success in November. The delegates are divided as to these two sons of the State, and eleven out of seventy-two are in favor of taking some one outside of New York. Thus it would appear that New York does not claim to name the man, nor insist on the nomination of either of the two gentlemen so prominently before the public; while some at least think with many others that it is not absolutely necessary to nominate a man from that State to secure her electoral vote.

No candidate since the war has been taken by the Democrats from any State but New York and each has been defeated, so now it would look like a good idea to change the tactics and try a strong man outside of that great State. Mr. John Kelly goes up as a delegate and some how or other we have an idea that he may find a place as second on the ticket. How does that strike the public?

A Phenomenon.
A gentleman informs us that on the east side of Cape Fear river at Mr. Jim Carter's place, about seven miles from here, there are seven springs which bubble from mother earth within a radius of twenty feet. Of these springs four furnish water entirely different from the other, in taste and ingredients. This fact is truly a phenomenon.

We clip the above from the Fayetteville *Star*. The "Seven Springs," in Wayne county, near White Hall, are in a space of much less radius than twenty feet, and all differ in the qualities of the water. They are highly commended for their medicinal properties, and are becoming quite famous as a summer resort. It is said their worth was known and appreciated in the neighborhood many years ago, but have only been brought to public notice within a few years past. Mr. Carter would do well to have the water examined by a chemist and see if there is not something in it more than a phenomenon.

Convention Second District.
Who called the convention at Weldon? Mr. Peebles showed me a letter from A. J. Galloway, Esq., asking him to preside, that business called him elsewhere.

Who are the executive committee of the 2nd District?
Is it not usual to call the committee together when the chairman moves out of a district and let the committee elect another?
How is it when a chairman, county and all, are moved out of a district by re-districting the State?
The people of Lenoir, Craven, Jones and Greene would like to know.

Probably the committee elected Mr. A. J. Galloway again. Will some one answer.
WM. W. CARRAWAY,
of Lenoir County.

John Hughes.
The *Southerner* takes great pleasure this week in rising to second the nomination of Maj. John Hughes, of Craven, for Lieutenant Governor.

Of commanding presence, cultured, an orator of no ordinary reputation, high toned and courtly, John Hughes is a typical Southern gentleman.

In war and in peace, he has ever been an honor to the State.
He is an especial favorite with the Democracy of Edgecombe. When the heroic struggle was made for the present system of county government, John Hughes was in the fore-front of the battle and never faltered.

Of modest demeanor, he has never resorted to those tricks, so common with some politicians, for pushing self to the front.

There is no man in North Carolina better suited for the office of Lieutenant Governor than John Hughes, of Craven. He is available, able, clean, strong, a North Carolinian in every fibre of his nature.

So without recounting further his many sterling qualities, Edgecombe would rejoice to see John Hughes, brave and true, a standard bearer of the Democracy in the contest now on hand.
—*Tarboro Southerner*.

If you, who delight in a soothing pipe, ask why Blackwell's Durham Long Cut is the most exquisite smoking tobacco in the world? the reply must be—there is art in preserving what nature bestows. The large capital of Blackwell & Co. privileges them to gather the cream of the leaf grown on the Golden Belt, and their immense storage facilities enables them to carry their choice tobacco as it becomes a pipe and fresh

STATE NEWS.

Gleaned from our Exchanges.

Elizabeth City Falcon: Prof. Sheep, principal of the E. City State Normal School, is arranging an interesting series of lectures to be delivered during the session of that school.—A series of revival meetings have been held in the Baptist church here nightly for sometime past. They were quite successful and Rev. Mr. Baker, the pastor, was to have admitted about 25 persons into the communion of the church by administering the rite of baptism in Pasquotank river yesterday. The disagreeable weather caused a postponement.

Elizabeth City Economist: Corn 70 cents a bushel with upward tendency.—We suppose there will be no Agricultural Fair this fall. That means on the down grade.—Clams are plentiful in our market at 30 cents a hundred. They are extra-excellent eating and digestible if you have the stomach of an ostrich.—The committee in charge of the Albemarle Exhibit to the State Exposition met in the court house on Tuesday with a full attendance.—At the normal school Prof. Rayhill, of Illinois, the elocutionist, will teach elocution, W. M. Hinton, of South Mills, will teach penmanship and Maj. Bingham will lecture.

Waynesville News: The first sleeping car ever on the Ducktown line was brought over yesterday.—It is said to be more than likely that double daily passenger trains will be put on the Western North Carolina Railroad about July 1st.

—Yesterday long before the arrival of the trains which were densely crowded with their human freight, a throng of anxious spectators gathered around the depot to await and welcome the Chataqua; and expectations which were much excited as to the probable number which would be in attendance were not abated in the least when it was seen that between 225 and 250 had come in a single day to pay our little city a visit.

Durham Tobacco Plant: We were glad to meet in town Sunday Kenneth Styron, of New Berne, on a visit to relatives. He is agent at that point for an important line of steamers and has taken high rank as a business man.—Miss Ida Christmas, who resigned a position in the Durham Graded School to accept a better one in the New Berne school, is spending vacation in Durham. Miss Ida is a most excellent teacher, and deserves much credit for the high rank she had taken.—Prof. Price Thomas, principal of the New Berne Graded School, is in town on a visit to former friends. Prof. Thomas taught one year in the Durham Graded School, and made many warm friends. He is thoroughly qualified as a teacher, and has a brilliant future before him.

—Capt. W. K. Styron, who has been merchandising in Durham since 1867, was the first man in North Carolina that lost property by the Federal army. When war was declared he was merchandising at Fort Hatteras. This point was captured by the Federal troops and his store was the first to be burned. Capt. Styron at once entered the Confederate service and was at his post till the close of the war.

Home for Confederate Soldiers.
Four bags of corn from Fort Scott, Kansas, having been sent here to be sold for the benefit of the "Confederate Soldiers' Home," the undersigned committee have taken charge of the same and propose to accept by mail sealed bids until July 15, 1884, at which time they will be opened, the highest bidder to take one sack and the next the second sack, etc. Bids should be sent by mail to W. R. Murray, of Greensboro, N. C., chairman of committee. The first bag of the same lot of corn sold in Richmond for \$113, and five in Baltimore for \$167, we hope that some of our generous and wealthy citizens will respond liberally in a cause so worthy of their liberality. The highest bidders will be notified by the committee and leading papers of the State will be requested to publish the result. W. R. Murray, J. W. Scott, Judge Jno. H. Dillard, Judge Jno. A. Gilmer, William U. Stiner, Col. J. T. Morehead, Dr. Jno. E. Logan, G. H. Gregory, committee.—*Cor. News and Observer*.

Ice Cream and Soddy Cakes.
M. Shepard will be at your door this evening with his delicious Ice Cream and Soddy Cakes. Try them and you will be pleased. ma23 dlm

Call at Sarah Oxley's Ice Cream parlors, on Broad street, for a pure article of Ice Cream. ma22tf.

The need of merit for promoting personal aesthetics is due to J. C. Ayer & Co., whose incomparable Hair Vigor is a universal beautifier of the hair. Hairless, ineffective agreeable, it has taken rank among the indispensable articles of the toilet. To scabby locks it gives luxuriance, and withered hair it restores to its natural beauty.

NEWS FROM THE OLD WORLD.

LONDON, June 17.—Another outbreak of Socialism is imminent at Vienna. In consequence of the murders of Herr Eisert, Inspector Klubeck and Detective Block last year, hundreds of suspected conspirators were arrested, and many of them were released only after they had been escorted to the frontier and left there, with an injunction never to return to Austrian soil. Most of these exiles have gradually returned, however, and have become more and more bold in showing themselves, although aware that they were known to the authorities. A few days ago the chief of the imperial secret police issued an order that every one of these returned suspects should be arrested. A wholesale raid resulted, and scores of men and women were captured in Vienna and elsewhere. The prisoners were not taken before the magistrates in the localities where they were arrested, but were conveyed under guard to various remote portions of the empire, and the fate of some of them is a matter of mysterious conjecture. These proceedings have caused much excitement at Vienna, and the Socialists there are openly menacing the government with sanguinary reprisals.

Several Russian papers just received here contain editorial references to the nomination by the Republican party of Mr. Blaine. The writers seem to consider the election of Mr. Blaine almost a certainty, and express lively satisfaction with that prospect. Their theory seems to be that a Blaine administration in the States means trouble ahead for England, and the Anglophobic animus of their comments is without attempt at concealment.

CAIRO, June 17.—The Twenty-sixth Royal Engineers have been ordered to Suakim, and will construct a jetty at that port to facilitate the landing of material for a railway which is to be built five miles inland. Workmen have been sent from London to construct the road.

El Mahdi has appointed the present Governor of Dongola, Aufer of that place. The Mahdi expects him to join his standard if he hopes for salvation, and advises that he hold Dongola for him if he is able to do so, otherwise to join him at El Obeid.

PARIS, June 17.—The *Republique Francaise* declares that France will not consent to a reduction of the interest on the Egyptian debt. The *Journal des Debats* says that no political concession by England will induce France to renounce her right to insure respect for a contract which was concluded with a moral guarantee of the powers.

LONDON, June 17.—England and France agreed yesterday upon a verbal form of settlement of the preliminary meeting of the Egyptian conference.

The Caisse de la Dette Publique, which is to be the foundation of the multiple control over Egypt, and which is to cease to be a mere bank and is to have new and extended authority, will be composed of six members—two English, two French, one Austrian, and one Italian. Germany and Russia will demand membership on the ground of the extension of the functions of the caisse. The financial houses of London and Paris chiefly concerned in the Egyptian debt deny that a reduction of interest, either privileged or unified, has been proposed. France offers to guarantee a new loan with England.

The Confederate Monument.
The ladies of the New Berne Memorial Association earnestly desire to complete the monument already begun to the memory of our honored Confederate soldiers. They will need for this purpose \$450 and they feel assured that it will only be necessary to let this fact be known, to meet with a generous and ready response from every citizen of Craven county whose heart beats in sympathy with theirs in their work. Any contribution, however small, will be thankfully received and properly used. A box will be placed at the store of Mr. Alex. Miller, who is the authorized agent to receive any money for the purpose; or it may be given to any one of the officers of the Association whose names are here subscribed:
Mrs. E. B. DAVES, President.
" L. C. VASS, Vice-President.
" GEORGE ALLEN, Treasurer.
" C. W. McLEAN, Secretary.
may21tf

For constitutional or scrofulous catarrh, and for consumption induced by the scrofulous taint, Ayer's Sarsaparilla is the true remedy. It has cured numerous cases. It will stop the nauseous catarrhal discharges, and remove the sickening odor of the breath, which are indications of scrofulous origin.
